

ASSOCIATION INTELLIGENCE.

NOTICE OF EXTRAORDINARY GENERAL MEETING.

NOTICE is hereby given, that an Extraordinary General Meeting will be held at Exeter Hall, London, on Friday, the 17th instant, at two o'clock in the afternoon, at which special resolutions, adopted by an extraordinary general meeting, held in Liverpool, on Thursday August 2nd, will be proposed for confirmation.

FRANCIS FOWKE, *General Secretary.*

August 2nd, 1883.

The following are the special resolutions passed at Liverpool:—

"That Articles 2, 9, 13, 15, 16, and 26, be altered by striking out the words 'Committee of' in the places where those words occur."

"That Article 7 be struck out, and the following Article be substituted therefor."

"7. Any member whose subscriptions shall not have been paid on or before the 31st of December of the current year shall, without prejudice to his liability to the Association, be suspended from all privileges of membership; and at the end of the succeeding year, if the arrears be still unpaid, he shall cease to be a member, and shall be ineligible for re-admission until he shall have paid all arrears due at the period of his suspension. No member shall (except in case of his death or expulsion, or his ceasing to be a member under the previous provisions of this article) cease to be a member without having given previous notice in writing of his intention in that behalf on or before the 1st day of December in the current year to the Secretary hereinafter mentioned, and paid all arrears of subscriptions (if any) due from him."

"That Article 11 be struck out, and the following Article substituted therefor."

"11. Subsequent general meetings shall be held once in every year, commencing with the year 1875, at such time as shall be fixed by the Council, and at such place as may be prescribed by the Association in general meeting; and if no time is so fixed, a general meeting shall be held on the 20th day of August in every year, commencing as aforesaid, and shall, if no place is so prescribed, be held at such place as may be determined by the Council."

"That Article 17 be altered by striking out the words 'and the Committee of Council.'"

"That the words 'and Committee of Council' in the heading before Article 25 be struck out."

"That Article 25 be struck out, and the following article substituted therefor."

"25. The business of the Association shall be managed by the Council; and the constitution, duties, powers, and mode of procedure of the Council shall be determined on from time to time by the Association in general meeting."

"That Article 28 be struck out, and the following Article substituted therefor."

"28. There shall be the following officers of the Association, viz., a President of the Association, a President-elect, Vice-Presidents, a President of the Council, a Treasurer, an Editor of the JOURNAL, and a Secretary. The officers (other than the Editor of the JOURNAL and the Secretary) shall respectively be designated or elected, and hold office for such period, and have and enjoy such duties, powers, and privileges, as shall be determined from time to time by the Association in general meeting. The Editor of the JOURNAL and Secretary shall respectively be designated or elected, and hold office for such period, and have and enjoy such duties, powers and privileges, and receive such emoluments, as shall be determined from time to time by the Council."

"That Article 30 be amended by adding the following words after the word *abode*, 'or by publication of such notice in the JOURNAL, and forwarding a copy of the JOURNAL containing such notice to such member prepaid and addressed as above mentioned.'"

"That Article 31 be altered by adding the words 'or a copy of the JOURNAL in the second and fifth lines of that Article after the word 'letter.'"

COLLECTIVE INVESTIGATION OF DISEASE.

CARDS and explanatory memoranda for the inquiries concerning Acute Pneumonia, Chorea, and Acute Rheumatism, can be had by application to the Honorary Secretaries of the Local Committees appointed by the Branches, or to the Secretary of the Collective Investigation Committee. Of these diseases, each member of the Association is earnestly requested to record at least *one ordinary case* coming under observation during the year.

Inquiries concerning Diphtheria and Syphilis have been prepared, and can be had on application by those willing to contribute information on these subjects. There are two cards on Diphtheria, one containing clinical, the other etiological inquiries, together with an explanatory memorandum. One of these cards is intended to serve as a guide to the systematic examination of a house or district for sanitary purposes. There are also two sets of inquiries concerning Syphilis, one for acquired, the other for inherited, disease. These are accompanied by an explanatory memorandum giving information concerning the most recently observed symptoms of the inherited disease.

All these inquiries will be continued during the present year.

Applications, etc., to be addressed

The Secretary of the Collective Investigation Committee,
161A, Strand, W.C.

BRANCH MEETINGS TO BE HELD.

SOUTH-EASTERN BRANCH: EAST SUSSEX DISTRICT.—The next meeting of the above District will be held at Hayward's Heath, on Wednesday, September 19th. Dr. Newth will preside. The chairman proposes to invite a discussion on "The Relation between Consulting Physicians and General Practitioners, with special reference to seeing Patients, Payment of Fees, and Abuse of Prescriptions." Any member desirous of reading a paper should communicate with the Honorary Secretary.—T. JENNER VERRALL, 55, Western Road, Brighton.—August 1st, 1883

CORRESPONDENCE.

THE ACCIDENT AT CONWAY.

SIR,—It has been reported that the sum of £40 was received from the members of the Association who visited Conway on Saturday last, in aid of the poor men who were injured on that occasion; but this report is incorrect, as the sum collected amounted to only £17 19s. 6d.—a sum, although sufficient to meet their immediate necessities, quite inadequate to provide for their future wants. As their injuries, although the result of their own want of care and judgment, were received when engaged in a proceeding intended to do honour to the Association, the wretched subjects of the mishap have a claim upon our members for help.

I would, therefore, suggest that an appeal on their behalf be made in the columns of the JOURNAL; and I hope, sir, that you will consent to act as treasurer to the fund, towards which I have pleasure in sending a guinea herewith.

