

THE CORRIGAN ELECTION FUND.

THE medical subscription to the Corrigan Election Fund approaches £1,200, a large proportion of which has been subscribed by those opposed to his political views.

QUEEN'S COLLEGE, CORK.

MR. Samuel Hawkes has obtained the first scholarship of this year in Medicine, after a sharp competition.

DUBLIN QUARTERLY JOURNAL OF MEDICINE.

DR. G. H. KIDD having resigned the editorship of this valuable periodical, he has been succeeded by Dr. James Little, who for some years has been one of its most able contributors.

LYING-IN HOSPITAL, ROTUNDO, DUBLIN.

THE period for which Dr. Denham was elected to the Mastership having expired, he was succeeded by Dr. George Johnston, last Friday. The emoluments are said to average £1000 yearly.

ADELAIDE HOSPITAL, DUBLIN.

THE opening address was delivered by Dr. Richardson, surgeon to the hospital; and at its conclusion he delivered the following prizes; viz., Medical: Senior, Mr. Richard D. Bennett; Junior, Mr. Knaggs. Surgical: Senior, Mr. Battersby and Mr. Bennett (equal); Junior, Mr. Knaggs. Eye Surgery: First, Mr. Bradley; Second, Mr. Stone.

DEATH OF DR. STRONGE, OF DUBLIN.

WE regret extremely to record that Dr. Stronge has succumbed to an attack of malignant typhus, which he is supposed to have contracted in the discharge of his professional duties. He was elected last May to the Surgeoncy of the Meath Hospital, and was deservedly most popular among his brethren. He had previously practised in Belfast.

MEDICAL REPRESENTATION IN PARLIAMENT.

A MEETING of the members of the medical profession of the town and country was held on Tuesday, in the Molesworth Place Hall, to consider the expediency of supporting the medical candidate in Dublin for the House of Commons; Dr. Lyons in the chair. Dr. R. McDonnell, F.R.S., moved, and Dr. Hynes, President of the Connaught Branch of the Irish Medical Association, seconded, the first resolution—"That, in the opinion of this meeting, it is in the highest degree desirable, on public as well as professional grounds, that a medical man of eminence, as representative of the medical profession, should be returned to the new Parliament. Professor Hayden moved, and Dr. Ashe of Warren-

point seconded—"That this meeting has learned with great regret that the Council of the Irish Medical Association, a body for years professing its anxiety to establish professional representation in Parliament, has declined to act on the present occasion, when the opportunity presents itself of promoting the return of a medical candidate." Dr. O'Meara of Carlow then proposed, and Dr. Cruise seconded, the next resolution; namely—"That this meeting is of opinion that it is most desirable to take immediate steps to secure the return of a representative of the medical profession in Ireland." Sir D. Corrigan, having been called on by the Chairman, spoke at great length, and stated his views most explicitly on several subjects of interest to the profession. It was then moved by Dr. Fitzpatrick, and seconded by Dr. Byrne—"That this meeting, having heard the exposition of Sir D. Corrigan's views, pledges itself to use its best exertions to secure his return." Dr. Mapother moved, and Dr. Davys, Coroner, seconded—"That this meeting is of opinion that the best course to obtain superannuation for medical officers is by the introduction of a special Bill for that purpose, as suggested by Sir D. Corrigan in his address to the profession." Dr. Cryan moved, and Dr. Brady seconded, the last resolution; namely—"That the cordial thanks of this meeting be given to the country medical practitioners, who have so well supported the cause of the representation of our profession in Parliament by their liberal subscriptions." On the motion of Mr. Tyrrell, seconded by Dr. Walshe, a vote of thanks to the Chairman was unanimously passed.

ROBERT L. BOWLES, *Hon. Secretary*.

SHROPSHIRE ETHICAL BRANCH: ANNUAL MEETING.

THE Annual Meeting of this Branch was held at the Lion Hotel, Shrewsbury, on October 27th, at 1.30 P.M. The President, W. J. CLEMENT, Esq., M.P., having been telegraphed for in consultation on a case of great urgency, the Vice-President, Dr. ROE, took the Chair. Twenty-five members were present, several having travelled considerable distances.

The following resolutions were unanimously passed.

