A Truss Gauge or instrument for Measuring Trusses, Dr. T. J. Kelly ...	98	Dark Fermentation Room for Haffkine's Prophylactic ...	1256
The Physiological Action of Senecio Jacobaea, Dr. J. L. Bunch (Five Figures) ...	213, 214, 215	Portrait of Sir Henry Acland ...	1281
Snake Charmers at Work, Captain R. H. Elliott (Two Figures) ...	217, 218	Contribution to the Technique of Bacteriology, Dr. M. A. Ruffer and Mr. M. Crendiropoulos ...	1305
Plan of Welsh Hospital at Springfontein ...	253	Portrait of Professor Huxley ...	1321
Instruments and Appliances in the Annual Museum (Fifteen Figures) ...	328, 329, 330, 331, 332	The New Science Laboratories at King's College, London (Three Figures) ...	1325, 1326
Can Modern Systems of Sewage Treatment be depended on to Remove the Bacillus Typhosus and Allied Organisms? Dr. A. C. Houston (Ten Figures) ...	407, 408, 409, 410, 411	Enteric Fever in South Africa, effective Sterilisation of Excreta, Major H. A. Cummins ...	1369
The Supply of Sterilised Humanised Milk for the Use of Infants in St. Helens, Mr. F. D. Harris (Six Figures) ...	428, 429	Portrait of Professor Hughes ...	1409
The London Medical Graduates' College and Polyclinic (Three Figures) ...	507, 508	Two Unusual Cases of Stricture of the Oesophagus in which Gastrostomy was performed, Drs. Walker Downie and Robert Kennedy (Two Figures) ...	1425, 1426
Metamorphosis of Filaria Sanguinis Hominis in Mosquitos, Captain S. P. James (Seven Figures) ...	534, 535	Abdominal Tumour (included Fetus), Messrs. G. A. Wright and D. S. Wylie (Three Figures) ...	1429, 1430
A Case of Blackwater Fever, with a Description of the Microscopical Appearances, Dr. G. Thin (Eleven Figures) ...	555, 556, 557	Operation for Severe Hypospadias, Mr. R. H. Russell (Six Figures) ...	1437, 1438
The Cyprus Sphalangid and its Connection with Anthrax, Mr. G. A. Williamson (Seven Figures) ...	558, 559, 560	A Plastic Operation for the Closure of Retro-auricular Post-operative Fistulae, Mr. R. Lake (Three Figures) ...	1437
Hypertrophy and Dilatation of the Colon in Infancy, Dr. W. S. Fenwick (Two Figures) ...	565	An Improved Paul's Tube, Mr. B. Scott ...	1448
Congenital Hypertrophic Stenosis of the Pylorus, Mr. J. H. Nicoll ...	571	Physiology and the Healing Art, Professor W. H. Thompson (Two Figures) ...	1485, 1486
The Surgical Treatment of Certain Forms of Nasal Insufficiency, Dr. L. H. Pegler (Thirteen Figures) ...	632, 633, 654, 655	Neuritis of Posterior Roots, Pre-ataxic Stage of Tabes Dorsalis, Dr. W. B. Ransom (Two Figures) ...	1491
Split for Fractured Humerus, Mr. R. E. Tobin ...	662	Royal Marine Infirmary, Walmer (Three Figures) ...	1507, 1508
A Student's Microscope ...	667	Operations for Congenitally Misplaced and Undescended Testicle, Professor Annandale (Three Figures) ...	1557
Vaginal Speculum with Detached Weights and Blades, Mr. John Edgar ...	667	The Causation of the Congenital Stridor of Infants, Drs. J. Thomson and A. Logan Turner (Ten Figures on Special Plate) ...	1562
A Pocket Camel Hair Surgical Brush, Mr. W. L'Heureux Blenkarne	667	Cases of Acromegaly and Infantile Myxedema occurring respectively in Father and Daughter, Drs. F. M. Pope and A. V. Clarke (Four Figures on Special Plate) ...	1563
Human Placenta in its Second Stage, Dr. Catherine van Tussenbroek (Eight Figures) ...	711, 712	Development of Rodent Ulcer from Sebaceous Cyst, Mr. J. Busfield ...	1568
Portrait of Dr. Arthur Wynne Foot ...	779	Case of Lateral Dislocation of the Knee caused by Direct Violence, Mr. T. B. Carlyon ...	1568
Insanity in Road Workers, Dr. Robert Jones (Seven Figures) ...	800, 801, 802	New Frenum Scissors, Mr. E. R. Haines Cory ...	1576
Acute Delirious Mania, Dr. John Turner (Six Figures) ...	806, 807, 808	An Infant Urinal, Dr. A. Duke ...	1576
Dr. Muskens' Tonometer ...	820	Scene near Walá on the Singatoka River, Fiji ...	1577
A Digital Sphygmograph, Dr. A. D. Waller ...	841	Ladies' College, Cheltenham ...	1583
A Case of Purpura and Interse Anaemia with Marked Deficiency in the Red Bone Marrow, Dr. R. Muir (Two Figures) ...	910	Princess Hall, Ladies' College, Cheltenham ...	1584
Pathology of Cirrhosis of the Liver, Dr. T. D. Lister (Two Figures) ...	916	Gloucester from Robinswood Hill ...	1585
The Significance and Pathology of the Argyll-Robertson Pupil, Dr. W. Harris (Three Figures) ...	925	Portrait of Dr. Richard Neale ...	1617
Perineal Stone Crusher, Mr. A. Neve ...	929	Case of Hour-glass Stomach and Pyloric Stenosis: Gastro-enterostomy: Death, Dr. S. Martin and Mr. B. Pollard ...	1636
The Bacteriological Purification of Sewage (Five Figures) ...	933, 1113, 1114	The Malaria Experiments on the Campagna (Eight Figures) 1679, 1680, 1681	1679, 1680, 1681
Ventilated Box for Forwarding Mosquitos ...	949	Prognosis and Treatment in Pulmonary Tuberculosis, Dr. R. Maguire (Two Figures) ...	1696
Case for Mosquitos ...	949	A Case of Varicose Aneurysm of the Aorta communicating with the Pulmonary Artery, Dr. J. Michell Clarke (Three Figures) ...	1701, 1702
Instrument used in Litholapaxy, Dr. P. J. Freyer (Three Figures) ...	1015	Position in Kidney Operations, Mr. C. C. Braine ...	1716
London School of Tropical Medicine (Five Figures) ...	1042, 1043, 1044	Quantitative Colour-tests, Dr. K. Grossman (Three Figures) ...	1765
Leucosarcoma of Iris showing Fibro-hyaline Changes, Mr. W. W. Griffin ...	1104	Remarks on Chronic Enlargement of the Pancreas in association with or producing attacks simulating Biliary Colic, Mr. H. G. Barling (Two Figures) ...	1766, 1767
Sterilisable Wire Gauze Splints, Mr. A. T. Scott ...	1112	A Case of Congenital Hypertrophy, with Stenosis of the Pylorus, Drs. H. D. Rolleston and R. Crofton-Atkins ...	1768
Anæsthetic Inhaler, Dr. A. Orchard ...	1112	Further Observations on Epidemic Arsenical Peripheral Neuritis, Dr. E. S. Reynolds (Six Figures) ...	1769, 1770, 1771
Gelatine Envelopes for Surgical Dressings ...	1112	A Case of Restoration of the Lower Lip after almost Complete Excision for Epithelioma, Dr. R. Kennedy ...	1775
Clinical View of Some of the Mechanisms of the Heart and its Valves, Dr. W. Ewart (Three Figures) ...	1151, 1153, 1154	ILLUSTRATIONS TO A CENTURY'S RETROSPECT OF MEDICINE.—A Committee at the College of Physicians in Warwick Lane, 1837; A Last Century Dissecting Room, 1839; Portrait of Albrecht von Haller, 1843; Portrait of Matthew Baillie, M.D., 1847; Portrait of William Cullen, M.D., 1849; Portrait of Thomas Denman, M.D., 1855; Early Watercloset Devised by Sir John Harington (Three Figures), 1861, 1862, 1863; Sanctorius in his Balance, 1864	1775, 1776, 1777, 1778, 1779, 1780, 1781, 1782, 1783, 1784, 1785, 1786, 1787, 1788, 1789, 1790, 1791, 1792, 1793, 1794, 1795, 1796, 1797, 1798, 1799, 1800
Treatment of Abscess of Liver, Mr. E. Laurent ...	1160		
Unusual Case of Malignant Disease in Early Infant Life, Mr. H. J. Clarke ...	1160		
The Substitution of Subastragula for Syme's Amputation, Mr. J. Hutchinson, jun. (Three Figures) ...	1170, 1171		
Injuries to the Internal Lateral Ligament and to the Internal Semilunar Cartilage of the Knee-joint, Mr. J. Griffiths (Five Figures) ...	1172, 1173, 1174		
Removal of Superior Cervical Ganglion of Sympathetic, Mr. F. F. Burghard ...	1177		

INDEX TO VOLUME II FOR 1900.