I have just received a letter from a friend at Conway, in which the writer states that the sufferers are doing fairly well, although there is much reason to fear that both have lost their sight, and will be permanently incapacitated from earning their livelihood.—Yours faithfully,

GEORGE BROWN.

2, Gibson Square, Islington, N., August 8th, 1883.

THE SECTIONAL MEETINGS: A GRIEVANCE.

SIR,—Kindly allow me to call attention to a grievance to which many gentlemen besides myself have been subjected.

When one has, on special invitation, spent much time in collecting material for a paper, and has written and rewritten that paper many times in the endeavour to condense, so as not to trespass unduly on the time of the meeting, the arrangement which will allow that paper to be announced for reading at the first sectional meeting, to be crowded out and announced for the next day, to be again crowded out and announced for the final meeting on Friday morning, only to be ultimately crowded out again, must be faulty indeed.

If the subject be not considered of such importance or general interest as others, or if the writer be not of sufficiently recognised standing compared with other gentlemen, surely the kinder thing to him would be, instead of keeping him constantly hanging about one section, to arrange for the reading of his paper towards the end, after others of greater importance, or from writers of more acknowledged standing, have had their due attention. By this means, instead of the meeting becoming a burden to him, he would be able to devote the early part of the time to his profit in other sections, not to mention the various amusements which are provided for the members; and, should his paper ultimately be crowded out, he would probably not complain.

It appears to me that two rules ought to be observed in conducting the proceedings of the sections. Firstly, when the list of papers to be read in any section is complete, let the officers of that section arrange the order in which they are to be read, bearing in mind, first, the grouping of subjects; and, secondly, the interest of the subject of each paper, and the claims of its author to attention, putting the more important papers first; and that having been done, let them be read in the order so laid down. But, above all things, when at any given sectional meeting time is not sufficient to get through all the papers announced for that meeting, let the next begin where the last left off, and deal first with the papers omitted from the last meeting.

And, secondly, let the ten minutes' rule for speakers—and, where there is a profusion of papers or speakers, a five minutes' rule—be rigidly enforced, save by special consent of the section; and do not let a speaker wander from the subject, and occupy the time of the meeting with irrelevant matter, only to be called to order after twenty-three minutes, as took place this year in the Public Medicine Section.

distinguished services of Dr. Parkes and Sir Ranald Martin, with both of whom he had been on terms of intimate friendship, and to perpetuate whose memories the medals bearing their names had been founded. He said he could not imagine two nobler patterns of life to set before the young surgeons for imitation than the lives and careers of those eminent members of the medical profession in the two branches of the military service, the British and the Indian, to which Dr. Parkes and Sir Ranald Martin had respectively belonged. We cannot reproduce the whole of Sir Galbraith Logan's address, which extended over a wide range, and was listened to with marked attention; but one fact that he mentioned, in the course of his remarks, has not, so far as we are aware, been hitherto brought to notice in the manner which it seems to deserve, and we therefore repeat it. In speaking of the excellent manner in which the medical service was conducted during the recent campaign in Egypt, as shown by the professional results, and when particularly alluding to the changes that had taken place in the manner of treating Egyptian ophthalmia, Sir Galbraith stated that while, as now well known, not a single case of blindness had resulted from the late campaign, on the other hand, in the earlier campaign under Sir Ralph Abercrombie, not only was an enormous expense entailed on the State in pensioning the very large number of soldiers who became deprived of sight from the disease, but, beyond that, the ophthalmia acquired such an obstinate character, and proved so infectious among the men who escaped from the extreme result of blindness, that, as regarded some of the regiments which served in that war, the disease was not eradicated from them for five and twenty years afterwards. Thus a great additional cost was entailed, both in the disability for service and necessary hospital treatment which the persistence of the disease led to, as well as the invaliding and discharge from the army, which its consequences, in numerous instances, rendered unavoidable.

After the proceedings in the lecture-hall were concluded, the company was entertained at luncheon by the officers of the Army Medical Staff, in their spacious messroom.

MEDICAL NEWS.

ROYAL COLLEGE OF PHYSICIANS OF LONDON. July 26th, 1883.

—Admitted Members:

Coxwell, Charles Fillingham, M.B.Camb., London Hospital, E.
Fox, Thomas Colcott, M.B.Lond., 14, Harley Street, W.
Griffith, Walter Spencer Anderson, L.R.C.P., 66, Guildford Street, W.C.
Jenkins, Edward Johnstone, M.B.Oxon., St. Bartholomew's Hospital, E.C.
Kilner, Walter John, M.B.Camb., 104, Ladbroke Grove Road, W.
Krauss, Adolph, M.D.Munich, German Hospital, Dalston, E.
Nias, Joseph Baldwin, M.B.Oxon., 56, Montagu Square, W.
Paget, William Smith, M.D.Lond., Great Crosby, Liverpool.
Syers, Henry Walter, M.D.Camb., Pokesdown, Bournemouth.

Admitted Fellow:

Osler, William, M.D.McGill, Montreal.

