

BROWNING'S HISTORY.

HISTORICUS.—"How they brought the good news from Ghent to Aix" refers to the Pacification of Ghent, 1576. The pacification, of course, is historical, and the "good news" refers to it; but the rest of the poem is not historical, and, as Mr. Orr says in the Browning handbook, "would gain nothing by being so."

NOTES, LETTERS, ETC.

EXPERIMENTS ON ANIMALS.

ERRATA.—In the comments on Miss F. P. Cobbe's letter, published last week at p. 1455, seventh line, for "cauterised" read "curarised."—In the review of Dr. Winckel's *Midwifery*, JOURNAL, June 21st, p. 1429, line 5 from bottom, for "twenty-five" read "all but twenty-five."

ANOTHER APPEAL.

THE treasurer of the "Danaher Fund" (Mr. Edward East, 16, Upper Berkeley Street, W.), begs to acknowledge the following subscriptions. The necessity for help is as great and pressing as ever. Amount already acknowledged:

	By	Mr. Jonathan Hutchinson	£ s. d.
	„	Mr. East	11 8 6
			10 3 0
			21 11 6
	Sir Edwin Saunders, F.R.C.S.	2 2 0
	— Daubeny, Esq.	0 10 0
	— Allen, Esq. (per Mr. Woodforde)	2 2 0

THE BARBER-SURGEON REDIVIVUS.

In a northern suburb a member of the ancient craft and mystery of barbers announces that he cuts hair "on physiological principles," and performs other tonsorial operations "antidexterously" (*sic*). In some parts of Germany barbers are enjoined to use what may be called "modified Listerism" in shaving. With physiological hair-cutting and antiseptic shaving, barbers will probably soon claim to be restored to the body corporate of surgeons, from which they were rudely sundered in 1745. "Antidexterous" strikes us as a triumph of scientific neologism; it is just the word wanted to describe the surgical manipulator whose fingers are all thumbs.

MRS. BODINGTON'S "STUDIES IN EVOLUTION."

REFERRING to a review of this book which appeared in the JOURNAL of May 10th, p. 1076, Mrs. Bodington wishes to point out that the numerous errors of the press complained of are due to the fact that the writer was some thousands of miles away from her publisher, and the correction of proofs was left to a friend in London, in order to avoid delay in bringing out the book. "The climax of horror," says Mrs. Bodington, "is attained in the glossary, where the eager inquirer is informed that a 'zoea' is an early stage of decayed crustaceans!"

"MIDWIVES."

A SHANDAN writes: Dr. Rentoul, in his letter on the Midwives' Registration Bill, in the JOURNAL of June 21st, says: "May I show that the term 'midwife,' in the past has not referred to women midwives alone." It is difficult to believe that the term "midwife," *tout court* could ever have been used to denote a male obstetrician. The "man-midwife," of course, was familiar enough to such of our great-grandmothers as were strong-minded enough to avail themselves of his services. It can hardly be supposed, however, that this hermaphroditic designation was ever accepted by decent practitioners except with the patient suffering of vulgar ridicule, which is the badge of all their tribe. In the veracious chronicle of *Tristram Shandy*, we find Dr. Slop objecting to the term as applied to himself. Says "my father," "Nothing will serve you but to carry off the man-midwife." "Accoucheur if you please," quoth Dr. Slop. "With all my heart," replied my father, "I don't care what they call you."

COMMUNICATIONS, LETTERS, etc., have been received from:

Therapeutisches Hand-Lexikon für Aerzte und Studierende. Von Dr. Th. Zerner, jun., and Dr. Heinrich Paschke. Wien: Moritz Perles. 1890.
Beitrag zur pathologischen Anatomie und zur allgemeinen Pathologie. Regiert von Dr. E. Zeigler, Siebenter Band, Heft 1-4. Jena: Gustav Fischer. 1890.
Die Untersuchung der hinteren Larynxwand. Von Dr. Gustav Killian. Jena: Gustav Fischer. 1890.
A Handbook of Diseases of the Nose and Naso-pharynx. By James B. Ball, M.D., M.R.C.P. London: H. K. Lewis. 1890.
Our Lord's Miracles of Healing. By T. W. Belcher, D.D. Second Edition. London: Griffith, Farran, Okeden, and Welsh. 1890.
Bourne's Handy Assurance Directory for 1890. By W. Bourne, F.S.S. Price, 2s. Liverpool: William Bourne. 1890.
Grundriss der Bakterienkunde. Von Dr. Med. Carl Fraenkel. Dritte Auflage. Berlin: A. Hirschwald. 1890.
Lehrbuch der chemischen Untersuchungsmethoden zur diagnostik innerer Krankheiten. Von Dr. Felix Wesener. Berlin: Friedrich Wrede. 1890.
Mad Doctors. By One of Them. Price, 1s. London: Swan Sonnenschein and Co. 1890.
Rhinoplasty; being a short description of one hundred cases treated by Trichooidas Motichand Shah, L.M., at the Junagadh Hospital.

SCALE OF CHARGES FOR ADVERTISEMENTS IN THE "BRITISH MEDICAL JOURNAL."

Seven lines and under	£0 3 6
Each additional line	0 0 4
A whole column	1 15 0
A page	5 0 0

An average line contains seven words.

When a series of insertions of the same advertisement is ordered, a discount is made on the above scale in the following proportions, beyond which no reduction can be allowed.

For 6 insertions, a deduction of	10 per cent.
" 12 or 13 "	25 "
" 25 "	30 "
" 50 "	30 "

Special terms for occasional change of copy during series:

30 per cent. if not less than 26 pages be taken	or their equivalent
25 "	in half or
30 "	quarter pages.

For these terms the series must, in each case, be completed within twelve months from the date of first insertion.

Advertisements should be delivered, addressed to the Manager at the Office, not later than noon on the Wednesday preceding publication; and, if not paid for at the time, should be accompanied by a reference.

Post-Office Orders should be made payable to the British Medical Association at the West Central Post-Office, High Holborn. Small amounts may be paid in postage-stamps.

NOTICE.—Advertisers are requested to observe that it is contrary to the Postal Regulations to receive 36 Post-Offices letters addressed to initials only.

Hon. Sec.—JONATHAN HUTCHINSON, Esq., F.R.S

Annual Subscription, One Guinea.

NEW AND IMPORTANT WORKS NOW BEING ISSUED.

MICRO-ORGANISMS, with Special Reference to the Etiology of the Infective Diseases.

By Dr. C. FLÜGGE, O. O. Professor and Director of the Hygienic Institute at Göttingen. Translated by W. WATSON CHEYNE, M.B., Surgeon to King's College Hospital. With 144 Drawings. [Being the First of the Series for 1890.]

"This volume forms an important addition to English medical literature. Flügge's book being justly considered one of the best standard text-books."—*British Medical Journal.*

LECTURES ON CHILDREN'S DISEASES. A Handbook for Practitioners and

Students. By Dr. E. HENOCH, Professor in the University of Berlin. Translated by J. THOMSON, M.B., F.R.C.P. Edin. Vol. II. (VOL. I. WAS ISSUED IN 1888.) [Being the Last of the Series for 1889.]

"It is an exceedingly valuable work, reflecting as it does the very best clinical opinion in Germany. Useful hints may be gathered in almost every page; few authorities are quoted, the author relying mainly on his own varied clinical experience which has now extended over forty-five years. Dr. Thomson has done his work as a translator well, and has succeeded in producing a readable English version of a most valuable textbook."—*British Medical Journal.*

*** Arrangements are made for new subscribers to complete works in progress on liberal terms.

SPECIAL NOTICE TO NEW MEMBERS.—Gentlemen joining now and paying Four Guineas may secure the whole of the works issued for the years 1887, 1888, and 1889, and those for 1890 as issued, and they will be presented with One Guinea's worth of works, which they may select from the Surplus List.

Subscriptions for 1890 are now due, and should be forwarded to Mr. LEWIS, the Society's Agent, from whom the Annual Report, List of Works and Surplus volumes, and all other information, may be obtained.

Mr. LEWIS, 136, Gower Street, London, W.C.

This day. Fourth Edition, profusely Illustrated.
**MANUAL OF DISEASES OF WOMEN
 AND UTERINE THERAPEUTICS.**

BY
H. MACNAUGHTON JONES, M.D., F.R.C.S.E.&I.,
 Ex-Examiner in Midwifery and Diseases of
 Women, Royal University.

"The many advances made in Gynæcology during the past few years, have necessitated a complete recasting of the fourth edition of this work. I have endeavoured to add all that is of practical importance to the student or practitioner in the recent literature of the subject, and striven to keep the volume of that handy size so desirable in a student's manual."—AUTHOR'S PREFACE.

London: BAILLIÈRE, TINDALL, & Cox, Publishers.

 THERAPEUTICS, and MATERIA MEDICA.**
 By T. LAUDER BRUNTON, M.D., D.Sc., F.R.S.,
 Fellow of the Royal College of Physicians; Assistant
 Physician and Lecturer on Materia Medica at St.
 Bartholomew's Hospital; Examiner in Materia
 Medica in the University of London, in the Victoria
 University, and in the Royal College of Physicians,
 London; late Examiner in the University of Edin-
 burgh. Adapted to the United States Pharmacopœia
 by F. H. WILLIAMS, M.D., Boston, Mass.

"It is simply a mine of wealth both for students
 and practitioners. It is thoroughly practical and
 thoroughly reliable.....is undoubtedly the best
 treatise on the subject in the English language."—
British Medical Journal.

"A work which marks a distinct epoch, a turning
 point in the history of medicine. It is not a mere
 compilation,.....but it is essentially a new departure,
 breaking away from well-worn tracks into a new
 and almost unknown region."—*Medical Times and
 Gazette.*

By the same Author.

**Disorders of Digestion: their
 CONSEQUENCES AND TREATMENT.**
 This work contains, in addition to the Lettsoman
 Lectures, a number of other papers by the Author
 on similar subjects. 8vo, 10s. 6d.

"Distinguished by accurate observation and
 original thinking, these papers have been largely
 instrumental in moulding current medical opinion
 in regard to many of the subjects with which they
 are concerned."—*Edinburgh Medical Journal.*

"We can cordially recommend the volume as one
 which combines much practical and technical in-
 formation and sound common-sense."—*London
 Medical Record.*

Croonian Lectures
 on the Connection between Chemical Consti-
 tution and Physiological Action. Being an Intro-
 duction to Modern Therapeutics. [In the Press.
 MACMILLAN & Co., London.

With 3 Plates, 8vo, price 6s.

**Clinical Lectures on Varicose
 VEINS OF THE LOWER EXTREMITIES.**

By WILLIAM H. BENNETT, F.R.C.S.,
 Surgeon to St. George's Hospital.

"Such clinical lectures are of great value."—
British Medical Journal.

"Many valuable suggestions are given."—*The
 Lancet.*

"Well worth reading."—*Practitioner.*
 Full of practical information and advice. —
Hospital Gazette.

"All would do well to possess this valuable little
 book."—*Glasgow Medical Journal.*

commencing Midwifery Practice. By JOSEPH G. SWAYNE, M.D., Lecturer on Midwifery at the Bristol School of Medicine. Ninth Edition, fcap. 8vo, with Engravings, 3s. 6d.

Handbook of Hospital Practice and Physical
DIAGNOSIS. By CHRISTOPHER J. NIXON, M.D., LL.D., F.R.Q.C.P.Irel.; Professor of the Theory and Practice of Medicine in the Catholic University; Senior Physician to the Mater Misericordie Hospital; Examiner in Medicine to the K.Q.C.P., and for the Conjoint Examination of the Colleges of Physicians and Surgeons, Ireland. With Plates and Engravings, 8vo, 9s.

"The book is well and carefully written; the descriptions and directions are nowhere obscure; it is full of information, and we heartily recommend it."—*British Medical Journal*.

"A text-book which will redound to the credit of the Dublin School of Medicine."—*Dublin Medical Journal*.

"Clear, systematic, and good."—*London Medical Recorder*.

The Surgery of the Rectum; with Cases
illustrating the Treatment of Hemorrhoids and Prolapsus by the Improved Clamp. (Lettsomian Lectures.) By HENRY SMITH, F.R.C.S., Emeritus Professor of Surgery in King's College, and Consulting Surgeon to King's College Hospital. Fifth Edition, 8vo, 6s.

"It is unnecessary to make an extended notice of a book so well-known, by an author who is looked upon as the chief authority on diseases of the rectum."—*Edin. Med. Jour.*

On Eczema: its Etiology, Pathology, and
TREATMENT. By Dr. TOM ROBINSON. Crown 8vo, 3s. 6d.

By the same Author,

The Diagnosis and Treatment of Syphilis.
Crown 8vo, 3s. 6d.

Electrolysis in Surgery: in the Treatment of
—Aneurysms; Nævi; Strictures; Diseases of Women; Removal of Superfluous Hair, Warts, Marks, Disfiguring Marks, &c., &c. By W. E. STEAVENSON, M.D. Cantab. With Engravings, crown 8vo, 6s.

"The subject is treated in an admirable manner, and the several operations are carefully described."—*Dublin Journal of Medical Sciences*.

"Must hold the first place in imparting information upon this very important subject."—*American Journal of Medical Sciences*.

The Rheumatic Diseases (so-called); with
Original Suggestions for more clearly defining them. By HUGH LANE, Hon. Medical Officer to the Royal United Hospital, Bath, and Hon. Physician to the Eastern Dispensary, Bath; and CHARLES T. GRIFFITHS, Resident Medical Officer to the Royal Mineral Water Hospital, Bath. With 8 Plates, crown 8vo, 6s.

"The most interesting parts are those which refer to treatment, in which the experience of the authors must inevitably carry weight."—*Jour. Ment. Sci.*

"We may recommend the work as a modest and careful study in a peculiarly difficult field of clinical observation."—*British Medical Journal*.

"The various varieties are well discussed, the practical knowledge and observation of the authors being apparent, and the book deserves to be widely read."—*Medical Press and Circular*.

Sanitary Examinations of Water, Air, and
FOOD: a Vade-Mecum for the Medical Officer of Health. By CORNELIUS B. FOX, M.D., F.R.C.P. Second Edition, much enlarged, crown 8vo, with 110 Engravings, 12s. 6d.

"Has made its mark as a real text-book."—*Analyst*.

"A good, sound piece of work of great value."—*The Lancet*.

The Prevention of Disease in Tropical and
SUB-TROPICAL CAMPAIGNS. Parkes Memorial Prize. By ANDREW DUNCAN, M.D., B.S., F.R.C.S., Surgeon, Bengal Army. 8vo, 12s. 6d.

"We have no hesitation in saying that Dr. Duncan's book is of great value to the State, indispensable to the army surgeon, and highly creditable to the author."—*Brit. Med. Journal*.

Allingham on Diseases of the Rectum. Edited
and Revised, with much additional New Matter, by HERBERT WILLIAM ALLINGHAM, F.R.C.S. Eng., Surgeon to the Great Northern Central Hospital; Assistant Surgeon to St. Mark's Hospital for Fistula, etc. Fifth Edition, with 53 Engravings, 8vo, 10s. 6d.

THE MODERN MALADY:

OR, "SUFFERERS FROM NERVES."

By CYRIL BENNETT,

Author of "The Massage Case," &c.

With an Introduction by HERBERT TIBBITS, M.D., F.R.C.P.E., Founder of the West End Hospital for Diseases of the Nervous System, &c.

In 1 vol., crown 8vo, 6s.

This work deals in a popular manner with the Nineteenth Century disease, commonly known as "Nerves." It gives hints as to the reasonable treatment of sufferers by their friends and relations, and points out what is to be avoided, as well as what is to be aimed at, in order to effect the speediest recovery.

Established] **BISHOP'S** GRANULAR [1857.
EFFERVESCENT PREPARATIONS.

We beg to call the attention of the Medical Profession to the fact that we were the original inventors and makers of Granular Effervescent Preparations, and that for more than thirty years we have given our sole attention to perfecting this one class of articles. In these preparations, which are universally admitted to be the finest in the market, the most scrupulous care and attention is given by us to ensure uniformity, and we guarantee that they may be absolutely relied on. As the Profession naturally wish to obtain the best preparations for their patients, they will make certain of doing so, if, when prescribing, they specially mention *Bishop's*, as by that means they will not only secure the best article in the market, but be certain that the materials used are of the finest quality and always kept up to the highest standard.

SILVER MEDAL, PARIS EXHIBITION, 1889.—HIGHEST AWARD FOR GRANULAR PREPARATIONS.

