## ROYAL COLLEGE OF PHYSICIANS.

THE ordinary quarterly comitia of the Fellows was held on Thursday, July 26th, at 5 P.M.; Dr. J. Russell Reynolds, F.R.S., President, in the chair.

It was announced that Dr. H. D. Rolleston had been appointed Goulstonian Lecturer, Dr. G. Fielding Blandford Lumleian Lecturer, and Dr. W. S. Greenfield Croonian Lecturer for 1895.

The following gentlemen were then admitted Members: J. K. Barton, L. Freyberger, M.D.; A. J. Hall, M.B.; T. A. Helme, M.D.; C. E. Shelly, M.D.

The licence of the College was granted to 117 gentlemen, of whom only 4 did not present themselves under the regulations of the Conjoint Board.

The diploma in Public Health issued conjointly with the College of Surgeons was granted to the following gentlemen: A. Banks, L.R.C.P. and M.R.C.S.; L. G. Barbeau, M.B. Edin.; D. N. Cooper, L.R.C.P. and M.R.C.S.; W. A. Dow, L.R.C.P. and M.R.C.S.; J. B. Footner, F.R.C.S. and

L.R.C.P.; S. S. Smith, L.R.C.P. and M.R.C.S.; S. H. Snell, M.D.Lond.; H. A. Stopham, L.R.C.P. and M.R.C.S.; J. O. Symes, M.B.Lond., L.R.C.P., and M.R.C.S.; Surgeon-Captain C. J. W. Tatham, M.R.C.S. and L.S.A.; G. A. Watson, M.B.Lond., L.R.C.P., and M.R.C.S.; T. E. White, L.R.C.P. and S.I.; J. Williamson, M.B.Lond., L.R.C.P., and M.R.C.S.

Dr. Robert Harvey, Surgeon-General Civil Department, Bengal, was elected a Fellow on the nomination of the Council.

Communications were received from the Royal College of Surgeons relating to the joint affairs of the two Colleges; from the Foreign Office, enclosing a list of addenda to the Netherlands *Pharmacopœia*; from the British Institute of Public Health inviting the College to send delegates to the Congress; and from Dr. R. R. Rentoul, enclosing a petition against the proposed registration of midwives.

A letter was read from Mrs. Mockler inviting the College to purchase her collection of relics and mementoes of Dr. Edward Jenner. The value and importance of the collection were fully recognised, but, as it was understood that a very large sum was named, it was felt that in the present state of the finances of the College it was quite impossible to entertain any proposal on the subject, and a reply to that effect was directed to be sent to Mrs. Mockler.

A letter was read from a lady claiming descent from a brother of Dr. William Harvey praying the College to grant her a small annuity. It was decided to take no action in the matter.

The President, on behalf of the subscribers to the "Sir Andrew Clark Memorial Committee," presented to the College a portrait of the late President, the uncovering of the portrait being the signal for loud applause.

On the recommendation of the Council, the Moxon Medal, which is awarded triennially to one pre-eminently distinguished in observation and research in clinical medicine was awarded to Sir William Jenner, Bart., G.C.B., M.D., F.R.S.

On the nomination of the President and Council the following appointments were made:—Censors: M. Sturges, M.D., S. J. Gee, M.D., P. H. Pye-Smith, M.D., T. T. Whigham, M.D. Treasurer: Sir D. Mr. ROBERT CROSBIE, from Surgeon-Lieutenant, is appointed Captain 5th Volunteer Battalion the Durham Light Infantry, July 21st.

### THE YEOMANRY CAVALRY.

SURGEON-CAPTAIN H. P. SYMONDS, Oxfordshire (Queen's Own Oxfordshire Hussars), is promoted to be Surgeon-Major, July 21st.

### THE DEBATE ON THE ESTIMATES.

*Sic Transit Gloria Mundi* writes: The Secretary of State for War in answer to Mr. Hanbury's strictures on the want of proper peace training and transports for the Medical Service in war, retorted that he had consulted competent "military advisers" on the subject (mentioning two), and they did not endorse the many irresponsible press criticisms on this subject. I would remind him his said advisers scarcely possess the confidence of the medical department, and surely its own head was the best person to consult. When army medical officers are allowed to manage their own affairs, then we may see proper field medical arrangements. But it is so easy for "military advisers" to blame the medical department when a breakdown in the field occurs.

### WEARING OF SWORDS IN HOSPITALS.

A.M.S. writes: H.R.H. the Duke of Connaught, while commanding the Bombay Army, issued an order, which is still in force, against wearing swords at inspection of hospitals. He also limited the number of officers entering the wards to the inspecting and medical officer and one other. This judicious order might with advantage be embodied in the Queen's Regulations and be universally followed.

\*.\*The thoughtful order of His Royal Highness might indeed be universally adopted. The Karachi "incident" was, however, connected with medical officers wearing swords on ordinary parades.

### SUBSTANTIVE RANK AND SALUTES.

A CORRESPONDENT writes: In a recent communication in the *BRITISH MEDICAL JOURNAL* I find the following remarks: "For instance, guards turn out to combatant officers of the rank of major-general, but medical officers of that rank only receive a field officer's salute. The rank is not recognised." This statement is not quite correct, inasmuch as the surgeon-major-general who was principal medical officer in India for 1889 to 1892 was invariably received as a general officer when inspecting military stations by guards turning out, his substantive army rank being thereby duly recognised.

\*.\*We are glad to hear it; but, as far as we have learned, we fear our first correspondent's remarks are but too true at other stations.