Vote of Thanks.—"That the cordial thanks of the meeting be given to the late President, Vice-President, Council, and Honorary Secretaries, for their valuable services during the past year."

Election of Officers.—"That Dr. Roe be elected President, and Alfred Mathias, Esq., Vice-President, and the following gentlemen members of the Council, for the ensuing year, in the place of those who retire by rotation or otherwise: John Brown, Esq.; J. Edmunds, Esq.; J. Glover, Esq.; Robert Jones, Esq.; and J. W. Procter, Esq."

Representation of the Branch in the General Council.—"That, in accordance with the eighth general law of the British Medical Association, W. J. Clement, Esq., M.P., J. W. Roe, M.D., and Alfred Mathias, Esq., be the representatives of the Branch in the General Council for the ensuing year."

The JOURNAL.—"That this meeting desires to record its satisfaction at the continued general improvement of the JOURNAL of the Association under its present able editor."

The Medical Act.—"An amendment of the Medical Act being of great public as well as of professional importance, it is desirable that

every support be rendered to the General Medical Council in their efforts to obtain it; and that a petition in support of the Medical Acts Amendment Bill be drawn up and signed by the President and Honorary Secretaries, and, at the proper time, presented to both Houses of Parliament; and also that a representation or memorial, embodying the amendments most essential, be made to Her Majesty's Government, and entrusted to our present worthy member, W. J. Clement, Esq., M.P., for presentation (if re-elected.)"

Direct Representation in the Medical Council.—"That a memorial to Her Majesty's Government, and petitions to both Houses of Parliament, be presented by this Branch in favour of the direct representation of the medical profession in the Medical Council; and that such memorial and petitions be drawn up and signed by the President and Honorary Secretaries." Also, "That every opportunity be taken by the members of the Branch to impress upon the candidates for seats in the House of Commons during the ensuing elections, and upon members of Parliament, the great importance to the public welfare of the direct representation of the profession in the Medical Council."

Committee on Sick-Club Remuneration, Vaccination Fees, and Medical Charges.—"That a Committee, to consist of the following members, with power to add to their number, be formed, to consider and report on the subject of medical charges and vaccination fees, with the view to prepare a tariff applicable to the respective classes of society throughout the county and districts of the Branch; also to consider and report as to the best means of supporting the movement, inaugurated in Birmingham, having for its object a fair and just remuneration for medical attendance upon the members of sick-clubs and benefit-societies:—W. J. Clement, Esq., M.P.; James Bretton, Esq., Shrewsbury; Dr. Beddoes, Shrewsbury; A. G. Brookes, Esq., Shrewsbury; J. R. Humphreys, Esq., Shrewsbury; J. Bromfield, Esq., Whitechurch; W. P. Brookes, Esq., Much Wenlock; W. K. Brock, Esq., Llandrinio; Dr. Fuller, Oswestry; J. Glover, Esq., Dorrington; J. B. Gwynne, Esq., Wem; E. T. D. Harrison, Esq., Welshpool; J. Hickman, Esq., Brockton; C. H. Johnson, Esq., Shiffnal; Robert Jones, Esq., Streford; W. W. Jones, Esq., Cleobury Mortimer; T. Morgan, Esq., Madeley; John Rider, Esq., Wellington; Dr. Roe, Ellesmere; Dr. Sandford, Market Drayton; W. Thursfield, Esq., Bridgnorth; K. Wilding, Esq., Church Stretton; and the Honorary Secretaries. Five to form a quorum."—An interesting and practical discussion succeeded the reading of the preceding resolution, in the course of which Dr. Heslop of Birmingham and several of the Branch members favoured the meeting with the results of their experience in the matter.

Thanks to the Chairman.—"That the thanks of the meeting be given to Dr. Roe for the ability and courtesy with which, in the unavoidable absence of the President, he has conducted the business of the meeting, and for his uniform efforts to uphold the honour and interests of the profession."

In consequence of the prolonged discussion on the seventh resolution, the reading of various papers and cases was necessarily deferred.

