

expected, and 527 occurred, or 77.61 per cent. of the expectation. In the Temperance Section 306 deaths were expected, and 171 occurred, or 56.86 of the expectation. It appears, from an investigation made by Mr. Bingham, of the Sceptre Life Association, that the following insurance companies charge 41 per cent. additional to publicans insuring: Alliance, Atlas, City of Glasgow, Commercial Union, Economic, Edinburgh, English and Scottish Law, Equity and Law, General, North British, Norwich Union, Royal Exchange, Scottish Amicable, Scottish Equitable, Scottish Union and National Standard, Star, Union, Victoria, Westminster and General, and Whittington. The Hand-in-Hand states that "proposals are not accepted by us in the absence of specially favourable circumstances." The Crown says: "My directors decline, owing to the extreme risky nature of publicans' lives, to accept proposals on such lives." The Clerical, Medical and General, Friends' Provident, National Provident, Sceptre Life Association, Scottish Widows' Fund, and United Kingdom Temperance and General Provident also refuse them. Remembering that publicans are well fed, well lodged, and not overworked or subject to great exposure, I think this is good corroborative evidence of the danger of the habitual use of alcoholic fluids in health. This question is of much importance to the world at large, and even to the medical profession, many of whom have, in common with the public, been inclined to think that the inquiry made by a committee of the Association proved that total abstinence was dangerous to health. The fallacy in the statistics published by that Committee consisted in quoting the ages at death of 120 total abstainers, and, comparing these with those of about 4,000 non-abstainers, who were naturally much older when they had their lives insured. It was similar to that fallacy of comparing the age at death of school-boys with that of adults.

Dr. J. J. RIDGE (Honorary Secretary of the British Medical Temperance Association) writes: Allow me to correct an error which has been made in the table given in my letter which appeared in the *BRITISH MEDICAL JOURNAL* of June 13th. The figures 872, Temperance Section, Actual Claims, 1881-85, should be 835, and the total therefore 3,386, instead of 3,423. The percentage will be 69.9, instead of 70.4; difference 26.9.

- Massage for Beginners. By Lucy Fitch. No. 4, Nursing Record Series. Price 1s. London: Sampson Low, Marston and Co. 1891.

#### SCALE OF CHARGES FOR ADVERTISEMENTS IN THE BRITISH MEDICAL JOURNAL.

Seven lines and under	...	...	20	3	6
Each additional line...	...	...	0	0	4
A whole column	...	...	1	15	0
A page	...	...	5	0	0

An average line contains seven words.

When a series of insertions of the same advertisement is ordered a discount is made on the above scale in the following proportions, beyond which no reduction can be allowed.

For 6 insertions, a deduction of	...	10 per cent.
" 12 or 13 "	"	20 "
" 26 "	"	25 "
" 52 "	"	30 "

Special terms for occasional change of copy during series:  
20 per cent. if not less than 26 pages be taken } or their equivalent  
25 " " 52 " " in half or  
30 " " 104 " " quarter pages.

For these terms the series must, in each case, be completed within twelve months from the date of first insertion.

Advertisements should be delivered, addressed to the Manager, at the Office, not later than noon on the Wednesday preceding publication; and, if not paid for at the time, should be accompanied by a reference.

Post-Office Orders should be made payable to the British Medical Association at the West Central Post-Office, High Holborn. Small amounts may be paid in postage-stamps.

NOTICE.—Advertisers are requested to observe that it is contrary to the Postal Regulations to receive at Post-Offices letters addressed to initials only.

# H. K. LEWIS'S PUBLICATIONS.

Now ready, Third Edition, with Illustrations, crown 8vo, 10s. 6d.

**A Practical Text-Book of the Diseases of Women.** By Arthur H. N. Lewers, M.D. Lond., M.R.C.P.Lond., Assistant Obstetric Physician to the London Hospital; Examiner in Midwifery and Diseases of Women to the Society of Apothecaries of London.

"This is a useful book to the student about to proceed for his final examination, and to the practitioner who may not have become sufficiently acquainted with the rudiments of gynaecology during his student days..... We congratulate the author on the fact that a second edition has been needed so shortly after the first. The book fills a gap in English gynaecological literature, and cannot fail to be widely appreciated."—*Practitioner*.

Now ready, Sixth Edition, Revised, crown 8vo, 9s.

**Elements of Practical Medicine.** By Alfred H. Carter, M.D.Lond., F.R.C.P.Lond.,

Physician to the Queen's Hospital, Birmingham; late Examiner in Medicine for the University of Aberdeen, &c.

"The author has succeeded well in producing a work which contains the essentials of medicine, stated in clear and explicit language. . . . If one part of the book be more deserving of praise than another, the sections devoted to therapeutics might be especially singled out. The student can have no better introduction to the study of medicine, and, having mastered its contents, will be able to turn to books of wider scope. Not the least valuable feature is the therapeutic index at the end of the volume, which, as the author advises, should be read in conjunction with the descriptions of the diseases in the body of the work. We have nothing to add to our previous commendation of a book which has deservedly obtained much favour."—*Lancet*.

Now ready, Second Edition, thoroughly revised, over 300 pages, 32mo, roan, 3s. 6d.

**Lewis's Pocket Medical Vocabulary.**

"Really a little marvel in its way. . . . I have tested it thoroughly. . . . and have not found it wanting."—*Health*.

"This most useful little work should find a welcome corner on every library table."—*London Medical Record*.

