TO CORRESPONDENTS.

*. All letters and communications for the JOURNAL, to be addressed to the Editor, 37, Great Queen St., Lincoln's Inn Fields, W.C.

CORRESPONDENTS, who wish notice to be taken of their communications, should authenticate them with their names—of course not necessarily for publication.

CLAY F. ROBERTS.—A correspondent, referring to the case of Clay F. Roberts, truly says:—

"It is quite clear that unless we make a difference between breaches of medical etiquette and libellous matter, we shall be quite unable to uphold the etiquette of the profession; inasmuch as every charge or complaint on such questions would be libel, and render the complainant open to an action for libel—a consequence which would make every man hold his tongue, however gross the violation of etiquette might be."

Happily, however, in this case—and we trust it may be always so—the law does not see libel in an accusation of an alleged breach of professional discipline.

COMMUNICATIONS have been received from:—SIR HENRY COOPER; DR. HABERSHON; MR. THOMAS JONES; DR. WILLIAM BUDD; MR. GEORGE POUND; DR. J. O. FLETCHER; MR. THOMAS BRYANT; MR. J. JONES; MR. WALKER; MR. STEELE; DR. WILLIAM KELLY; DR. J. B. PITT; MR. T. H. SMITH; DR. MURCHISON; DR. SANDFORD; DR. MITCHELL; MR. S. A. PARKER; MR. REDFERN DAVIES; DR. PARKES; DR. HARLEY; MR. J. VOSE SOLOMON; THE HON. SECRETARIES OF THE OBSTETRICAL SOCIETY; DR. HYDE SALTER; MR. OLIVER PEMBERTON; MR. W. TREVOR; MR. ASHBY G. OSBORN; THE HONORARY SECRETARY OF THE ROYAL MEDICAL AND CHIRURGICAL SOCIETY: MR. R. W. ELLIS; MR. T. M. STONE; DR. MUNROE; and DR. CRUCKERBUTTY.

For Varicose Veins and Weak-

NESS. Very superior SURGICAL ELASTIC STOCKINGS and KNEE-CAPS, on a New Principle, pervious, light in texture, and inexpensive, yielding an efficient and unvarying support, under any temperature, without the trouble of Lacing or Bandaging. Likewise, a strong low-priced article for Hospitals and the Working-classes.

ABDOMINAL SUPPORTING BELTS for both Sexes, those for Ladies' use, before and after accouchement, are admirably adapted for giving adequate support with EXTREME LIGHTNESS—a point little attended to in the comparatively clumsy contrivances and fabrics hitherto employed.

Instructions for measurement and prices on application, and the articles sent by post from the

Manufacturers
POPE and PLANTE, 4, Waterloo Place, Pall Mall, London.
The Profession, Trade, and Hospitals supplied.

CHLORODYNE

"INVENTED AND DISCOVERED IN 1844 BY RICHARD FREEMAN."

(Extract from Affidavit made before S. C. WARD, Esq., Chancery Record Office, Chancery Lane, London, June 16th, 1862.)

The Inventor begs to thank the Medical Profession for the liberal support he receives from them, and to assure those who have not yet tried his Chlorodyne that it is superior to any other maker's, being more certain and more lasting in its effects; and the low price which he charges for it allows the poorest sufferer to enjoy its extraordinary beneficial influence. The immense demand for it by the Profession is a convincing proof that they find it a most valuable therapeutical agent. The following are a few out of many voluntary Testimonials:—

From W. VESALIUS PETTIGREW, M.D., Hon. F.R.C.S.Eng., formerly Lecturer upon Anatomy and Physiology at the St. George's School of Medicine.

"I have had the opportunity of trying the effects of Mr. Freeman's Chlorodyne, and find it an excellent Anodyne and Antispasmodic medicine."

From H. J. O'DONNELL, M.R.C.S.E. & L. M. etc., etc., Albert Terrace, London Road, S.

"I can with much confidence bear testimony to the efficacy of Mr. Freeman's Chlorodyne as a Sedative and Antispasmodic, having used it for some years in Colic, Neuralgia, Phthisis, and Asthma. I daily administer it in after-pains, and in all cases find it infallible. It is the most valuable medicine we have in Labour cases. I find, since I have used it, the pains seldom or ever exceed the third day, while with the former remedies my patients suffered eight or nine days. In fact, I cannot speak too highly of it."

Manufactured by RICHARD FREEMAN Pharmacist, Kennington Road, London, S.; And Sold by all Wholesale Houses, in bottles, 1 oz., 1s. 6d.; 4 oz., 5s.; and 8 oz., 10s. each.