Yachting Cruise to Land

of the Midnight Sun. The S.Y. "Victoria" (R. D. Lunham, Commander) sails from Tilbury, June 28th, for 25 days' cruise to Norwegian Fjords and North Cape, followed by other cruises, all of which are made in perfectly smooth water. The "Victoria" is a modern built vessel, inspection and comparison with all others is therefore specially requested before engaging passage.—Manager, Carlton Chambers, 4, Regent Street, London, S.W.

NEW ZEALAND,

VIA

TENERIFFE, CAPE, AND TASMANIA.

By the New Zealand Shipping Company's Royal Mail Steamers every fourth Thursday. Next departure "Kaikoura," 4,474 tons, from London, June 28th; Plymouth, 28th. Return Tickets at Reduced Fares. For full particulars apply to the Company's Agents, TYSSER & Co., 138, Leadenhall Street, E.C., or GRAY, DAWES, & Co., 4, Pall Mall East, S.W.

Pleasure Cruises to the Land

of the MIDNIGHT SUN.—The ORIENT COMPANY'S Steamships "CHIMBORAZO," (3,847 tons), and "GARONNE," (3,876 tons), will make a series of trips to Norway during the Season, visiting the finest fjords. The dates of departure from London will be as follows; and from Leith two days later:—

July 15th for 15 days. | July 23rd for 27 days.
 Aug. 8th for 21 days.

The steamers will be navigated through the "Inner lead," i.e. inside the fringe of islands off the Coast of Norway, thus securing smooth water; the steamer leaving 23rd July will proceed to the North Cape, where the Sun may be seen above the horizon at midnight. The "Chimborazo" and "Garonne" are fitted with electric light, hot and cold baths, &c. Cuisine of the highest order. Managers, F. Green & Co., 13, Fenchurch Avenue; Anderson, Anderson & Co., 5, Fenchurch Avenue, London, E.C. For further particulars apply to the latter firm.

Price Lists and Patterns Cambric Handkerchiefs and all kinds Irish Linen Goods sent free.

B. & E. M'HUGH & Co., Limited, BELFAST.

CADBURY'S COCOA

ABSOLUTELY PURE *therefore* **BEST.**

A FEW OF THE MANY GOOD REASONS WHY CADBURY'S COCOA ENJOYS SUCH WORLD-WIDE POPULARITY.

It is guaranteed to be Pure Cocoa.
It is made instantly with boiling Milk or Water.
It is not reduced in value by the addition of Starch, Sugar, &c.
It is specially rich in flesh-forming and strength sustaining principles.
It contains all the delicious aroma of the natural article without the excessive proportions of fat.

It is delicious, nutritious, digestible, comforting, and a refined beverage, suitable for all seasons of the year.
It is a gentle stimulant, and sustains against hunger and bodily fatigue.
In the whole process of manufacturing Cadbury's Pure Cocoa, the automatic machinery employed obviates the necessity for its being once touched by the human hand.

"The great popularity of this Cocoa is as genuine as it is deserved, not only with the general public but with the profession. There is no doubt that the 'Cocoa Essence' is one of the most admirable preparations of this valuable nutrient. Its freedom from all starch and oily matters makes it an unusually valuable and reliable form of food in all varieties of atonic dyspepsia, while it provides as with a powerful restorative beverage devoid of all deleterious qualities. Its absolute purity and freedom from alkali, of which we have satisfied ourselves, enable the physician to prescribe it without hesitation, and with a certainty of obtaining uniform and gratifying results. We regard it as an invaluable addition to our dietetic resources in the treatment of all forms of digestive disorders. Messrs. Cadbury have also sent us samples of their Mexican Chocolate and Cocoa Butter. Of both these we are able to speak in high terms. They are both excellent in quality and elegant in manufacture, and cannot fail to become popular."

—BRAITHWAITE'S "RETROSPECT OF MEDICINE."

N.B.

SCHACHT'S

LIQUOR

BISMUTHI

SEDATIVUS.

A combination of SCHACHT'S LIQUOR BISMUTHI and PEPSINA LIQUIDA (the most powerful Fluid Pepsine known) with sedatives.

FORMULA.—Each drachm contains, in addition to the Pepsine and Bismuth, gr. 1-24 Morphine Mur., min. ij Acid. Hydrocyan. B.P. and min. v Tinct. Nucis Vom. Dose: 1 drachm diluted.

The remarkable efficacy of this formula has been conclusively shown in very many cases of dyspepsia, especially those attended by gastric pain after eating. It arrests vomiting, banishes or alleviates the pain, and renders excellent service as a digestive nerve-tonic when such a remedy is indicated.

In 4 oz., 8 oz., and 16 oz. Bottles.

CALLARD'S DIABETIC FOODS.

From the BRITISH MEDICAL JOURNAL, Nov. 23rd., 1889.

"We have examined several kinds of CALLARD'S DIABETIC FOODS. The samples submitted to us consisted of (1) gluten bread, (2) gluten rolls, (3) gluten cracknels, (4) gluten and almond biscuits, (5) almond biscuits, (6) cocoa-nut biscuits, (7) sweet almond biscuits, and (8) sponge cakes. The first five of these samples are stated to contain no sugar, and practically no starch, which upon analysis we have found to be the fact. The remaining foods mentioned we have found to be sweetened with a small percentage of saccharin, and to contain neither starch nor sugar, as stated by the manufacturer. The samples we have received have been very well prepared, and evidently from the best materials. The presence of the very small quantities of saccharin in these foods cannot be objected to, whatever views may be held as to the physiological effect of saccharin, and they are in every way well suited for the purpose intended."

From THE LANCET, Oct. 5th, 1889.

"No less than ten varieties of CALLARD'S DIABETIC FOODS have been submitted to us, and after careful examination we are able to report that all are excellent. For the first five—namely, gluten bread, rolls, rusks, cracknels, and gluten and almond biscuits—it is claimed that they contain no sugar and only a trifling percentage of starch. The remaining five are described as cocoa-nut and almond biscuits, sponge cakes, and Madeira and almond cakes, very slightly sweetened with saccharin. These last are asserted to be absolutely free from starch and sugar. In regard to the samples submitted to us, these statements are entirely true. No sugar or starch was found in the last five, while in the first five there was no sugar but a little starch. Saccharin was present in the last two samples, but in very small and perfectly harmless quantities. In texture and flavour all the samples were admirable, and several would be eaten with pleasure even by persons who were not under diabetic restraints."

Our foods are strongly recommended by Dr. Pavy. Samples sent to Medical Men Free.

146, NEW BOND STREET, LONDON, W.

GOUT—RHEUMATISM. HOUDÉ'S COLCHICINE.

HOUDÉ'S Colchicine Granules produce very abundant hypersecretion from the surface of the intestinal mucous membrane; they cause the elimination of the Urates and Uric Acid by the intestinal canal and not by the bladder.

After the first evacuations they induce an absolute remission of the Attack of Gout and of the acute pains accompanying it; it is a remedy at once preventive and curative of Gout, and of Rheumatic and Arthritic Affections.

DOSE AND MODE OF USE.—Each standardised granule contains only one milligramme. On the first day four should be given at intervals of a quarter of an hour; the second three; the third day, two. On the first appearance of the symptoms of an attack, the above described treatment should be recommenced.

Manufactured by A. HOUDÉ, 42, Rue du Faubourg, St. Denis, Paris.

FRANCIS NEWBERRY & SONS, 1, King Edward Street, Newgate Street, London.

CHRISTIA,

THE NEW SURGICAL TISSUE.

CHRISTIA completely supersedes Oiled Silk, Gutta Percha Tissue, and other materials of a similar nature. It is stronger, lighter, does not go sticky or tacky when in contact with heat, boiling water, chloroform, alcohol, ammonia, or any form of spirit. It can be medicated with any antiseptic desired. It is cheaper than all other tissues, and is now LARGELY USED IN MANY ENGLISH, CONTINENTAL AND FOREIGN HOSPITALS, ESPECIALLY AT LYONS, MARSEILLES, MILAN, VENICE, GENOA, CONSTANTINOPLE.

The Medical Annual for 1889, writes: "CHRISTIA.—This is a new material for bandages, surgical sheets, etc., introduced by Messrs. CHRISTY & Co., of Lime Street. It is a thin, soft and flexible tissue of great lightness and absorbent power. It renders the use of oil silk unnecessary, and for the application of medicated substances to the body is the best material that has been produced. Our readers should apply for samples."

M.D., of Edinburgh, writes:—"I thank you for your Carbolised Bandage, that I shall make use of when needed. I am very pleased with it."

E. H. F., Surgeon, London.—"Send me a bandage and a piece of your Christia, it will do well for ulcerated legs, being so light and effective."

A. G. R. F., Surgeon, Chatham.—"Your Christia is excellent as a dressing in minor surgical operations."

A Surgical Society, London.—"We have received your samples and our surgeons are very pleased with them. Send us to commence with, 36 dozen Bandages."

D. F. Cozzi, Surgeon at the Ospitale Maggiore, Milan.—"I thank you very much for the different specimens of Christia, we have made experiments and the result was satisfactory."

Dr. Patterson, of the English Hospital, Constantinople.—"Christia has already been proved by us to possess in the highest degree the properties claimed for it, and I propose to use it in the hospitals here in future."

The Chief of the Pharmacie Centrale des Hospices Civils de Lyon, Hotel Dieu, Lyon, who purchases Christia by the hundredweight, wrote us in January, 1890.—"I have the pleasure to inform you that the Christia ordered is all destined to be used as surgical dressings to replace gutta percha."

KOLA CHOCOLATE & KOLATINA.

Two very convenient and palatable forms for partaking of Kola, which has recently been proved so nourishing and sustaining. These preparations can be taken without the least fear of prejudicial after effects. Their use is positively unaccompanied by the least feeling of depression, and dyspeptic patients can be safely recommended to avail themselves of them as they produce a most invigorating and healthy action upon the liver.

Prices to the Profession, 1/2, 2/4 and 4/6.

EUCALYPTUS HONEY.

A Pure Honey produced by the Black Bee of Australia, which feeds upon the Eucalyptus tree. It contains all the valuable principles found in the Eucalyptus, including its wonderful antiseptic and anti-malarial properties.

Used with great success in the treatment of laryngeal, bronchial, pulmonary, cardiac and scrofulous affections; in malarial and typhoid fevers; in whooping cough and influenza; in diseases of the bladder and kidneys; and in catarrhs.

Dr. Thomas-Caraman found it, taken in warm milk, to yield a most pleasant beverage, and to produce, after a few minutes, an agreeable sensation of warmth throughout the body, the active principles of the Honey being eliminated through the larynx and the bronchial tubes, rendering the voice clearer and more resonant; the breath became perfumed, and the lungs acted in a freer and more elastic manner. After taking the Honey for a week, the doctor said he could take violent exercise without any strain being felt.

Sold in Bottles at 1/- and 2/-

NATURAL ARSENIO-FERRIC MINERAL WATERS OF

MILD & STRONG.

Analysis of Levico Strong:
4 grains arsenious acid with 24
grains iron salts per pint.

Dose One tablespoonful three times
a day diluted, beginning with the
milder.

Testimonials from numerous Eng-
lish and continental Specialists.

LEVICO

SOUTH TYROL.

They are particularly valuable in the
treatment of **ANEMIA,
CHLOROSIS, SYPHILIS,
SKIN DISEASES,
MENSTRUAL DISORDERS,
SCROFULOUS DIATHESIS**
and most especially
NERVOUS AFFECTIONS
of all kinds.

To be had of all Chemists and Druggists.

AGENCY, 24, COLEMAN STREET, LONDON, E.C.

To be had of all Chemists and Druggists.

BULLOCK'S PEPSINA PORCI.

DOSE—
2 to 4 grains.

Since the introduction by Dr. LIONEL BEALE of PEPSINA PORCI, Mr. BULLOCK has devoted special attention to its manufacture.

BULLOCK'S ACID GLYCERINE OF PEPSINE.

DOSE—
to 2 drms.

Possesses at least three times the digestive power of (and in most cases considerably more than) any other preparation of Pepsine and
Glycerine, or fluid form of Pepsine whatever.

May be prescribed with most substances compatible with Acids. In oz., 8 oz., and 16 oz. Bottles, and in Bulk.

The published experiments of G. F. DOWDESWELL, Esq., M.A. Cantab., F.C.S., F.L.S., &c., Dr. PAVY, Professor TUSON, the late
Professor GARROD, and others, conclusively demonstrate the marked superiority of BULLOCK'S PEPSINA PORCI AND ACID GLYCERINE
OF PEPSINE over every other Pepsine or preparation of Pepsine—ENGLISH, FRENCH, GERMAN, OR AMERICAN.

* * In prescribing either of the above preparations, it is suggested to insert in parenthesis as follows (BULLOCK).

J. L. BULLOCK & CO., 3, Hanover Street, Hanover Square, London, W.

THE FIRST RAW FOOD EXTRACT.

(Introduced to the Medical Profession in 1878.)

PALATABLE
TO THE
MOST DELICATE
TASTE.

WILL KEEP
PERFECTLY
IN ANY CLIMATE.

THE VITAL PRINCIPLES OF BEEF CONCENTRATED.

Containing 20 per cent. of Coagulable Albumen.

BOVININE consists of the juices of lean raw beef obtained by a mechanical process, neither heat nor acid being used in its preparation. The nutritious elements of lean raw beef are thus presented in a concentrated solution, no disintegration or destruction of the albumen having taken place. The proteids in solution amount to twenty per cent. of the weight of the preparation, and give to it the great dietetic value it possesses in all conditions where a concentrated and readily assimilable food is needed.

BOVININE is easily digested and COMPLETELY absorbed from the intestinal tract, thus furnishing an extremely valuable nutrient in Typhoid Fever, after surgical operations in the abdominal region, and in all diseased conditions of the intestinal tract characterized by ulceration or acute and chronic inflammation.

BOVININE, containing as it does all the nutrient properties of lean raw beef in a highly concentrated form, furnishes to the

Medical Profession a reliable and valuable aid to treatment in Phthisis, Marasmus of both young and old, in all wasting diseases, in continued fevers, and in supporting treatment.

BOVININE, on account of its BLOOD MAKING PROPERTIES is ESPECIALLY of service after surgical operations, in cases of severe injuries attended with great loss of blood, and in the puerperal state.

BOVININE, for rectal feeding, is unsurpassed in excellence, having been used for weeks continuously with no irritation or disturbance resulting. The most satisfactory results from its use as an enema are obtained by adding to each ounce of BOVININE ten grains of Pancreatic Extract, and two ounces of water. This should be well mixed and injected slowly. No preparation of opium is necessary in the enema.

SAMPLES will be furnished to any member of the Medical Profession free, carriage paid, upon application to the Company.

Prepared only by THE J. P. BUSH MANUFACTURING COMPANY, Chicago and New York, U.S.A.

Depot for Great Britain:—32, SNOW HILL, LONDON, E.C.

**IMPORTANT NOTICE.**

The following paragraph by Professor Dr. FÜRBRINGER, Head Physician of the *Städtisches Allgemeines Krankenhaus im Friedrichshain, Berlin*, appears in the printed report from the Directorate of the said Hospital:—

"Denaeayer's Peptone has at last been adopted as the new means of nutrition, after trials, which were made on a large scale with a quantity presented to this hospital, had proved the undeniable advantages of this Peptone over all other peptone preparations in use. Among these advantages, special mention should be made of the pleasant flavour—enjoyed by nearly all patients,—and of its form, which is a beautiful clear, amber-yellow, sterilised liquid, requiring no preparation before being used."

DENAAYER'S

LIQUID STERILISED PEPTONE OF MEAT.

Our colourless Liquid Peptone of Meat, sterilised and concentrated, the only rational one, free from microbes, has been acknowledged as the most efficacious means of restoring Strength, Digestion, and Appetite. It suits the most Delicate Stomachs, and is pleasant to the taste.

LIQUID STERILISED PEPTONATE OF IRON.

Our Liquid Peptonate of Iron is the most active and most assimilable of all ferruginous preparations. Specially recommended in all cases where the Stomach cannot bear iron in the ordinary forms.

CREOLIN

JEYES'

PROFESSOR
CALDWELL SMITH,
M.A., M.D., D.Ph. Camb.,
*says, in a Paper read at the
British Medical Association,
1889:—*

"It is in my experience the ideal Deodorant, and as a true Disinfectant I can speak of it in very high terms
"It has this great advantage, that it is not poisonous."