Now ready, royal 8vo, with 150 Illustrations and 70 Coloured Figures on 2 Lithographic Plates, 24s.

**Dr. Gruber's Text-Book of the Diseases of the Ear.**

Translated and Edited by EDWARD LAW, M.D., C.M.Edin., M.R.C.S.Eng., Surgeon to the London Throat Hospital for Diseases of the Throat, Nose and Ear; and COLEMAN JEWELL, M.B.Lond., M.R.C.S.Eng.

"A contribution to medical literature for which the profession ought to be, and no doubt is, thankful. . . . Erudite, practical, and thoroughly rational in treatment, Gruber's work takes its place as the first text-book on Diseases of the Ear."—*Practitioner*, May, 1891.

"The great advance that has taken place in the theory and practice of Otology is exemplified in this valuable work, which has been excellently translated. The translators seem to have become imbued with Professor Gruber's spirit, for his fluency and clearness have been retained."—*New York Medical Journal*, March 7th, 1891.

Crown 8vo, with Map and Illustrations, 2s. 6d. nett, by post 2s. 9d.

**Strathpeffer Spa; its Climate and Waters.** With Observations Historical, Medical and General, Descriptive of the Vicinity. By FORTESCUE FOX, M.D.Lond., Fellow of the Medical Society of London.

"An excellent guide to Strathpeffer, giving full details on almost every subject on which a medical man or a visitor can desire information."—*British Medical Journal*.

"An invaluable little handbook."—*Provincial Medical Journal*.

Now ready, medium 8vo, 12s. 6d.

**Insomnia and its Therapeutics.** By A. W. Macfarlane, M.D., F.R.C.P.Edin., late Examiner in Medicine and Clinical Medicine in the University of Glasgow.

In the press, Second Edition, demy 8vo.

**Nerve Prostration and other Functional Disorders of DAILY LIFE.** By ROBSON ROOSE, M.D., F.R.C.P.Edin.

20, 1s.; 50, 2s.; 100, 3s. 6d.; 500, 14s.; 1000, 25s. Carriage Free.

**Lewis's Nursing Charts.**

Now ready with Illustrations, demy 8vo, 8s. 6d.

**Gynaecological Electro-Therapeutics.** By Horatio R. BIGELOW, M.D., Permanent Member of the American Medical Association; Fellow of the British Gynaecological Society, &c. With an Introduction by Dr. GEORGES APOSTOLI.

Just published, demy 8vo, 4s. 6d.

**Asthma, considered Specially in Relation to Nasal Disease.** By E. SCHMIEGLOW, M.D., Consulting Physician in Laryngology to the Municipal Hospital, and Director of the Oto-laryngological Department in the Polyclinic at Copenhagen.

Now ready, royal 32mo, 2s. 6d.

**Epitome of Diseases and Injuries of the Ear,** with a Chapter on NASO-PHARYNGEAL DISEASES causing DEAFNESS. By W. R. H. STEWART, F.R.C.S., L.R.C.P.Edin., Aural Surgeon to the Great Northern Central Hospital; Surgeon to the London Throat Hospital, &c.

Now ready, Third Edition, largely re-written, demy 8vo, with Illustrations, 6s.

**Diphtheria: its Nature and Treatment, with Special**

Reference to the Operation, After-Treatment, and Complications of Tracheotomy. By ROBERT WILLIAM PARKER, Senior Surgeon to the East London Hospital for Children; Surgeon to the German Hospital.

By the same Author, uniform with the above, with 1 Plate and 42 Illustrations, 7s. 6d.

**The Nature and Treatment of Congenital Club-Foot.**

Third Edition, Rewritten and enlarged, fcap. 8vo, 5s. 6d.

**Ringworm: its Diagnosis and Treatment.** By ALDER SMITH, M.B.Lond., F.R.C.S., Medical Officer, Christ's Hospital, London.

Demy 8vo, with Photographic and other Illustrations, 5s.

**The Treatment of Lateral Curvature of the Spine.**

By BERNARD ROTH, F.R.C.S., Fellow of the Medical Society of London; Member of the Clinical and Pathological Societies, and of the Medical Officers of Schools' Association; Honorary Member of the American Orthopaedic Association.

With Illustrations, small 8vo, 5s. 6d.

**A Guide to the Examination of the Nose; with REMARKS on the DIAGNOSIS of DISEASES of the NASAL CAVITIES.** By E. CRESSWELL BABER, M.B.Lond., Surgeon to the Brighton and Sussex Throat and Ear Dispensary.

Now ready, crown 8vo, 7s. 6d.

**On the Treatment of Diseases of the Nervous**

SYSTEM. By C. W. SUCKLING, M.D.Lond., M.R.C.P., Physician to the Queen's Hospital, Birmingham, &c.

"The directions given for treatment are, on the whole, excellent."—*The Lancet*.

"We cordially commend the book to our readers."—*Glasgow Medical Journal*.

By the same Author, with Illustrations, crown 8vo, 8s. 6d.

**On the Diagnosis of Diseases of the Brain, Spinal CORD, and NERVES.**

Now ready, Fourth Edition, 12mo, 3s. 6d.

**On Bedside Urine Testing: a Clinical Guide to the Observation of Urine in the Course of Work.** By GEORGE OLIVER, M.D.Lond., F.R.C.P.

By the same Author, crown 8vo, with Map of the Wells, 3s. 6d.

