ST. BARTHOLOMEW'S HOSPITAL.

We commend the following notice from a surgeon attached to St. Bartholomew's Hospital, (copied from a daily newspaper,) to the attention of the Fellows of the Royal Colleges of Physicians and Surgeons who are likewise attached to the Hospital:—

To the Bodily Afflicted and Suffering .- Mr. King, formerly a resident Medical officer in the "London" and "Middlesex" Hospitals, now attached to "St. Bartholomew's," continues to give advice to those Patients in the country, who may be desirous of consulting him. On the receipt of a half-guinea fee, (by Post Office Order, or otherwise,) together with a description of the symptoms of the complaint, and the age, temperament, &c. &c., of the patient, Mr. King will forward a prescription of those medical remedies, which he may consider most suitable; and at the same time will lay down for the guidance of the Patient, those rules concerning the management, regimen, diet, &c., which may be most advantageous in the case. Address: Mr. King, Surgeon, 3, Lloyd Square, Pentonville; or, Apothecary's Department, St. Bartholomew's Hospital, London.

MEDICAL INTELLIGENCE.

William Lawrence, Esq., F.R.S., has been elected President of the Royal College of Surgeons; and Benjamin Travers, Esq., F.R.S., and Edward Stanley, Esq., F.R.S., Vice-Presidents.

Dr. J. Hennen has been appointed Physician to the Western General Dispensary.

TRAVELLING IMPOSTOR.

A young man, calling himself brother to Dr. Golding Bird, has been for some months past endeavouring to obtain contributions, under various pretences, from medical practitioners in different parts of the kingdom. Some time ago he visited Bristol, Cheltenham, Worcester, and others of the midland towns; he his now travelling in the eastern counties. It is scarcely necessary to state that his claim of relationship to Dr. Bird is merely assumed for the purpose of gaining access to, and attention from members of the profession.