Admitted Licentiates:

Audland, William Edward, 22, Merrick Square, S.E.
Barefoot, John Richard, 121, Chesterton Road, W.
Barron, Hunter Jackson, M.B.Edin., 10, Endsleigh Street, W.C.
Bassett-Smith, Percy William, 62, Alexandra Road, N.W.
Beales, Thomas William Lewis, 190, Holland Road, W.
Blagg, Arthur Frederick, Infirmary, Rochdale.
Cardozo, Samuel Nunez, 68, Guildford Street, W.C.
Carlyon, Edward Tresidder, 12, River Street, E.C.
Cleaver, William Fidler, M.D.Kingston, 18, Easy Row, Birmingham.
Collins, Edward Treacher, 1, Albert Terrace, N.W.
Collins, Octavius Augustus Glasier, St. Bartholomew's Hospital, E.C.
D'Aguar, João Gomes, 18, Edward Street, N.W.
Dalton, Arthur John, 2, Roslin Villas, South Norwood, S.E.
Davies, A. Clunegas, Portlaine, Lampeter.
Dowson, John, Guy's Hospital, S.E.
Edwards, Arthur Rea, King's College Hospital, W.C.
Embleton, Dennis Cawood, 25, Park Crescent, N.W.
Gandevia, Naoraji Baranji, 3, Whitehall Gardens, S.W.
Gardner, Thomas Frederick, University Hospital, W.C.
Green, Charles David, 73, Shaddeles Road, S.E.
Gunn, Donald Stilwell, 51, Park Village East, N.W.
Hodges, Herbert Chamney, Watton, Hertford.
Howard, Heaton Clark, 102, Lansdowne Road, S.W.
Hubbard, Arthur John, 1, Ladbroke Terrace, W.
Jennings, Robert, Haslingden, Manchester.
Johnston, George David, St. Thomas's Hospital, S.E.
Knill, Edwin Gilmore, 55, Torrington Square, W.C.
Latham, John Simpson, M.D.McGill, 2, Cornwall Road, Stroud Green, N.
Littlewood, John Oseroff, Guy's Hospital, S.E.
Llewellyn, David William Henry, St. Thomas's Hospital, S.E.
Mason, Arthur Henry, 15, Granby Street, N.W.
Maughan, James, 111, Bedford Street, Liverpool.
Payne, Frank Cobham, Plaistow, E.
Pinching, Horace Henderson, 14, Milner Street, S.W.

Polson, James Ronald, Stoke New, Bromsgrove.
Pomfret, Henry Waytes, Hollingworth, Manchester.
Roberts, Arthur Henry, Greenhill Road, N.W.
Robinson, Clement Sumner, St. George's Hospital S.W.
Rogers, Frederick Arthur, Grange Road, Ealing, W.
Salter, Stephen Thomas, 28, Woburn Place, W.C.
Schofield, Alfred Taylor, 28, Cambridge Gardens, W.
Shone, William Vernon, 15, Granby Street, N.W.
Square, James Elliot, 22, Eastbourne Terrace, W.
Stroyan, Frederick, 8, Milman Street, W.C.
Tresidder, Harry Innis, Dulwich, S.E.
Waldy, John, 62, Stafford Place, S.W.
Walker, Charles Rotherham, Gainsborough House, Leytonstone, E.
Walker, John William, 9, Liddington Place, N.W.
Walsh, John Henry Tull, Cancer Hospital, Brompton, S.W.
Ward, Anthony Arthur, 33, Walpole Street, W.
Williams, John Worthy, 58, Acre Lane, S.W.
Wilson, Alexander, Royal Infirmary, Manchester.
Withers, Oliver, New Basford, Nottingham.
Wood, Edward Archer, 17, St. Mary's Square, W.
Wright, Gaskoin Richard Morden, 128, Walworth Road, S.E.

ROYAL COLLEGE OF SURGEONS OF ENGLAND.—The following gentlemen, having undergone the necessary examinations for the diploma, were admitted members of the College at a meeting of the Court of Examiners on July 18th. [This list has been accidentally omitted.]

Messrs. Arthur Overton, Horncastle, and W. O. Travis, Liverpool, of the Liverpool School of Medicine; A. M. Jackson, Great Grimsby, and A. G. Southcombe, Bath, of St. Bartholomew's Hospital; W. A. Gostling, Diss, of University College; G. F. Stericker, Pickering, of the Leeds School of Medicine; R. D. Pedley, Stockwell, of St. Thomas's Hospital.

Six candidates who passed in Surgery at previous meetings of the Court, having subsequently obtained medical qualifications, were admitted Members, viz.:

Messrs. J. W. Papillon, L.S.A., Reading, L. A. Morgan, M.B.Durh., Myddelton Square, J. E. Dunn, L.R.C.P.Ed., Preston, and J. L. W. Kitching, L.S.A., Derby, of St. Thomas's Hospital; A. H. Gordon, L.R.C.P.Ed., Belsize Park, of King's College; A. H. Roberts, L.R.C.P.L., Hampstead, of St. Bartholomew's Hospital.

One candidate, who had previously qualified in Surgery and Midwifery, having passed in Medicine, was admitted a Member, viz.:

Mr. A. E. Foster, Bradford, of the Leeds School of Medicine.

Seven candidates passed in Surgery, and, when qualified in Medicine and Midwifery, will be admitted members. Five candidates were referred to their professional studies for six months, four for three months, and one candidate for twelve months.

The following gentlemen, having undergone the necessary examinations for the diploma, were admitted members of the College at a meeting of the Court of Examiners on the 26th ultimo, viz.:

Messrs. J. J. Faraker, L.S.A., Cheshunt, and A. L. Tiremans, L.S.A., Howden, Yorkshire, students of Guy's Hospital; S. N. R. P. Griffin, L.S.A., Padstow, Cornwall, of St. Mary's Hospital; F. J. Stevens, L.S.A., King Street, Kensington, of St. Bartholomew's Hospital; C. T. Street, Barnetby, Lincolnshire, of St. George's Hospital; S. S. Merrifield, L.S.A., Plymouth, of King's College; William Dudley, L.S.A., Kidderminster, of the Birmingham School of Medicine; and W. V. Shone, L.R.C.P.Lond., Great Marlow, of University College.