**The Harrogate Waters: Data, Chemical and Therapeutical.** With Notes on the Climate of Harrogate.

Now ready, demy 8vo, with Illustrations, 6s.

**Sterility in Women, including its Causation and Treatment.** By ARTHUR W. EDIS, M.D., F.R.C.P., Senior Physician to the Chelsea Hospital for Women.

"It is evidently the work of one speaking from large and extended experience. The work will be read with profit alike by the gynaecologist and the practitioner."—*British Gynaecological Journal*.

London: H. K. LEWIS, 136, Gower Street, W.C.

## JOHN WRIGHT & CO.'S PUBLICATIONS, BRISTOL.

NOW READY. NINTH YEAR. 716 PAGES. ILLUSTRATED. 6/6 POST FREE.

### THE MEDICAL ANNUAL, 1891

*A complete work of reference for Medical Practitioners. The largest circulation in the world of any Medical Periodical (not a Newspaper) published.*  
*"The excellence of this annual is maintained up to the highest standard."*—*Provincial Medical Journal.*

"Undoubtedly by far the cheapest and, considering its price, the best of the year-books now published in various parts of the world.—*Birm. Medical Review.*  
*"Medicine is so distinctly a progressive science that this year-book is absolutely indispensable to every practitioner who desires to excel in the profession of his choice."*—*Review of Reviews.*

"Has long since won the highest reputation as a work of reference for medical practitioners."—*Echo.*

"Everything that forethought and familiarity with the wants of the medical profession can suggest has been done to preserve and increase the well-won reputation of this book, as a reliable guide in the manifold difficulties that constantly arise in general practice."—*Dublin Journal of Medical Science.*

8vo. 400 pages, with 60 Illustrations, 7s. 6d., post free.

### LECTURES ON MASSAGE AND ELECTRICITY

By THOMAS STRETCH DOWSE, M.D., F.R.C.P. Edin.

Associate Member Neurological Soc., New York.

"The most complete treatise on the subject I know of."—*Prov. Med. Journ.*

8vo, 300 pp., 6s. 6d. post free, with 50 High-class original Illustrations.

### LECTURES ON BRIGHT'S DISEASE.

By ROBERT SAUNDBY, M.D. Edin., F.R.C.P., Lond.

"So thoroughly practical that it recommends itself to the busy practitioner, and yet so scientific that the specialist may consult its pages with great profit."—*Brit. Med. Journ.*

Just published, 8vo, Illustrated, 7s. 6d., post free.

### LECTURES ON DIABETES:

INCLUDING THE BRADSHAW LECTURE, 1890.

By ROBERT SAUNDBY, M.D. Edin., F.R.C.P. Lond.

Author of "Lectures on Bright's Disease."

"One cannot afford to miss a page of this most instructive and readable manual. We can confidently recommend it to all inquirers after the truth as the best account we at present possess concerning a most interesting and puzzling disease."—*Brit. Med. Journ.*

BRISTOL: JOHN WRIGHT & CO., LONDON: SIMPKIN & CO., Limited.

## F. A. DAVIS' MEDICAL PUBLICATIONS.

**ANNUAL OF THE UNIVERSAL MEDICAL SCIENCES, ISSUE 1891.** By CHARLES E. SAJOUS, M.D., and Seventy Associate Editors. Five vols., 8vo., magnificently illustrated, cloth, £4 7s.; half russias, £5 15s. An annual record of the progress in Medicine, Surgery, and the Allied Sciences.

"The issue of this 'ANNUAL' is looked forward to as an important event in the medical year by all who are anxious to keep abreast of the times....."—*Lancet.*  
 ".....The current progress throughout the world is very adequately represented, and we heartily commend the work."—*British Medical Journal.*

**PRINCIPLES OF SURGERY.** By N. SENN, M.D., Ph.D. 8vo., pp. 611, 109 wood-engravings, 24s. 6d.

**MEDICAL SYMBOLISM.** By THOMAS S. SOZINSKY, M.D., Ph.D. 12mo., 6s.

**FEVER: Its Pathology and Treatment by Antipyretics.** By HOBART AMORY HARE, M.D. With 25 Charts of "Tracings," and a number of "Tables of Untoward Effects." 12mo., pp. 168, 6s. 6d.

Fourth Edition, Eighth Thousand, cloth, 2s., post free, with 80 Illustrations.