The British Medical Journal,
January 11th, 1890, says:—

"A man took nearly nine ounces of Creolin, with suicidal intent. He soon became unconscious, and in this condition was admitted into Hospital. . . .
"He was discharged cured in the third week after admission. . . . The case cited is in fact a most powerful testimony of the innocuousness of Creolin, especially as compared with Carbolic Acid. For if this enormous quantity, nearly half a pint, taken into the stomach did not kill the patient, external applications of small quantities would probably have no appreciable physiological effects."

The NON-POISONOUS SUBSTITUTE

FOR
CARBOLIC ACID,
CORROSIVE SUBLIMATE
AND
IODOFORM.

LANO-

Creolin

5 %

made with Lanolin is most useful in the treatment of wounds, skin diseases, and in gynaecology.

PROFESSOR

Dr. von ESMARCH,
Privy Medical Councillor,
*the celebrated Surgeon, writes
concerning Creolin, in a letter:—*

"I employ the remedy
"almost exclusively in
"my clinic and private
"practice. I am very
"satisfied with its anti-
"septic action."

J. W. Washbourn, M.D.,

Teacher of Bacteriology, Demonstrator of Anatomy,
Guy's Hospital, London, says:—

"According to these experiments, Creolin in 5 per cent. solution killed anthrax spores when acting for five minutes. Corrosive Sublimate in 1 per cent. solution produced the same effect, while Carbolic Acid in 5 per cent. solution only did this in the first experiment—that is, once out of nine times. From the above facts it will be seen that Creolin is a good antiseptic, certainly superior to Carbolic Acid in its action on sporeless bacteria, and probably superior also when acting on spores."

Creolin

JEYES'

is applied in $\frac{1}{2}$ to 2 % solution for irrigating wounds, the vagina, &c., for saturating wool, and generally in modern surgery.

Creolin

DUSTING POWDER

10 %

made up with Boric Acid is an excellent substitute for Iodoform.

Creolin

CAPSULES

containing 5 m. each, are flexible, easily swallowed, and give excellent results in Dysentery, Dyspepsia, Typhoid, Flatulence, &c., when TAKEN INTERNALLY.

Creolin

SURGICAL SOAP

10 %

is put up in metal boxes, for carrying about and using for disinfecting the hands before and after operations.

Creolin

GAUZE

10 %

is prepared from finest raw material, and forms a most excellent dressing for wounds.

WORKS—PLAISTOW, ESSEX.

The Best Antiseptic for both Internal and External Use.

LISTERINE

**Antiseptic, Prophylactic, Deodorant, Non-Toxic, Non-Irritant, Non-Escharotic,
Absolutely Safe, Agreeable, and Convenient.**

FORMULA.—*Listerine is the essential antiseptic constituent of Thyme, Eucalyptus, Baptisia, Gautheria and Mentha Arvensis, in combination. Each fluid drachm also contains two grains of refined and purified Benzo-boracic Acid.*

DOSE.—*Internally: One teaspoonful three or more times a day (as indicated), either full strength or diluted, as necessary for varied conditions.*

Listerine is a well-proven antiseptic agent—an antizymotic—especially adapted to internal use, and to make and maintain surgical cleanliness—asepsis—in the treatment of all parts of the human body, whether by spray, irrigation, atomization, or simple local application, and therefore characterized by its particular adaptability to the field of

PREVENTIVE MEDICINE—INDIVIDUAL PROPHYLAXIS.

We bring **Listerine** to the attention of the Physicians, Surgeons, and Dentists of Great Britain, not as a new and untried preparation, but as a definite and uniform pharmaceutical product that has acquired an enviable reputation in the United States and Canada.

Medical men interested in **Listerine** will please send their address to our Agents and receive by return mail specimen and a pamphlet of 36 quarto pages, embodying:—

A Tabulated Exhibit of the action of **Listerine** upon inert laboratory compounds.

Full and Exhaustive Reports and Clinical observations from all sources, confirming the utility of **Listerine** as a general antiseptic for both internal and external use; and particularly

Microscopic Observations, showing the comparative value and availability of various antiseptics in the treatment of diseases of the oral cavity, by **W. D. MILLER, A.B., Ph.D., D.D.S.**, Professor of Operative and Clinical Dentistry, University of Berlin, from whose deductions **Listerine** appears to be the most acceptable prophylactic for the care and preservation of the teeth.

Further information regarding the products of the **LAMBERT PHARMACAL CO.**, may be had by application to the Company at

A PINE HARVEST ON THE ALPS.

GATHERING PINES FOR PUMILINE.

“PUMILINE”

REGISTERED

TRADE MARK.

FOR USE IN

Rheumatism, Gout, Bronchitis, Throat and Chest Affections, and Skin Disease.

“PUMILINE” ESSENCE.

Is a fragrant volatile oil, obtained from Pines growing in the snowy heights of the Alps. Is largely used for Rheumatism, Bronchitis, and Throat Affections by internal administration, inhalation, or external use. A powerful antiseptic and deodorizer, and specially recommended for use in sick rooms. Removes the unpleasant atmosphere, and immediately imparts a healthful and fragrant property to the air.

In Bottles 1s. 6d. and 2s. 6d. each.

“PUMILINE” OINTMENT.

For all Skin Affections, irritations, insect bites, burns, &c. This Ointment is a fine, smooth homogeneous application. It gives immediate relief in the intolerable itching of Eczema, &c. It is unrivalled both as a medicinal agent and toilet requisite. Used with special benefit in Massage.

In Pots 1s. 1½d. and 2s. 9d. each.

“PUMILINE” DRY INHALER.

Most effective and convenient pocket inhaler for use in Throat or Lung Troubles. Is invaluable for use during a fog or mist. Complete, with small vial of Pumiline Essence, 1s. 6d.

“PUMILINE” JUJUBES.

For Sore Throat, Cough, Hoarseness, &c., they give immediate relief.

In Boxes 1s. 1½d. and 2s. 3d.

“PUMILINE” EXTRACT.

Dissolved in a hot or cold bath, it proves of great benefit in Rheumatism and Skin Disease. Is most invigorating and refreshing, and of special value for Anæmic Women, Convalescents, and Sick or Weak Children.

In Bottles 1s. each.

“PUMILINE” LINIMENT.

Specially beneficial for use in Chronic Rheumatism, Gout, Lumbago, Sciatica, &c. It is also invaluable for Throat and Chest Affections, and may be taken internally in doses of 2 to 5 drops.

In Bottles 1s. 1½d. and 2s. 9d. each.

“PUMILINE” PLASTER (ST. DALMAS).

Is most effective in Chronic and Muscular Rheumatism, Lumbago, Sciatica, and also for Chest Affections.

1s. 1½d. each.

“PUMILINE” SOAP.

Is a carefully neutralised and superfatted soap. It is peculiarly adapted for use to the delicate skin of ladies and children, and renders the skin smooth and satiny. The fragrant Pumiline contained in this soap stimulates the skin to a healthful functional activity so necessary in this changeable and damp climate.

In Tablets 6d. and 1s. each.

One of the Physicians to H.R.H. the PRINCE OF PRINCE writes: “Nothing gave my patient so much relief as Stern’s Pumiline.” Sir MORRILL MACKENZIE writes: “A most valuable preparation. It acts as an admirable tonic to the Mucous Membrane in cases of Bronchitis and Laryngeal Catarrh.”

Dr. WRIGHT WILSON, F.R.C.S., Birmingham, writes: “I have largely prescribed Stern’s Pumiline during the past two years. It has never failed to give the patient and myself great satisfaction.”

The JOURNAL OF GYNÆCOLOGY says: “We should like to direct attention to the great comfort derived from the use of *Pumiline Ointment*, not only for external applications in cases of eczema and vulvar irritability from other causes, but also for making digital examinations. We have tried it extensively, and have been more than satisfied with the result in both matters. We can heartily congratulate Messrs. G. & G. STERN on their most excellent and useful preparations.”

“PUMILINE” SHOULD NOT BE CONFOUNDED WITH ANY OTHER PINE PREPARATIONS.

Over 1000 Medical Testimonials and Notices in all the leading Medical Journals.

SPECIAL DISCOUNTS TO MEDICAL MEN.

G. & G. STERN, 62, Gray’s Inn Road, London, W.C.

SAMPLES SENT FREE TO MEDICAL MEN ON APPLICATION.

SOLUBLE PEARL-COATED PILLS

THE GENERAL APOTHECARIES' COMPANY, having recently erected new plant and the most improved machinery, possess increased facilities for the manufacture of Pills at the lowest possible prices consistent with the use of the best Drugs and Chemicals.

The coating employed is perfectly soluble even in cold water.

Postage or Carriage Paid to all Parts of the United Kingdom.

PRIVATE FORMULÆ PREPARED—COATED OR OTHERWISE.

SHAREHOLDERS holding one or more shares in the Company are allowed a DISCOUNT of 7½ PER CENT.

SPECIAL TERMS TO HOSPITALS, DISPENSARIES, AND LARGE CONSUMERS.

The Company's Revised Pill List (in book form), containing nearly 400 Formulæ, together with Price List of Drugs, Chemicals, and Pharmaceutical Preparations, will be forwarded to any Member of the Profession on application to the Managing Secretary,

49, BERNERS STREET, LONDON, W.

Pure Hordeum.

LOEFLUND'S PURE HORDEUM (Malt Extract).—Since the starch-converting power of Malt Extract has been fully recognised, the excellence of this product as a concentrated and highly nutritious food seems to have lost all consideration, and, in fact, would now appear to be valued solely in proportion to its diastasic strength. A perfect extract should possess both these qualifications in the highest possible degree. Every malted cereal contains only a certain amount of diastasic ferment according to the season, nature of soil, etc., etc.; and it remains solely a question of experienced and skilful manipulation to transfer this diastase to the extract in its most efficient form without detriment to the constituents which form the great food value of the grain. By a recently improved method of manufacture, Pure Hordeum now combines the greatest possible diastasic value (equal to 15 to 20 times its weight), with Maltose, Dextrine, Albuminoids, and the Phosphates of the grain all in a perfectly soluble and therefore most digestible form; and, as shown by the most reliable medical reports, "It can be taken by the most weakly without the slightest feeling of nausea."

The finest Bavarian Barley, from which Pure Hordeum is solely made, is richer in nitrogenous matter than any other cereal, or combination thereof, including wheat and oats (Henry Watts' *Dictionary of Chemistry*, vol. i. p. 825), and contains the proportion of fuel food to tissue food most favourable for nutrition. For this reason the eminent scientist, Justus von Liebig, whose pupil Mr. Loefflund was, prescribed Barley alone for the manufacture of Malt Extract.

For the last twenty years Mr. Loefflund has made Malt Extract and malted foods his special study, and with the practical assistance of Dr. Henkel, as laboratory superintendent, has succeeded at all times in embodying in his products the most approved principles of advanced science. The characteristics, etc., etc., of every Malt Extract are well known to him, and it may conscientiously be said that no better preparation than Pure Hordeum can be produced. It neither congeals nor ferments in any climate, and does not contain a trace of alcohol.

Analysis of LOEFLUND'S DIASTASE MALT EXTRACT (Pure Hordeum), by Prof. Dr. R. FRESENIUS—

Maltose	58·91	Azotic Substances { Albumines Peptones Amides	1·36	
Dextrine	15·42		0·48	
Natural Acids	0·47		2·89	
Ashes	1·13	Water	4·73
									Specific Gravity		19·34
										100·00	
										1·413	

The Extract was found entirely free from Alcohol. The Albuminous Bodies contained in this Extract are perfectly soluble and therefore completely digestible. These results of my analysis prove Loefflund's Diastase Malt Extract to be a preparation fulfilling all requirements.

(Sig.) Dr. R. FRESENIUS.

Hordeum c. Pepsine—(Pepsin Porci : gr. iv. ex 3 iv.)—As Diastase operates powerfully in the digestion of starch food, and Pepsine in that of Flesh food, the combination of these two principles is strongly recommended in all cases of Dyspepsia, Loss of Appetite, and even in those cases where the stomach rejects food. Pure Hordeum with Pepsine, unlike irritating remedies, acts direct on the food, not on the organisms. Pepsine combined with this Extract will retain its efficiency for any length of time, whilst Pepsine Wine and similar solutions lose their digestive qualities.

Hordeum c. Iron—(Ferri Pyrophosphat : gr. vi. ex 3 vi.)—in Chlorosis, Anaemia, Jaundice, etc., etc. Ladies and children who cannot take Iron in any other form, will find this compound a vast improvement on the ordinary ferruginous preparations, which are nauseous and unpleasant.

Hordeum c. Quinine—(Ferri Cit. c. Quiniâ : gr. ii. ex 3 iv.)—in Neuralgia, Nervous Headaches, General Debility, also a specific in Gastric Derangements—an excellent Tonic.

Hordeum c. Lime—(Calcei Hypophosphit: gr. vi. ex 3 iv.)—In this preparation the difficulty to digest the salts of Lime is overcome. It is a valuable remedy in Phthisis, and similar diseases of the lungs, Rickets, Scrofulosis, and is particularly suitable for weakly children. Its use for ladies in a delicate state cannot be too highly recommended.

Hordeum c. Hops: Insomnia. Dietetic Tonic for Senility.

Malt Extract with Cod Liver Oil.—This preparation (a perfect emulsion) has for a considerable time been prescribed by the Medical Profession with the best results.—Malt Extract as a vehicle for Cod Liver Oil greatly enhances the value of the latter. The taste is rendered so palatable and “creamy,” that it may be taken under any circumstances. The best Norwegian Oil only is used.

"L" Brand MALT EXTRACT—is absolutely pure and trustworthy, though not so highly concentrated, nor of such great diastasic strength as Pure Hordeum.

MALT EXTRACT LOZENGES—(Troch: Ext: Malti)—containing 30 per cent. "Pure Hordeum" Malt Extract and white sugar are adapted for children. These Lozenges soften the mucous membrane of the throat, never cause acidity, are very digestible, and of delicious flavour: being packed in bottles they keep very well.

The *British Medical Journal* says:—"There can be no doubt that many of the so called extracts of malt now in the market are almost inert. Pure Hordeum is prepared with special care by an improved method. We have given it an extensive trial both clinically and in the laboratory, and are satisfied that it possesses all the properties claimed for it."

The *Lancet* says:—"Pure Hordeum is made by the only satisfactory process. We have no hesitation in praising it as we believe it may be thoroughly trusted."

The *Chemist and Druggist* says:—"Loeßlund's Pure Hordeum may be relied on to contain the highest attainable proportion of diastase."

Prices to the Medical Profession:—(2/6) *Pure Hordeum*, 1/10; (3/6) *Compound (Pepsine, Iron, Quinine, and Lime)*, 2/10 stamped; (2/6) *c. Hop.* 1/10; (1/6) "*L*" *Brand Malt Extract*, 1/3; (1/9) *c. Cod Liver Oil*, 1/6; (-/10) *Malt Ext. Lozenges*, -/8.

Manufacturers of

Soluble Gelatine Coated Pills.

Advantages OF Gelatine Coating.

The COATING, being mainly composed of Gelatine, is applied whilst the pills are in a plastic condition, thus avoiding the excessive drying and hardening necessary in other forms of coating, which in many instances not only retards the action of the pills, but also impairs their medicinal qualities.

From its nature this coating is readily and perfectly SOLUBLE, undergoing solution at the temperature of the body in a few minutes.

Owing to the TRANSPARENCY of the delicate covering, the characteristic colours of the various kinds of pills are perfectly apparent, and the risk of giving a wrong pill is far less than when all sorts are uniformly white.

Pills are supplied according to the British and Hospital Pharmacopœias and from numerous private formulæ. They can also be had "pearl coated" if desired.

BENGER'S FOOD.

(Registered.)

ADELAIDE, 1887.

For INFANTS, CHILDREN & INVALIDS.

GOLD MEDAL AWARDED, HEALTH EXHIBITION, LONDON, 1884.
HIGHEST AWARD, INTERNATIONAL EXHIBITION, ADELAIDE, 1887.

MEDICAL OPINIONS.

"Mr. Benger's admirable preparations." — THE LANCET, March 25th, 1882.

"Deserving of the highest praise, and only require to be made known to the profession to ensure their extensive employment." — THE PRACTITIONER, February, 1883.

"Few modern improvements in Pharmacy have done so much as Benger's Preparations to assist the Physician in his treatment of the sick." — THE MEDICAL PRESS, June 13th, 1883.

"Benger's Preparations have deservedly a very high reputation, and are all largely used." — THE MEDICAL TIMES AND GAZETTE, September 8th, 1883.

