

like further details should contact Dr Clifford R Kay, Royal College of General Practitioners, Manchester Research Unit, 8 Barlow Moor Road, Manchester M20 0TR. (Tel 061-445 7771.)

Research training fellowships in cancer research

The World Health Organisation International Agency for Research on Cancer invite applications from junior scientists wishing to be trained in any aspect of laboratory and clinical cancer research; priority will be given to applicants interested in epidemiology, biostatistics, and environmental carcinogenesis, both chemical and viral. Application forms and details are available from the Chief of the Research Training and Liaisons Unit, International Agency for Research on Cancer, 150 cours Albert-Thomas, 69008 Lyon, France. The closing date for applications is 31 January 1977.

Monkeys and the MRC

A report to the Medical Research Council by its Laboratory Animals Centre, published last month, has proposed that the needs for primates for research should be met by breeding rather than by importing them. About 10 000 primates are used for research each year in Britain, says the report, and 99% of these have been imported from the wild. The supply of these animals is being limited by export bans and by reductions in their numbers. Another disadvantage of wild primates stressed by the report is their high rate of carriage of disease—including dangerous infections such as B virus and Marburg disease.

SIMG/Janssen Research Award

Applications are invited from general practitioners in Europe for the SIMG/Janssen award for research conducted in general practice. The project should be completed within two years, and it should be of international interest and preferably work which could be developed at a later date into an international co-operative study. The award will be £300 with a further £200 available to the successful applicant towards travelling expenses to present the results of the work at an SIMG congress, but applicants need not be members of SIMG. Details from SIMG Secretariat, Bahnhofstrasse 22/VI, A 9020 Klagenfurt, Austria. Closing date for applications 1 October.

COMING EVENTS

London Medical Orchestra—Rehearsals will resume in Christ Church School, Cosway Street, London NW1, at 7 pm on 21 September. New members of the orchestra are welcome, especially string players. Details from Mrs A P Mason, 102 Hamilton Terrace, London NW8. (Tel 01-286 4367.)