## CONTENTS.

- In Memoriam: George Gulliver.
- 1.—The Influenza Epidemic of 1890. By H. P. Hawkins, M.A., M.B., M.R.C.P.
- 2.—On a Case of Total Transverse Lesion in the Upper Dorsal Region of the Cord. By J. Mitchell Clarke, M.A., M.B., M.R.C.P.
- 3.—Sixty-four Cases of Non Strangulated Hernia treated by Radical Cure. By Henry Betham Robinson, M.D., M.S., F.R.C.S.
- 4.—Hydatid Cyst between Bladder and Rectum. Retention of Urine; Surgical Kidneys; Death. Reported by John R. Lunn, F.R.C.S.Ed.
- 5.—Report on a Sample of Condensed Milk. By Albert J. Bernays, Ph.D.
- 6.—Intubation of the Larynx: A Thesis for the Degree of M.D. in the University of Oxford. By W. W. Ord, M.A., M.D., M.R.C.P.
- 7.—Dangers of Intubation in Diphtheria. By H. G. Turney, M.A., M.B., M.Ch., M.R.C.P.
- 8.—The Treatment of Erysipelas by Hypodermic Injection. By Leonard A. Bidwell, F.R.C.S.
- 9.—Remarks on the Radical Cure of Hernia. By Sir William MacCormac, M.A., M.Ch., F.R.C.S.
- 10.—Clinical Instruction at Fever Hospitals. By Edward Seaton, M.D., F.R.C.P.
- 11.—Recent Cases of Myxœdema. By W. W. Ord, M.D., F.R.C.P.
- 12.—Report of the In-patient Department for Diseases of Women for the year 1889. By Charles J. Cullingworth, M.D., F.R.C.P.
- 13.—Forty-one Fatal Cases of Acute Infective Osteo-Myelitis, terminating with Pyæmic Symptoms, contrasted with Two Hundred Cases of Ordinary Pyæmia. By G. H. Makins, F.R.C.S., and F. C. Abbott, B.S.
- 14.—Seven Consecutive Cases of Operation for Injury to the Cranial Vault. By Will'am Henry Battle, F.R.C.S.
- 15.—Cranio-Tabes in Young Children. A Clinical Inquiry into its Origin. Illustrated by 100 Cases. By George Carpenter, M.D., M.R.C.P.
- 16.—An Anatomical Note upon the Relation of the Internal Carotid Artery to the Inner Wall of the Tympanum. By William Anderson, F.R.C.S.
- 17.—An Analysis of 708 Cases of Acute Pneumonia, admitted to St. Thomas's Hospital during the Eleven Years from 1880 to 1890 inclusive. By W. B. Hadden, M.D., F.R.C.P., Hector W. G. Mackenzie, M.D., M.R.C.P., and W. W. Ord, M.D., M.R.C.P.
- 18.—Experimental Observations on the Brain of the Monkey. By W. B. Hadden, M.D., F.R.C.P., and C. A. Ballance, M.S., F.R.C.S.
- 19.—Umbilical Polyp. By W. Heptinstall Millar, M.R.C.S., L.R.C.P.
- 20.—Three Cases of Septic Poisoning of Obscure Origin. By Frederick Pollard, M.D.
- 21.—Report of the Aural Department for the year 1889. By Richard Lake, F.R.C.S., Clinical Assistant.
- 22.—Report of the Department for Diseases of the Skin, 1889. By H. C. Low, M.A., M.B., B.C., and A. J. Adkins, L.R.C.P., M.R.C.S., Clinical Assistants.
- 23.—Report of the Midwifery Department for 1889. By Robert Cory, M.A., M.D., F.R.C.P.
- 24.—Medical Report, 1889. By Hector W. G. Mackenzie, M.A., M.D., M.R.C.P.
- 25.—Surgical Report, 1889. By E. Solly, M.B., F.R.C.S.
- 26.—Statistical Report of the Ophthalmic Department for the Year 1889. By W. G. Laws, M.B., C.M.
- 27.—Calendar of St. Thomas's Hospital, Session 1890-91.

**The Diagnosis of Diseases of the Brain.** By W. R. GOWERS, M.D., F.R.S., Consulting Physician to University College Hospital; Physician to the National Hospital for the Paralyzed and Epileptic. Second Edition, with Engravings, 8vo, 7s. 6d.

By the same Author,

**Manual and Atlas of Medical Ophthalmoscopy.** Third Edition, revised throughout, with additional illustrations. Edited with the assistance of MARCUS GUNN, F.R.C.S., Surgeon to the Royal London Ophthalmic Hospital. 8vo, 16s.

**Obstetric Aphorisms, for the use of Students** commencing Midwifery Practice. By JOSEPH G. SWAYNE, M.D., Lecturer on Midwifery at the Bristol School of Medicine. Ninth Edition, fcap. 8vo, with Engravings, 3s. 6d.

**On Bronchial Asthma, its Pathology and TREATMENT.** By J. B. BERKEAT, M.D., late Physician to the City of London Hospital for Diseases of the Chest. Second Edition, entirely rewritten, with 7 Plates, 8vo, 10s. 6d.

**On Some of the Mental Affections of Childhood and YOUTH,** being the Lettsomian Lectures delivered before the Medical Society of London in 1887; together with other Papers. By J. LANGDON DOWD, M.D., F.R.C.P., Consulting Physician to the London Hospital. Fcap. 8vo, 6s.

"Dr. Dowd shows a happy talent for presenting the main facts, and avoiding immaterial details."—*London Medical Record*.

"A series of essays which will henceforth occupy a place of the first importance in the literature of the subject."—*The Practitioner*.

**The Treatment of Internal Derangements of the KNEE-JOINT by OPERATION.** By HERBERT W. ALLINGHAM, F.R.C.S., Surgeon to the Great Northern Central Hospital, Assistant-Surgeon to St. Mark's Hospital for Fistula. With Engravings, 8vo, 6s.

**Electric Illumination of the Bladder and URETHRA as a MEANS of DIAGNOSIS of OBSCURE VESICO-URETHRAL DISEASES.** By H. HURRY FENNWICK, F.R.C.S., Surgeon to St. Peter's Hospital for Stone and Urinary Diseases, Surgeon to the London Hospital. Second Edition, with 50 Engravings, 8vo, 6s. 6d.