- A.**
 Abdomen, wound of the inflicted by a rhinoceros, 1310
 Abdominal section, case of extrauterine gestation ruptured at mid-term treated by, 77; for ruptured liver and kidney, 1108; tolerance of in two successive pregnancies, 1438; results of on ascites, 1440; uterus removed by, 1643
 — surgery, untoward results following, 225
 Abercorn, Duke of. *See* Duke
 Aberdovey as a winter resort for chronic phthisis, 875
 Abortifacient, diachylon as an, 201
 Abram, J. H., epidemic peripheral neuritis, 1683
 Abscess, lumbar, 403; tropical liver, discussion on at Ipswich, 547; of the left lobe of the liver, with particular reference to its amoebic causation, 552; of liver, 777; subdiaphragmatic, discussion on, 996; of the liver, treatment of, 1160; mastoid, in the absence of middle-ear disease, 1187; cerebellar, operation for, 1191; of the liver, the "hepatic odour" in, 1374; cerebellar, 1402; perforating into bladder in a case of appendicitis, 1432; under the scalp, bacteriology of, 1502; subdiaphragmatic, complicating typhoid, 1790
 Abscesses, spinal, some points in the treatment of, 1774
 Abuse, hospital, 1537, 1748; hospital, a coroner on, 1757
 Academy, Royal, of Arts, professorships of anatomy at, 1654, 1806
 — Royal, of Medicine in Ireland, annual meeting and list of officers, 1316
 — Royal, of Medicine in Ireland, Section of Medicine, cerebro-spinal meningitis, 23; presidential address, 1554; the open-air treatment of consumption, 1785
 — Royal, of Medicine in Ireland, Section of Obstetrics, specimens, 95; panhysterectomy at full term, 26; the Dublin method of effecting the delivery of the placenta, 96
 — Royal, of Medicine in Ireland, Section of Pathology, a case of aphasia, 1502; bacteriology of an abscess under the scalp, 26; specimens, 1503
 Accidents, carriage, 1112; insurance against the Workmen's Compensation Act, 1616, 1827; charges for attendance on cases of, 1689
 Accounts, period for presentation of, 1826
 Acetylene gas, explosion of, 1561
 Acland, Sir H., death of, 1205; obituary notice of, 1281; Dr. Sharkey on, 1286; Professor T. C. Ailbutt on, 26; Mr. T. P. Teale on, 1349
 Acromegaly, case bearing on the pathology of, 221; and infantile myxedema occurring respectively in father and daughter, 1563
 Act, the Factory, certifying surgeons under, 69, 704
 — Housing of the Working Classes, procedure under Section XXXII of, 334
 — the Lunacy, prosecutions under, 782
 — Superannuation, 1896, return of contributions paid under, 700
 — Vaccination, the working of, 964
 — Workmen's Compensation, contracts under, 668; and insurance against accidents, 1616, 1827
 Actinomycosis, acute, case of, 1189
 Acts, Inebriate, retreats under, 615
 — the Vaccination, prosecutions under, 1417
 Adams, E. W., the place of the lecture in medical teaching, 1138; apomorphine as a hypnotic, 1375
 Address, presidential to the Metropolitan Counties Branch by Mr. George Eastes, 137; presidential to the Southern Branch by Mr. C. R. Stratton, 140; presidential to the Isle of Wight District of the Southern Branch by Mr. T. A. Buck, 143; presidential to the South Western Branch by Mr. D^r Q. Karkeek, 145; presidential to the Birmingham and Midland Counties Branch by Dr. M. Moore, 148; presidential to the Reading and Upper Thames and Oxford and District Branches by Mr. R. H. Noot, 149; of welcome at the centenary of the Royal College of Surgeons by Sir W. MacCormac, 209; presidential at the annual meeting of the British Medical Association by Dr. W. A. Elliston, 273, 306; in medicine at the annual meeting of the British Medical Association by Dr. P. H. Pye-Smith, 280, 306; in surgery at the annual meeting of the British Medical Association, 284, 750; in obstetrics at the annual meeting of the British Medical Association by Dr. W. J. Smyly, 337; introductory at the opening of the Section of Laryngology and Otology at the annual meeting of the British Medical Association by Dr. Scanes Spicer, 345; in surgery delivered before the Canadian Medical Association by Mr. E. Owen, 743; presidential to the Staffordshire Branch of the British Medical Association, 1297; presidential to the Section of Medicine by the Royal Academy of Medicine in Ireland, 1554
 Address, change of and removal from the "Register," 72, 136
 Adenoids, post-nasal, auditory results of removal of, 645; post-nasal, headaches and other nervous symptoms in relation to, 894
 Adenoma of the body of the uterus, 1109; sebaceous, 1441; malignant, 1642
 Adults, pathology of cirrhosis of the liver in, 913
 Advertisment, a warranty, 1615
 Advertisements of medical schools, 1143
 Advertising, medical, 68, 132, 205, 334, 403, 462, 871, 963, 1143, 1224, 1292, 1353, 1354, 1414, 1478, 1542, 1616, 1753, 1825; thanks, 962
 Affleck, Dr. J. O., appointed consulting physician to Edinburgh Royal Infirmary, 1461
 Aged, medicinal and dietetic treatment of heart failure in, 1088; myosin albumen in failure of the heart in the, 1747
 Agglutination method, the, for tuberculosis, 1160
 Aikin, W. A., the vocal resonator, 648, 650; The Voice, its Physiology and Cultivation, *rev.*, 1794
 Aikman, J., A Tract for Chest Cases, *rev.*, 97
 Air, open, therapeutics of, 1095
 — passages, tracheotomy for impaction of bean in, expulsion through the wound, recovery, 18
 Aitken, D. M., a tonsil guillotine, 98
 Aix-les-Bains, the treatment at, 875, 967
 Alaska, syphilis in, 1357
 Albumen, production of crystals of, 1642
 Albuminuria, myelopathic, 1304; nephritis without, 1570
 Alcohol, in Lorraine, 35; and infection, 855
 Aldershot, the infectious diseases hospital at, 1828
 Aldrich-Blake, Miss, influence of character on medical practice, 992
 Allan, A. P., a case of appendicitis with abscess perforating into bladder, recovery, 1432
 — F. J., prevention of tuberculous disease, 415
 — J. W., on plague, 1379
 Allbutt, T. C., influenza as it affects the nervous system, 88; abstractions and facts in medicine, 990; the Harveian Oration, 1271; on Sir H. Acland, 1286; medicine in 1800, 1288
 Allen, A. H., the use of boric acid and formaldehyde as food preservatives, 125; Organic Analysis, *rev.*, 926
 — H. E., the "Medical Register," 1686
 Allt, N. W., the London University matriculation examination, 1614
 Alston, H., London diplomates and hospital appointments, 1228
 Alton, the new hospital and camp at, 42
 Alvarenga Prize. *See* Prize
 Ambassador, a medical, 1408
 Ambidexterity, a plea for its general adoption, 579; Sir J. Sawyer on, 1302, 1472; training of children in Philadelphia, 1370
 Ambulance, the French, at Johannesburg, 947
 — Brigade, St. John, despatch of orderlies to South Africa, 1739
 — Corps, a disgraced, return of, 1775
 — service for cavalry, 625; for mounted troops, 626
 Ammonium chloride in chronic dyspepsia, 136
 Amputation, at the hip-joint for gunshot fracture of thigh, 657; complete primary of the umbilical cord, 944; subastragular, substitution of for Syme's operation, 1169
 Anæmia, intense, and purpura with marked deficiency in red bone marrow, 909; progressive pernicious, with spinal symptoms, 1361
 Anæsthetics and urinary secretion, 833; effect of the inhalation of on the kidneys, 834; deaths under, 967; giving of for dentist with unregistered partner, 1542
 Anæsthetists, dentists, and unqualified dental assistants, 1478
 Anatomy, pathological, books on, 1831; in 1800, 1839
 Anders, Dr. E., death of, 463
 Anderson, C. T., acute yellow atrophy of liver, 1371
 — Dr. J., obituary notice of, 699
 — Mrs. E. G., influenza as it affects the nervous system, 883; on gout, 900; abdominal operations, the case of Dr. Imlach, 1469
 — Miss L. G., presentation to, 666
 — Mr. R. B., obituary notice of, 1537
 — R. J., the formation of uric acid, 738; changes in the cell of the new's stomach during and after secretion, 740; note on respiration, 831; effect of anæsthetics on the kidneys, 839
 — Mr. W., death of, 1335; obituary notice of, 1411
 Anderson-Berry, D., medical advertising, 1825
 Andrews, F. W., the pathological distribution of the diphtheria bacillus and the bacteriological diagnosis of diphtheria, 907; purpura and anaemia, 911
 Andriezen, W. L., epileptic insanity, 794; insanity in lead workers, 804; delirious mania, 808; treatment of epileptics in colonies, 811; lunacy laws and neuro-psychological diseases, 813; blood pressure in the insane, 826
 Aneurysm of the abdominal aorta pointing posteriorly in which the initial symptoms were those of chronic colitis, 216; large aortic, 1379; of splenic artery, fatal rupture of in labour, 1460; aortic, treated by hypodermic injections of gelatine, 1498; thoracic, the diagnosis and treatment of, 1571; bursting into pericardial sac, 1629; varicose of the aorta communicating with the pulmonary artery, 1701; thoracic, the diagnosis and treatment of, 1710; popliteal, rapid cure of by acute flexion, 1780
 Angina pectoris, severe, relieved by oxygen inhalations, 1568
 Angioma of orbit, 1403; of the spinal cord, with recurrent hæmorrhages, 1707
 Animals, living, experiments on, 109, 948, 1333; the standardising of drugs by experiments on, 447; the Bishop of Barrow on experiments on, 1657
 Ankylostomiasis, discussion on at Ipswich, 539, 1138; case of, 1784
 Annandale, T., operations for congenitally misplaced and undescended testicle, 1444, 1556
 Announcements, domestic, 1293, 1354
 Annuity, insurance of, 1419
 "Anopheles" in St. Lucia, 583; respiration of, 771; the resting position of, 1158, 1345, 1820; reproduction in, 1345; in Cuba, 1886
 Anthrax, connection of with Cyprus sphenangi, 558
 Antisepsis, medical, 1395