Four gentlemen passed in Surgery, and, when qualified in Medicine, will be admitted Members of the College. Nine candidates, having failed to acquit themselves to the satisfaction of the Court of Examiners, were referred to their professional studies for six months, three for three months, and two for nine months.

The following gentlemen passed on the 27th ultimo, viz.:

Messrs. W. J. Parkinson, Bradford, Yorkshire, W. H. Brenton, L.S.A., Plymouth, and J. S. Jago, L.S.A., Torpoint, Cornwall, of Guy's Hospital; S. S. Short, L.S.A., Edgbaston, James Hodges, L.S.A., Hanley-on-Thames, and W. F. Lace, L.S.A., Pill, near Bristol, of King's College; A. W. Ogle, L.S.A., Sevenoaks, and J. G. D'Aguar, L.S.A., British Guiana, of the Middlesex Hospital; N. S. Wood, Knightsbridge, of St. George's Hospital; H. R. Spencer, L.S.A., Atherstone, Warwickshire, and D. S. Gunn, L.R.C.P.L., Park Village East, N.W., of University College.

Three gentlemen passed in Surgery, and, when qualified in Medicine, will be admitted members of the College. Nine candidates were referred for six months, one for three months, one for nine months, and one for twelve months.

The following gentlemen passed on the 30th ultimo, viz.:

Messrs. E. H. Myddelton-Gavey, L.S.A., Hildrop Crescent, N., of St. Bartholomew's Hospital; E. H. Tension, L.S.A., Uxbridge Road, of University College.

Nine candidates were referred.

UNIVERSITY OF DUBLIN.—*Summer Commencements, 1883.*—On day and Saturday, June 29th and 30th, the following were among the degrees conferred in the presence of the Senate in the Examination Hall of Trinity College by the University "Caput," consisting of the Right Hon. J. T. Ball, LL.D., Vice-Chancellor, the Very Rev. the Provost of Trinity College, and the Rev. J. W. Barlow, M.A., Senior Master *non-regent*:

Bachelors in Surgery.—Edmund F. Beveridge, Monckton O'Dell Braddell, George Cowen, Cecil A. Digby, Francis J. Drury, Frederick C. Dwyer, Charles J. Fagan, Charles W. Hamilton, Thomas W. Haughton, Hugh F. Oldham, Charles T. Poland, John H. Scott, Henry N. Thompson, Almoth E. Wright.

Bachelors in Medicine.—Edmund F. Beveridge, Henry E. Blandford, Charles H. Blood, Monckton O'D. Braddell, John J. Cochran, George Cowen, Cecil A. Digby, George M. Dobson, Francis J. Drury, Frederick C. Dwyer, Charles J. Fagan, William W. Fenton, Thomas W. Haughton, Henry M'Quade, Hugh F. Oldham, Charles T. Poland, John H. Scott, Robert E. Sproule, Henry N. Thompson, Almoth E. Wright, Frederick J. Driver (*Cantab. ad eundem gradum*).

Masters in Surgery.—Isidore M'W. Bourke, Ephraim Mac Dowell Cosgrave (*stip. cond.*), James Gloster.

Doctors in Medicine.—Isidore M'W. Bourke, Robert N. Denning, Frederick J. Driver, Edward Fawcett, John R. Kirkpatrick, Samuel R. Mason, Travers R. M. Smith, Montgomery A. Ward, Bertram C. A. Windle.

Licentiate in Medicine.—Green J. Sullivan.

The Honorary Degree of Magister in Arte Obstetriciâ was conferred on Dr. George Hugh Kidd.

APOTHECARIES' HALL.—The following gentlemen passed their Examination in the Science and Practice of Medicine, and received certificates to practise, on Thursday, August 2nd, 1883.

Beard, Thomas, Bath Street, Birmingham.
Hardy, Walter Mitchell, Buttershaw, Bradford.
Hendley, Harold, West London Hospital.
Ley, Herbert, Westbourne Terrace, W.
Miller, Thomas Hugh, Woburn, Bedfordshire.
Pring, Arthur, Barnes, S.W.
Pullin, Bingley Gibbes, Holford Square, W.C.
Ray, Dwarka Nath, Bengal.
Stace, Arthur Frank, Bayswater, W.
Steedman, John Francis, St. Bartholomew's Hospital.

The following gentleman also on the same day passed the Primary Professional Examination.

Burns, Alfred Hugh, St. Thomas's Hospital.
Kelson, William Henry, St. Thomas's Road, S.E.
Cropley, Alfred, London Hospital.

MEDICAL VACANCIES.

The following vacancies are announced:

ABERDEEN ROYAL INFIRMARY.—Superintendent. Salary, £250 per annum. Applications by August 14th.

BARNWOOD HOUSE, Gloucester.—Assistant Medical Officer. Salary, £100 per annum. Applications to Dr. Needham, Medical Superintendent.

CANE HILL ASYLUM, Surrey.—Senior Assistant Medical Officer. Salary, £150 per annum. Applications by August 18th.

CANE HILL ASYLUM, Surrey.—Junior Assistant Medical Officer. Salary, £100 per annum. Applications by August 18th.

CHESTER GENERAL INFIRMARY.—House Surgeon. Salary, £80 per annum. Applications by August 27th.

CLINICAL HOSPITAL FOR WOMEN AND CHILDREN, Park Place, Manchester.—House-Surgeon. Salary, £80 per annum. Applications to Mr. Edwin W. Marshall, secretary, 38, Barton Arcade, Manchester, by August 28th.

DENTAL HOSPITAL OF LONDON, Leicester Square.—Lecturer on Dental Anatomy and Physiology. Applications by October 1st.

