

to the inspection of professional gentlemen; found no alleviation from the operation; gave the doctor a certificate, at his request. The certificate handed to the bench was as follows:—"Doctor Rosenberg has extracted several corns from my foot, with very slight pain." What Doctor Rosenberg handed witness as corns, were the same as what she gave to Mrs. M'Ilwaine.

William Wilson—Waited on Doctor Rosenberg; stated to him that his sister wished her name expunged from his book; the doctor cut out the certificate already submitted; told the doctor that his business was yet only half done with him; demanded the sovereign which his sister paid him; the doctor hesitated; witness asked him was this hesitation to be considered a refusal? receiving a reply in the affirmative, witness stated that he would submit the affair to the magistrates.

Dr. M'Gee—Recollects being handed, by Mrs. M'Ilwaine, some things purporting to be corns; examined them minutely; in his opinion, they were portions of nail, and some chickens' feathers, or crow-quill; examined them with a microscope; they were elastic and spicular; witness here described the process he used to ascertain whether they were roots of corns; was perfectly satisfied, by the result of the process, that they were not the roots of corns; was not present when any other professional gentlemen examined them; heard that their opinion concurred with his own.

Informations granted on the two indictments. The sovereign expressed his thanks to Mr. Wilson, for his promptitude in bringing the matter before the court.—*Dublin Evening Mail.*

OPIUM EATING.

TO THE EDITORS OF THE PROVINCIAL MEDICAL AND SURGICAL JOURNAL.

GENTLEMEN,—I am at present engaged in making some observations and inquiries relative to the use and employment of opium in health and disease. I am particularly desirous to ascertain the truth of the many remarks which I daily hear relative to the practice of opium eating, both by the upper and lower classes of society. From the extensive circulation of your Journal, I hope that, should any of your subscribers be in possession of any facts connected with the subject, they will favour me with them through the medium of your Journal.—I remain, gentlemen, yours very truly,

F. S. M.

BOOKS RECEIVED.

The Anatomy of the Arteries of the Human Body, &c. in Lithographic Drawings, with Practical Commentaries. By RICHARD QUAIN, Professor of Anatomy, &c. The Delineations by JOSEPH MACLISE, Esq. Parts I. and II. Taylor and Walton, London. 1840.

Acute Hydrocephalus, or Water in the Head, &c. &c. By DAVID D. DAVIES, M.D. &c. Taylor and Walton, London. 1840. 8vo. Pp. 309.

Observations on the Diseases incident to Pregnancy and Childbed. By FLEETWOOD CHURCHILL, M.D. &c. Keene and Son, Dublin. 1840. 8vo. Pp. 463.

The Physiology or Mechanism of Blushing, &c. By THOMAS H. BURGESS, M.D. &c. Churchill, London. 1839. 8vo. Pp. 202.

TO CORRESPONDENTS.

If Mr. Yarnold will apply directly to Dr. Beddome, he will probably obtain all the particulars which he requires. We have a decided objection against occupying our columns with the criticisms of one correspondent on the communications of another.

Next week we shall publish Cases from the WORCESTER INFIRMARY, (Dr. Hastings,) and from the NEWCASTLE-ON-TYNE INFIRMARY, (Messrs. Heath and Baird). We have been promised contributions from ST. PETER'S HOSPITAL, BRISTOL, (Mr. T. Green,) and from the CROYDON INFIRMARY, (Mr. Bottomly.)

ADVERTISEMENTS.

This day is Published, price 4s. boards,

AN INQUIRY into the EFFICACY of DIGITALIS in the Treatment of IDIOPATHIC EPILEPSY. Illustrated by Cases. By EDMOND SHARKEY, A.B. M.D. one of the Lecturers on Midwifery in the Hunterian School of Medicine, Charlotte Street, Bloomsbury, London.

Highley, Fleet Street.

Just Published, Price 1s.

23, GRAFTON STREET, opposite University College, London.

DR. A. G. HULL'S ABDOMINAL SUPPORTER.

THE UTERO-ABDOMINAL SUPPORTER,

invented by Dr. A. G. HULL, of New York, for the radical cure of Prolapsus Uteri by external application (superseding the use of the Pessary), has received the entire approval of the most eminent of the faculty, and its complete success is fully certified by every medical man who has practically seen its application. It is equally serviceable in all cases of abdominal weakness; and its complete efficiency having been so fully tested, it is recommended to the attention of all those who have not yet witnessed its utility.

Agents in London, from whom Pamphlets can be obtained:—

NEWLY INVENTED SURGICAL BANDAGES,

SPRING CRUTCHES, &c.

FOR WEAK LEGS, KNEES, AND ANKLES.

SPARKS AND CO. No. 28, CONDUIT STREET,

BOND STREET, LONDON, beg to announce their newly-invented Elastic Stockings, Knee-caps, Wristbands, Belts, Rolling Bandages, &c. which they have now brought to the greatest perfection, for the cure and support of varicose and enlarged veins, weak, swollen, rheumatic, and gouty affections of the Legs, Knees, Ankles, Wrists, &c. or in any part where, from weakness in the part, support may be necessary. They are strongly recommended by the most eminent of the Faculty, for their elasticity, lightness, and cleanliness, being washable, and not producing that frequently injurious heat so much complained of in all other bandages.—S. & Co. also solicit particular attention to their improved Spring Crutches, Trusses, Artificial Legs and Hands, and every kind of instrument for the relief and cure of weakness and deformity in the human frame.—Printed particulars will be forwarded for taking measures, &c. by application (post paid) at No. 28, Conduit Street, London.

•• The above Bandages are entirely free from brass wires, or any other metallic substance, and are warranted to retain their original elasticity.

Agents for the New Patent Trusses without springs round the body.

THIS BUSINESS IS CONDUCTED ENTIRELY FOR READY MONEY.