The Dinner.—At 5 P.M., between forty and fifty gentlemen sat down to an excellent dinner in the ball-room (which had been beautifully decorated for the occasion), under the presidency of W. J. Clement, Esq., M.P.; the vice-chairs being filled by Dr. Styrap and Dr. Roe. The following eminent associates, etc., honoured the President with their presence as guests of the Branch: Dr. Gibson, F.R.S., London; Dr. Falconer, Bath; Rev. W. H. Moss; Rev. J. Rigg, Shrewsbury; H. M. Clayton, Esq., Birmingham; Ernest Hart, Esq., London; Dr. Heslop, Birmingham; T. Nunneley, Esq., Leeds; J. V. Solomon, Esq., Birmingham; Dr. A. T. H. Waters, Liverpool; Dr. Wilkinson, Manchester; and T. W. Williams, Esq., Birmingham; also W. K. Brock, Esq., Llandrinio; J. Bromfield, Esq., Whitechurch; J. S. Davies, Esq., Oswestry; Dr. Fuller, Oswestry; J. B. Gwynne, Esq., Wem; J. Glover, Esq., Dorrington; F. H. Hartshorne, Esq., Broseley; J. Hickman, Esq., Brockton; C. H. Johnson, Esq., Shiffnal; A. Mathias, Esq., Bridgnorth; Dr. McClintock, Church Stretton; Dr. Meteyard, Cleobury; J. Morgan, Esq., Waters Upton; T. A. F. Scott, Esq., Knighton; Dr. Hyman, Newtown; Dr. Thursfield, Bridgnorth; R. Wilding, Esq., Church Stretton; J. G. Wilson, Esq., Wem; Dr. Andrew; Dr. Beddoes; J. Bratton, Esq. (the Mayor); A. G. Brookes, Esq.; A. P. Cartwright, Esq.; J. R. Humphreys, Esq.; F. Whitwell, Esq.; and W. O. Withers, Esq., Shrewsbury; etc. The following were unavoidably absent, as were also several country practitioners who fully intended to be present, to support the worthy President and do honour to their distinguished guests, but were unfortunately prevented by urgent professional engagements: Dr. Bell Fletcher, Birmingham; W. D. Husband, Esq., York; Dr. Parkes, Netley; Dr. Sieveking, London; G. Southam, Esq., Manchester; Dr. Stewart, London; and Dr. Stokes, Dublin.

In the evening, there was a reception at the House of Mr. Clements; and next morning Mr. Humphreys gave a champagne breakfast.

REPORTS OF SOCIETIES.

MEDICAL SOCIETY OF LONDON.

NOV. 2ND, 1868.

B. W. RICHARDSON, M.D., F.R.S., President, in the Chair.

MR. ALFRED COOPER showed a Calculus which he had removed from the bladder of a boy, aged 12, by the lateral operation of lithotomy. The point of interest was that the boy had been in the West London Hospital for seventeen days without showing a symptom of the presence of the foreign body.

MR. COOPER also exhibited three Polypi of the Rectum, one of which he had removed from a child, one from a lady, and one from a gentleman. He had used the ligature in all cases, and all had been mistaken for hemorrhoids.

MR. HENRY SMITH showed a Stone, weighing five and a-half ounces, which he had removed from a woman's bladder. She had suffered eight or ten years from the disease. He extracted the calculus piecemeal by an incision made through the vagina. The patient had since died.

MR. SMITH also exhibited a case of Stone from the Female Bladder in which he had performed the usual operation of lithotomy. At the second operation there was something difficulty in introducing the lithotrite; the cause of obstruction was discovered to be a fragment as large as a small walnut, which had become impacted in the urethra. This was removed by a slight incision, and the patient did well.

A discussion then followed on the question of dilating the urethra. MR. WALTER COULSON and MR. BRYANT were of opinion that rapid dilatation was seldom, if ever, followed by incontinence, whereas slow or gradual dilatation was attended by this distressing sequel.