"The surgery of the bladder has made such rapid strides in the last few years that a knowledge of this work becomes a necessity to every scientific and progressive surgeon."—*Brit. Med. Jour.*

"A valuable monograph on a most interesting and important subject."—*London Medical Recorder*.

**The Rheumatic Diseases (so-called); with Original Suggestions for more clearly defining them.** By HUGH LANE, Surgeon to the Royal Mineral Water Hospital, Bath, and Hon. Medical Officer to the Royal United Hospital, Bath, and CHARLES T. GRIFFITHS, late Resident Medical Officer to the Royal Mineral Water Hospital, Bath. With 8 Plates, crown 8vo, 6s.

Also by Dr. Lane,

**Differentiation in Rheumatic Diseases.** With 5 Plates, crown 8vo, 1s. 6d.

**Handbook of Gynæcological Operations.** By ALBAN H. G. DORAN, F.R.C.S. With 167 Engravings, 8vo, 15s.

"A good book.....It bears unmistakable impress both of the teaching and traditions of the 'Samaritan' school."—*Birmingham Medical Review*.

"This handbook can claim to be without a rival guide to the chief gynæcological operations. It meets a decided want, and it meets it admirably. It is a credit to English surgery."—*British Medical Journal*.

"All the information necessary for carrying out the operations treated of will be found in the work, for the author has not confined himself to a description of the operations simply."—*Lancet*.

**Allingham on Diseases of the Rectum.** Edited and Revised, with much additional New Matter, by HERBERT WILLIAM ALLINGHAM, F.R.C.S. Eng., Surgeon to the Great Northern Central Hospital; Assistant Surgeon to St. Mark's Hospital for Fistula, etc. Fifth Edition, with 53 Engravings, 8vo, 10s. 6d.

**The Surgery of the Rectum; with Cases** illustrating the Treatment of Hemorrhoids and Prolapsus by the improved Clamp. (Lettsomian Lectures.) By HENRY SMITH, F.R.C.S., Emeritus Professor of Surgery in King's College, and Consulting Surgeon to King's College Hospital. Fifth Edition, 8vo, 6s.

"It is unnecessary to make an extended notice of a book so well-known, by an author who is looked upon as the chief authority on diseases of the rectum."—*Edin. Med. Jour.*

Illustrated, price 6s.

## A HANDBOOK OF DISEASES OF THE NOSE & NASO-PHARYNX.

BY

JAMES B. BALL, M.D., M.R.C.P.

"This work should rank high among practical treatises. Without pretending to be complete or exhaustive, it deals with the more important varieties of diseases of the nose, in a manner which cannot fail to be useful to practitioners."—*Practitioner*.

"Among the numerous works that have lately appeared on diseases of the nose and naso-pharynx the present one ought to take a good position. The book is practical throughout."—*Medical Press and Circular*.

"This is an admirable handbook in size and in context, and is remarkably free from egotism."—*International Journal of Medical Sciences*.

London: H. K. LEWIS, 136, Gower Street, W.C.

## WORKS BY

GREVILLE MACDONALD, M.D. Lond.,

**A TREATISE ON DISEASES OF THE NOSE.** With Chromo-lithographs, and Sixty Engravings. In 1 Vol., post 8vo, pp. 382, price 10s. 6d.

## A GUIDE TO THE SELECTION AND ADAPTATION OF

## Orthopædic Apparatus,

WITH A

Detailed Description of their Salient  
Points.By F. GUSTAV ERNST,  
Orthopædic Mechanician.

"The illustrations of this work are excellent. The descriptions of the instruments are also good."—*Lancet*.

"... We cannot but admire the ingenuity and skill shown in the instruments illustrated. Gentlemen who make a specialty of correcting deformities of the limbs or trunk, will find the book a useful one for reference on the subject of apparatus."—*Medical Press*.

"... It is manifest from the cleverly designed apparatus illustrated and explained in this book, that Mr. Ernst is a thorough master of his vocation; and surgeons who may require mechanical support for their patients, might consult Mr. Ernst's 'guide with great profit.'—*The Hospital Gazette*.

SPRAQUE &amp; Co., 22, Martin's Lane, Cannon St., E.C.

London, Paris, Boston, Philadelphia, Santiago, Melbourne,  
Sydney, Adelaide, Edinburgh, &c.

# Pear's Soap

**Professor SIR ERASMUS WILSON, F.R.S.**

*Late President of the Royal College of Surgeons.*

"The use of a good soap is certainly calculated to preserve the skin in health, to maintain its complexion and tone, and prevent it falling into wrinkles. PEARS' is a name engraven on the memory of the oldest inhabitant; and

PEARS' SOAP is an article of the nicest and most careful manufacture and one of the most refreshing and agreeable balms for the skin."

**Dr. REDWOOD, Ph.D., F.C.S., F.I.C.**

"My analytical and practical experience of PEARS' SOAP now extends over a very lengthened period—nearly fifty years—during which time

I have never come across another Toilet Soap which so closely realises my ideal of perfection;

Its purity is such that it may be used with perfect confidence upon the tenderest and most sensitive skin—even that of a new-born babe."