"Benger's Food is a preparation devised on original lines, and which we can speak of in the highest terms. . . . Infants do remarkably well on it, and it is most suitable for many conditions in adults and old people. . . . There is certainly a great future before it." — THE ILLUSTRATED MEDICAL NEWS, December 22nd, 1888.

"Undoubtedly a great advance on any previous attempt in this direction. It is palatable and excellent in every way. We have given it in very many cases with the most marked benefit, patients frequently retaining it after every other food had been rejected. For children who throw up their food in curdled masses it is invaluable." — THE LONDON MEDICAL RECORD, March 15th, 1882.

NOTICE TO THE MEDICAL PROFESSION.

BENGER'S FOOD consists of a specially finely ground nitrogenous wheaten meal, cooked, and impregnated with a suitable proportion of the natural digestive principles of the pancreas. When mixed with warm milk or milk and water, as directed on each tin, these digestive principles not only render the starchy matter soluble (as in malted foods), but, further, reduce the casein of the milk to the same digestible condition in which it exists in human milk, so that hard indigestible masses of curd cannot be formed in the stomach. In no other food has this result been attained. It forms a delicate cream entirely free from rough and irritating particles, but rich in all the elements necessary to maintain vigorous health. It can be taken when other Foods disagree.

EXTRACTS FROM PRIVATE LETTERS.

"The infant was very delicate, and our medical adviser ordered your food. The result in a short time was wonderful; the little fellow grew strong and fat, and is now in a thriving condition—in fact, the 'flower of the flock.'"

"I am pleased to say that when every form of diet failed we were able to give BENGER'S FOOD, and to see our children gain rapidly and permanently."

"My last little boy was fed entirely upon it from birth, and a healthier child it would be difficult to find. My wife sounds the praise of BENGER'S FOOD everywhere."

BENGER'S FOOD may be obtained in tins at 1s. 6d., 2s. 6d., and 5s. each of Chemists, etc., everywhere, or by Parcel Post direct from the Manufacturers,

MOTTERSHEAD & Co. (S. Paine & F. B. Benger), Pharmaceutical Chemists,

[1890.]

Notes on Digestive Enzymes.

ZYMIN (Fairchild)

Is rightly considered as one of the greatest advances in modern medicine. It affords a natural and most efficacious means for the treatment of dyspepsia. It is our only therapeutic resource in many forms of intestinal indigestion and in occlusion of the pancreatic duct, etc. It is our only means of pre-digesting all kinds of foods, administering them fresh and palatable, and in such form that they will not prove a burden upon digestion. It is the only agent which does for the digestive organs what they are unable to do for themselves. It has revolutionised infant dietetics, inasmuch as its addition to cows' milk renders that fluid as easily digested as mothers' milk in every particular, after the lapse of half an hour.

Zymine contains no diluent, such as starch or milk sugar, which additions do not in the least assist its digestive action, and are added simply to increase the *bulk and profit*. Zymine must not be confounded with commercial Pancreatin—the latter is more expensive and less active.

ZYMIN PEPTONISING POWDERS.

These are so called because they produce *peptones*. Whenever it is proposed to peptonise milk only, and that continuously, the Peptonising Powders (Fairchild)* will be found the most convenient form to use for obvious reasons. They insure accuracy, security from deterioration, and extreme convenience. For patients away from home, travelling or visiting, these advantages will be specially appreciated. In those cases, however, where strict economy is a matter of considerable moment, the plain ZYMIN can be used.

Zymine (Fairchild) is supplied in three forms:—

1. In powder, put up in $\frac{1}{4}$ oz. and 1 oz. bottles.
2. (a) In 3 gr. Tabloids, put up in bottles of 25 and 100.
- (b) In Compound Tabloids (of 25 or 100 in a bottle), each containing Zymine 2 grs.; Bismuth Subnitrate 3 grs.; Powdered Ipecac. $\frac{1}{10}$ gr.

Dose.—One or two, an hour or so after eating.

3. In Zymine Peptonising Powders in glass tubes, a dozen in a box, each tube containing 5 grs. of Zymine and 15 grs. of Soda Bicarb.

ZYMIN PEPTONISING POWDERS (FAIRCHILD) supplied to the medical profession in boxes containing 1 doz. tubes, at 1s. 6d. per box. Retail, 2s. per box.

ZYMIN TABLOIDS supplied to the medical profession in bottles of 25 and 100 at 1s. 6d. and 4s. each. Retail, 2s. and 5s. each.

ZYMIN COMP. TABLOIDS supplied to the medical profession in bottles of 25 and 100, at 1s. 6d. and 4s. each. Retail, 2s. and 5s. each.

* Beware of imitations of the Zymine Peptonising Powders.—Always see that the name FAIRCHILD is on each package, as substances of an entirely different character are being sold in the market under the name of Peptonising Powders.

PEPSIN (Fairchild) IN SCALES OR POWDER.

Possesses the highest standard of activity and permanency.

Numbers of physicians have been disappointed in the action of some commercial pepsins. Dr. Corvisart of Paris, first suggested the employment of the gastric digestive enzyme in enfeebled digestion, and doubtless, as originally prepared, pepsin was found to be of much benefit as an aid to digestion. The immense demand subsequently for pepsin led to the adoption of varying processes for the preparation of the drug. Numbers of these were found faulty; some were evaporated down at high temperature and thus destroyed; others who succeeded in obtaining a comparatively active pepsin were tempted to employ various *diluents*, notably amongst others starch and milk sugar. The Pepsin prepared by the Fairchild process possesses 10 times the proteolytic power of commercial pepsins when subjected to the Pharmacopœia test, i.e., one grain will digest 1,000 grains of coagulated albumen instead of 100 grains only. Those physicians who desire to prescribe an active preparation should be careful to specify *Fairchild*.

Dr. Burney Yeo says "Pepsin is largely given to promote the activity of the stomach itself. For this purpose many preparations exist, but some are very uncertain and many probably quite inert."

"Pepsin (Fairchild) excels all other preparations of Pepsin with which we are acquainted."—*Edin. Med. Journal*.

Pepsin, either in scales or powder, may be given, spread on bread and butter or in the convenient form of sugar-coated Tabloids; each Tabloid contains 1 grain of pepsin with the appropriate quantity of acid and aromatics.

Supplied to the medical profession in bottles containing 25 and 100 Tabloids, at 1s. 2d. and 3s. 6d. per bot.

Pepsin in Scales or Powder supplied to the medical profession in $\frac{1}{4}$ -oz. and 1-oz. bottles, at 1s. 8d. and 5s. per bot.

THE KEPLER EXTRACT OF MALT.

This is a most nutritious, efficient and pleasant preparation extracted from pure barley by first moistening the cereal, exposing it to a moderate temperature, and subsequently drying, screening, etc. Kepler Malt Extract contains all the nutrient elements of the barley, as phosphates, albuminoids and other elements, in conjunction with the diastase which is evolved in the process above referred to, and which greatly aids digestion as it converts starch, as in potatoes, rice, etc., into maltose and dextrines. This diastase is a most important principle of the malt, being of special service in errors of nutrition accompanied by digestive derangements. It does not tax digestion, but aids it in its processes and furnishes warmth-giving as well as tissue-forming elements.

The Kepler Extract of Malt and the Kepler Extract of Malt with Cod Liver Oil (Kepler Solution) supplied to the Medical Profession in bottles containing $\frac{3}{4}$ lb and 1 $\frac{1}{4}$ lb, at 1s. 10d. and 3s. 2d. Retail prices, 2s. 6d. and 4s. Special terms to Hospitals. Supplied by all Chemists throughout the World.

BURROUGHS, WELLCOME & Co., Snow Hill Buildings, LONDON, E.C.

Will be happy to supply trial Specimens to medical men free on request.

A Good Offer.

LONDON.]

JUNE 28TH.

[1890.]

B. W. & Co., having received a number of the "A B C" MEDICAL DIARIES and VISITING LISTS FOR 1890.

WITH "A B C" RECENT MATERIA MEDICA

late from the printers, have a small number left on their hands, and will be willing to give one to any medical man who will pay postage on same—3d.

ELEGANT, AND OF CONVENIENT SIZE FOR THE POCKET.

This year's diary is a great improvement on that of 1889, of which the Medical Journals report most favourably.

The EDINBURGH MEDICAL JOURNAL, for Dec., 1889, says:—"We have much pleasure in highly recommending the 'A B C' Medical Diary and Visiting List. The book is elegantly got up, and contains much valuable information, and has an 'A B C' Materia Medica, especially of these new and rarer drugs which are now so universally used in the treatment of disease."

B. W. & CO.'S HYPODERMIC TABLOID POCKET CASES.

Equipped with a B. W. & Co. Hypodermic Tabloid Pocket Case, the Physician has a more complete armamentarium for procedure in emergencies than is elsewhere procurable.

This is the most complete and convenient Hypodermic Tabloid Pocket Case ever introduced, and has been adopted by the leading physicians throughout the world, and is used on the principal steamships under requirement of the new medical regulations of the

B. W. & Co.'s Hypodermic Tabloid Pocket Case, filled and fitted complete, 15s.

Board of Trade.

List of Hypodermic Tabloids.

Pure, portable, and reliable.

PREPARED BY B. W. & CO.

Acconitin	1-960 gr.	Homatropin (unirritating)	1-250 gr.
Apomorphine	1-15 & 1-10 gr.	Hydrag. Parachlor.	1-150 & 1-50 gr.
Atropin Sulph.	1-150, 1-100, & 1-50 gr.	Hyocyanin	1-80 & 1-30 gr.
Caffein Sodio-Sulphate	1-2 gr.	Hyoscin	1-900 & 1-75 gr.
Cocain Phosphate	1-4 gr.	Morphine Bi-Meconate 1-3, 1-6, 1-4, & 1-3 gr.	
Cocaine	1-4, 1-4, & 1-3 gr.	Morphine Sulphate 1-12, 1-6, 1-3, 1-4, 1-3 & 1-3 gr.	
Colchicin	1-100 gr.	Morphine and Atropin combinations	
Conium	1-40 gr.	Pilocarpin	1-10, 1-6, & 1-3 gr.
Curare	1-15 gr.	Quinine Hydrobromate	1-30, 1-6, & 1-3 gr.
Digitalin	1-100 gr.	Solerothin Acid	1-3 & 1 gr.
Ergotin	1-50 & 1-300 gr.	Strophanthin	1-500 gr.
Eserin Salicylate (unirritating)	1-100 gr.	Strychnine	1-150, 1-100, & 1-50 gr.

Hypodermic Tabloids of the principal drugs and alkaloids supplied to the medical profession in tubes, containing from 12 to 20 Tabloids each, price 1s. per tube.

Each Tabloid is soluble in 3 or 4 minims of water, and is not liable to the decomposition of solutions of the alkaloids.

TABLOIDS OF COMPRESSED DRUGS.

The "Tabloids" furnish all the advantages of pills, with none of their disadvantages. They contain no admixture

whatever, and do not crumble or harden with time. They are made with the purest of drugs, and their action can always be relied upon with absolute certainty. They keep well in all climates, and are unaffected by heat or moisture. Mr. H. M. Stanley, in his work "The

Congo," vol. ii. fol. 225 and 327, refers to their value. We also offer the following (B. W. & Co.) Medical Pocket Cases, fitted with a most useful assortment of Compressed Drugs in the form of Tabloids.

B. W. & Co.'s Morocco Case, No. 15, containing 10 3-drachm vials filled with Tabloids, etc., from 30s.

B. W. & Co.'s Calf Case, No. 17, containing 16 3-drachm vials filled with Tabloids, etc., from 30s.

TABLOIDS prepared by B. W. & Co.

Acconitin Tinct., 1 min.		Papain Saccharated, 5 gr.
Aloin 1/10 gr.		Peptonin
Ammon. Bromide, 5 and 10 gr.		Phenacetin, 5 gr.
Ammon. Chloride, 2, 5, and 10 gr.		Pilocarpin Mur., 1/20 gr.
Ammon. Chloride with Borax.		Podophyllin Resin, 1/4 gr.
Anti-Constipation.		Potash Bicarb., 5 gr.
Antifebrin, 3 gr.		Potash Chlorate, 5 gr.
Antimony Tartrate, 1/50 gr.		Potash Chlorate with Borax.
Antipyrin, 5 gr.		Potash Nit. (Sal. Prunella), 5 gr.
Apocynaphine Mur., 1/50 gr.		Potash Permanganate, 1 and 2 gr.
Ascorbic Acid, 1/100 and 1/50 gr.		Potassium Bromide, 5 and 10 gr.
Atropin Sulph., 1/100 gr.		Potassium Iodide, 5 gr.
Balladonna Tinct., 1 min.		Quinine, 1/10, 1/5, 1/3, 1/2, and 5 gr.
Bismuth Sub-nit., 5 and 10 gr.		Quinine Sulphate, 1 gr.
Blue Pill, 5 gr.		Iron Hypophosphite, 2 gr.
Borax, 5 gr.		Acid Arsenious
Caffein Citrate, 1 gr.		Strychnine Sulphate, aa. 1/50 gr.
Calcium Sulphide, 1/10 gr.		Saccharin, 1/100 gr.
Calomel, 1/10 and 1 gr.		Rhubarb, 5 gr.
Capsicum Tinct., 1 min.		Rhubarb Comp. (Pill), 5 gr.
Cassia Sagrada Dry Ext., 2 gr.		Rhubarb Comp. Pulv. (Gregory Powder), 5 gr.
Cassia Sagrada Dry Ext. (dry), 1 gr.		Rhubarb and Soda, 5 gr.
Euonymin 1 gr.		Saccharin, 1 gr.
Nux Vomica Ext. 1/10 gr.		Sallin, 5 gr.
Saluberrin Comp., U. S. F.		Sallin, 5 gr.

Opium Tinct. (Laudanum), 2 min.		
Papain, 2 gr.		
Papain, Pure (Fahrbild).		

These pure and portable Tabloids of Compressed Drugs are supplied in convenient packages for dispensing, and at moderate prices.

BURROUGHS, WELLCOME & Co., Snow Hill Buildings, LONDON, E.C.

Will be happy to supply trial Specimens of "Tabloids" to medical men free on request.

DUNCAN, FLOCKHART & CO., Wholesale & Export Druggists, EDINBURGH.

CHLOROFORM.

(Duncan's.)

PREPARED FROM PURE AND METHYLATED SPIRIT.

CHLORIC ETHER.

(Duncan's.)

This is a special preparation, quite different from Spir. Chloroformi P. B., perfectly miscible with water, and always of the same strength

CASCARA SAGRADA CAPSULES.

Each Capsule equal to $\frac{1}{4}$, $\frac{1}{2}$ or 1 teaspoonful of Fluid Extract of Cascara Sagrada. They can also be had in combination with $\frac{1}{4}$ or 1 grain of EUONYMIN.

BLAUD'S PILL (Fr. Pharm.) CAPSULES.

In 3 Sizes, equivalent respectively to 1, 2 or 3 Bland's Pills.

These Capsules differ from all others, and have advantages which no others possess. They are made from Pure Unoxidised Carbonate of Iron by a special process. They are so prepared, that while they retain indefinitely the full efficacy of fresh Bland's Pills, they have no tendency to become hard and insoluble by keeping, as the pills often do. They are small in size. Owing to the special process adopted by D., F. & Co., the 3 pill Capsule is hardly larger than a single Bland's Pill. They are soft and flexible, and much more easily swallowed than pills. They can be had in combination with Arsenic, Nux Vomica, &c.

In London from WM. EDWARDS & SON, 157, Queen Victoria St., E.C.; or may be ordered through any Wholesale or Retail Druggist

"One of the certainties in Medicine, and in this respect LACTOPEPTINE ranks with quinine."—Prof. YANDELL.

LACTOPEPTINE,

For Diseases
of the Stomach.

The most important remedy ever introduced to the Medical Profession for Dyspepsia and kindred Diseases.

It is conclusively ascertained that LACTOPEPTINE will bring about the Digestion of food in a manner perfectly identical to that obtained under the influence of the natural gastric juice.

From "RETROSPECT OF PRACTICAL MEDICINE AND SURGERY," July, 1877.

"A glance at the formula of LACTOPEPTINE would convince even the most sceptical of the valuable results that must ensue through its administration. It is a combination of all the digestive agents, consequently can never be administered without giving the utmost satisfaction."