- Antitoxin, diphtheria, treatment of diphtheria** by, 658; the dosage of, 1388
- Antitoxins and sex**, 135
- Aorta, abdominal, aneurysm of, pointing posteriorly, in which the initial symptoms were those of chronic colitis**, 216; varicose aneurysm of communicating with the pulmonary artery, 1701
- Apathy following the use of thyroïdin**, 582
- Apertients in convalescence from typhoid fever**, 1227
- Aphasia, a case of**, 1502
- Apomorphine as a hypnotic**, 1375
- Apostolate, a French medical**, 1732
- Apothecaries' Hall of Ireland, officers, etc., of**, 398; regulations of as to diplomas, 487; pass list, 1540
- **Society of London, pass lists**, 132, 266, 698, 963, 1145, 1289, 1619; regulations of as to diplomas, 480; the licentiates of and the title of "Dr.", 697; the licentiate diploma of, 788; the licentiates of, 1056, 1140, 1221, 1288, 1347, 1400, 1474, 1615, 1692; the licentiates of and the title of physician, 1748
- Appeal, an**, 1450
- Appendicitis, operation for diffuse suppurating peritonitis due to**, 1191; arthritis in association with, 1259; early operation in, *ib.*; the pulse in, 1347; with abscess perforating into bladder, recovery, 1432; recurrent, 1763
- Appendix vermiformis, removal of**, 1315; surgery of, 1532; strangulated, forming a femoral hernia, 1640; intussusception of, 1790
- Appointments, under amalgamated friendly societies**, 698; on the sale of a practice, 783, 1826; diplomas and, 876, 1148, 1228; honorary, canvassing for, 1414
- Arab races, the immunities and proclivities of**, 1357
- Arabia, the plague in**, 36
- Archer, John, the first American graduate in medicine**, 452
- Arctic regions, bird life in**, 1121
- Argentine Republic, regulations for British practitioners in**, 524
- Argles, Mr. R., obituary notice of**, 66
- Argyll-Robertson pupil, significance and pathology of**, 924
- Arm sling, an adjustable**, 1196
- Armagh, the nursing question in the union at**, 1743
- Armies in the field, water supply of**, 860
- Army, British, physical "equivalents" for candidates for commissions in**, 179; the undermanning of the medical service of, 203, 460, 781, 1221, 1476, 1753; outfit allowance, 203; changes in the medical staff of, 395; the future of the medical service of, 438, 462; venereal disease in, 458; promotions and appointments in the medical reserve of, 460, 697, 1059, 1142, 1252, 1753, 1824; medical designations in, 462; a dual position, 697; full army status, *ib.*; volunteer medical services in, *ib.*; the medical administration of the past and present, 944; medical organisation for in war, 1207; the needs of the medical service of the, 1513; reforms in medical service of, 1729; War Office methods of obtaining military medical officers, 1730, 1799, 1835

INDEX TO THE EPITOME FOR VOLUME II FOR 1900.

The Figures in this Index refer to the Number of the Paragraph NOT the Page.

- A.**
Abadie, polyuria and pollakiuria of hysterics, 183
Abba, formaldehyde as a disinfectant, 279
Abdominal section, treatment of damaged ureter in, 273
Abscess of the liver, pathogeny and treatment of, 146
Acetonuria, 182
Achar, diagnosis of renal insufficiency, 96
Acne, potassium iodide in, 175
Actinomycosis of the lungs, 288
Acupuncture, relief of lumbago by, 176
Adamidi, pathogeny and treatment of abscess of the liver, 146
Adenoma, solitary, of the liver, 306; malignant, 312
Adolescence, the false cardiac hypertrophy of, 346
Aichel, gonorrhoea, in the genital tract of a newborn child, 251
Air, sterilised, influence of on animals, 94; in veins in placenta prævia, 193
Albanese, monomethyl-xanthine, 13
Albuminuria, diet in, 157
Alcohol, ethylic, the germicidal powers of, 359
Alessandri, the treatment of old fractures of patella, 46
Alexander's operation, pregnancy and, 254
Alopecia, treatment of, 317
Aluminium salts as disinfectants, 319
Amadel, placenta prævia, 332
Amyotrophic change, diffuse traumatic, 360
Anemia, the heart in, 37
Anesthesia subarachnoid injections of cocaine in the lumbar region, 107; by means of intramedullary injections of cocaine, 260
Analgesic, methylene blue as an, 235
Anastomosis, intestinal and gastro-intestinal, 102
Anatomy, pathological, of insanity, 131
Aneurysm of the aorta, treatment of, 160; arterio-venous, operative treatment of, 209; thoracic, presenting intermittently through the sternum, 324
Angiuli, hypodermic injections of phosphate of lime in pulmonary tuberculosis, 155
Angiulula intestinalis, invasion of the intestinal wall by, 38
Animals, influence of sterilised air on, 94
Ankylosis of the spine, 167
Antiperistalsis and faecal vomiting, 3
Antiseptics, glycerine as a medium for, 234
Antitoxin diphtheria, diphtherial paralysis and, 256
Antonin, prophylaxis of dysentery in armies in the field, 174
Aorta, treatment of aneurysm of, 160; abdominal, ligature of below the diaphragm, 227; ligature of the, 228
Aphasia complicating infectious diseases in children, 304
Apomorphine as a hypnotic without nausea, 173
Appendicitis, bladder symptoms in, 210; etiology and pathogenesis of, 308
Appendix vermiformis, carcinoma of the, 310
Armies in the field, etiology and prophylaxis of typhoid fever in, 113; prophylaxis of dysentery in, 114; etiology of dysentery in, 115
Arnau, supranal hemorrhage, 287
Arnold, digitalis, digitalin, and digitoxin, 218
Arsenic in infantile eczema, 236
Arterio-sclerosis, the pathology of, 286
Arthritis gonorrhoeal, treatment of, 237
Ascarides, micro-organisms in, 58
Askanazy, invasion of intestinal wall by anguillula intestinalis, 38
Association, American Surgical, on the x rays in surgery, 43
Asthma and the puerperium, 128
Ataxia, permanent non-progressive, 63
Audebert, treatment of apparent death in a newborn infant, 127; asthma and the puerperium, 128
Aufrecht, aluminium salts as disinfectants, 319
Auto-infection in cases of hydatid cysts, 24
Auto-mutilation, extraordinary impulses towards, 42
B.
Baatz, perforation of the bladder in ectopic pregnancy, 172
Babes, the histogenesis of malignant tumours, 139
Babinski, the differential diagnosis of functional from organic hemiplegia, 266
Bacilli, typhoid, detection of in the stools, 221
Bacillus, a new, of vaccine lymph, 179; of tubercle in the milk of a tuberculous mother, 203; of tubercle in "scrofulous" glands, 338
Bacteria, elimination of by the liver and kidneys, 285
Bacteriology of purulent meningitis, 57
Baet, ossifying enchondroma of ovary, 334
Bäumler, the bath treatment of typhoid fever, 33
Ballet, diffuse traumatic amyotrophic change, 360
Balzer, treatment of psoriasis by oil of cade baths, 336
Barbacci, solitary adenoma of the liver, 306
Barbagallo, cutaneous oxyuriasis, 348
Barbaroux, leucocytosis in typhoid fever, 283
Basch, v., pulmonary oedema, 98
Baths, artificial carbonic acid, 16; treatment of typhoid fever by, 33; oil of cade, treatment of psoriasis by, 336
Bayerthal, insanity after extirpation of brain tumour, 329
Beach, pathological anatomy of insanity, 130
Beck, closure of the cleft palate by lingual implantation, 44
Beckmann, puerperal gangrene of uterus, 29
Bed, rest in the treatment of acute forms of insanity, 130
Beilage, treatment of lupus, 357
Beley, retention of dead fetus to term, 214
Bergmann, v., radiography in the study of fractures and luxations, 100
Berillon, extraordinary impulses towards auto-mutilation, 42
Bernard, diffuse traumatic amyotrophic change, 360
Bertarelli, the germicidal powers of ethylic alcohol, 359
Beyea, dermoid tumour of pelvic connective tissue, 314
Bie, the light treatment in rodent ulcer, 298
Bielschowsky, the action of diphtheria toxin on the nervous system, 239
Bissell, normal labour after an unnecessary Caesarean section, 232
Bladder, distended, in foetus, arrested labour from, 86; hernia of through the pelvic outlet, 165; perforation of in ectopic pregnancy, 172
Blastomycetes and new growths, 321
Bleeding, indications for, 133
Blepharitis and scabies, 8
Bloch, the treatment of infected wounds, 101
Blondel, therapeutic use of thymus, 159
Blood, the value of examination of to the general practitioner, 2; the significance of iodophilic leucocytes in diseases of the, 196; the pathology of the, 321; typhoid, agglutinative property in, conferred on a child in utero, 340
Boas, treatment of muco-membranous colitis, 97
Body, the normal, influence of static electricity on, 178
Boeckel, surgery of the pancreas, 99
Boeder, the influence of light on morbid processes, 200
Boeri, disturbances of respiration in hemiplegia, 264
Boils, treatment of, 76
Boissard, puerperal eclampsia and cerebral hemorrhage, 88
Bolton, suture of the intestine for perforation in typhoid, 103
Bone, endothelioma of, 82
Bones, extrauterine foetal, retained seventeen years, 252
Bonifas, the dilution of milk for infants, 35
Bonomi, the circulatory apparatus in pregnancy, 355
Bottle, long-tube nursing, danger of, 169
Bouilly, cervical metritis, 112
Bourget, gastro-enterostomy, 104
Bourneville, pathological anatomy of idiocy, 131
Brain, insanity after extirpation of tumour of, 329; treatment of tetanus with subcutaneous injection of emulsion of, 335
Breech presentations, value of prophylaxis, 102
Breuer, the etiology of exophthalmic goitre, 204
Bright's disease. *See* Disease
Bronchitis, senile, 104; fibrinous, 206
Broncho-pneumonia, necrotic, in association with a streptothrix, 341
Brown (Sanger), permanent non-progressive ataxia, 63
Brown-Séquard's paralysis, 265
Brunet, epilepsy cured by an attack of hemiplegia, 61
Brunton, physiological and therapeutic action of digitalis and of its active principles, 135
Buchner, on immunity, 140
Bürger, ovariectomy statistics, 200
C.
Cabot, thoracic aneurysm presenting intermittently through the sternum, 324
Cacodylate of iron, in chlorosis, 154
Cæcum, adherent to vas deferens, 249
Caesarean section, unnecessary, normal labour after, 232; twice in the same subject, 233
Calcium carbide in inoperable carcinoma of the uterus, 30
Calderini, cancer of the body of the uterus, 295
Calmette, prophylaxis of tetanus in hot countries, 118
Calomel, injections of in syphilis, 358
Cancer, laryngeal, the early diagnosis of and its treatment, 4; circumscribed, of stomach, excision of, 5; surgery of, 109; of the cheek, 110; of the uterus, treatment of, 111; primary, of Fallopian tube, 151; vaginal hysterectomy for, 191; inoperable uterine, the palliative treatment of, 275; of the body of the uterus, 295; abdominal hysterectomy for, 296
Cancers, inoperable treatment of, 246
Cantani, ankylosis of the spine, 167
Carbonic acid, artificial baths of, 16
Carcinoma, inoperable, of uterus, calcium carbide in, 30; of the appendix vermiformis, 310
Cardiac. *See* Heart
Catarrhal affections of the nose and pharynx, 181
Ceccherelli, surgery of the pancreas, 99
Célos, cæcum adherent to vas deferens, 249
Cesaris-Demel, fibrinous bronchitis, 206
Champneys, treatment of apparent death in a newborn infant, 127
Chapin, psychoses of the menopause, 333
Charles, treatment of apparent death in a newborn infant, 127
Chatin, pericarditis in Bright's disease, 281
Chaufard, hydatid cysts of the liver, 325; precocious obesity, 342
Chavannaz, uterine fibroids and heart disease, 9
Cheek, cancer of the, 110
Child, newborn, operation on for umbilical hernia, 28; live, forceps delivery of fifteen minutes after death of mother, 85; newborn, gonorrhoea in the genital tract of, 251; in utero, agglutinative property in typhoid blood conferred on, 340
Childhood, lead poisoning in, 262; neuroses of, 345
Children, treatment of eczema in, 197; aphasia complicating infectious diseases in, 304; young, treatment of strabismus in, 311
Cholecystectomy, immediate and remote results of, 143
Chorea, the treatment of, 91; and chorea gravidarum, 18; minor, etiology of, 224
Circulatory apparatus, the, in pregnancy, 355
Clarac, etiology and prophylaxis of endemic bilious hæmoglobinuric fever, 120
Cocaine, anesthesia by subarachnoid injections of in the lumbar region, 107; in midwifery, 150;