*PEARS' Soap represents a Century's Experience of the most successful achievements in the Art and Craft of Fine Soapmaking.*

# EXTRACT MALTI, Ang. (G.A.Co.'s.)

**P**REPARED *in vacuo* from the Finest English Malt. The digestive value of Extract of Malt depends, as is well-known, on its power of converting the starch of farinaceous food into dextrin and malt sugar, thus rendering it soluble and capable of being assimilated. This power is proportionate to the amount of *diastase* present, and the larger the proportion of the ferment, the greater the therapeutic value of the extract. Many commercial extracts consist of little more than dextrin and malt-sugar, the diastatic ferment being in very minute proportion or altogether absent. Recent analyses, in our laboratory, of 8 samples, all well-known brands, gave the following results:—

The time required by 1.5 gram Malt Extract to convert 1 gram Starch into Malt-Sugar at 140° F. indicates the value of the sample

No. 1	required	7 minutes to convert	1 gram Starch.	No. 5	required	50 minutes (conversion not complete).
" 2	" 5	" " " "	" " " "	" 6	" 30	" to convert 1 gram Starch.
" 3	" 15	" " " "	" " " "	" 7	" 15	" " " "
" 4	" 16 hours	" (conversion not complete)	" " " "	" 8 (G.A.Co.'s)	" 3 minutes	" " " "

Prescribed as a restorative in all kinds of debility, and particularly to assist the digestion of starchy food.

DOSE, 1 to 4 Drachms. PRICE, 1s. per lb.

## EXT. MALTI C OL. MORRHUÆ.

Extract of Malt (G.A.Co.) containing 20 per cent. of the finest Cod Liver Oil. Useful in consumption and wasting diseases generally.

DOSE, 1 to 4 Drachms. PRICE, 1s. 4d. per lb.

THE GENERAL APOTHECARIES' COMPANY, Limited, 49, Berners Street, London, W.

The Company's Price Current will be forwarded to any Member of the Profession on application to the Managing Secretary,  
W. F. FOGARTY.

# LOEFLUND'S PURE HORDEUM

## MALT EXTRACT.

*Established 25 Years.*

**LANCET**.—"Made by the only satisfactory process. We have no hesitation in praising it, as we believe it may be thoroughly trusted."

**BRITISH MEDICAL JOURNAL**.—"Pure Hordeum is prepared with special care by an improved method. We have given it an extensive trial both clinically and in the laboratory, and are satisfied that it possesses all the properties claimed for it."

**CHEMIST AND DRUGGIST**.—"Pure Hordeum Malt Extract may be relied on to contain the highest attainable proportion of diastase. A most satisfactory and reliable preparation."

Loeفلund's Pure Hordeum Malt Extract is prepared solely from the finest quality of Bavarian Barley Malt only, is absolutely pure and free from alcohol. Diastatic strength equal to 15 to 20 times its weight. Never ferments nor congeals; is most pleasant to the palate, as shown by the following reports:—"My patients who could not take — or —, can take your Pure Hordeum without the slightest feeling of nausea (M.D.);" and "It can be taken when —, and other Malt Extracts cannot (L.R.C.P.)." It is exceedingly rich in nitrogenous matter, and contains Maltose, Dextrine, Albuminoids, and the phosphates of the grain in thoroughly soluble and therefore the most digestible form.

Pure Hordeum is also prepared with Iron, Lime, Quinine, Pepsine, Hops, and Cod Liver Oil (tasteless and most pleasant to take). Malt Extract Lozenges contain largest possible percentage of Pure Hordeum; very palatable and never cause acidity.

*Samples and Special Prices supplied to the medical profession on application. Also full particulars of*

# "INFANTILE MORTALITY."

It is found that for 1000 births 145 children die within the first year of life.—  
Registrar General's Returns, 1887.

Improper feeding is largely responsible for this terrible mortality, and if we take into consideration the enormous sale of infants' "foods," the majority of which are quite unsuited to the purpose, can we wonder at the above figures?

## Try HORLICK'S MALTED MILK

The **LANCET**, April 4th, 1891, page 780 :—" . . . It will be seen that, chemically, the composition of Malted Milk resembles that of human milk (for which it is offered as a substitute) . . . The flavour of Malted Milk is excellent. |

The **BRITISH MEDICAL JOURNAL**, April 18th, 1891 :—" . . . The preparation, which is very palatable, is free from 'chemical' preservatives and from other adulterants, and contains no unaltered starch."

**MALTED MILK** may be obtained through any Chemist.

*We shall be glad to furnish Medical Practitioners with a sample, free, on application*

**MALTED MILK CO., 39, Snow Hill, London, E.C.**

## BROMO-SODA

Is a new Granular Effervescent Salt, of which the value in cases of Insomnia, Excessive Study, Over Brain-work, &c., has been rapidly recognised by Practitioners in Great Britain and abroad.

It is not a Secret Remedy. Each dose contains a grain of Caffein, and thirty grains of Bromide of Sodium.

It is claimed by some prominent Specialists in Nervous Diseases that the Sodium Salt is more acceptable to the stomach than the Bromide of Potassium.

A feeling of brightness and exhilaration almost certainly follows upon the administration of this Effervescing Salt. It is used with advantage in dulness and fatigue following upon alcoholic and other excesses, as well as NERVOUS DEPRESSION. It generally speedily refreshes both the MENTAL and PHYSICAL FACULTIES.

"BROMO-SODA" is a Registered Title. One size, 2s. 6d. Prepared by W. R. WARNER & Co., Manufacturing Chemists. Dose.—A heaping teaspoonful in half a glass of water, to be repeated once after an interval of 30 minutes, if necessary. F. NEWBERRY & SONS (Established A.D. 1746). Depot for Soluble Coated Pills, Effervescing Salts, Ingluvin, Parvules, &c., 1 & 3, King Edward Street, London, E.C.