GENERAL HOSPITAL FOR SICK CHILDREN, Pendlebury, Manchester.—Junior Resident Medical Officer. Salary, £80 per annum. Applications by August 18th.

GENERAL INFIRMARY at Gloucester and GLOUCESTERSHIRE EYE INSTITUTION.—House-Surgeon. Salary, £100 per annum. Applications by September 1st.

GLOUCESTER COUNTY ASYLUM.—Assistant Medical Officer. Salary, £100 per annum. Applications by August 20th.

GREAT NORTHERN HOSPITAL, Caledonian Road, N.—Junior Resident Medical Officer.—No salary. Applications to the Honorary Secretary, Medical Committee of the Great Northern Hospital, 23, Upper Berkeley Street, Portman Square, W., by August 20th.

HOURS OF ATTENDANCE AT THE LONDON HOSPITALS.

| | |
|----------------------------|--|
| CHARING CROSS. | Medical and Surgical, daily, 1; Obstetric, Tu. F., 1.30; Skin, M. Th.; Dental, M. W. F., 9.30. |
| GUY'S. | Medical and Surgical, daily, exc. Tu., 1.30; Obstetric, M. W. F., 1.30; Eye, M. W., 1.30; Tu. F., 12.30; Ear, Tu. F., 12.30; Skin, Tu., 12.30; Dental, Tu. F., 12. |
| KING'S COLLEGE. | Medical, daily, 2; Surgical, daily, 1.30; Obstetric, Tu. Th. S. 2; o.p., M. W. F., 12.30; Eye, M. Th. 1; Ophthalmic Department, W. 1; Ear, Th. 2; Skin, Th.; Throat, Th., 3; Dental, Tu. F., 10. |
| LONDON. | Medical, daily, exc. S., 2; Surgical, daily, 1.30 and 2; Obstetric, M. Th., 1.30; o.p., W. S., 1.30; Eye, W. S., 9; Ear, S., 9.30; Skin, Th., 9; Dental, Tu., 9. |
| MIDDLESEX. | Medical and Surgical, daily, 1; Obstetric, Tu. F., 1.30; o.p., W. S., 1.30; Eye, W. S., 8.30; Ear, and Throat, Tu., 9; Skin, F., 4; Dental, daily, 9. |
| ST. BARTHOLOMEW'S. | Medical and Surgical, daily, 1.30; Obstetric, Tu. Th. S., 2; o.p., W. S., 9; Eye, Tu. W. Th. S., 2; Ear, M., 2.30; Skin, F., 1.30; Larynx, W., 1.30; Orthopaedic, F., 12.30; Dental, Tu. F., 9. |
| ST. GEORGE'S. | Medical and Surgical, M. Tu. F. S., 1; Obstetric, Tu. S., 1; o.p., Th., 2; Eye, W. S., 2; Ear, Tu., 2; Skin, Th., 1; Throat, M., 2; Orthopaedic, W., 2; Dental, Tu. S., 9; Th., 1. |
| ST. MARY'S. | Medical and Surgical, daily, 1.45; Obstetric, Tu. F., 9.30; o.p., Tu. F., 2; Eye, Tu. F., 9.15; Ear, M. Th., 2; Skin, Tu. Th., 1.30; Throat, M. Th., 1.45; Dental, W. S., 9.30. |
| ST. THOMAS'S. | Medical and Surgical, daily, except Sat., 2; Obstetric, M. Th., 2; o.p., W. F., 12.30; Eye, M. Th., 2; o.p., daily, except Sat., 1.30; Ear, Tu., 12.30; Skin, Th., 12.30; Throat, Tu., 12.30; Children, S., 12.30; Dental, Tu. F., 10. |
| UNIVERSITY COLLEGE. | Medical and Surgical, daily, 1 to 2; Obstetric, M. Tu. Th. F., 1.30; Eye, M. Tu. Th. F., 2; Ear, S., 1.30; Skin, W., 1.45; S., 9.15; Throat, Th., 2.30; Dental, W., 10.30. |
| WESTMINSTER. | Medical and Surgical, daily, 1.30; Obstetric, Tu. F., 3; Eye, M. Th., 2.30; Ear, Tu. F., 9; Skin, Th., 1; Dental, W. S., 9.15. |

LETTERS, NOTES, AND ANSWERS TO CORRESPONDENTS.

COMMUNICATIONS respecting editorial matters should be addressed to the Editor, 161A, Strand, W.C., London; those concerning business matters, non-delivery of the JOURNAL, etc., should be addressed to the Manager, at the Office, 161A, Strand, W.C., London.

AUTHORS desiring reprints of their articles published in the BRITISH MEDICAL JOURNAL, are requested to communicate beforehand with the Manager, 161A, Strand, W.C.

CORRESPONDENTS who wish notice to be taken of their communications, should authenticate them with their names—of course not necessarily for publication.

PUBLIC HEALTH DEPARTMENT.—We shall be much obliged to Medical Officers of Health if they will, on forwarding their Annual and other Reports, favour us with Duplicate Copies.

CORRESPONDENTS not answered, are requested to look to the Notices to Correspondents of the following week.

WE CANNOT UNDERTAKE TO RETURN MANUSCRIPTS NOT USED.

MEDICAL ETIQUETTE.

C. G. writes: "When a medical man (a stranger in a district) commences practice, is it the rule for him to call upon the resident practitioner, or for them to call first?"