Copies of the Index to the Epitome, with Title-page, for binding in separate form can be had on application to the Office, 429, Strand, W.C.

anæsthesia by means of intramedullary injections of, 260
 Coccalisation, subarachnoid, 299
 Cod-liver oil, rectal injection of in tuberculosis, 177
 Cohnheim, large doses of olive oil in stenosis of the duodenum and pylorus, 219
 Colitis, muco-membranous, treatment of, 97
 Coma, diabetic, the cause of, 320
 Condamin, intestino-vaginal fistula, 49
 Congress, International, of Medicine, papers in Section of Internal Medicine at, 95 *et seq.*; papers in Section of Surgery, 99 *et seq.*; papers in Section of Gynaecology, 111 *et seq.*; papers in Section of Military Medicine and Surgery, 113 *et seq.*; papers in Section of Obstetrics, 123 *et seq.*; papers in Section of Psychiatry, 129 *et seq.*; papers in Section of Pharmacology, Therapeutics, and Materia Medica, 132 *et seq.*; papers in Section of Pathology, 139; papers in Section of Bacteriology, 140; papers in Section of Medical Diseases of Children, 141; various papers, 142 *et seq.*
 Connective tissue, pelvic, dermoid tumour of, 314
 Contraction and spasm in facial paralysis, 62
 Cord, umbilical, amniotic knot in, 32
 Courmont, leucocytosis in typhoid fever, 283
 Couvelaire, amniotic knot on umbilical cord, 32; arrested labour from distended bladder in fetus, 86
 Cullen, treatment of cancer of the uterus, 111
 Curtis, treatment of complicated fracture of neck of humerus, 26; treatment of hay fever by immunisation, 195
 Cyst, mesenteric, 213; ovarian, rupture of a fetal sac into a, 277
 Cysts, hydatid, auto-infection in cases of, 24; hydatid of the liver, surgical treatment of, 106; of placenta, 276; hydatid, of the liver, 325
 Czerny, treatment of inoperable cancers, 246

D.

D'Antona, indications for nephrectomy, 289
 D'Arrigo, the tubercle bacillus in "scrofulous" glands, 338
 Death, apparent, in newborn infant, treatment of, 127
 Deciduoma malignum, pulmonary symptoms, 11
 De Dominicis, on pneumonia, 80
 De Jong, cysts of placenta, 276
 Delagenière, cervical metritis, 112
 Delbet, remote results of the radical cure of hernia, 269
 De Leon, cervical metritis, 112
 Demateis, micro-organisms in ascarides, 58
 Demel, the pathology of the blood, 322
 Demelin, treatment of apparent death in a newborn infant, 127; hæmorrhage at eighth month, rupture of sinus circularis, 216
 De Merritt, neuroses of childhood, 345
 De Mouchy, breech presentations, value of prophylaxis, 192
 Demoulin, inflammatory pyloric tumour, disappearance after gastro-enterostomy, 328
 De Ott, treatment of cancer of the uterus, 111
 Dermatitis gangrenosa infantum, 342
 Dermoid, ovarian, echinococci simulating, 215
 Desbonnets, nervous complications of diabetes mellitus, 1
 Development, treatment of arrests of, 136
 De Witt, Lydia, myositis ossificans, 327
 Diabetes mellitus, nervous complications of, 1; the prognosis in, 19; mellitus, hepatic opotherapy in, 158; the toxic dyscrasia of, 302; the pancreas in relation to, 323
 Diamantberger, the intensive use of guaiacol in pulmonary tuberculosis, 156
 Diaphragm, ligature of the abdominal aorta below the, 227
 Diarrhoea, tertiary syphilitic, 344
 Diazo-reaction, the, as an aid to prognosis in tuberculosis, 21
 Diet in albuminuria, 157
 Dieulafoy, ulceration of the stomach, 144
 Digestive tract, diphtheria of the, 303
 Digitalin, digitalis, and digitoxin, 218
 Digitalis and its active principles, physiological and therapeutic action of, 135; digitalin and digitoxin, 218
 Digitoxin, digitalis, and digitalin, 218
 Diphtheria of the digestive tract, 303
 ———— antitoxin, the best method of administering, 193
 ———— toxin, action of on the nervous system, 239
 Disease, Bright's, pericarditis in, 181
 Disinfectant, formaldehyde as a, 279
 Disinfectants, aluminium salts as, 319
 Disinfection, gastro-intestinal, 261
 Dislocation, unreduced, of elbow, treatment of, 27

Diverticulum, Meckel's, fatal obstruction, 25
 Doederlein, cervical metritis, 112
 Doléris, etiology and nature of puerperal septicæmia, 123
 Dopter, neuritis following malaria, 163
 Dorland, placental transmission, 87
 Dormiol as a hypnotic, 90
 Dorn, the medicinal treatment of heart disease, 34
 Douglas, apomorphine as a hypnotic without nausea, 173
 Doyen, treatment of biliary lithiasis, 132
 Draghiescu, treatment of apparent death in a newborn infant, 127
 Drainage and paracentesis in hydrocephalus, 351
 Drasche, bilateral pneumothorax, 223
 Drigalski, action of heat rays of light, 53
 Duckworth, the pathology of gonæ, 95
 Duodenum, large doses of olive oil in stenosis of, 219
 Durand-Viel, complete transposition of viscera, 220
 Duret, bladder symptoms in appendicitis, 210
 Dyscrasia, the toxic, of diabetes, 302
 Dysentery in armies in the field, prophylaxis of, 114; in armies in the field, etiology of, 115
 Dystocia, teratoma of fetal omentum, 70

E.

Ebstein, the pathology of gout, 95
 Echinococci simulating ovarian dermoid, 215
 Eclampsia, puerperal, and cerebral hæmorrhage, 88
 Eczema, the parasitic origin of, 36; treatment of in children, 197; infantile, arsenic in, 236
 Ehret, treatment of biliary lithiasis, 132
 Elbow, treatment of unreduced dislocation of, 27
 Electric light, the, in rheumatic affections, 52
 Electricity, static, influence of on the normal body, 178
 Enchondroma, ossifying, of ovary, 334
 Enderleben, wounds in stomach repaired by transplanted omentum, 292
 Endothelioma of bone, 82
 Engelmann, menstrual condition of the average girl in average health, 354
 Epilepsy, cured by an attack of hemiplegia, 61; the treatment of, 89; cortical, operative treatment of, 332
 Epileptic reactions, variability of toxic agents, 201
 Epithelioma, branchial, of the neck, 6
 Erb, larval forms of tabes, 267
 Ergotin in pneumonia, 137
 Ewald, "hetol" in phthisis, 75
 Eyelids, malignant oedema of, 211
 Exercise, treatment of disease by, 56
 Exner, blastomycetes and new growths, 321
 "Exothyropey" in a newly-born infant, 183

F.