# SYR. HYPOPHOS. CO., FELLOWS

**CONTAINS THE ESSENTIAL ELEMENTS** of the Animal Organization—Potash and Lime;

**THE OXIDISING AGENTS**—Iron and Manganese;

**THE TONICS**—Quinine and Strychnine;

**AND THE VITALISING CONSTITUENT**—Phosphorus: the whole combined in the form of a syrup, with a **SLIGHTLY ALKALINE REACTION.**

**IT DIFFERS IN ITS EFFECTS FROM ALL ANALOGOUS PREPARATIONS;** and it possesses the important properties of being pleasant to the taste, easily borne by the stomach, and harmless under prolonged use.

**IT HAS GAINED A WIDE REPUTATION,** particularly in the treatment of Pulmonary Tuberculosis Chronic Bronchitis, and other affections of the respiratory organs. It has also been employed with much success in various nervous and debilitating diseases.

**ITS CURATIVE POWER** is largely attributable to its stimulant, tonic, and nutritive properties, by means of which the energy of the system is recruited.

**ITS ACTION IS PROMPT;** it stimulates the appetite and the digestion, it promotes assimilation, and it enters directly into the circulation with the food products.

The prescribed dose produces a feeling of buoyancy, and removes depression and melancholy; *hence the preparation is of great value in the treatment of mental and nervous affections.* From the fact, also, that it exerts a double tonic influence, and induces a healthy flow of the secretions, its use is indicated in a wide range of diseases.

## NOTICE—CAUTION.

The success of Fellows' Syrup of Hypophosphites has tempted certain persons to offer imitations of it for sale. Mr. Fellows, who has examined samples of several of these, **FINDS THAT NO TWO OF THEM ARE IDENTICAL**, and that all of them differ from the original in composition, in freedom from acid reaction, in susceptibility to the effects of oxygen when exposed to light or heat, **IN THE PROPERTY OF RETAINING THE STRYCHNINE IN SOLUTION**, and in the medicinal effects.

As these cheap and inefficient substitutes are frequently dispensed instead of the genuine preparation, physicians are earnestly requested, when prescribing the Syrup, to write "**Syr. Hypophos. FELLOWS.**"

As a further precaution, it is advisable that the Syrup should be ordered in the original bottles (4/- or 7/-); the distinguishing marks which the bottles (and the wrappers surrounding them) bear, can then be examined, and the genuineness—or otherwise—of the contents thereby proved.

WHOLESALE AGENTS:—

# PARTURITION.

**ALETRIS CORDIAL (Rio)**, given in Teaspoonful doses every hour or two AFTER PARTURITION, is the best agent to prevent after-pains and hæmorrhage. By its DIRECT tonic action on the uterus it expels blood-clots, closes the uterine sinuses, causes the womb to contract, and prevents subinvolution. In severe cases it can be combined with ergot in the proportion of one ounce of fluid Ext. Ergot to three ounces of Aletris Cordial. It is the experience of eminent practitioners, in all cases where ergot is indicated, that its action is rendered much more efficacious by combining it with Aletris Cordial in the proportions above stated.

## RIO CHEMICAL CO., ST. LOUIS, U.S.A.

# PHTHISIS.

## IODIDE GOLD COMP.

DAVIES, F.C.S., the Germicide & Virus Neutralizer of the Bacillus Tuberculosis in Phthisis Pulmonalis.

### CLINICAL REPORTS.

Dr. L——, M.B., writes, March 29th, 1891:—"I beg to thank you for your letter of the 23rd, and also for the information it contained. With reference to the patient on whom I intend to try the Germicide. I shall be glad to give all particulars, and am sorry to say the individual is myself. I have suffered from the malady for five years, both apexes are involved, as well as the upper and posterior parts of both lower lobes. I have a chronic cough. I have no night sweats, but sometimes feel very prostrate. I was examined in London recently—two months ago, with the view of putting myself under \* \* \* \* treatment, and was advised not to. If you send me the Germicide I shall with pleasure supply you with weekly reports of the progress made or effects of the remedy, on condition that if you should feel disposed to publish them at any time you do not attach my name to them, but may supply it privately, &c."

In accordance with the above communication Tubes were forwarded weekly on receipt of reports. Barely three weeks after the exhibition of the first tube Dr. L——, writes:—

"The results have been most encouraging; expectoration is now a great deal less; cough less frequent, and breathing seems deeper and less frequent also. In fact I feel very much better altogether, &c."

Dr. R——, writes, March 16th, 1891:—"In your favour of December 24th you very kindly offered to send me a Tube of the Iodide Gold (Davies's remedy), when I should have a suitable case. I have now a girl of 17 under my care, for whom I should be most glad to do something. Her case is not an early one, as she has a cavity in the right apex. Will you allow me to try the remedy in this case."

*These cases are taken from a mass of correspondence from a number of Medical Men in private practice, and holding public appointments, which may be inspected, and mostly relate to advanced cases of phthisis.*

Dr. R——, writes, March 25th, 1891:—"My patient asserts that she feels better, but I would rather not express an opinion myself until the treatment has been carried further."

Dr. R——, writes, April 2nd, 1891:—"My patient still expresses herself as feeling better; the cough has nearly vanished. I examined her chest two days ago, and found that in the left lung the breathing was more free than before the use of the remedy; that is to say, some of the consolidation appears to have cleared up. She has been under the remedy two weeks."