The extended use and adoption of LACTOPEPTINE by the MEDICAL PROFESSION affords indisputable evidence that its therapeutic value has been thoroughly established in cases of Indigestion, Dyspepsia, Loss of Appetite, Impoverished Blood, General Debility, Intestinal and Wasting Diseases of Children, Chronic Diarrhoea, Constipation, Vomiting in Pregnancy, Headache, Nausea, and all Diseases arising from imperfect nutrition.

Lactopeptine is always uniform, its effects are specific, and no one has ever been able to imitate its digestive value. If you do not obtain positive results when you prescribe Lactopeptine, you can be sure that some substitution has been made, and in such cases it may be necessary for the physician to prescribe Lactopeptine in the original ounce package to ensure certainty of obtaining the genuine article. We can confidently make this assertion, knowing the scrupulous uniformity in digestive value of every ounce of Lactopeptine.

PRICE OF LACTOPEPTINE POWDER.

One ounce, 4s. 6d.; Quarter-pound (4 oz.) Bottle, 14s.; Half-pound (8 oz.) Bottle, 27s.
UNSTAMPED, FOR DISPENSING ONLY, Quarter-pound (4 oz.), 12s.; Half-pound (8 oz.), 24s.

JOHN M. RICHARDS,

Sole Manufacturer of Lactopeptine,

Laboratory: 46 HOLBORN VIADUCT, LONDON, E.C.

CARNRICK'S Liquid Peptonoids with Coca.

(DIGESTED BEEF, MILK AND GLUTEN WITH COCA.)

Each fluid ounce contains the medium quantity usually taken of Powdered Beef Peptonoids (rendered wholly soluble by digestion) combined with 30 grains of Coca.

THERE is no question of the great value of Coca as a stimulant in many diseases, but whenever it is used alone there must be a corresponding reaction. If the brain and muscles are stimulated there will be a waste of tissue, and this waste should be repaired by assimilation and reconstruction, which can only take place by rest and nutrients.

Acting upon this theory, we combined *Coca* with our *Liquid Peptonoids*, and placed it in the hands of a number of practitioners for careful trial, believing that the Beef, Gluten and Milk in *Liquid Peptonoids*, being perfectly digested and ready for immediate absorption, would re supply the waste so quickly that no reaction from the stimulating properties would occur.

The results of these repeated trials have confirmed our belief in every instance, and we have, therefore, prepared *Liquid Peptonoids* with Coca for the use of the Medical Profession.

Our experiments convince us that Coca should seldom be used, to get its best effect, except combined with some nutritive elements ready for assimilation.

The depressing effects of the reaction from the use of Coca or any stimulant, go very far towards neutralizing the benefits derived, and we are confident this is the only way to prevent it.

Referring to this preparation, THE LANCET says: "A new adaptation of a well-known and highly-esteemed article. The idea successfully carried out was to unite the powerful nerve stimulant coca with an equally powerful and highly assimilable food stimulant."

In 8 oz. and 16 oz. Bottles, 3s. 6d. and 6s. 6d. Samples free to Medical Men.

CARNRICK & Co., Ltd., 24 & 25, Hart Street, Bloomsbury, London, W.C.

Renovating Medicines for Wasting Diseases.

Cream of Malt, Plain.

A recognised advance on the ordinary Extracts of Malt, surpassing in Diastase all other productions.

Cream of Malt with Cod Liver Oil and Hypophosphites.

Cream of Malt with the combination of the finest Norwegian Cod Liver Oil and Hypophosphites of Soda, Lime and Potash, the specific action of which is well known, hence its great value as a food in Consumption, Convalescence and General Debility, &c.

Cream of Malt with Coca.

Useful as a Nervine and Muscular Tonic preventing waste of tissue, appeasing hunger and thirst, relieving fatigue, also of value in various diseases of the digestive and respiratory organs.

From *The British Medical Journal*, December 15th, 1888:—"Cream of Malt, which contains the combined principles of Cod Liver Oil, extract of malted barley, malted wheat, and malted oats, with the hypophosphites of lime, soda and potash, possesses much medical testimony as to its value as a remedial agent. The preparation is well made: it is palatable, and the combination is permanent. Objection is sometimes made to the unpleasantness of swallowing ordinary extract of malt and the like in a semi-fluid form, but this preparation, when stirred with water, readily mixes with it, and then forms a very perfect emulsion, which is not too sweet, and is not likely to give rise to the least distaste."

From the *Lancet*, Nov. 2nd, 1889:—"Excellent preparation; converts starch very readily."

From L.R.C.P., L.M., L.R.C.S., Devonport:—"I gave your Cream of Malt to a very delicate girl whose appetite had completely failed, and found that her stomach retained it easily and her languished and low-spirited disposition gave way to a brighter countenance and more cheerful disposition. She continued taking it for some time, and is now able to take meat food and walk out a little. I attribute this speedy improvement in the activity of the digestive organs to the stimulating and feeding effect of the Cream. The Cream is a great improvement on the simple mixtures of Malt with Cod Liver Oil, which are glutinous, and therefore swallowed with difficulty and nausea, and when mixed with liquids allows Oil to separate in globules."

From M.R.C.S., L.S.A.:—"For some years past I have been on the look-out to find some really palatable form of Cod Liver Oil, and have tried the numerous emulsions with which the medical papers swarm, hitherto without success. I have tried your Cream of Malt with Cod Liver Oil, Hypophosphites of Lime, &c., with the greatest success, and find that it answers all the requirements of the best Cod Liver Oil, with this important difference, that it causes no nausea and disgust to the most delicate stomach."

Cream of Malt with Terebene.

Has proved of great service in Winter Cough, Phthisis, and in some stages of Consumption.

Cream of Malt with Dialysed Iron.

The best form to administer Iron when other preparations cannot be borne by the stomach, highly useful in Anæmia, Chlorosis and Epilepsy.

Cream of Malt with Iodides.

Most efficacious in glandular enlargements and morbid growths, as in bronchocele, scrofulous glands of the neck and abdomen, and as an alternative in obstinate mucous discharges.

Cream of Malt with Peptones.

An active solution of the gastric ferments combined with Cream of Malt forming a useful nutritious food.

From M.D., M.R.C.S.:—"Your Cream of Malt and Cod Liver Oil supplies a standing want. I prescribed it in a very severe case of eczema in a young child with best results, the mother saying he took it greedily. Also in the case of a young man, in a case of pleuro-pneumonia, who could never take Cod Liver Oil in any form before now. He says yours has done him so much good, he would not be without it on any account."

From M.R.C.S., &c.:—"Since writing you I have used your Cream of Malt and Cod Liver Oil in a case of recovery from pleurisy with effusion. The patient was greatly emaciated and had a consumptive tendency. The ordinary Cod Liver Oil could not be kept down. Other compounds of Cod Liver Oil and Malt were tried, together with different emulsions, but with like result. Your Cream was tried and was found to be easily digested and assimilated, very palatable, and gave perfect satisfaction, the patient gaining weight rapidly, which is the true test as regards its efficacy. I shall prescribe no other."

From M.B., M.D., L.R.C.S., &c.:—"I have given your Cream of Malt in my own nursery with good effect, and the younger children take it readily. Its composition is invaluable as containing the phosphites in intimate combination with Cod Liver Oil and Malt."

From M.R.C.S., L.S.A.:—"I consider your Cream of Malt very valuable, as it leaves no nausea or unpleasant taste, showing that it is easily assimilated. It is a great advantage that it should form such a perfect emulsion with water."

From L.R.C.P., L.R.C.S.:—"I believe your preparation to be of very great value. I gave it to several patients and found they gained rapidly in weight, with the accompanying general improvement. I may add it is unusually palatable and pleasant to take."

From M.D.:—"I gave your Cream of Malt with Hypophosphites to a phthisical case, and I consider it a beautiful sample of pharmacy."

From M.D., L.R.C.P.:—"I am convinced your Cream is a very valuable preparation, and I can say generally that I have found all your preparations to be most excellent."

PREPARED ONLY BY

OPPENHEIMER BROS. & CO.

Manufacturing Chemists, 1 & 3, Sun Street, Finsbury Square, London, E.C.

STANDARD PREPARATIONS

Maltine with Cod-Liver Oil.

By reason of the special process of blending the oil with the malt, and the peculiar adaptability of Maltine as a menstruum for cod-liver oil on account of its palatability and convenient consistence, this preparation is entirely free from the defects of cod-liver oil. It is a most digestible and palatable form of fat, and is now generally recommended as the cod-liver oil best adapted for dyspeptic and fastidious patients.

The *British Medical Journal* states:—"Patients unable to tolerate the purest and most carefully prepared cod-liver oil can readily digest and assimilate it when combined with Maltine."

"Fulfills all the conditions necessary for perfect digestion. An elegant and palatable preparation."—*Medical Press and Circular*.

MALTINE COMPOUNDS.

Maltine with Cod-Liver Oil and Pancreatine.

Each fl. oz. contains: 15 grs. Pancreatine.

Maltine with Cod-Liver Oil and Iodide of Iron.

Each fl. oz. contains: Iodide Iron, 4 grains.

Maltine with Cod-Liver Oil and Phosphates.

Each fl. oz. contains: Phosphate Lime, 4 grs.; Phosphate Soda, 4 grs.; Phos. Potass, 3 grs.; Phos. Iron, 3 grs.

Maltine with Cod-Liver Oil and Phosphorus.

Each fl. oz. contains: 1-50 gr. Phosphorus.

Maltine with Pepsine and Pancreatine.

Each fl. oz. contains: Pepsine, 15 grs., Pancreatine, 15 grs.

Maltine with Peptones.

Each fl. oz. contains the nutritive properties of 1½ oz. beef, digested.

Maltine with Cit. Iron and Beef.

Each fl. oz. contains: Extract of Beef, 1 oz.; Citrate of Iron, 4 grs.

Maltine with Iron.

Each fl. oz. contains: Pyrophos. Iron, 8 grs.

Maltine with Alteratives.

Each fl. oz. contains: Chloride Calcium, 5 grs.; Chloride Magnesium, 5 grs.; Bromide Sodium, 5 grs.; Iodide Potassium, 1 gr.; Iodide Iron, 1 gr.

Maltine with Cascara Sagrada.

Each fl. oz. contains: fl. Ext. Cascara Sagrada, 1½ drs.

Maltine with Hops.

Contains 2 per cent. hops.

Maltine Wine.

A Nutritive Cordial.

Maltine Wine with Pepsine and Pancreatine.

Each fl. oz. contains: Pepsine, 15 grs.; Pancreatine, 15 grs.

Maltine with Iodides.

Each fl. oz. contains: Iodide Iron, 2 grs.; Iodide Manganese, 2 grs.

Maltine with Lime.

Each fl. oz. contains: Hypophos. Lime and Soda, each, 3 grs; Hypophos. Iron, 2 grs.

Maltine with Phosphates.

Each fl. oz. contains: Phosphate Lime, 4 grs.; Phosphate Soda, 4 grs.; Phosphate Iron, 3 grs.

Maltine with Phosphates Iron, and Quinia.

Each fl. oz. contains: Phosphate Iron, 4 grs.; Phosphate Quinia, 1 gr.

Maltine with Phosphates Iron, Quinia and Strychnia.

Each fl. oz. contains: Phosphate Iron, 4 grs.; Quinia, 1 gr.; Strychnia, 2-75 gr.

Maltine with Phosphorus Comp.

Each fl. oz. contains: Phosphorus, 1-50 gr.; Quinia Sulph., 1 gr.; Strychnia, 1-40 gr.

Maltine with Phosphorus.

Each teaspoonful contains 1-150 gr. Phosphorus.

Malto-Carrageen.

Each pint contains: Maltine and Hops, 14 ozs.; Carrageen, 1 oz.; Yerbine, 1 oz.

Malto-Viburnin.

Each fl. oz. contains the active principle of one half ounce Viburnum Prunifolium.

Carnrick's Liquid Peptonoids.

In Liquid Peptonoids the albuminoid principle of Beef Peptonoids is entirely digested and ready for assimilation. Although not possessing the advantages of as high nutritive power as the powdered Beef Peptonoids, it nevertheless represents a nourishing liquid stimulant, and will be taken by patients who are unable to ingest food in any other form, and in these cases it has been found of the greatest service. Liquid Peptonoids assists largely in the digestion of food, and stimulates the secretion of the digestive agents. In flavour and palatability it is compared to a delicate wine or cordial. Carnrick's Liquid Peptonoids is a Nutrient, Digestant, Peptogen, Stimulant and Tonic.

"A very valuable condensed food, a very powerful and agreeable tonic and stimulant."—*Lancet*.

We also manufacture Liquid Peptonoids with Coca, each fluid ounce containing 30 grains of coca, and Peptonoids, Iron and Wine.

In 8 oz. and 16 oz. bottles, 3s. 6d. and 6s. 6d.

Winchester Quarts, 29s. Special terms to medical men.

CARNRICK'S SOLUBLE FOOD

A SATISFACTORY SUBSTITUTE FOR HUMAN MILK

The Sub-Committee on Infant Feeding at the American Medical Association recommended the following formula: "Desiccated partly peptonised milk in the form of a milk food, containing partly converted starch (soluble starch), dextrine, and a small quantity of lactose (milk sugar), is a convenient, and when well made, a very efficient substitute for the mother's milk."

FORMULA OF CARNRICK'S SOLUBLE FOOD.

Evaporated or Desiccated Milk partly Peptonised and thoroughly sterilised by Heat	45 parts.
Dextrine and Soluble Starch	45 "
Milk Sugar	10 "

Carnrick's Soluble Food will thoroughly nourish a child without the addition of cows' milk or any other nutritious substance. It is to be administered with the addition of water only.

It approaches nearer in composition and digestibility to human milk than any other prepared food that has ever been produced.

"Carnrick's Soluble Food closely imitates in composition an average sample of human milk."—*British Medical Journal*.

In bottles, 1s. 6d., 2s. 6d., 4s. 6d. Special terms to medical men. We shall be pleased to send specimens free of charge to physicians.

We shall be pleased to send specimens free of charge to medical men. In prescribing please specify "The Maltine Manufacturing Co."

OPPENHEIMER BROS. & CO.,
1 & 3, Sun Street, Finsbury Square.

LIQ. CAULOPHYLLIN ET PULSATILLA CO.

"THE SOAP OF THE AGE."

"Vinolia" Soap,

A New Departure; for Toilet, Nursery and Bath.

CONTAINS EXTRA CREAM INSTEAD OF "BITING ALKALIES."

Cleansing without Shrivelling Skin, Hair and Nails. Not Coloured, Rendered Transparent, or in any way "Doctored Up."

Noteworthy Reports.

The Chemist and Druggist.—"Vinolia" Soap in an ideal soap, is delightfully perfumed, a very little piece of it gives a lasting lather even with hard water, and the skin has a velvety feeling after washing with it. The soap is put up in an elegant manner, and chemists can recommend it with confidence."

The Hospital Gazette.—"We have tried 'Vinolia' Soap, and can certify that it is bland and unirritating, even to the most delicate skin. The alkali in the soap being neutralised by an adequate provision of fatty base, it does not deprive the skin of its natural fat, but acts rather as a lubricant, leaving it soft and pliable."

The Illustrated Medical News.—"The great feature of 'Vinolia' Soap is that it contains, instead of some free alkali, an excess of the unsaponified cream, and thus embodies the principle introduced in recent years of a superfatted soap; consequently it is beautifully emollient and softening to the skin, and most soothing in many slightly inflamed conditions."

The London Medical Recorder.—"Vinolia" Soap may be used even for the most irritable skin without the risk of producing excoriation, etc. It is highly spoken of by leading authorities for skin affections and tender skins."

The Lancet.—"No free alkali, a distinct excess of free fat, odour delicate, an article of excellent quality."

Health.—"The acme of all that has been done in soaps."

Family Doctor.—"Unquestionably the soap all who prize their skin should use."

British and Colonial Druggist.—"The soap is of so high a quality that it is a matter of surprise to many that so good an article can be supplied at the price."

Medical Press and Circular.—"Deliciously scented and gives a good smooth lather. Bland and unirritating."

Journal of Laryngology.—"Excellent and elegant, lathering nicely, producing a soft skin, and delicately perfumed."

Dublin Medical Journal.—"It does not dry or weaken the skin or hair."

Baby.—"Vinolia" Soap contains an excess of unsaponified cream, and thus differs from the usual scented and other soaps, in which more or less alkali is detectable. It lathers beautifully, and does not crack. It does not make a baby's eyes smart, nor does it dry, wrinkle, and harden the skin, or induce pimples. For the toilet, nursery, and bath, and especially for those with skin affections, it may be used with comfort, safety, and perfect satisfaction."

