New Secretary for Social Services

Mrs. Barbara Castle has been appointed Secretary of State for Social Services in the new Government. Mrs. Castle, born in 1911,

Universal Pictorial

was educated at Bradford Girls' Grammar School and at Oxford University. She has been a Member of Parliament for Blackburn, or Blackburn East, since 1945 and from then until 1951 she was P.P.S. to the president of the Board of Trade. A past vice-chairman (1957-8) and chairman (1958-9) of the Labour Party, her ministerial appointments have included Overseas Development, 1964-5, and Transport, 1966-8. From then until 1970 she was the First Secretary of State and Secretary of State for Employment and Productivity. In Opposition she has been spokesman on Employment, 1970-January 1972, and on Health and Social Security, January 1972-January 1973, and a member of the Shadow Cabinet from 1970-December 1971 and from May-November 1972.

Chair in Clinical Oncology

The second chair in clinical oncology, endowed by the Cancer Research Campaign, is to be at the University of Glasgow in the Western Infirmary. The new department will consist of a professor and supporting staff for which the Campaign is providing about £500,000, in addition to an annual research grant.

The first chair in clinical oncology in the Campaign's programme of founding five such departments in the next 10 years was established last year at Manchester (see *B.M.J.*, 3 March 1973, p. 561).

J. Sainsbury Research Fellowships

The Royal Society has received £80,000 from the J. Sainsbury Centenary Grant for the support of two research fellowships in human nutrition. The appointments will be for up to five years from 1 October 1974, and will be tenable in any university department or research institution, subject to the approval of the council of the Royal Society.

The J. Sainsbury Centenary Grant was inaugurated in 1969 and since then over £125,000 has been given to support research at five Food Science Technology Departments in the United Kingdom.

Phenacetin

On the advice of the Committee of Safety of Medicines the Department of Health and Social Security is to restrict the sale of phenacetin-containing compounds to pharmacies only from 1 June. It is also proposed that from 1 January 1975 phenacetin should be available only on doctors' or dentists' prescription.

People in the News

Dr. Desmond A. A. Parker, officer in charge and medical officer, Davis Station, Antarctic, 1969, has been awarded the Polar Medal.

Corrections

Jaundice after Halothane

We regret that a printing error occurred in the fourth line of the third paragraph of the letter from Dr. Fiona Acheson and others (2 March, p. 388). The third word should have read "causal" and not "casual" as printed.

Notice to Authors

When original articles and letters for publication are not submitted exclusively to the *British Medical Journal* this must be stated. Accepted articles may subsequently be selected for publication in the North American monthly edition.

Correspondence on editorial business should be addressed to the Editor, *British Medical Journal*, B.M.A. House, Tavistock Square, London WC1H 9JR. Telephone: 01-387 4499. Telegrams: *Atiology, London, W.C.1.*

Authors wanting reprints of their articles should notify the Publishing Manager, B.M.A. House, Tavistock Square, WC1H 9JR, on receipt of proofs.