* * As the question is continually cropping up, so to speak, we think it best, in the interest of our younger brethren, not to limit our reply to a brief "Yes" or "No," but to quote *in extenso* (with the permission of the author) the following rules on the subject from the *Code of Medical Ethics* published by Messrs. Churchill. *Medical Etiquette, or the Rule of the Profession on Commencing Practice*, etc.—1. In the absence of any published rule, or collegiate instruction, on such and kindred matters, it is not to be wondered at that young practitioners should be so generally ignorant of the "unwritten" custom or etiquette (diverse as it is from that pursued in ordinary social life, in relation to new residents) expected from members of the profession on commencing or changing the locality of practice, in town or country, and which entails on each new-comer, young or old, an obligation to call, with as little delay as may be, upon every duly qualified, legitimate medical practitioner resident within a reasonable distance of his own selected place or abode, and courteously announce his intention to practise in the locality. 2. In towns of not exceeding 35,000 inhabitants, and containing some thirty, more or less, medical men, a preliminary visit of courtesy should be paid to each several practitioner; but in those in which the preceding numbers are exceeded, the call or visit may very fairly be limited to such practitioners as live within a radius of (say) half a mile, or less, according to the nature and population of the locality; while in London and other large and densely populated cities, the area of call must necessarily be very circumscribed, and, in a great measure left to the judgment and discretion of the intending practitioner himself; or of a local professional friend. As a safe and simple guide, however, in either or any case, the extreme area of call for such initiatory visits may, perhaps, be sufficiently defined by a circle, comprising within its space some thirty practising members of the faculty. N.B.—It may be prudent to note, by the way, that practitioners in the position of "assistants" are, as such, exempt from making and receiving the call, and, in either case, it should be omitted. 3. In rural districts, it will be well to extend the radius of call to four miles, or more, according to local circumstances, and the prospect of friendly social intercourse with the neighbouring practitioners—and which, in the interest of self, the profession, and the public, it is scarcely necessary to add, cannot be too carefully cultivated by the faculty at large."

SIR,—I have given as concise a relation of facts as I can, of a situation in which I was placed a few days ago, and should be glad to hear from some authority (for my future guidance) whether I behaved rightly or wrongly. I undertook the treatment of the child, but not of the servant. Of course, in giving an answer, I should not wish my name to appear, I should perhaps add that there is not at present, nor is there likely to be, any ill-feeling between T. and W. W. and T. are practitioners in the same town. H. is W.'s patient. C., a married daughter of H., brings her baby on a visit to H. The child, while there, is taken ill, and C. sends for T., being recommended to do so by her own doctor, before leaving home, should need arise. Neither T. nor W. have ever attended C., either before or after marriage. T. undertakes the treatment of the child. While in attendance, C.'s sister (unmarried and living at home) is taken ill, and consults W. at his own house. The next day H.'s servant is ailing, and whilst paying the usual visit, T. is requested to prescribe for her. An opinion is requested. 1. Did T. act rightly in attending the infant? 2. Ought T. to have prescribed for the servant? AGRICOLA.

* * 1. Yes. 2. Assuming that the servant was not at the time, and had not recently been under the professional care of W. for the same ailment, T. was fully justified in prescribing for her.

SIR,—Will you kindly state your opinion upon this point in the next issue of the BRITISH MEDICAL JOURNAL, to which I am an old subscriber?

A. goes to see a patient for B., in B.'s district. He is called in to see one that would have employed B., if B. had been able to go himself to the case which A. had gone to attend for him. B., a few days ago, went a long journey for A., and B. declined to take the fee.—Yours truly,

UFFCULME, Devon.

RICHARD BRYDEN.

* * We are somewhat in doubt as to the particular "point" on which our opinion is sought. If, as we will assume, in the absence of a specific question, our correspondent is wishful to know which of the two practitioners referred to is entitled, so to speak, to the new patient, we are clearly of opinion that, under the special circumstances, A. should decline to attend the patient otherwise than as the temporary *locum tenens* of B. B., in declining to take the fee, acted in the true spirit of the profession.

SEA-SICKNESS.

SIR,—After twenty-five years' experience at sea, I feel confident that the cause of sea-sickness is irregular action of the sympathetic. I have found in several cases that the effect of the motion of a vessel at sea was to enormously increase the secretion of the kidneys. I was led to make inquiries of others, as, although never sea-sick, I was thus affected myself. I have had to empty my bladder three or four times an hour, it being on each occasion fully distended. The cause, I take it, is the sudden and unusual motion of the larger viscera, causing repeated slight shocks, similar in character to, but very much slighter than, that caused by a blow in the epigastrium. A tight belt has considerable effect, in many cases, in moderating the nausea, by keeping the viscera in their natural position, and keeping up the natural pressure on the sympathetic nerves and ganglia, instead of the constantly alternating absence of, and then sudden increase of pressure, from the alternate upward and downward motion of the stomach and liver. The irregular nerve-action generally affects the stomach; but, as I have stated, in some cases the kidneys are the organ through which the discharge of nerve-force takes place, causing them to secrete enormously.—I am, etc., E. C.

APPEAL.

SIR.—I thank you, in the name of the widow of the late Dr. Stewart, of Cunitbay, Calthness, for your kindness in inserting the appeal I forwarded to you two weeks ago. As I then stated, this is really a most distressing case. Dr. Stewart, labouring as he did in a large but very poor parish, "the most northern parish in the Island of Great Britain," had not an opportunity of putting away anything for the inevitable rainy day. While in harness, he was seized with double pneumonia, and died, after a three days' illness, at the early age of forty-four, leaving a wife and six children totally unprovided for; in fact, almost destitute.