The Hospital.—"Particularly suited to the nursery."

D.Sc., F.R.S.—"A further amelioration is also effected by the incorporation with the soap of extra fatty matter, well calculated to soften the skin, and diminish the tendency to irritation sometimes caused in very tender subjects by even the purest of ordinary soaps."

VINOLIA

For the Skin in Health and Disease.

For Athletes and Travellers—Chafes, Sunburns, Blisters, Prickly-Heat, Redness, Use after Shaving, &c.

For Skin Irritation—Roughness, Tan, Face Spots, Insect Bites. Was recently satisfactory in Eczema of 25 years' standing—Relieves Itching at once—Unequalled for the Nursery.

The Hospital says:—"A remedy that has been for some time in use, and has won golden opinions among physicians, nurses, and ladies, is 'Vinolia.' The only thing that need be said of it is that medical men, nurses, and others should try it for themselves."

VINOLIA POWDER

Soothing, Soluble, and Safe.—HEALTH.

An unrivalled Rose Dusting-Powder for the Toilet and Nursery. Adheres well, does not stop the pores, Protects and Preserves the Skin. For Weeping Surfaces, Oily Skins, Perspiring Hands, Tender Feet, Blisters, Chafes, Skin Irritation.

The Lady's Pictorial says:—"Vinolia" Powder is a very soothing preparation, both in cases of skin disease and for toilet purposes, superseding the old toilet powders, which are apt to cause acne by blocking up the pores of the skin."

OF ALL CHEMISTS.

KOLA CHAMPAGNE.

THE attention of the Medical Faculty has been lately drawn to the physiological effects of a nut found growing in Western Africa, and known by the name of Kola (*Sterculia Acuminata*). Although the stimulating and invigorating properties of this nut have been known to the native tribes of Western Africa for centuries, they have only recently attracted attention in Europe.

Numerous physiological experiments have lately been made with the extract of Kola both in Germany and France, and it was found that under its influence men were enabled to perform feats in mountaineering and marching of an unusual kind without food and without fatigue. See *Daily News*, April 10th; *Standard* and *Pall Mall Gazette*, April 12th.

Taking the high estimation of the nut among the natives of Western Africa, coupled with the experiments, there can be no reasonable doubt but that we have here to do with an undoubted nerve tonic and stimulant. Kola does not, like tea, produce disturbance of the digestive organs and excessive nervous irritation.

The stimulating properties of Kola Champagne can be put to the test by anyone who is fagged and weary; and the verdict may be safely left to the busy public, to whom anything which helps to ease strain of modern life, without injury to the brain and stomach, must be an invaluable boon.

PEPSALIA is a stable combination of the various digestive ferments with Chloride of Sodium to which a suitable proportion of *free* hydrochloric acid has been added.

PEPSALIA is a powerful digestive agent, having the taste and homogeneous appearance of fine table salt, of which it is intended to take the place in the dietary of those who suffer from slow or imperfect digestion. It is taken in the same way as ordinary table salt, and in like quantities, and being thus thoroughly mixed with the food its solvent properties are exercised to the best advantage.

In cases of so-called atonic dyspepsia **PEPSALIA** gives good results when associated with the use of remedies destined to restore the tonicity of the muscular walls of the stomach.

THE LANCET, May 10th, 1890, says:—

"In this preparation we have a convenient means of aiding digestion."

The MEDICAL PRESS & CIRCULAR, April 16th, 1890, says:—

"Tested in the usual way '**PEPSALIA**' gives evidence of great digestive activity, even in relatively small quantities."

Dr. HEHNER, the eminent Analyst, says:—

"I have carefully examined samples of '**PEPSALIA**,' and have tested its digestive action upon various articles of food,

such as hard boiled eggs and cooked pork, under conditions as nearly as possible identical with those obtaining in natural stomachic digestion. I find that when used in the same way as ordinary table salt, '**PEPSALIA**' exercises a powerful solvent action upon nitrogenous materials, one grain being capable of dissolving and peptonising from twenty-five to thirty grains of such material."

M.D., M.R.C.P., London, writes:—

"I have used '**PEPSALIA**,' and am much pleased with it. It acts well as a digestive, and it gives me pleasure to recommend it to my patients."

Price 1s. and 2s. per Bottle.

Special Discount to Medical Men.

G. & G. STERN, 62, Gray's Inn Road, London, W.C.

Samples sent Free to Medical Men on application.

This Wine has been found always uniform and reliable, owing to the selection of finest ingredients and the greatest accuracy in its manipulation. When prescribing therefore, the Medical Profession are strongly advised to specify "VIN MARIANI" in order to avoid the substitution of imitations often worthless and consequently disappointing in effect.

N.B.

VIN MARIANI

(ERYTHROXYLON COCA.)

"VIN MARIANI" has been introduced strictly through the Medical Profession. The written opinions, contained in letters addressed to M. MARIANI, copies of which can be seen at either Depot, of over 2000 Physicians, may be summarised thus:—

"VIN MARIANI" nourishes, strengthens, sustains and refreshes; is very palatable and may be borne by the most enfeebled Stomach; never produces constipation, but, on the contrary, aids digestion and assimilation, removing fatigue and improving the appetite.

"VIN MARIANI" is well adapted for Children, persons in delicate health and convalescents, as it sustains life for a long period and nourishes without any other food or drink.

"VIN MARIANI" supplies exactly what Physicians have so long felt the need of in their practice, a perfectly reliable, diffusible tonic and stimulant, and strengthener of the entire system.

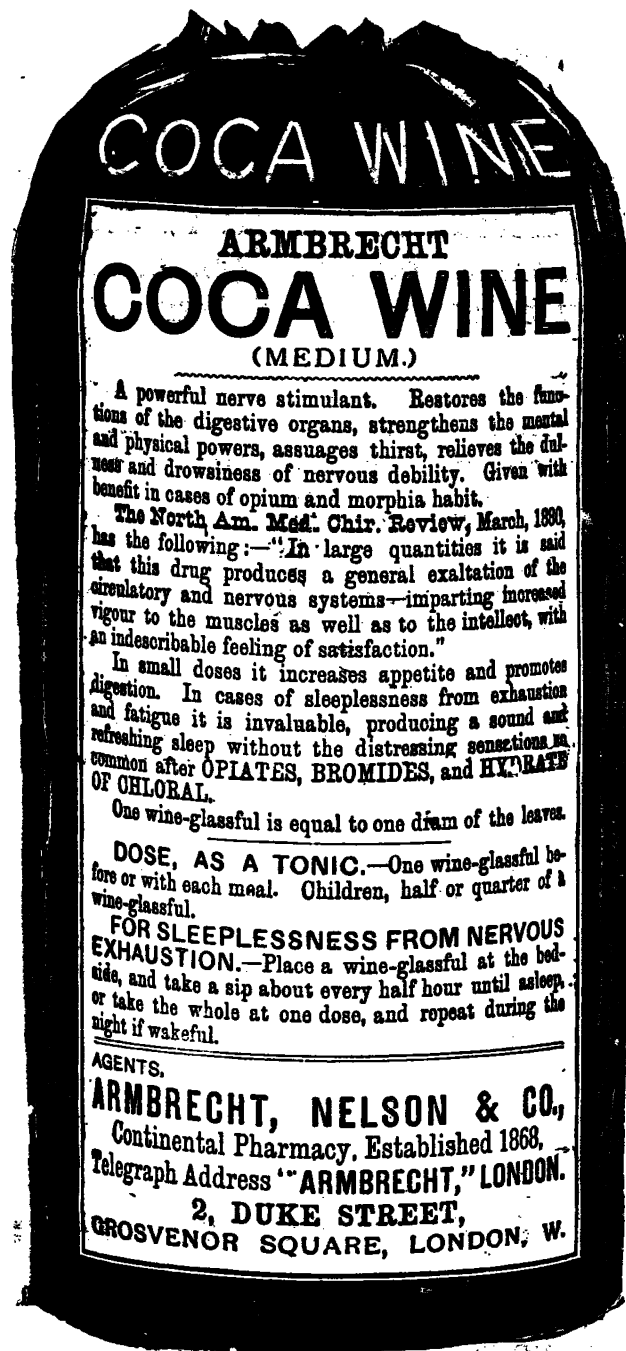

"VIN MARIANI" is given successfully as a tonic and stimulant in the treatment of Anæmia, Pulmonary Troubles, Laryngeal and Gastric Complications, Asthma, Lymphatism, Sequelæ of Childbirth, Brain Exhaustion, Nervous Depression, Dyspepsia, Tardy Convalescence, Blood Impoverishment, after Wasting Fevers, and General Debility.

Price 4/- per Bottle; or 45/- per Dozen. The Medical Profession, Clergymen and Vocalists, either for their own use or for experimenting, can, upon enclosing their Card and P.O.O to either of the London Wholesale Depots, have delivered them Free to Address, any quantity at the Professional Price of 42/- per dozen.

London Wholesale Depôts:—GABRIEL JOZEAU, 49, Haymarket;

PARIS:—41, Boulevard Haussmann. NEW YORK:—52, West 15th Street.
Felton, Grimwade & Co., Melbourne; Elliott Bros., Sydney and Brisbane; New Zealand Drug Co.,
Dunedin, Wellington, and Christchurch; Treacher & Co., Bombay; Smith Stanistreet, Calcutta.

"Several preparations of Coca Wine have been placed before the public, but we unhesitatingly accord to the above the first place. Their Coca Wine is more suited to the English palate than some of the continental preparations, which are too sweet to be palatable, and which destroy their otherwise tonic and invigorating qualities by deranging the digestive system or creating nausea. The value of Coca Wine in conditions of debility is too well recognised to require comment, and we need do no more than say that after a very careful trial of Messrs. ARMBRECHT, NELSON & Co.'s Wine we can speak most highly of it as a sound and invigorating tonic, and can recommend it most unhesitatingly."

—*Journal of Laryngology and Rhinology.*

A SAMPLE BOTTLE FREE
TO MEDICAL MEN AND
CLERGYMEN.

Procureable through every Chemist or Wine Merchant.

Armbrecht's Coca Preparations have proved most successful to ward off Influenza, and to remove the weakness and lassitude during convalescence.

COCA WINE EXTRACT.

A SUBSTITUTE FOR COCA WINE.

Or for making Coca Wine by adding five drops (more) to Wine.

A powerful nerve stimulant. Restores the functions of the digestive organs, strengthens the mental and physical powers, assuages thirst, relieves nervous debility. Given with benefit in cases of opium and morphia habit.

The NORTH AM. MED. CHIR. REVIEW, March, 1880, has the following:—"This Coca produces a general exaltation of the circulatory and nervous systems, imparting increased vigour to the muscles as well as to the intellect, with an indescribable feeling of satisfaction.....and, what is more singular, this state of exaltation is not followed by any feeling of languor or depression."

In small doses it increases appetite and promotes digestion (five or more drops before each meal). In cases of sleeplessness from exhaustion and fatigue it is invaluable, producing a sound and refreshing sleep without producing the distressing sensation so common after OPIATES; five or more drops at bedtime, and repeated once in an hour's time if necessary.

RETAIL PRICE, 3/6 & 5/6 A BOTTLE.

COCA LOZENGES.

These Lozenges are recommended instead of the wine where it is not convenient to take the latter. They contain the extract of the green Coca leaves, and may be used in cases of *loss of voice* before and after singing and public speaking. Harmless if even used to excess.

DIRECTIONS.—Two or three Lozenges to be sucked whenever desired.

RETAIL PRICE, 1/6, 2/6 & 5/-

These two preparations are especially recommended to Travellers Cyclists, &c.

Handbills, Showcards and Pamphlets free on application.

TRADE DISCOUNT 25 PER CENT.

ARMBRECHT, NELSON & CO.,

2. 3 & 4, Duke Street, & 3, Tom's Court, Grosvenor Square, W.

"THE CHEMIST AND DRUGGIST" says:

ARMBRECHT'S NOVELTIES.

"THE popularity of preparations of coca does not appear to be on the decrease. Messrs. ARMBRECHT, NELSON & Co., of Duke Street, Grosvenor Square, who have been so energetic in establishing the reputation of their coca wine, are now doing a useful thing by the introduction of a coca wine extract, five drops or more of which added to any wine produces a stimulating tonic of high power. The advantage of this preparation to travellers is apparent, and it carries with it the further recommendation that patients need not give up the use of any particular brand of wine which their physicians have ordered, since a few drops of the extract may be taken in the wine used in the ordinary course of dietary. The extract is put up in neat dropping bottles in a case, to retail at 3s. 6d. The same firm now make coca lozenges, two of which are equal in coca strength to a glass of coca wine. The lozenges are made with a fruit basis, are 'crystallised' and not disagreeable to taste. They are put in strong boxes to retail at 1s. 6d. The prices are not marked in either case."

PALATABLE TONIC LAXATIVE.**FERRIS & Co.'s**
PATENT**Cascara**

Extract of Cascara. The Tablets are of such a form that they can be easily divided, should a smaller dose be desired; and the taste can hardly be distinguished from that of ordinary Chocolate.

"Your tasteless liquid extract of Cascara Sagrada, and the Bonbons have given me great satisfaction. A little patient greatly appreciates the bonbons."

M.R.C.S.

To Messrs. FERRIS & Co., Feb. 8, 1889.

In habitual or chronic constipation. Invaluable for children, ladies and invalids. No nauseous bitter taste. By far the most agreeable form of administering Cascara Sagrada yet introduced.

Chocolate**Bonbons.**

QUICKLY RELIEVED BY

PAGE'S**CRESOLENE.**

Report of J. H. EGAN, M.D., on 14 Cases of Pertussis.

Case 1.—Mary, 3 years; whooped ten times in 24 hours. Cured in a few days.
Case 2.—7 years; whooped sixteen times in a day. Cresolene used with immediate cessation of cough during night and a few whoops during the day. When the instrument was not used the coughs increased in frequency. Cured in ten days.

Case 3.—10 months; whooped so constantly parents neglected to count them. Had been under other treatment, but hearing of success of Vaporizer the parents consulted me. She received immediate benefit and was cured.

I might cite the eleven other cases, but they all resemble each other. The average duration of treatment was eight days, the benefit being so immediate that the Vaporizers were not used every night. There was entire freedom from spasmodic coughing during the time the Vaporizers were at work.

The mother of Case 1 has been troubled with a hacking cough for several months and was entirely cured in one night, during which she slept with her child. This was a most remarkable result and excited much comment.

I have treated common Colds and Sore Throats with invariable success; one night being usually sufficient to effect a cure.

CRESOLENE is a product of Coal Tar, highly destructive of fungoid and other low forms of life, and will be found very beneficial in Diphtheria, Croup, Asthma, Phthisis, and also as a general disinfectant.

In 2 oz. and 4 oz. bottles, with Vaporizer.

Sole Agents for Great Britain and Colonies:—

PRICE OF WATER 1s. PER BOTTLE, OF ALL CHEMISTS.

ROBINSON'S CONCENTRATED WATERS.

[ESTABLISHED 1855.]

[ESTABLISHED 1855.]

One Ounce of these Waters added to Forty Ounces of Distilled Water forms a clear Medicated Water (without filtering), similar in every respect to those prepared according to the directions of the British Pharmacopoeia, and free from all Chemical Impurity. They are prepared to supply a want long felt by Chemists and Medical Men, and by their use a fresh supply of any of the Medicinal Waters may be obtained at a moment's notice. They are not affected by age in any climate. E.B.—Used in the proportion of one part to thirty-two of Water, they represent the Medicinal Waters of the United States Pharmacopoeia.

OBSTETRIC CONES (Gale's Patent).

GALE & COMPANY, Wholesale Chemists and Druggists, 15, Bouverie St., Fleet St., LONDON, E.C.

THE STANDARD MALT EXTRACT.

FROM THREE TO FOUR TIMES AS STRONG AS ANY OTHER MALT EXTRACT.

Dr. E. R. MORITZ, F.C.S., of 72, Chancery Lane, reports:—"It contains an exceedingly large amount of Diastase, and it is the relative richness in Diastase that constitutes the chief value of a Malt Extract. I have analysed the best brands of Malt Extract in the market under precisely the same conditions, and the sample which comes nearest the 'Standard' is only about one-third its strength."

"Mr. R. H. HARLAND, F.I.C., F.C.S., of Plough Court, Public Analyst, reports:—"I find that the 'Standard' Malt Extract contains a much larger proportion of Diastase than any other sample examined; it is fully four times as powerful, weight for weight. Diastase is the most important constituent of Malt Extract."