Faguet, tuberculosis of a hernial sac, 271
 Far East, plague epidemics in, 117
 Farnier, general paralysis, 41
 Fat embolism, 284
 Faure, surgery of cancer, 109
 Feeding, of infants, 14; artificial of nurslings, 141
 Fenomenoff, treatment of damaged ureter in abdominal section, 273
 Ferri, placenta prævia, 332
 Fersan, 92
 Fever, "hysterical," 60; should it be treated? 134
 ———— enteric, the bath treatment of, 33; among American soldiers, 79; in armies in the field, etiology and prophylaxis of, 113; leucocytosis in, 283; suture of the intestine for perforation in, 293
 ———— hæmoglobinuric bilious, of hot countries, pathology and prophylaxis of, 119; etiology and prophylaxis of, 120; etiology and prophylaxis of the attack of, 121; treatment of, 122
 ———— hay, treatment of by immunisation, 195
 ———— puerperal, etiology and nature of, 124
 Fibroid, Porro-Cæsarean section for labour impeded by, 47; uterine, rapid growth of, 71; pedunculated, torsion of pedicle of, 190; gangrenous of uterus in pregnancy, 251; and pregnancy in uterus bicornis, 297
 Fibroids, uterine, and heart disease, 9; uterine, treatment of, 51
 Fibroma, of mesentery, removal of, 166; calcified ovarian, extreme chronicity, 315
 Fibula, congenital absence of, 361
 Finizio, the plantar reflex in the newborn infant, 207
 Firket, pathology and prophylaxis of bilious hæmoglobinuric fever of hot countries, 119

Fistula, urethral, 307; spontaneous from gastric ulcer, 353
 Fistule, intestino-vaginal, 49
 Fixation plates, treatment of fractures of the leg by, 187
 Fleury, the treatment of epilepsy, 89
 Foa, the pathology of the blood, 322
 Fœtus, arrested labour from distended bladder in, 86; dead, retention of to term, 214
 Fontan, wound of heart successfully treated by suture, 290
 Food substances, new, influence of on intestinal putrefaction, 73
 Foods, artificial, 161
 Forbes, treatment of gonorrhœal arthritis, 237
 Forceps, delivery of live child by fifteen minutes after death of mother, 85
 Formaldehyde as a disinfectant, 279
 Fournier, treatment of biliary lithiasis, 132; tertiary syphilitic diarrhoea, 344; calomel injections in syphilis, 358
 Fowler, subarachnoid coccalisation, 299
 Fracture, complicated, of neck of humerus, treatment of, 26
 Fractures, old, of patella, treatment of, 46; radiography in the study of, 100; of the leg, treatment of by fixation plates, 187
 Franz, rupture of the uterus, 294
 Freudweiler, dangers of hypodermic injections of gelatine, 217
 Freund, pregnancy and fibroid in uterus unicornis, 297
 Fritsch, cervical metritis, 112
 Frolich, etiology of chorea minor, 224
 Funck-Bretano, congenital diaphragmatic hernia, 189
 Fungus, a new pathogenic, formerly described as a protozoon, 339
 Furunculosis, galvanism in the treatment of, 15
 Fussell, examination of the blood, its value to the general practitioner, 2

G.

Gadaged, hæmorrhage at eighth month, rupture of sinus circularis, 216
 Gall bladder, distended, compression of pedicle of movable kidney by, 349
 Gall stone, intestinal obstruction from, 309
 Galloway, potassium iodide in acne, 171
 Galvanism in the treatment of furunculosis, 15
 Ganglion, Gasserian, the way to the, 229
 Gangrene, puerperal, of uterus, 29
 Gardner, treatment of gonorrhœa in women, 68
 Garnier, the tubercle bacillus in the milk of a tuberculous mother, 203
 Garrow, treatment of gonorrhœa, 282
 Gastro-enterostomy, cases of, 104; disappearance of inflammatory pyloric tumour after, 328
 Geelmuyden, acetoneuria, 182
 Gelatine, dangers of hypodermic injections of, 217
 Genevet, "exothyropey" in a newly-born infant, 188
 Ghetti, treatment of sciatica, 257
 Ghilarducci, contraction and spasm in facial paralysis, 62
 Gilbert, treatment of biliary lithiasis, 132; hepatic opotherapy in diabetes mellitus, 158
 Gilles de la Tourette, chorea and chorea gravidarum, 185
 Giordano, pathology and treatment of abscess of the liver, 146
 Girl, average, in average health, menstrual condition of, 354
 Girot, malignant oedema of eyelids, 211
 Glands, tuberculous, in relation to general tuberculous infection, 226; "scrofulous," the tubercle bacillus in, 338
 Gluten-casein as an aid to intestinal suture, 45
 Glycerine as a medium for antiseptics, 234
 Glycosuria in tramps, 326
 Goitre, exophthalmic, the etiology of, 204
 Gonorrhœa, the muscular affections of, 64; treatment of in women, 68; in the genital tract of a newborn child, 251; treatment of, 282
 Gouraud, spleen in female pelvis, 274
 Gout, the pathology of, 95
 Gouzien, treatment of bilious hæmoglobinuric fever, 122
 Grant, relief of lumbago by acupuncture, 176
 Grassi, protection against malaria, 316
 Grön, iodine parotitis, 318
 Growths, new, trauma and, 180
 Grube, the cause of diabetic coma, 320
 Grusen, calcium carbide in inoperable carcinoma of the uterus, 30
 Guaiacol, the intensive use of in pulmonary tuberculosis, 156
 Gunsett, pregnancy and fibroid in uterus unicornis, 297
 Gynaecology, preventive, 351

