MR. BOURJEAUD, in submitting the above Four Engravings as illustrating the nature and special design of his apparatuses, most earnestly begs to call the attention of Professional Gentlemen to the gross and nefarious practices of unprincipled parties, who attempt to impose on the public by advertising their spurious apparatuses, accompanied with the closest imitations of his diagrams, and with the use even of the same words and plan of measurement, in order to obtain, by these fraudulent means, a portion of the patronage with which he has been especially honoured by the Profession. MR. BOURJEAUD wishes, therefore, to caution Medical Gentlemen against the dishonest proceedings of his imitators, and hopes they will not accept any of the appliances put forward under the name of Spinal Supporter, except the articles come from his own Establishment, No. 11, Davies Street, Berkeley Square (opposite Mivart's Hotel), London; and Rue des Beaux Arts, No. 17, Paris.