SAMPLES FREE TO ALL MEDICAL MEN.
SPECIAL TERMS ON APPLICATION.

The proprietors of the "STANDARD" MALT EXTRACT Brand have spared no expense in perfecting both their plant and their process, and they claim that their Extract is not only the best in the market, but the best that can be produced from Barley Malt. They will be happy to supply a sample bottle to any Medical Man desiring one, and they are confident that any test to which it may be subjected will prove the truth of the above statements. Medical Men are therefore respectfully requested to recommend the "STANDARD" MALT EXTRACT to their patients in preference to any other. It is put up and sold retail in patent wide-mouthed Stoppered Bottles, containing 6 oz. at 1s., 1 lb. at 2s. 6d., and 2 lbs. at 4s. 6d., being considerably cheaper than any other brands, and can be obtained at any respectable Chemist's.

The STANDARD MALT EXTRACT with COD-LIVER OIL is UNEQUALLED for all CHEST COMPLAINTS, &c.
For further particulars apply to the STANDARD MALT EXTRACT CO., 23, Billiter Street, London, E.C.

DR. BELLOC'S VEGETABLE CHARCOAL.

Either in powder or in pastilles, is one of the remedies which render the greatest service in *dyspepsia*, *gastralgia* and *nervous maladies of the stomach*. The Academy of Medicine of Paris, after numerous experiments made by a Commission appointed to this effect, has approved and recommended the employment of the charcoal of Belloc for the treatment of these maladies which, said the Commission, « often cause the despair of patients and doctors.» Most frequently the good effects are felt after the first doses.

It is in virtue of its *antiseptic* properties that the charcoal of Belloc was employed with success against infectious maladies, such as dysentery, diarrhæa, cholera, typhoid fever. It is one of the best agents for *Intestinal antiseptics*.

Nota.—The medicinal Charcoal of Dr. Belloc possesses qualities of diffusion which the ordinary charcoal of the pharmacies has not, and which depends on its mode of preparation. It is sufficient to plunge them comparatively in water to ascertain this fact.

Dose: from 2 to 6 table spoonfuls of powder per day, with a little water, before or after meals. 4 to 12 tea spoonfuls, or the same number of pastilles. Exact the signature and stamp of Dr. Belloc. Manufactory: the firm of L. Frere, 19, rue Jacob, Paris, and to be had in all pharmacies.

For immediate Use after Delivery. 6s. 6d., by post 6s. 9d.

The Binder is a substitute for the towel generally used immediately after labour. It is made of strong linen, and dispenses with the usual pinning. The advantages of the Binder are facility of application combined with comfort and greater efficiency. Measurement required, ordinary size of waist. Each one stamped with name and address.

AFTER SIX YEARS' WEAR.

"7, THE CRESCENT, BIRMINGHAM,
June 25th, 1888.

Messrs. S. B. WHITFIELD & Co.

"Dear Sirs,

"The Bedsteads you constructed for
me with 'Dominion Wire Spring
Mattresses' are by far the very best I have
ever seen for Hospital use. They have now
been in use for over six years, and have not
given way in the least; the Springs have never
broken, nor do they get rusted. They
are in every way satisfactory.

"Yours truly,

"LAWSON TAIT, F.R.C.S."

Medical Institutions.

REPORT ON WARREN'S REFINED WOOL FAT.

By L.R.C.P. London, M.R.C.S.

"Whilst experimenting on the growth of certain germs, I made use of some of Warren's Wool Fat as a medium, but found that *Linco Tonsurans* (Ringworm) which I was then investigating would not propagate in it; and although I have inoculated it with several kinds of moulds and microbes I have found no result. It seems to me that this is important, as the aseptic quality of the Wool Fat renders it very suitable for external purposes in cases associated with the growth of germs. The experiments were made in a moist atmosphere at the temperature of 95° to 99° F."

FOR GREAT RECOGNITION
OF MANUFACTURE

FR. GUSTAV ERNST,

80, CHARLOTTE STREET, FITZROY SQUARE, W.

INVENTOR,

Orthopædic, Anatomical, and Gymnastic Mechanist,

MANUFACTURER OF

SURGICAL INSTRUMENTS, ELASTIC BANDAGES, &c., &c.

By Appointment to the National Orthopædic Hospital, etc.

NUMEROUS ORTHOPÆDIC
INSTRUMENTS.

JOHN WEISS & SON beg respectfully to inform the Members of

the Medical Profession that they have in addition to their premises 287, OXFORD STREET, and 62, STRAND, LONDON, in response to numerous requests, opened a Branch Establishment at 42, KING STREET, MANCHESTER, where will always be found an extensive and varied stock of Surgical Instruments, Appliances, and Dressings, including all the latest improvements.

A staff of thoroughly competent workmen and fitters, including a female attendant, are employed on the premises to manufacture any articles required, and to fit all kinds of Bandages, Trusses, Orthopædic Instruments, &c.

A large assortment of their well-known high-class cutlery is also kept in stock.

DR. FELIX SEMON'S ELECTRIC LAMP FOR ILLUMINATING THE

MOUTH, NOSE, LARYNX, VAGINA, AND RECTUM.

This instrument is worked by means of a small primary battery, which is easily carried; and when exhausted recharged, if returned to us for that purpose.

Dr. Fisher's Patent Fixture for Fractured Patella.

Used effectually uncovered for the treatment of recent cases of Fracture, for the complete Fixture of the Upper Fragment, as soon as the swelling subsides.

More especially intended to be worn as a permanent support. Covered in cases of long standing for the efficient support and fixture of the Patella and Quadriceps Tendon, thus establishing the power of that group of muscles, same time allowing free action of the joint.

Proof of this has been afforded by the testimony of eminent Surgeons, and the experience gained in cases where it has been used with the greatest success. A plaster cast of the knee is required.

Dr. Fisher's Improved Bow-leg Splint.

This Splint has been in use for the last eight years with great success, during which time a thousand pairs have been applied with the desired effect.

Directions for Application

Should these splints not fit at the garter, calf, or ankle it is only necessary to warm the part gently before the fire till it bends freely, then to mould it on the leg so as to make it fit, and hold it in that position for a couple of minutes until it sets.

The success attending their use must depend a good deal on the attention paid in keeping the centre strap as tight as the child will bear it without inconvenience.

These splints may also be worn as a support for weak ankles only, but it is necessary in giving directions whether the child is inclined to walk on the inner or outer side of the foot.

In all cases light lace boots should be worn.

*Price, covered in good style, per pair 21s. 0d.
Ditto, in superior quality, per pair 31s. 6d.*

Dr. Fisher's Patent Flexible Knee-cap.

For Supporting the Knee-joint under any circumstances.

The principle on which this Knee-cap is made speaks for itself. The front is of steel wire worked in a manner so that the meshes dovetail with the extension of the limb without losing pressure from side to side, lined with chamois, consequently allowing free action of the joint, which object is not achieved by any other knee-cap made.

The top and bottom straps are merely for the purpose of keeping it in position; but the middle are of soft buck-skin, by which any pressure necessary may be kept up as the wearer desires. It is cool and light, adds scarcely any size to the joint, and calculated to wear for years.

Price 30s.

NORWOOD HYDROPATHIC ESTABLISHMENT.

Near the Crystal Palace.

And 7 miles from the Royal Exchange and Whitehall.

The Rev. C. H. SPURGEON says:

"The Beulah Spa has been my neighbour, and I have had occasion to hear many hearty testimonials in its favour from guests who have sojourned there. It is a delightful place for situation. The air is thoroughly refreshing, and has a smack of the sea: during south-west gales we have to cleanse incrustations of salt from our windows. The grounds are extensive, and the views are charming. There are baths and all appliances for health, and carriages for excursions."

Mr. C. BARKER, Proprietor.

stone.—Private **PATIENTS**, Male only, are received into this Asylum, at 1s. 6d. per week, everything included.—For particulars, apply to **F. FRITCHEARD DAVIES, M.D.**, Superintendent.

Warneford Asylum, Oxford.

President—The Right Hon. the **EARL OF JERSEY**. This Asylum is an endowed institution, intended for persons of either sex suffering from mental disorder, whose means are insufficient to defray the ordinary charges of a private asylum. The management is under the control of an influential committee. Ordinary terms £2 2s. a week, which may be increased or reduced at the discretion of the Committee. No extras are charged except by previous arrangement with the patients' friends. For particulars apply to the Resident Medical Superintendent, Dr. **BYWATER WARD**.

Barnwood House Hospital for

MENTAL DISEASES, Barnwood, near Gloucester.

Exclusively for **PRIVATE PATIENTS** of the **UPPER and MIDDLE CLASSES**.

This Institution is devoted to the care and treatment of persons of both sexes at moderate rates of payment.

The terms vary according to the requirements of the patients, who can have private rooms and special attendants, or be accommodated in detached villas and in the branch convalescent establishment on the hills.

Under special circumstances the rates of payment may be greatly reduced by the Committee.

For further information apply to Dr. **NEEDHAM**, the Medical Superintendent.

THE RETREAT, FAIRFORD, GLOUCESTERSHIRE.

An hour from Oxford, G.W.R. 12 miles from Swindon. Est. 1822. A Licensed Home for the care and treatment of Ladies and Gentlemen mentally afflicted. Special accommodation and carriage exercise provided. Pleasantly situated, with extensive grounds. Terms most moderate.—Address, **D. ILES, M.B.C.S.**, Res. Supt. and Proprietor.

HAYDOCK LODGE, NEWTON-LE-WILLOWS, LANCASHIRE.

Is charmingly situated in a healthy and retired neighbourhood, midway between Liverpool and Manchester, about 2 miles from Newton-le-Willows Station on the London and North Western Railway. It is a comfortably-furnished Country Mansion, especially adapted for the care and treatment of persons of unsound mind.

Besides the use of the general sitting-rooms, &c., patients of both sexes can have private apartments and special attendants at moderate rates of payment. Information as to terms, &c., may be obtained on application to the Resident Medical Superintendent, CHARLES T. STREET, L.R.C.P.Lond., M.R.C.S.Eng.

Telegraphic Address: "Street, Ashton-in-Makerfield."

N.B.—Private patients only are received, and to meet the requirements of persons of education and good social position, whose means do not allow of their paying the usual rates, special accommodation and attendance is provided at from £10 a year, payable monthly in advance.

Visiting physician—ALEXANDER DAVIDSON, M.D., F.R.C.P., Physician to the Liverpool Royal Infirmary.

HOLLOWAY SANATORIUM, VIRGINIA WATER.—A Registered Hospital for the

CURE and CARE of INSANE or NERVOUS INVALIDS of the MIDDLE and UPPER CLASSES.—This Institution is situated in a beautiful and healthy locality, within easy reach of London. It is fitted with every comfort. Patients can have Private Rooms and Special Attendants, as well as the use of General Sitting Rooms, at moderate rates of payment. Voluntary Boarders not under certificates can be admitted. Accommodation for friends who wish to reside with or near patients for short or long periods is also provided.—For terms, apply to the Resident Medical Superintendent, S. REES PHILLIPS, M.D., St. Ann's Heath, Virginia Water, Surrey.

WONFORD HOUSE HOSPITAL for the INSANE, near EXETER.—A Registered Hospital

for the UPPER and MIDDLE CLASSES.—This Institution is situated in a beautiful and healthy locality, within a short distance of the City of Exeter. There is comfortable accommodation at moderate rates, both in the Hospital itself and at Plantation House, Dawlish, a seaside residence on the South Devon Coast, affording more privacy, with the benefits of sea-air and a mild and salubrious climate. Private Rooms and Special Attendants provided, if required. Voluntary Patients or Boarders also received without Certificates.—For Terms, &c., apply to P. MAURY DEAS, M.B., M.S.Lond., Resident Medical Superintendent.

THE "SHRUBBERY," SOUTHALL, MIDDLESEX.—A Private Asylum or Home for

the Care and Treatment of Eight Ladies suffering from Nervous and Mental Disorders. The grounds are pleasant and secluded. The patients are under the constant supervision of Miss H. J. ROSSER, Proprietress, to whom all communications should be addressed.

"GLENDOSSILL," HENLEY-IN-ARDEN, WARWICKSHIRE.—Dr. S. H. AGAR, who has for

15 years conducted an Asylum for both sexes at BURMAN HOUSE, Henley-in-Arden, has relinquished that Establishment as being unsuited to the requirements of the Insane at the present day. Dr. Agar has purchased an ample site in a most salubrious and attractive situation outside Henley-in-Arden, and has built "Glendossill" expressly for the receipt of and treatment of a limited number of Upper and Middle-class Insane persons of both sexes. No pains or expense have been spared in designing and constructing, both internally and externally, "Glendossill" for its purpose, in accordance with the most modern and enlightened views, of what is necessary for the comfort, safety, and treatment of patients suffering from any form of Insanity. Telegraph and postal address, Henley-in-Arden, Warwickshire.

KENT SANATORIUM, NORTHGROVE, HAWKHURST, Midway between Tunbridge

Wells and Hastings.—A quiet HOME for the care and treatment of those suffering from Mental and Nervous Diseases. BOARDERS RECEIVED, terms moderate.—For particulars apply to F. AWBERRY HARMER, B.A.Cantab., Secretary.

References to physicians and clergymen. — Address, Teviot, BRITISH MEDICAL JOURNAL Office, 429, Strand, W.C.

Companion.—A gentleman,

30, experienced, seeks re-engagement as Companion to Invalid. Accustomed to mental cases. Highest references and testimonials, medical and social. — Address, Alpha, care of Mrs. CARTER, 7, Ashburnham Road, Bedford.

Wanted, a Partnership in a

high-class practice yielding an income of about £1,000 per annum, with further option of purchase in 2 or 3 years, by a very highly qualified, married man, aged 43. Advertiser has had great experience, and is prepared to pay the full value for anything suitable, but a preliminary trial of a few months is absolutely necessary to see if partners are mutually agreeable to each other. A large town in the south of England preferred, but this is not essential. The very highest references will be given. All applications treated confidentially. — Apply to G. B. D., BRITISH MEDICAL JOURNAL Office, 429, Strand, W.C.

Brighton.—Junior Partner-

SHIP wanted by M.R.C.S. Eng., L.R.C.P. Lond., aged 33. — Address Veritas, BRITISH MEDICAL JOURNAL Office, 429, Strand, W.C.

For Sale.—A good middle

class PRACTICE in a good suburb of London. Large increasing population; doing about £800, increasing yearly. Commanding corner house, doctors' nearly 50 years. Good reasons for relinquishing. Lease, fixtures, fittings, and furniture with Practice. Premium £1,000. Other arrangements might be made. Terms cash. — Apply, No. 1, 866, BRITISH MEDICAL JOURNAL Office, 429, Strand, W.C.

In a favourite Colony.—Wanted

immediately, PARTNER, half share in old-established first class Practice. Easy work, of over £2,000 a year. Can be doubled by an active man of good standing. Medicus, care of Messrs. NAYLOR, PIKE, & Co., 9, and 11, Fenchurch Avenue.

Partnership, Wanted to pur-

chase a. Up to £2,500 can be invested at once. Purchaser is an M.B. and Graduate of Camb. Univ. (Nat. Sci. Tripos), and would be willing to enter into an immediate agreement. The income, to start with, should be at least £500 a year. Will anyone offer a share of Practice at Chislehurst or Malvern? — Answers to B. 1913, BRITISH MEDICAL JOURNAL Office, 429, Strand, W.C.

Queen's College, Birmingham.

Notice is hereby given that the Council will, at their next meeting, appoint a LECTURER ON PUBLIC HEALTH.

Further information may be obtained from the undersigned, to whom applications must be sent on or before July 12th.

MEDICAL AND PROFESSIONAL AGENCY, 17, BLOOMSBURY STREET, OXFORD STREET, W.C.

Mr. WILLIAM HORNIBROOK

Has special facilities for introducing Successors
and arranging Partnerships.

No charge is made to purchasers or to gentlemen
making inquiries.

Locum Tenens and Assistants introduced on the
shortest notice. The greatest care is taken in intro-
ducing Assistants and Locum Tenens to a practice,
and no gentleman is sent without inquiry into his
character and suitability. Reliable and experienced
gentlemen, qualified and unqualified, always on the
books.

Homes for those suffering from Intemperance and
Nervousness are carefully recommended to suit
the circumstances of patients.

All matters connected with the Transfer of Prac-
tices, Partnerships, Arbitrations, and Valuations
promptly arranged, in strict confidence.