The Medio-lateral Operation for Lithotomy. By HENRY LEE, Esq.—MR. LEE described the mode of performing the medio-lateral operation, and said it combined the advantages of all the other methods that had been recommended without many of their disadvantages, the urethra in Mr. Lee's operation was entered in the median line, which he considered ensured the success of the operation as far as the surgeon was concerned. The incision was carried round the front and left side of the rectum, so as to leave a sufficiently large external opening. The patient for this operation was placed in the ordinary position for lithotomy, and a grooved staff was introduced into the bladder; the skin of the scrotum was held moderately tight by an assistant, and an incision was made in the median line of the perineum from before backwards; this should extend through its posterior half, terminating two or three lines in front of the anus. From this point the incision was continued for a quarter of a circle round the front and left side of the rectum. The finger of the left hand might then be put into the wound, and the rectum passed back whilst an additional touch or two with the knife separated it still further from the parts in front. The fore-finger of the left hand was now passed into the rectum, and the knife, with its back towards the bowel, was passed, at the posterior part of the central incision, into the membranous portion of the urethra. With the finger as a guide this was done with great ease and certainty. A bistoury or knife with a probe at its extremity was then passed into the same opening and made to slide along the staff into the bladder. The forceps, or any other instrument that might be used, was also introduced more directly into the bladder than in the ordinary lateral operation. The incision into the prostate gland was made from within outward; and this Mr. Lee considered an advantage. In children, a single incision with the scalpel was sufficient, but in adults, the circular part of the wound should be deepened either before or after the urethra was opened. The operation as a whole was, he thought, the simplest in conception, the easiest in execution, and the least liable to be attended or followed by any unfavourable complication, of all the operations for lithotomy. MR. BRYANT advocated the plan that had been taught of using a straight staff. He believed that almost any stone of reasonable size could be removed by the lateral method. MR. LEE's plan might be useful in very large stones.—MR. WALTER COULSON and MR. TEEVAN respectively spoke of cutting not dilating the prostate, and exhibited calculi which they had removed.—THE PRESIDENT gave succinct history of the operation of lithotomy, and showed that, whatever operations were performed, death was in proportion to the age.—MR. CHARLES HAWKINS said that the mortality was greater in private than in hospital practice; the reason being, that hospital patients applied earlier for relief and were more ready to undergo the necessary operative procedure. Private patients, on the contrary, hoped on until their kidneys and bladders became diseased.—In reply, MR. LEE stated that, doubtless, those who had had much experience in lithotomy could do the usual operation with much precision and success, but he believed that there were a very large class of sur-

OBITUARY.

THOMAS HILLIER, M.D.

WE deeply regret to have to record the untimely death of this highly esteemed and accomplished physician. Dr. Hillier's health had been failing lately; and, acting under the advice of his medical friends, he was preparing to pass six months in a warm climate. A sudden shock which he received from the death of a near relative seemed greatly to affect him; and severe cerebral symptoms supervened, ending fatally.

Dr. Hillier was known not only as an able clinical student of skin-diseases and diseases of children, on which he has made many valuable publications—one quite recently—but as a highly accomplished practitioner in all branches of medicine, an earnest and enlightened sanitarian, and a man of eminently scholarlike, refined, and amiable character. He graduated as B.A. of the University of London in 1849, and M.D. in 1855. He was a Fellow of University College, and Physician to the Children's Hospital and to the skin department of University College Hospital. His unwearied labours as Medical Officer of Health of St. Pancras laid that parish under a heavy debt of gratitude to him, but ill repaid by its authorities. His untimely death has caused deep and general grief in the ranks of the profession in London.

NOTICES TO CORRESPONDENTS.

All Letters and Communications for the JOURNAL, to be addressed to the EDITOR, 37, Great Queen Street, Lincoln's Inn Fields, W.C.

WE CANNOT UNDERTAKE TO RETURN MANUSCRIPTS NOT USED.

CORRESPONDENTS not answered are requested to look to the Notices to Correspondents of the following week.

CORRESPONDENTS, who wish notice to be taken of their communications, should authenticate them with their names—of course, not necessarily for publication.

AUTHORS OF PAPERS, desirous of having extra copies printed for their own use, are requested to communicate with the printer, Mr. Richards, 37, Great Queen Street.

CASES for Binding the Volumes of the JOURNAL may be had on application to Mr. Richards, 37, Great Queen Street. Price 1s. 6d. each.

PAPERS of Mr. Henry Lee, Dr. Balthazar Foster, Dr. Hyde Salter, Dr. Taylor (Nottingham), Mr. Thos. Bryant, Dr. Wolfe (Glasgow), and others, are in the printer's hands, and shall have early insertion.