H.
Haache, pathogeny and treatment of abscess of the liver, 146
Hæmorrhage, cerebral, puerperal eclampsia and, 88; arrest of in resection of the liver, 142; at eighth month, rupture of sinus circularis, 266; intestinal in strangulated hernia, the etiology of, 270; suprapneural, 287; in a case of placenta velamentosa, 312
Hahn, lead poisoning in childhood, 262
Hair, Roentgen rays for the removal of, 74
Hand, lumbar puncture, 300
Harrington, hernia of bladder through the pelvic outlet, 165
Harris, the best method of collecting the urine from the ureters for diagnostic purposes, 350
Hartmann, torsion of hydrosalpinx, 69
Hay fever. See Fever
Hayem, indications for bleeding, 133
Heart, disease of and uterine fibroids, 9; the medicinal treatment of disease of, 34; the, in anæmia, 37; exercise treatment of disease of, 56; suture of wounds of the, 268, 390; the false hypertrophy of in adolescence, 346
Heat rays of light, action of, 53
Hedonal, 55
Heinicke, pregnancy and fibroid in uterus unicornis, 297
Helminthiasis, an unusual symptom in, 244
Hemiplegia, epilepsy cured by an attack of, 61; disturbances of respiration in, 264; functional and organic, the differential diagnosis of, 266
Hernia, umbilical, operation on newborn child for, 28; of bladder through the pelvic outlet, 165; congenital diaphragmatic, 180; congenital lateral ventral, 212; remote results of the radical cure of, 260; strangulated, the etiology of intestinal hæmorrhage in, 270; interstitial inguinal, 272
Herrhold, excision of circumscribed cancer of stomach, 5
"Hetol" in phthisis, 75
Heubner, artificial feeding of nurslings, 141
Hip, resection in tuberculous disease of the, 331
Hirschfeld, the prognosis in diabetes, 19
Histogenesis of malignant tumours, 139
Hobday, toxic symptoms following the use of izar, 280
Hofbauer, the significance of iodophilic leucocytes in diseases of the blood, 196
Hoppe-Seyler, glycosuria in tramps, 326
Hubl, placenta previa, air in veins, 193
Huchard, should fever be treated? 134; prognosis of pneumonia, 225; the false cardiac hypertrophy of adolescence, 346
Humerus, treatment of complicated fracture of neck of, 26
Hurdon, carcinoma of the appendix vermiformis, 310
Hutchins, treatment of boils, 76
Hydatid, retrobulbar, 245
Hydrocephalus, paracentesis and drainage in, 351
Hydrosalpinx, torsion of, 69
Hypnotic, dormiol as a, 90; without nausea, apomorphine as a, 173
Hysterectomy, vaginal, for cancer, 191; abdominal, for cancer, 296
Hysterics, polyuria and pollakiuria of, 183
I.
Ichthalbin in intestinal disorders, 258
Idiocy, pathological anatomy of, 131
Idiots, pupillary anomalies in, 347
III, treatment of uterine fibroids, 51
Immunisation, treatment of hay fever by, 195
Immunity, discussion on at the International Congress of Medicine, 140
Indicanuria, 39
Infant, newborn, treatment of apparent death in, 127; newly born, "exothyropey" in, 188; newborn, the plantar reflex in, 207
Infants, feeding of, the dilution of milk for, 35; dermatitis gangrenosa of, 343
Infection, mixed, in pulmonary tuberculosis, 18; remarks on, 263
Infections, puerperal, etiology and nature of, 125
Insanity, rest in bed in the treatment of acute forms of, 130; after extirpation of brain tumour, 329
Inschitta, aphasia complicating infectious diseases in children, 304
Intestinal disorders, ichthalbin in, 258
Intestine, invasion of wall of by anguillula intestinalis, 38; suture of for perforation in typhoid, 283
Inversion, chronic of uterus, conservative treatment of, 126
Iodine, parotitis, 318
Iodipin in syphilis, 259
Irol, treatment of venereal sores by, 337
Izal, toxic symptoms following the use of, 280
J.
Jacobi, artificial foods, 161
Janakief, post-pneumonic paralysis, 162
Janni, minute changes in varicose veins, 241
Joanin, physiological and therapeutic action of digitalis and of its active principles, 135
Joffroy, variability of epileptic reactions to toxic agents, 201
Jonnescq, surgical treatment of hydatid cysts of the liver, 106; cervical metritis, 112
Jullian, nasal crises in tabes, 145
K.
Katzenstein, gluten-casein as an aid to intestinal suture, 45
Kaygrier, hæmorrhage in a case of placenta velamentosa, 313
Keen, ligature of the abdominal aorta below the diaphragm, 227
Kehrer, pregnancy and fibroid in uterus bicornis, 297
Keller, feeding of infants, 14
Kelly, vaginal hysterectomy for cancer, 191
Kennedy, restoration of movement after nerve section, 67
Kernig's sign, 242
Kessel, umbilical hernia, operation on newborn child, 28
Kidney, tuberculous, the surgery of, 7; diagnosis of insufficiency of, 96; movable, compression of pedicle of by distended gall bladder, 349
Kidneys, elimination of bacteria by, 285
Kijanizn, influence of sterilised air on animals, 94
Kirch, extraction of living twins nineteen minutes after death of mother, 231
Kirmisson, resection in tuberculous disease of the hip, 331
Kleckiegi, etiology and pathogenesis of appendicitis, 308
Kleckowski, ergotin in pneumonia, 137
Klein, venesection in heat stroke, 238
Klemperer, methylene blue as an analgesic, 235
Klengensmith, extrauterine foetal bones retained seventeen years, 252
Klengmüller, iodipin in syphilis, 259
Knot, amniotic in umbilical cord, 52
Knott, interstitial inguinal hernia, 272
Kobler, "hysterical fever," 60
König, the surgery of tuberculous kidney, 7; abdominal hysterectomy for cancer, 296; pupillary anomalies in idiots, 347
Korsakoff, rest in bed in the treatment of acute forms of insanity, 130
Krajewski, surgical treatment of rectal prolapse, 248
Krause, intracranial resection of the trigeminal nerve, 147; the way to the Gasserian ganglion, 229
Krönig, etiology and nature of puerperal fever, 12
Krokiewicz, treatment of tetanus with subcutaneous injections of brain emulsion, 335
Kronheimer, spontaneous fistula from gastric ulcer, 353
Krzyształowicz, treatment of lupus by Unna's method, 281
Küstner, the palliative treatment of inoperable uterine cancer, 275
Kukula, the etiology of intestinal hæmorrhage in strangulated hernia, 270
L.
Laache, diagnosis of renal insufficiency, 96
Labour, impeded by fibroid, Porro-Cesarean section for, 47; arrested, from distended bladder in fetus, 86; extirpation of septic cancerous uterus after, 170; normal, after unnecessary Cesarean section, 238
Landmann, a new method of toxic treatment in tuberculosis, 7
Lang, prophylaxis of syphilis, 84
Langmann, antiperistalsis and faecal vomiting, 3
Larkin, neurotic, broncho-pneumonia in association with a streptothrix, 341
Larynx, the diagnosis of cancer of and its treatment, 4; transplantation of Thiersch's grafts on the inner surface of, 291
Lavagna, retrobulbar hydatid, 245
Laxative, sodium sulphate in small doses as a, 138
Lead poisoning in childhood, 262
Le Count, lymphoma, malignant or innocent? 59
Le Dantec, tropical phagedæna, 148

Le Gendre, the pathogeny of gout, 95
Lejars, treatment of infected wounds, 101
Lénart, transplantation of Thiersch's grafts on the inner surface of the larynx and trachea, 291
Lenormand, complete transposition of viscera, 220
Lens, crystalline, regeneration of, 330
Lepage, Porro-Cesarean section for labour impeded by fibroid, 47; treatment of apparent death in a newborn infant, 127
Lepine, should fever be treated? 134; the toxic dyscrasia of diabetes, 302
Lereboullet, cacodylate of iron, 154; tertiary syphilitic diarrhoea, 344
Leucocytes, iodophilic, the significance of in diseases of the blood, 196
Leucocytosis in typhoid fever, 283
Leukæmia, a parasite in, 78
Lévy, the treatment of chorea, 91
Lewin, influence of the new food substances on intestinal putrefaction, 73
Lexer, removal of fibroma of mesentery, 166
Ligature of the abdominal aorta below the diaphragm, 227; of the aorta, 228
Light, action of heat rays of, 53; influence of on morbid processes, 200
" " treatment, the, in rodent ulcer, 298
Lindemann, uræmia and toxic nephritis, 240
Lindfors, double vulvar tumour, 50
Lingual. See Tongue
Lipes, dermatitis gangrenosa infantum, 343
Lithiasis, biliary treatment of, 132
Liver, surgical treatment of hydatid cysts of the, 106; arrest of hæmorrhage in resection of, 142; pathogeny and treatment of abscess of the, 146; elimination of bacteria by, 285; solitary adenoma of the, 306; hydatid cysts of the, 325
Loeper, hypodermic versus cerebral injections of antitetanus serum, 174
Löwit, a parasite in leukæmia, 78
Loison, treatment of unreduced dislocation of elbow, 27
Ludwig, panhysterectomy for cancer of pregnant uterus, 10
Lumbago, relief of by acupuncture, 176
Lumbar puncture, 300
Lund, operations for perforating gastric ulcers, 83
Lungs, actinomycosis of the, 288
Lunz, operative treatment in cortical epilepsy 352
Lupus, treatment of by Unna's method, 281; treatment of, 357
Luxations, radiography in the study of, 100
Luzzato, etiology of whooping-cough, 222
Lymphoma, malignant or innocent? 59
M.
Mackenzie, the early diagnosis of laryngeal cancer and its treatment, 4
Malaria, neuritis following, 163; protection against, 316
Male, non-congenital urinary pouch in the, 208
Mænegæ, anæsthesia by means of intramedullary injections of cocaine, 260
Manberg, treatment of muco-membranous colitis, 97
Manquat, sodium sulphate in small doses as a laxative, 138
Marchant, complete prolapse of rectum, 247
Marchoux, etiology and prophylaxis of the hæmoglobinuric attack, 121
Marro, the psychoses of puberty, 129
Marschner, tertiary syphilis appearing in pregnancy, 194
Marx, cocaine in midwifery, 150
Masius, pulmonary oedema, 98
Mathieu, treatment of muco-membranous colitis, 97
Maunoury, radiography in the study of fractures and luxations, 100
Maylard, exploratory operations on the stomach, 202
Meckel's diverticulum. See Diverticulum
Membrane, mucous, of urethra, prolapse of, 230
Mendes de Leon. See De Leon
Menge, etiology and treatment of puerperal fever, 124
Meningitis, purulent, bacteriology of, 57
Menopausis, psychoses of the, 333
Menstrual condition of the average girl in average health, 354
Mesentery, removal of fibroid of, 166
Methylene blue as an analgesic, 235
Metin, elimination of bacteria by the liver and kidneys, 285; pathology of plague, 301
Metritis, cervical, 112
Michaelis, the diazo-reaction as an aid to prognosis in tuberculosis, 21
Michaud, results, immediate and remote of cholecystectomy, 143
Micro-organisms in ascariides, 58