Subscriptions will be received by the editor of the BRITISH MEDICAL JOURNAL and by the Rev. James McPherson, the Manse, Cunitbay, by Wick, N.B. The following is a list of subscriptions received up to date.

| | £ | s. | d. |
|---|--------------------------|-----|---------|
| Raised amongst the people of his parish, principally small crofters and fishermen | ... | ... | 30 0 0 |
| Miscellaneous subscriptions received by the Rev. Mr. McPherson | ... | ... | 33 11 0 |
| Anonymous | ... | ... | 2 4 0 |
| Do. | ... | ... | 2 2 0 |
| John McKinlay, M.D. | ... | ... | 1 1 0 |
| Alexander Mitchell, M.D. | ... | ... | 2 2 0 |
| Mrs. Mitchell | ... | ... | 1 1 0 |
| —Yours faithfully, | ALEXANDER MITCHELL, M.D. | | |
| Burton House, Great Yarmouth, July 25th, 1888. | | | |

ERRATUM.—In Dr. Moritz's analysis of the Manbre beer (JOURNAL, July 21st, page 121, col. 2), for "mineral water," read "mineral matter."

AN UNCOMFORTABLE POSITION.

SIR.—In answer to the letter from Mr. Arthur, contained in your issue for July 21st, I wish to contradict most emphatically the statements he has made, by which he attacks my professional character.—I am, yours etc.,
Castle Eden, August 1st, 1888. M. DUGGAN.

. This correspondence must now cease.

ORO-NASAL RESPIRATORS.

SIR.—I notice in the JOURNAL of May 5th, a new "Oro-Nasal Respirator" advertised. I have been hoping that some one would protest against the too frequent use of these respirators as highly injurious, and even dangerous, in many cases. I would go even further, and say that only exceptionally are they of any use whatever. Even at our health-resorts I have noticed them worn by men, women, and children, who have gone to considerable expense and trouble to obtain better air. In clear sunny weather at Ventnor, I have seen them quite commonly worn. It seems cruel to fasten such a contrivance on anyone; but when it serves to exclude the fresh pure air for which the invalid is, or ought to be, seeking, and of which he cannot get enough, it seems high time that some one should draw attention to the evident injury these respirators are doing to hundreds. In the apothecary's shop they are strung up in formidable array, and freely recommended and sold.—Yours very truly,
A MEDICAL MAN.

VACCINATION AFTER CONFINEMENT.

SIR.—A report in the JOURNAL of June 18th, of an inquiry in the House of Commons relating to the revaccination of a woman the day after her confinement, and the vaccination of her infant a week afterwards, reminds me of an event which occurred under my own observation some years ago, having some bearing upon the subject, and, I think, interesting in relation to the question of vaccination itself, and its protective influence. I will quote the case from a letter of my own, forming part of a correspondence with some antivaccinationists, which appeared in the *Cambrian* newspaper in 1872.

A gentleman was taken ill with small-pox, which proved to be of a dangerous type. His wife, who was near her confinement, had, contrary to advice, visited his room on various occasions. She was vaccinated. It became a race in point of time between the two forms of disease—variola and vaccinia. As the period of incubation of small-pox is about twelve days, and that of vaccinia three days, the hope and probability was that the vaccine disease would, as it were, steal a march upon the small-pox, though having had a later start, and, by appearing earlier in the field, disarm the latter of much of its virulence and danger. The result turned out as anticipated. The vaccination was successful. A child was born. Varioloid disease appeared in the mother soon afterwards in its mildest form, a few vesicles only appearing over the face and body. It pursued its course quickly, and terminated without a serious symptom. I verily believe that the vaccination saved this lady's life. The infant was successfully vaccinated when eight days old, and escaped the more formidable disease. My impression is that the milk was not interfered with by the maternal vaccination.—Yours obediently,
Swansea. GEORGE PADLEY.

MR. FARNLEY will find the information which he desires in the *Medical Directory*.

ALBUMINURIA.

SIR.—For the past three months, I have under treatment a case of scarlatinal albuminuria, in which the amount of albumen passed is enormous, if not unprecedented. Three months ago, the urine, on boiling, became a jelly, and was diminished. There was general anasarca, headache, retinitis, etc. At the time, my patient, a lady aged 36, was passing through the attack of scarlatina (mild), her house was painted with oxide of zinc paint, containing a large quantity of turpentine. Her urine smelt characteristically of violets, and she was purged also by the turpentine. By removing my patient from this house, putting her on a milk diet, with iron and tannin, and rest in bed, the anasarca disappeared, the urine increased, and the albumen diminished to one-eighth inch deposit in a two-inch column of urine. Without going into particulars now, I will state that nothing amiss can be found but a little edema of the feet and legs, and a daily excretion now of twenty-nine grains of albumen to the fluid-ounce of urine. Tinct. ferri perchlor., tannic, gallic, prussic acids, and nitro-glycerine have all failed. There is not, and was not at any time, any tension of the circulation. Details of this interesting case will appear as soon as it is concluded. Meantime, who will kindly offer some practical suggestions as to treatment?—I am, etc.,
P. O'CONNELL, M.D., M. B. M. Assoc.
Sioux City, Iowa, U.S.A., July 16th, 1888.

ROYAL COLLEGE OF SURGEONS OF ENGLAND.

THE following were the questions on anatomy and physiology submitted to the candidates for the diploma of membership of the Royal College of Surgeons on the 29th ultimo, when 222 presented themselves. They were required to answer four questions out of the six. *Anatomy*: 1. Enumerate, in their relative position, the muscles attached to the temporal bone; give their nerve-supply. 2. Describe the cartilages of the larynx. 3. Mention, in their relative position, the structures exposed upon removal of the pectoralis major muscle. 4. Describe the diaphragm; its attachments, relations on both surfaces, structure, and openings. 5. Describe, in the order in which they occur, the anastomoses of the arteries on the walls of the alimentary canal from the cardiac orifice of the stomach to the anus. 6. Describe the fascia lata.—*Physiology*: 1. Describe the act of vomiting. By what nervous channels may this act be excited? 2. What varieties of cartilage are found in the adult? Where are they found? Describe their structure and functions. 3. What are the more important constituents of urine? State and explain how they are affected by starvation, digestion, exercise, and temperature. 4. Describe the structure of the olfactory mucous membrane. Explain the manner in which the sense of smell is exercised. 5. State the functions of the pneumogastric nerve. Give the experimental and other evidence on which your statements rest. 6. What is the chemical constitution of the neutral fats? How are they prepared for absorption in the alimentary canal?