Several good London, Suburban, and Country
PRACTICES for sale. Particulars on application.
Several good openings for PRACTICE. Particu-
lars on application.

Qualified and Unqualified Assistants wanted.

Wanted, an unopposed

PRACTICE of £500 to £800 per annum,
with appointments, by a middle-aged, married
Gentleman. A moderate-sized house only, with
garden, &c., required. Advertiser will pay cash
down for a suitable investment.—Particulars will be
received in strict confidence.

Good Cash Practice in

London, N. Receipts over £600 per annum,
and increasing. Appointments £30, established six
years; fees, from 1s. 6d.; midwifery, 15s. to 30s.,
good house, total expenses inclusive, 45s. per week;
a few good private patients. Price, as may be
arranged.

Good Cash Practice, in a

manufacturing town of over 100,000 inhabi-
tants, will be sold for 200 guineas on account of ill-
health. Established four years. Average receipts,
£300 a year, but may be greatly increased. Fees,
3s. 6d., midwifery, 15s. and 21s. Rent £15 per annum,
and other expenses small. The price will include
household furniture, drugs, fixtures, and fittings.

Professional and Commercial Agency, 5, AGAR STREET, STRAND, LONDON, W.C.

PRACTICES.—Sale and Purchase negotiated in
the strictest confidence. LOCUM TENENS and
ASSISTANTS promptly supplied. NO CHARGE to
Purchasers; or to Principals for introducing Locum
Tenens or Assistants. MEDICAL AGENCY of all
descriptions at moderate charges. Terms on appli-
cation. NO CHARGE unless business is effected
through us. Gentlemen with good testimonials and
references are requested to register their names for
vacancies. HENRY GRANT, Manager.

Immediate.—For sale, owing

to the death of Incumbent, an old-established
PRACTICE in a large and increasing seaport town
(West). Average receipts for the last three years
over £1,600 per annum. No appointments. No
carriage necessary. Good house with a garden and
stabling.—Apply to G. B. STOCKER, Managing
Director, The Scholastic, Clerical & Medical Associa-
tion, Limited, 8, Lancaster Place, Strand, W.C.

MEDICAL TRANSFER OFFICES, 19, CRAVEN STREET, STRAND, W.C. ESTABLISHED 1868.

Mr. W. T. Peacock, Medical

TRANSFER and PARTNERSHIP AGENT.
Informs the Profession that he has special facilities
for introducing Successors and arranging Partner-
ships; that if Members who are desirous of dis-
posing of their practices will forward him full
particulars (and which will be received in strict
confidence) an immediate transfer will probably be
effected.

Gentlemen requiring Practices or Partnerships
can, on application, select and obtain full particulars
of those on Mr. PEACOCK's books which are open for
negotiation.

ASSISTANTS and LOCUM TENENS, with satis-
factory testimonials as to sobriety and general
abilities, can be engaged at very short notice.

No charge made to purchasers or for inquiries.
Office hours, 10 to 5; Saturdays, 10 to 2.

Immediate.—The Incumbent

of a good general easily-worked PRACTICE
near London, which he has held about five years,
having obtained a lucrative appointment abroad
will dispose of same to a prompt purchaser for a very
moderate premium. Receipts, including appoint-
ments of £100, average nearly £800 per annum, and
about half is ready money. Good house, garden,
etc., rent very moderate. No horse required.—Apply
to W. T. PEACOCK, 19, Craven Street, Strand, W.C.

An entirely unopposed, very

old-established Country PRACTICE, situated
in a beautiful agricultural district, about 100 miles
from London. Receipts, including appointments of
£200, and which are almost certain of transfer,
average £750 per annum. Capital house, large garden,
coach-house and stabling, and several acres of land;
rent under £40. Premium £800.—Apply to W. T.
PEACOCK, 19, Craven Street, Strand, W.C.

London Suburb, S.E.—A

very old-established, easily-worked, middle
and working class PRACTICE of £600 per annum,
including £120 from appointments. Visiting fees,
2s. 6d. to 7s. 6d.; midwifery, about thirty cases a
year, from £1 1s. to £3 3s. Large good house, coach-
house, and stabling; rent moderate. Premium £700.
Six months' introduction, or longer if desired.—
Apply to W. T. PEACOCK, 19, Craven Street, Strand,
W.C.

London, W.—A good class

cash PRACTICE, established and carried on
by the vendor upwards of seven years. Receipts
average over £400 per annum, and increasing, only
four hours' daily attendance. Working expenses very
light. The books have been well kept and are open
for strict investigation. If preferred a partnership
would be entertained.—Apply to W. T. PEACOCK,
19, Craven Street, W.C.

London Suburb, W.—A

thoroughly well-established and chiefly cash
PRACTICE, receipts average between £300 and £400
a year, including £20 from club appointments.
Excellent house, situated in a good residential dis-
trict; rent £55. Premium £250. This would suit
a gentleman requiring an easily and inexpensively
worked Practice.—Apply to W. T. PEACOCK, 19,
Craven Street, Strand, W.C.

Midland Town.—A very old-

established easily transferable PRACTICE.
Receipts average between £500 and £600 per annum.
Good house, pleasantly situated, with garden, etc.,
rent £35. No horse or carriage required. Premium
£400, with a good introduction. The Practice is
open to the strictest investigation.—Apply to W. T.
PEACOCK, 19, Craven Street, Strand, W.C.

Wales.—In a beautiful

Country District. A well-established
PRACTICE of about £400 a year. Visiting fees
from 2s. 6d. to 21s., and no midwifery under £1 1s.
Good house, garden, stabling, &c.; rent £30. One
horse required. Premium £250. Three months'
introduction.—Apply to W. T. PEACOCK, 19, Craven
Street, Strand, W.C.

Locum Tenens.—Mr. W. T.

PEACOCK has now selected a staff of fully
qualified, experienced, and thoroughly reliable
gentlemen for the ensuing holiday season, and is
prepared to send at very short notice a suitable
gentleman to any part of town or country on receipt
of letter or telegram.

MEDICAL DEPARTMENT.

Scholastic, Clerical & Medical Association (Limited),

8, LANCASTER PLACE, STRAND, W.C.
 Telegraph Address:—"Triform, London."
 N.B.—A Pamphlet, describing the objects of the Association, and giving the names of the Committee of Management, may be obtained from the Medical Secretary, G. B. STOCKER, Esq. All Medical Agency business receives prompt attention.

MEDICAL ACCOUNTANCY in all its branches. Practices carefully investigated on behalf of purchasers by the Association's competent accountants. Valuations of Practices and Partnerships. Books posted and bills sent out. A clear statement of terms sent on application.

1. For Transfer.—Large town.

—Good class prescribing PRACTICE of nearly £2,000 per annum with no appointments and very little night work. Good house. Partnership introduction. Two years' purchase.—Address as above.

2. Death Vacancy.—Large and

important seaport town, West. Middle-class PRACTICE of about £1,000 per annum for sale. House in good part of town; rent 70 guineas. Premium £750, part by instalments.—Address as above.

3. For Transfer.—First-rate

Residential Suburb.—High-class PRACTICE of over £1,000 per annum. Non dispensing. Thorough introduction. Rent moderate. Price, two years' purchase.—Address as above.

4. For Transfer.—Midlands.—

Old-established country town PRACTICE of over £1,500 per annum, including appointments. First rate house and grounds. Society good. Climate bracing. Within easy distance of London.—Address as above.

5. For Transfer.—London, W.

—High class PRACTICE of £600 per annum, non-dispensing. Hardly any night work. No carriage required. Good house, rent £100. Premium two years' purchase.—Address as above.

6. For Transfer.—Immediate.

Good middle class PRACTICE in the North of London of over £500 per annum. Fees chiefly 3s. 6d. and 5s. Midwifery light. No carriage needed. Good house. Rent £80.—Address as above.

7. For Transfer.—Northern

Port.—PRACTICE yielding £740 in cash receipts last year, including £250 from transferable appointments. Rent £22. Premium £660.—Address as above.

8. For Transfer.—South Mid-

lands.—Country PRACTICE of over £500 per annum including over £100 from appointments. House, gardens and meadow; rent £35. Premium £600.—Address as above.

WANTED TO PURCHASE.

Wanted to Purchase, a good

PRACTICE of £500 per annum upwards, in a good residential part, either London or within 100 miles, by a medical man (F.R.C.S. Eng., age 38), who has recently relinquished a provincial town practice, where he held a staff appointment at the hospital.—Address as above.

Wanted to purchase a Practice

within 100 miles of London, in a fairly good residential district. Purchaser is about 35, doubly qualified, married, and can invest up to £2,000. He requires a good house.—Address as above.

Wanted to Purchase, a Country

PRACTICE (Midlands preferred, but not essential) of £600 to £900 per annum, by a Medical man, M.B., C.M. Edin. Purchaser has private means, and is in a position to purchase at once.—Address as above.

Assistants and Locum Tenens

supplied on the shortest notice. The rule of the Association is that no one shall be recommended for such an appointment till direct inquiries have been made as to his antecedents.

MEDICAL PARTNERSHIP AND CONVEYANCING AGENCY,

1, ADAM STREET, ADELPHI, W.C.

Mr. J. C. Needes begs to

inform the Members of the profession desirous of disposing of their practices that they can, on application to him, be promptly introduced to Successors. All matters connected with the Transfer of Practices and Partnerships, Medical Arbitrations, Valuations, etc., receive Mr. NEEDES' immediate personal attention, and the negotiations are conducted by him in the strictest confidence.

About £850 a year.—War-

wickshire.—The connexion is almost entirely private, principally amongst a good class of patients, and the Incumbent has of late almost entirely discontinued the practice of midwifery. A horse has not been kept, and there is ample scope for increase by an energetic gentleman. The house is held at a rental of £55 per annum, and is in a good part of the Town, which contains about 30,000 inhabitants.—Apply to J. C. NEEDES, 1, Adam Street, Adelphi, W.C.

London, Suburban.—Partner-

ship with succession. The Half-Share of an old-established PRACTICE, worth £1,200 to £1,500 per annum, is for negotiation. The suburb is situate on the north side of the Thames, close to one of the parks, and may be described as middle-class. The Incumbent has held the Practice 20 years, and charges the highest fees in the neighbourhood, 3s. to £1 ls. Midwifery 1½ to 7 guineas. Succession to the entire Practice can be had in a few years.—Apply to J. C. NEEDES, 1, Adam Street, Adelphi, W.C.

Liverpool (Suburbs of).

Receipts £400 to £500 a year. Fees, 3s. 6d. upwards. Very little Midwifery; lowest 1½ guineas. A horse not required. Locality open, and population increasing.—Apply to J. C. NEEDES, 1, Adam Street, Adelphi, W.C.

Partnership.—Wales.—The

Half-Share of an old-established PRACTICE worth £700 to £800 a year, situate in a small Town in a pleasant agricultural district is for disposal. Patients: gentry, clergy, farmers, tradespeople, &c., and Midwifery 1 to 5 guineas, only 30 cases yearly. Appointments yield £160. Premium £500. The practice is capable of considerable increase with the co-operation of a suitable gentleman who must have a knowledge of the Welsh language.—Apply to J. C. NEEDES, 1, Adam Street, Adelphi, W.C.

Immediate.—South Coast.—

In consequence of the serious ill-health of the Incumbent, an old-established PRACTICE averaging £600 to £700 a year is for prompt disposal. Expenses light, a horse not being kept. Good family residence containing about 14 rooms, available, with garden, &c., attached. The practice is situate within a few miles of a fashionable watering-place.—Apply to J. C. NEEDES, 1, Adam Street, Adelphi, W.C.

A lucrative Practice, over

£2,000 per annum, situate in a large manufacturing city.—The Practice is chiefly amongst tradespeople, artisans, &c., with a percentage of the better class. An introduction of 12 months will be given if required. Premium, one year's purchase.—Apply to J. C. NEEDES, 1, Adam Street, Adelphi, W.C.

Junior Partnership.—A junior

PARTNER is required in a good-class practice, situate in a pleasant and increasing town about 100 miles from London. One other medical man in the place. The share for disposal will at first yield about £400 a year. Premium, two years' purchase.—Apply to J. C. NEEDES, 1, Adam Street, Adelphi, W.C.

Locum Tenens.—Mr. J. C.

NEEDES can, immediately upon receipt of a letter or telegram, dispatch a thoroughly reliable and trustworthy gentleman to take charge of a Practice during the absence or illness of the principal. Mr. NEEDES does not engage any gentleman who is not personally known to him, and with whom he has not had a satisfactory reference from the late principal.—1, Adam Street, Adelphi, W.C.

MEDICAL TRANSFER & PARTNERSHIP.

32, LUDGATE HILL.

Messrs. Orridge and Co.,

Medical Transfer Agents, Referees, and Valuers, in offering their services to the Profession, have pleasure in referring to the fact, that for about HALF A CENTURY the name of Mr. Orridge has been known in the advertising columns of the leading Medical Journals, as that of one to whom a very large Proportion of the Medical men throughout the kingdom have confided their interests in the adjustment of Partnerships and Transfers.

Purchasers who will communicate (confidentially) the nature and extent of their wishes regarding investments can be apprised of appropriate opportunities as they occur.

On occasions where advice is required in forming a correct conclusion as to the worth or eligibility of a Practice, Messrs. Orridge and Co. trust that their familiarity with the various contingencies that govern value will be found of considerable service to those by whom they may be employed.

N.B.—No charge is made to Purchasers.

MEDICAL TRANSFER AGENCY OF SCOTLAND.

50, GEORGE STREET, EDINBURGH.

Practices transferred. Locum Tenens and Assistant Department. Prospectus on application.—WM. SMITH, W.S., & ARCED. LANGWILL, C.A., Manager.

SCOTTISH MEDICAL AGENCY.

JAMES LOGAN,

95, Bath Street, Glasgow.

List of Practices and Prospectus free on application.

BIRMINGHAM MEDICAL AGENCY.

LEE & MARTIN,

LINCOLN'S INN, CORPORATION STREET.

Practices of £400 and upwards

can find ready purchasers through the Agency, LEE & MARTIN have many clients desiring such.

PURCHASERS; List of Practices for Disposal, free.

LOCUM TENENS & ASSISTANTS at short notice.

Telegraphic address, "Locum," Birmingham.

ESTABLISHED 1860.

MEDICAL AGENCY OFFICES.

Notice.—Mrs. Needes' Offices

are still at 27, BUSTON ROAD, N.W. (BOLTON HOTEL), where the business is carried on by her as usual. No connexion with any other agency.

LOCUM TENENS.—Reliable gentlemen always on the books.

ASSISTANTS provided free of charge to Principals. No charge made to Purchasers.

South Africa.—Sanatorium.

A very favourable opportunity occurs to establish a Sanatorium close to the important and rising seaport town of Durban, Natal. A medical man, having large experience of the Colony, and a large property in the neighbourhood of Durban, wishes to meet with another Medical Man with £1,000 at command to join him. The money paid to be applied to enlarging present establishment. Two first-class passages out provided. Private Practice permitted. A gentleman who knows the estate and all particulars is now in England and has authority to complete arrangements. The vendor also is himself well known in London, having for many years successfully conducted a large asylum in England. Full particulars on application to Mr. G. B. STOCKER, Managing Director, The Scholastic, Clerical & Medical Association, Limited, 8, Lancaster Place, Strand, W.C.

Partnership or Practice

wanted, by a Graduate, in almost any part of England. Between £2,000 and £3,000 can be invested. A hospital town in the north or midlands preferred. A Practice with a year's introduction would suit. The income must not be less than £700 a year.—Apply to W. D. JOHNSON, 6, Duke Street, Adelphi, W.C.

"THIS IS AN AGE OF APOLLINARIS WATER."—*Walter Besant.*

Apollinaris

"THE QUEEN OF TABLE WATERS."

The filling at the Apollinaris Spring (Rhenish Prussia) amounted to

11,894,000 BOTTLES IN 1887

12,720,000 BOTTLES IN 1888

AND

15,822,000 BOTTLES IN 1889

"The annual consumption of this favourite beverage affords a striking proof of the widespread demand which exists for table water of absolute purity, and it is satisfactory to find that, wherever one travels, in either hemisphere, it is to be met with; it is ubiquitous, and should be known as the cosmopolitan table water. 'Quod ab omnibus quod ubique.'"—**BRITISH MEDICAL JOURNAL.**

Sole Importers: THE APOLLINARIS COMPANY (Limited),
19, REGENT STREET, LONDON.