- Midwifery, cocaine in, 150
 Mierzejewski, pathological anatomy of idiocy, 131
 Milk, the dilution of for infants, 35; of a tuberculous mother, the tubercle bacillus in, 203
 Minime, the electric light in rheumatic affections, 52
 Mittermaier, extirpation of septic cancerous uterus after labour, 170
 Moffitt, a new pathogenic fungus, formerly described as a protozoon, 339
 Mollities ossium, the ovary in, 356
 Monomethyl-xanthine, 13
 Monprofit, gastro-entrostomy, 104
 Monseaux, treatment of psoriasis by oil of cade baths, 336
 Montini, paracentesis and drainage in hydrocephalus, 351
 Morbid processes, the influence of light on, 200
 Morel, rest in bed in the treatment of acute forms of insanity, 130
 Morestin, pessaries and uterine cancer, 12; cancer of the cheek, 110; amputation in error of inverted uterus, 171; intestinal obstruction from gall stone, 309
 Morisani, cervical metritis, 112
 Moscheowitz, the treatment of tetanus, 278
 Mother, tuberculous, the tubercle bacillus in the milk of, 203; extraction of living twins nineteen minutes after death of, 231
 Moubinoff, the electric light in rheumatic affections, 52
 Movement, [restoration of after nerve section, 67
 Münchmeyer, pregnancy with gangrenous fibroid, 255
 Muscle tone and tendon reflexes, 40
 Muscular affections of gonorrhoea, 64
 Muskens, muscle tone and tendon reflexes, 40
 Musser, the best method of administering diphtheria antitoxin, 198
 Myositis ossificans, two cases of, 327
- N.
- Nails, striation of, 22
 Nakanishi, a new bacillus of vaccine lymph, 179
 Nartowski, action of diphtheria toxin on the nervous system, 239
 Naruth, the radical treatment of varicocele, 65
 Nasal crises in tabes, 145
 Naunyn, treatment of biliary lithiasis, 132
 Neck, branchial epithelioma of the, 6
 Neisser, rest in bed in the treatment of acute forms of insanity, 130
 Nephrectomy, indications for, 289
 Nephritis, toxic, and uremia, 240
 Nerve, restoration of movement after section of, 67; trigeminal, intracranial resection of, 147
 Nervous system, action of diphtheria toxin on the, 239
 Neuberger, arsenic in infantile eczema, 236
 Neumann, forceps delivery of live child fifteen minutes after death of mother, 85
 Neuritis, following malaria, 163; multiple, the earliest symptoms of, 305
 Nicati, gastro-intestinal disinfection, 261
 Nicoletti, anaesthesia by subarachnoid injections of cocaine in the lumbar region, 107
 Noorden, v., tuberculous glands in relation to general tuberculous infection, 226
 Norris, necrotic broncho-pneumonia in association with a streptothrix, 341
 Nose, catarrhal affections of the, 184
 Novy, primary cancer of Fallopian tube, 151
 Nurslings, artificial feeding of, 141
- O.
- Obesity, precocious, 134
 Obstruction, fatal, from Meckel's diverticulum, 25; intestinal, from gall stone, 309
 Oedema, pulmonary, 98; malignant of eyelids, 211
 Oil of cade, treatment of psoriasis by baths of, 336
 Olive oil, large doses of in stenosis of the pylorus and duodenum, 219
 Olschhausen, rapid growth of uterine fibroid, 71
 Omentum, fetal, teratoma of, 70; transplanted, wounds in stomach repaired by, 292
 Ophitis, a new pathogenic fungus, formerly described as a protozoon, 339
 Opothorapy, hepatic, in diabetes mellitus, 158
 Oppenheim, hypodermic versus cerebral injections of antitetanus serum, 174
 Ovariectomy, statistics of, 250
 Ovary, ossifying enchondroma of, 334; the, in mollities ossium, 356
 Oxyuriasis, cutaneous, 348
- P.
- Pajor, artificial carbonic acid baths, 16
 Palate, cleft, closure of by lingual implantation, 44
 Pancreas, surgery of the, 99; the, in relation to sugar reduction and diabetes, 323
 Panhysterectomy for cancer of pregnant uterus, 10
 Papi, an unusual symptom in helminthiasis, 244
 Paquy, dystocia, teratoma of foetal omentum, 70
 Paracentesis and drainage in hydrocephalus, 351
 Paralysis, family periodic, 23; general, 41; facial, contraction and spasm in, 62; transplantation of tendons in treatment of, 105; post-pneumonic, 162; diphtherial and antitoxin, 256; Brown-Sequard's, 265
 Parascandolo, actinomycosis of the lungs, 288
 Parasite, a, in leukaemia, 78
 Parasitic bodies in vaccinia vesicles, 202
 Parotitis (iodine), 318
 Patella, treatment of old fractures of, 46
 Pathogeny of gout, 95
 Pathology of plague, 77, 301
 Pedicle, twisted, in extrauterine pregnancy, 152; of pedunculated fibroid, torsion of, 190
 Peham, deciduoma malignum, pulmonary symptoms, 11
 Pelvis, female, spleen in, 274
 Pericarditis in Bright's disease, 181
 Pericardotomy through the thoracic insertion of the rectus abdominis, 108
 Pessaries and uterine cancer, 12
 Pestalozza, etiology and nature of puerperal infections, 125
 Petersen, blastomycetes and new growths, 321
 Petrini, case of psoriasis cured by thyroid extract, 199
 Peyrot, auto-infection in cases of hydatid cysts, 24
 Phagedæna, tropical, 148
 Pharynx, catarrhal affections of the, 184
 Phosphate of lime, hypodermic injections of in pulmonary phthisis, 155
 Phthisis, "hætol," in, 75
 Pinard, treatment of apparent death in a newborn infant, 127
 Placenta, single, in a case of triplets, 153; prævia, air in veins, 193; cysts of, 276; velamentosa, hemorrhage in a case of, 313; prævia, 97 cases of, 332
 Plague, pathology of, 77, 301; epidemics of in the Far East, 117
 Pleurisy, sero-fibrinous, the remote prognosis of, 205
 Pneumonia, the pathogenesis of, 80; etiology of, 93; ergotin in, 137; prognosis of, 225
 Pneumothorax, bilateral, 223
 Podwysotski, the histogenesis of malignant tumours, 139
 Pokrovsky, calcified ovarian fibroma, extreme chronicity, 315
 Pollakiuria of hysterics, 183
 Polymyositis, case of, 243
 Polyuria of hysterics, 183
 Popoff, the earliest symptoms of multiple neuritis, 305
 Porro-Cæsarean section for labour impeded by fibroid, 47
 Potassium iodide in acne, 175
 Pouch, non-congenital urinary, in the male, 208
 Pouly, non-congenital urinary pouch in the male, 208
 Pozzi, cervical metritis, 112; extrauterine pregnancy, twisted pedicle, 152
 Pregnancy, early tubal, difficulties in diagnosis, 149; extrauterine, twisted pedicle, 152; ectopic, perforation of bladder in, 172; tertiary syphilis appearing in, 194; and Alexander's operation, 254; with gangrenous fibroid of uterus, 255; and fibroid in uterus bicornis, 297; the circulatory apparatus in, 355
 Prostate, complete, of rectum, 247; rectal, surgical treatment of, 348
 Prophylaxis, of syphilis, 84; value of in breech presentations, 192
 Proteus vulgaris, the, and the serum reaction, 17
 Protozoon, a new pathogenic fungus formerly described as a, 339
 Psoriasis, case of cured by thyroid extract, 159; treatment of by oil of cade baths, 336
 Psychoses, of puberty, 129; of the menopause, 333
 Puberty, psychoses of, 129
 Puerperium, the, and asthma, 123
 Puerperal symptoms in deciduoma malignum, 11
 Puncture, lumbar, 300
 Pupillary anomalies in idiots, 347
 Pusey, Roentgen rays for the removal of hair,
- Putnam, family periodic paralysis, 22
 Putrefaction, intestinal, influence of the new food substances on, 73
 Pylorus, resection of the, 168; large doses of olive oil in stenosis of, 219
 Pyosalpinx, the danger of, 253
- R.
- Rachlmann, blepharitis and scabies, 8
 Racoriceanu-Pitesci, anaesthesia by subarachnoid injections of cocaine in the lumbar region, 107
 Radestock, iodopin in syphilis, 259
 Radiography. See Roentgen
 Radzievsky, on infection, 263
 Randolph, regeneration of crystalline lens, 330
 Ransom, diphtherial paralysis and antitoxin, 256
 Rapin, treatment of apparent death in a newborn infant, 127
 Reale, indicantaria, 39
 Rectum, complete prolapse of, 247; surgical treatment of prolapse of, 248
 Reflex, the plantar, in the newborn infant, 207
 Regeneration of crystalline lens, 330
 Kenny, detection of typhoid bacilli in the stools, 221
 Rendu, pulmonary rheumatism, 20
 Resection in tuberculous disease of the hip, 331
 Respiration, disturbances of in hemiplegia, 204
 Rest in bed in the treatment of acute forms of insanity, 130
 Raymond, suture of wounds of the heart, 268; compression of pedicle of movable kidney by distended gall bladder, 349
 Rheumatism, pulmonary, 20; the electric light in, 52
 Ribbert, fat embolism, 284
 Ribemont-Dessaignes, treatment of apparent death in a newborn infant, 127
 Richelot, treatment of cancer of the uterus, 111
 Rille, treatment of eczema in children, 197
 Robin, indications for bleeding, 133; should fever be treated? 134; diet in albuminuria, 157
 Robson, surgery of the pancreas, 99
 Rodella, proteus vulgaris and the serum reaction, 17
 Rodman, the surgical treatment of gastric ulcer, with hemorrhage but without perforation, 186
 Roentgen rays, in surgery, 43; treatment of rodent ulcer by, 54; in pulmonary surgery, 66; in the study of fractures and luxations, 100
 Roger, the tubercle bacillus in the milk of a tuberculous mother, 203
 Roglet, Kernig's sign, 242
 Rolly, ichthalbin in intestinal disorders, 258
 Roux, intestinal and gastro-intestinal anaestomosis, 102
 Runsborg, arterio-sclerosis, 286
 Rydygier, resection of the pylorus, 168
- S.
- Sac, hernial, tuberculosis of, 271; foetal, rupture of into an ovarian cyst, 277
 Saquépée, neuritis following malaria, 163
 Salanoue-Ipin, the remote prognosis of sero-purulent pleurisy, 205
 Saniter, single placenta in a case of triplets, 153
 Sata, mixed infection in pulmonary tuberculosis, 18
 Scabies and blepharitis, 8
 Scharfe, the ovary in mollities ossium, 356
 Scheffer, treatment of alopecia, 317
 Scheib, bacteriology of purulent meningitis, 57
 Schenk, congenital lateral ventral hernia, 212
 Schmidt, Meckel's diverticulum, fatal obstruction, 25
 Schoedel, diphtheria of the digestive tract, 303
 Schramm, mesenteric cyst, 213
 Schucking, extemporaneous methods of water purification, 116
 Schilltze, dormiol as an hypnotic, 90
 Schuler, hedonal, 55
 Schultze, treatment of apparent death in a newborn infant, 127
 Schulz, Madame, etiology of pneumonia, 93
 Schwarz, torsion of pedicle of pedunculated fibroid, 190
 Sciatica, treatment of, 257
 Segale, arrest of hemorrhage resection of the liver, 142
 Selberg, malignant adenoma, 312
 Selhorst, Cæsarean section twice in the same subject, 233
 Septicæmia, puerperal, etiology and nature of, 123
 Sérioux, general paralysis, 41
 Serum antitetanus, hypodermic versus cerebral injections of, 174