SODA-WATER.

WE are glad to learn that the suggestions which we last week made as the result of the analyses which we have instituted of mineral waters, are likely to be acted on by the trade. We are informed by Mr. Hogg, of Albion Place, Hyde Park, that he now prepares soda-water containing fifteen grains of bicarbonate of soda to the bottle, for medicinal use, in accordance with the prescription of the *British Pharmacopœia*; and that medical men may, in the case of prescribing his soda-water, rely upon the given quantity of alkali being contained in each bottle.

DR. KNIGHT (Keswick) will find probably the information which he desires in Dr. Waring's pamphlet on *Cottage Hospitals*, published by Churchill and Sons.

CAMBRIDGE UNIVERSITY MEDICAL SCHOOL.

SIR,—In the list of provincial medical schools, apparently from official source, given in your JOURNAL last week, the number of students pursuing their professional studies in the Cambridge University Medical School is given at seventeen. In this there is certainly some mistake, as the number of medical students who were members of the Medical Society amounted last year to not less than forty-five. The number of those who commenced medical study in the University in that year was twenty-five. The number of entries seems, therefore, probably equal to that of any of the provincial schools, and more than half those in London.

I am, etc.,

BERESFORD N. EARLE,
 Late Secretary of the Cambridge University Medical Society, Trin. Coll. Camb.

PREVENTION OF INFANTICIDE.

SIR,—Can you inform me whether or not there is in Paris (or any other town in France), an institution, similar to that in Naples, where, in order to prevent infanticide, mothers can place their infants, without letter or recommendation of any sort, without even divulging their name or relationship to the child. I am, etc., LEX.

P.S.—Is the system of "baby-farming" carried out to the same extent in Paris as in London?

NOTICES of Births, Marriages, Deaths, and Appointments, intended for insertion in the JOURNAL, should arrive at the Office not later than 10 A.M. on Thursday.

F. LUCY, F.R.C.S. (Poole).—We do not feel at liberty to give any further advice on the subject, than the ordinary rules of personal responsibility will of necessity have suggested to our correspondent.

THE CALENDAR OF THE ROYAL COLLEGE OF SURGEONS.

SIR,—I am indebted to a friend for a sight of the new Calendar published by the College of Surgeons. It is a book excellently got up, and full of interesting matter, and such as should be in the hands of every member of the College. Till now, I was unaware of the existence of such a book; but I am told it may now be purchased for a shilling. I venture to suggest that it may be sold at the College; or supplied through the post to any one who will forward eighteen postage-stamps, which would suffice to pay the postage and for the trouble of sending it.

Hereford, Oct. 1868.

I am, etc.,

A COUNTRY FELLOW.

A MEMBER (Liverpool).—The examinations for the Fellowship of the College will take place on the 21st instant.

MR. GARRAWAY (Farnham).—The infamous circulars enclosed have before been noticed. In the present state of the Medical Act, we know not how to combat the practices of these miserable spermatorrhœa quacks.

A.R.C. (Salop).—We cannot see any strong objection to complying with the wish, under the circumstances stated. Our impression is, that such an arrangement is not so very unusual as our correspondent implies.

J. L. should consult the work of the author on *Uterine Surgery* for the therapeutic details which he asks. Dr. Marion Sims is at the present moment in New York.

A PRACTITIONER and A SUBSCRIBER will find information as to the therapeutic use of the sulphurous acid spray, in the pamphlet of Dr. Dewar of Kirkcaldy, published, we think, by Messrs. Edmonstone and Douglas, Edinburgh.

WE are indebted to correspondents for the following periodicals, containing news reports and other matters of medical interest:—The Wiltshire County Mirror, Nov. 11th; Arris's Birmingham Gazette, Nov. 7th; The Norfolk Chronicle and Norwich Gazette, Nov. 7th; The Glasgow Herald, Nov. 4th; The Dublin General Advertiser, Oct. 31st; The Staffordshire Advertiser, Nov. 7th; The Plymouth Western Morning News, Nov. 3rd; The Aberdeen Free Press; The Aberdeen Herald; The Aberdeen Journal.

COMMUNICATIONS, LETTERS, ETC., have been received from:—
