

county. It is hoped to revise the booklet annually if the demand for it is sufficient. Patients suffering from a wide variety of conditions can be catered for in private nursing homes, each of which is registered to accept the type of patient agreed between its matron and the local medical officer of health. This information and other particulars is to be found in *Reference Book of Registered Nursing Homes 1973-74*, obtainable from the Secretary, Registered Nursing Home Association, 3 Moor Lane, Budleigh Salterton, Devon. The booklet is free of charge to the medical and nursing professions, and 50p to others.

Gibraltar and U.K. Health Services

The Department of Health and Social Security has announced a reciprocal health service agreement will be made shortly between the United Kingdom and Gibraltar. Under the agreement, citizens of the United Kingdom visiting Gibraltar will be entitled to any necessary health care while they are there on the same conditions as citizens of Gibraltar, and the converse will be true for citizens of Gibraltar visiting the United Kingdom. The agreement will operate from 1 January 1974 for an initial period of two years.

London University: Chairman of Convocation

Professor J. P. Quilliam, who holds the chair of pharmacology at St. Bartholomew's Hospital, was elected chairman of Convocation of the University of London in succession to Sir Charles Harris, who has resigned. It was a contested election, the first since 1938, Professor Quilliam polling 1,998 votes and the other two candidates 1,671 and 1,393 votes, respectively. Professor Quilliam will hold office until May 1976.

Corrections

Medical Officers' Prospects

Commenting on suggestions that the medical branches of the three armed Services should be unified, the leading article last week (3 November, p. 247) should have said it is generally acknowledged that such amalgamation would diminish instead of increase the speed of communication while the Royal Navy, the Army, and the R.A.F. remain separate commands. We regret that the opposite sense was inadvertently stated.

Pyomyositis in London

We regret that a printing error occurred in the letter from Dr. P. E. T. Isaacs (27 October, p. 235). In the 6th line of the second paragraph the word "temperature" should have read "temperate".