- Serum reaction, the, and proteus vulgaris, 17
Servaux, variability of epileptic reactions to toxic agents, 201
Serve, muscular affections of gonorrhoea, 64
Severeanu, anaesthesia by subarachnoid injections of cocaine in the lumbar region, 107
Shuttleworth, pathological anatomy of idiocy, 131
Siegel, parasitic bodies in vaccinia vesicles, 202
Siberstein, ferstan, 92
Simond, plague epidemics in the Far East, 117
Simonelli, disturbances of respiration in hemiplegia, 264
Simonin, etiology of dysentery in armies in the field, 115
Sinus circularis, rupture of, hæmorrhage at eighth month, 216
Smith, F., treatment of strabismus in young children, 34
— R. E., preventive gynaecology, 31
Sodium sulphate in small doses as a laxative, 138
Soldiers, American, typhoid fever among, 79
Sore, venereal, treatment of with itrol, 337
Soulloux, intestinal and gastro-intestinal anastomosis, 102
Spasm and contraction in facial paralysis, 62
Spine, ankylosis of the, 107
Spinelli, conservative treatment of chronic inversion of uterus, 126
Spleen in female pelvis, 274
Springer, treatment of arrests of development, 136
Steinbach, treatment of fractures of the leg by fixation plates, 187
Stenbeck, treatment of rodent ulcer by x rays, 51
Stenosis of the pylorus and duodenum, large doses of olive oil in, 219
Sternberg, echinococci simulating ovarian dermoid, 215
Sternum, thoracic aneurysm presenting intermittently through the, 324
Stimson, operative treatment of arterio-venous aneurysm, 209
Stokvis, should fever be treated? 134
Stomach, excision of circumscribed cancer of, 5; exploratory operations on the, 103; ulceration of the, 144; wounds in, repaired by transplanted omentum, 292
Stools, detection of typhoid bacilli in the, 221
Strabismus, in young children, treatment of, 34
Stratmann, treatment of apparent death in a newborn infant, 127
Stratz, pregnancy and Alexander's operation, 254
Streptothrix, necrotic broncho-pneumonia in association with, 341
Striation, ungual, 22
Struppler, polymyositis, 243
Sugar reduction, the pancreas in relation to, 323
Surgery, of tuberculous kidney, 7; the x rays in, 43; pulmonary, radiography in, 66; of the pancreas, 99; of cancer, 109
Suture, intestinal, gluten-casein as an aid in, 45; of wounds of the heart, 268, 290; of intestine for perforation, in typhoid, 293
Swochotoff, the uric acid diathesis, 81
Syphilis, prophylaxis of, 84; tertiary, appearing in pregnancy, 194; calomel injections in, 358
T.
Tabes, nasal crises in, 145; larval forms of, 267
Teissier, pulmonary oedema, 98
Tendon reflexes and muscle tone, 40
Tendons, transplantation of in the treatment of paralysis, 105
Teratoma of foetal omentum, 70
Terrier, suture of wounds of the heart, 268
Tetanus, prophylaxis of in hot countries, 118; the treatment of, 278; treatment of in the subcutaneous injections of brain emulsion, 335
Thévinot, endothelioma of bone, 82
Thiersch's grafts, transformation of on the inner surface of the larynx and trachea, 291
Thoinot, malignant oedema of eyelids, 211
Thymus gland, therapeutic use of, 159
Thyroid gland, psoriasis cured by extract of, 199
Tillaux, ligature of the aorta, 228
Tongue, closure of cleft palate by implantation of, 44
Torok, the parasitic origin of eczema, 36
Torsion of hydrosalpinx, 69
Toth, early tubal pregnancy, difficulties in diagnosis, 147; the danger of pyosalpinx, 253
Toxic agents, variability of epileptic reactions to, 201
Toxin treatment in tuberculosis, a new method of, 72
Trachea, transplantation of Thiersch's grafts on the inner surface of, 291
Tramps, glycosuria in, 326
Transmission, placental, 87
Trauma and new growths, 180
Treves, ungual striation, 22
Triplets, single placenta in a case of, 153
Tube, Fallopian, primary cancer of, 151
Tuberculosis, pulmonary, mixed infection in, 18; the diazo-reaction as an aid to prognosis in, 21; a new method of toxin treatment in, 72; pulmonary, hypodermic injections of phosphate of lime in, 155; pulmonary, the intensive use of guaiacol in, 155; rectal injection of cod-liver oil in, 177; of a hernial sac, 271
Tuberculous infection, tuberculous glands in relation to, 226
Tuffier, radiography in pulmonary surgery, 66; anaesthesia by subarachnoid injections of cocaine in the lumbar region, 107; inflammatory pyloric tumour, disappearance of after gastro-enterostomy, 328
Tumour, double vulvar, 50; dermoid, of pelvic connective tissue, 314; inflammatory pyloric, disappearance of after gastro-enterostomy, 328; of brain, insanity after extirpation of, 329
Tumours, malignant, the histogenesis of, 139
Twins, living, extraction of nineteen minutes after death of mother, 231
Typhoid fever. See Fever, enteric
U.
Ulcer, rodent, treatment of by x rays, 54; gastric, with hæmorrhage but without perforation, the surgical treatment of, 186; rodent, the light treatment in, 295; gastric, spontaneous fistule from, 353
Ulceration of the stomach, 144
Ulcers, perforating gastric, operations for, 83
Umbel, the pancreas in relation to sugar reduction and diabetes, 323
Umbilical cord. See Cord
Ungual. See Nails
Unna's method, treatment of lupus by, 281
Unterberger, urethral fistula, 307
Uræmia and toxic nephritis, 240
Urbain, rupture of a foetal sac into an ovarian cyst, 277
Ureter, damaged, treatment of in abdominal section, 273
Ureters, best method of collecting the urine from for diagnostic purposes, 350
Urethra, prolapse of mucous membrane of the, 230
Uric acid diathesis, the, 81
Urine, best method of collecting from ureters for diagnostic purposes, 350
Uterus, fibroids of, and heart disease, 9; pregnant, panchstercotomy for cancer of, 10; pesaries and cancer of, 11; puerperal gangrene of, 29; calcium chloride in inoperable carcinoma of, 30; septic, total extirpation of, 48; treatment of fibroids of, 51; rapid growths of fibroid of, 71; treatment of cancer of the, 111; septic cancerous, extirpation of after labour, 170; inverted, amputation of in error, 171; pregnancy with gangrenous fibroid of, 255; palliative treatment of inoperable cancer of, 275; rupture of the, 294; cancer of the body of, 295; unicornis, pregnancy and fibroid in, 297
V.
Vaccine lymph, a new bacillus of, 179
Vaccinia vesicles, parasitic bodies in, 202
Vaquez, exercise treatment of heart disease, 56
Varicocele, the radical treatment of, 65
Varicose veins. See Veins
Vas deferens, cæcum adherent to, 249
Vaughan, typhoid fever among American soldiers, 79
Vean, branchial epithelioma of neck, 6
Veins, air in the, placenta prævia, 193; varicose, minute changes in, 241
Venereal sores, treatment of with itrol, 337
Venesection in heat stroke, 238
Vermiform appendix. See Appendix
Verrier, treatment of apparent death in a newborn infant, 127
Vincent, the etiology and prophylaxis of typhoid fever in armies in the field, 113; extemporaneous methods of water purification, 116
Viscera, complete transposition of, 220
Voillemin, prolapse of urethral mucous membrane, 230
Voinitch-Sianofjensky, pericardotomy through the thoracic insertion of the rectus abdominis, 108
Voisin, psychoses of puberty, 129
Vomiting, fecal and antiperistalsis, 3
Voron, intestine-vaginal fistule, 49
Vulpus, transplantation of the tendons in the treatment of paralysis, 105
Vulva, double tumour of, 50
W.
Wallich, treatment of apparent death in a newborn infant, 127
Wanschheim, V., glycerine as a medium for antiseptics, 237
Water, extemporaneous methods of purification of, 116
Weill, the intensive use of guaiacol in pulmonary tuberculosis, 156
Wells, catarrhal affections of the nose and pharynx, 284
Wende, danger of the long-tube nursing bottle, 169
Werler, treatment of venereal sores with itrol, 337
Whooping-cough, etiology of, 222
Wilcox, senile bronchitis, 164
Women, treatment of gonorrhoea in, 68
Wood, digitalis, digitalin, and digitoxin, 218
— W. W., congenital absence of fibula, 361
Woods, Brown-Séquard's paralysis, 265
Wound of the heart, suture of, 268, 290
Wounds, infected, treatment of, 201; in stomach repaired by transplanted omentum, 292
Wirz, trauma and new growths, 180
Wybauw, the heart in anæmia, 37
X.
X Rays. See Roentgen
Y.
Yersin, plague epidemics in the Far East, 117
Yvon, influence of static electricity on the normal body, 178
Z.
Zabolotny, pathology of plague, 77
Zängerle, agglutinative property in typhoid blood conferred on a child in utero, 340
Zeuner, rectal injection of cod-liver oil in tuberculosis, 177
Zichen, psychoses of puberty, 129
Zipperlen, total extirpation of septic uterus, 48