From F. W. HOOPER, M.D., M.R.C.S.Eng., etc., etc., Medical Officer, Christ Church District, Camberwell.

"I have much pleasure in stating, that after a sufficient trial of Mr. Freeman's Chlorodyne, I am fully persuaded that it is superior to any preparation of the kind, and, from its moderate price, is a great boon to the suffering poor, who daily acknowledge its salutary benefit."

From C. SWABY SMITH, M.R.C.S.E., Surgeon to the Berks and Hants Extension Railway Works and Pewsey Union, etc., etc.

"Having been in the habit of using Mr. Freeman's Chlorodyne for some time past, I have much pleasure in stating that it has never failed to have the desired effect in whatever case it has been administered."

Pulvis Jacobi ver, Newbery

Is the ORIGINAL & GENUINE, was ESTABLISHED A.D. 1746, And is Prescribed, "by the highest authorities, for Fevers, Ague, Rheumatism, Colds, Influenza, &c. &c.

FRAS. NEWBERY & SONS, 45, ST. PAUL'S CHURCHYARD.

Prices for Dispensing—1 oz., 9s.; $\frac{1}{4}$ oz., 3s. 4d.

TOWLE'S CHLORODYNE.

Dose, 5 to 20 Drops.

CAUTION.—For the convenience and safety of prescribing Chlorodyne, in combination with other ingredients, so as to avoid decomposition (a result known to have taken place) through the use of SECRET COMPOUNDS, the Profession is directed to the following component parts in his preparation:—

CHLOROFORMYL
ETHER.
OL MENTH. PIP.

ACID. PERCHLOR.
TINCT. CANNABIS INDICÆ.
ACID. HYDROCYAN.

TINCT. CAPSICI.
MORPHIA.
THERIACA.

The proportion of Morphia— $\frac{3}{4}$ gr. in f. 3i. Dose—Five to twenty Drops.

The Profession is respectfully referred to the various Letters that have appeared in the Medical Journals against the use of "SECRET" REMEDIES.

The Proprietor would suggest the following designation in the writing of Prescriptions, should a preference be given to the above preparation—"CHLORODYNE," (TOWLE'S.)

Sold in bottles, 1 oz., 1s. 6d.; 2 oz., 2s. 6d.; 4 oz. to 20 oz., 1s. per fluid oz. Sole Manufacturer and Proprietor, A. P. TOWLE, Chemist, etc., Ardwick, Manchester. May be had from Barclay and Son, Farringdon Street; or through any Wholesale House.

Twinberrow's Patent Double-Action Reservoir Injection Apparatus

Complete with Additional Pipes for all purposes, and suitable for every Climate.

W. TWINBERROW has no hesitation in offering his Patent Reservoir Injection Apparatus as the most simple and perfect yet produced.

The Piston or Pump, which so frequently gets out of order, is not introduced into this apparatus; there is, therefore, an absence of

OILY GREASY MATTER and BLACK LEAD (which are absolutely necessary to lubricate the piston in the usual syringes), which soon become rancid and green, some portion of which inevitably passes with the fluid injected from an ordinary syringe.

TWINBERROW'S PATENT DOUBLE-ACTION SYPHON SYRINGE,

With Additional Pipes for all purposes, including the most perfect Eye Douche and Ear Syringe.

The great advantage of this Syringe over others of a like description is its having a double action, thereby producing an uninterrupted stream, consequently discharging double the quantity of fluid in half the usual time and with much less exertion.

From J. E. ERICHSEN, Esq.

6, Cavendish Place, Cavendish Square, October 1st, 1861.

Twinberrow's "Double Action (Syphon) Syringe" is the most generally useful instrument of the kind with which I am acquainted. For the more ordinary purposes it is specially well fitted, being compact, portable, and NOT LIABLE TO GET OUT OF ORDER. By a very simple arrangement, the instrument may be rendered available

as an Eye Douche, an Ear Syringe, and for washing out the Bladder. For these purposes it is peculiarly well adapted, being continuous in its action.

JOHN ERICHSEN,

Professor of Surgery at University College, and Surgeon to the Hospital.

From W. FERGUSON, Esq.

Professor of Surgery at King's College and Surgeon to the Hospital, 16, George Street, Hanover Square, Oct. 14th, 1861.

SIR.—I have seen and made use of your Double Action Syringe, and think very highly of it. Yours faithfully,
Mr. Twinberrow, Edwards Street. Wm. Ferguson.

W. TWINBERROW, SOLE PATENTEE, PHARMACEUTICAL CHEMIST, 2, EDWARDS STREET, PORTMAN SQ., LONDON. To be had of all Chemists, Druggists, and Surgical Instrument Sellers in the United Kingdom.