Query.—We should advise our correspondent to lay the facts in detail before the medical officer of the Local Government Board.

COMMUNICATIONS, LETTERS, etc., have been received from:

Dr. E. Drummond, Hastings; Dr. Drinkwater, Sunderland; Mr. R. Innes Nisbett, Gravesend; Mr. G. S. Wilson Hope, Petworth; The Secretary of the College of Surgeons, Edinburgh; Dr. T. Bushby, Liverpool; Dr. Saundby, Birmingham; Mr. Claremont, Southsea; Mr. Benjamin Clarke, Clapton; Mr. L. Bayley, Stourbridge; Mr. G. Parker, Dr. Beales, Congleton; Mr. W. M. Coates, Salisbury; Dr. E. T. Wilson, Cheltenham; Dr. Burdon Sanderson, Oxford; Mr. H. Terry, Northampton; Mr. Kenneth Millican, Kineton; Secretary of the Royal College of Surgeons, London; Dr. A. Vulpius, Paris; Mr. John Holden, Preston; Dr. Smith, Grimsby; Mr. T. Payton, Birmingham; Dr. W. Ziegler, Edinburgh; Mr. F. Shearer, Paisley; Mr. J. H. L. Macintire, Bristol; Dr. W. H. Taylor, Anerley; Mr. Thomas Darby, Liverpool; Britannia Rubber Company, London; Mr. A. T. Stewart, Waterford; Mr. E. J. Jenkin, London; Mr. T. J. Ekin, London; Dr. Sawyer, Birmingham; Mr. Vacher, Birkenhead; Mr. E. G. Griffith, London; Dr. Keep, Cupar; Miss Howe, London; Mr. John Furley, Sevenoaks; Dr. Carter, Liverpool; Mr. Dolan, Halifax; Mr. C. Challes, Brighton; "A. M. D.," India; Secretary Apothecaries' Hall; Mr. J. R. White, Dublin; Dr. Alexander, Liverpool; Mr. J. M. Shield, London; Mr. F. Wallace, London; Dr. St. George, Lisburn; Mr. H. R. Ruckley, High Wycombe; Dr. Carroll, Glasgow; Mr. W. H. Parker, Newport, U.S.; Dr. Waters, Chester; Mr. H. T. Butlin; Mr. George Brown, London; John Reid, Rochdale; A Member; Dr. A. D. Leith Napier, Dunbar; Mr. W. Bain, Heaton Chapel, near Stockport; Mr. L. H. Ormsby, Dublin; Dr. R. Mansell-Jones, Scarborough; Dr. W. B. Dalby, Torquay; Dr. Manson Fraser; Dr. Yate, Godalming; Dr. Rawdon, Liverpool; Mr. R. J. Pye-Smith, Sheffield; Professor de Chaumont, Southampton; Mr. W. Boyd Mushet, New Brighton; Dr. J. M. Moore, Dublin; Mr. J. C. P. Muir, London; Mr. J. M. Richards, London; Mr. W. Walter, Manchester; Mr. F. Boreham, Tunbridge Wells; Mr. F. W. Lowndes, Liverpool; "Country Practitioner."

BOOKS, ETC., RECEIVED.

The Filaria Sanguinis Hominis, and Certain New Forms of Parasitic Disease in India, China, and Warm Countries. By Patrick Manson, M.D., C.M., Amoy, China. London: H. K. Lewis. 1883.
Medical Guide to the Mineral Waters of France and Its Wintering Stations. By A. Vintras, M.D. London: J. and A. Churchill. 1883.
Enteric Fever; its Prevalence and Modifications, Etiology, Pathology, and Treatment. By Francis H. Welch, F.R.C.S., Surgeon-Major A.M.D. London: H. K. Lewis. 1883.

SCALE OF CHARGES FOR ADVERTISEMENTS IN THE "BRITISH MEDICAL JOURNAL".

| | | | | |
|-----------------------|-----|-----|-----|--------|
| Seven lines and under | ... | ... | ... | £0 3 6 |
| Each additional line | ... | ... | ... | 0 0 4 |
| A whole column | ... | ... | ... | 1 5 0 |
| A page | ... | ... | ... | 5 0 0 |

An average line contains eight words.

When a series of insertions of the same advertisement is ordered, a discount is made on the above scale in the following proportions, beyond which no reduction can be allowed.

| | | | |
|----------------------------------|-----|-----|--------------|
| For 6 insertions, a deduction of | ... | ... | 10 per cent. |
| " 12 or 13 " | ... | ... | 20 " |
| " 26 " | ... | ... | 25 " |
| " 52 " | ... | ... | 30 " |

For these terms, the series must, in each case, be completed within twelve months from date of first insertion.

Advertisements should be delivered, addressed to the Manager, at the Office, not later than Twelve o'clock on the Wednesday preceding publication; and, if not paid for at the time, should be accompanied by a reference.
Post-Office Orders should be made payable to the British Medical Association, at the West Central Post-Office, High Holborn. Small amounts may be sent in postage stamps.