Dr. R——, writes, May 6th, 1891:—"My patient is certainly enjoying good general health. I must say that her condition is wonderfully good. I will send you a final report later."

It is nearly two months ago since Dr. R—— finished the treatment of this patient. He writes:—

"June 16th, 1891:—"My patient's weight is now 6 st. 12 lbs., it having been 6 st. and ½ lb. before treatment (an increase of 1½ lbs.). It is only just to state that there is not any active mischief now going on. I am much pleased to have done her so much good; and by the aid of your remedy to have allayed all the active symptoms. I have recently given your address to Dr. B——, who is anxious to do what he can for his phthisical patients. Please accept my best thanks for the trouble you have taken."

EXTRACT FROM AN ARTICLE

IN THE

**"EDINBURGH MEDICAL JOURNAL,"**

Vol. XXXI., No. X.:-

"About eighteen months ago a friend of mine from America told me of the wonderful effects of a medicine, much used in the States, called **BROMIDIA**, which is a combination of Chloral, Bromide Potass, Cannabis Indica, and Hyoscyamus. I obtained some, and have ordered it regularly for over a year; and have found it excellent in the pain of rheumatism, pneumonia, and cancer; also in the sleeplessness of scarlatina and alcoholism. It has never failed me in procuring sleep, without the disagreeable dreams and after-effects of opium. The dose is 3ss. to 3j. every hour till sleep is procured. I have also found it of much service in cases of tonsillitis, used as a gargle with glycerine and carbolic acid."

EXTRACT FROM AN ARTICLE

IN THE

**"MEDICAL PRESS AND CIRCULAR,"**

MARCH 27TH, 1889.

"To those familiar with the use of **BROMIDIA** no argument is necessary, for it speaks for itself by fulfilling the indications for which it is administered, with a certainty, efficiency, and harmlessness which elicit at once the wonder of the patient and the delight of the prescriber, and give to the profession the assurance of possessing one remedy at least which approximates so near to infallibility of action as to justify the title of *specific*."

4-oz. Bottle, 4s. 6d.; per dozen, 40s.

12-oz. Bottle, 11s.; per dozen, 108s.

Awarded a Silver Medal at the International Health Exhibition, 1884.

# TUSON'S DISINFECTANTS.

Authorised by

H.M. Board of Trade.

## Fluid and Powder.

THE MOST PERFECT DISINFECTANTS AND DEODORANTS KNOWN.

Used largely for some years by the CITY OF LONDON for disinfecting the City, i.e., for watering the Wood Pavements, Market purposes, and immersing putrid meat, etc. Used also by the Hornsey, Beckenham, Grantham, and other Local Boards; St. Mary's and numerous other Hospitals, Railways, etc., etc.

**NO HOUSEHOLD SHOULD BE WITHOUT IT.** Its efficacy is not impaired by its being kept for years, and being volatile it is invaluable in a sick room, rendering the air absolutely pure, and not, as is the case with many specifics, disguising smells by substituting something almost equally objectionable.

The Gresham Professor of Medicine in the course of his Lecture on "Infection and Disinfection," delivered at Gresham College, London, on 8th April, 1891, made the following remarks:—

"We now come to a liquid suggested by a highly scientific chemist, who devoted his attention to disinfectants, and who was 'wise enough to unite the two most powerful disinfectants for the purpose of obtaining the double function which we desire. In 'Professor TUSON'S DISINFECTANTS' we have indeed the union of two well approved agents, i.e., Sulphurous Acid and 'Chloride of Zinc. We have, in a small compass, what is needed for the double purpose of disinfecting the atmosphere and 'obnoxious fluids and solids. I have had occasion of late to use the fluid, and by the sulphurous fumes which it gives off it 'exercises a wonderful power in the air. The liquid can be used for drains, or anywhere where there are obnoxious smells, as can 'also the powder, and as these preparations have no smell they may be very well used in sick rooms."

## TESTIMONIALS.

### PROFESSOR TUSON'S DISINFECTANTS COMPANY, LIMITED.

Dr. SEDGWICK SAUNDERS, F.I.C., F.O.S., F.S.A., etc., Medical Officer of Health, and Public Analyst for the City of London, writes on 19th December, 1889, as follows, viz.:

"During the past Summer months I have found 'TUSON'S DISINFECTING FLUID' extremely valuable for watering the public roadways, for which purpose a two per cent. solution may be used. It seems to me that particularly for roadways laid with wooden blocks there should be a large demand for a powerful germicide, when public sanitary authorities are impressed with the importance of deodorising such roadways in hot weather, it being admitted that the wood absorbs and retains much of the secretions from animals, which soon decompose, and may at any moment prove a source of the greatest danger to the public health, especially when enteric disorders are prevalent among cattle."

"I have also utilised it in a much stronger solution, for making the chemical baths in which the meat condemned as unfit for human food is immersed, and have formed a high opinion of its value for this purpose."

"Again, it is a useful adjunct to the Mortuary Chamber for sprinkling putrid corpses, especially drowned cases."

"I bear willing testimony to its value for the purposes above indicated, and if the sanitary authorities throughout the country be properly approached, and induced to use it in this direction, there should be a field for an enormous consumption."

"For the last three years I have used Professor TUSON'S DISINFECTANT

in preference to all others. It is the most powerful disinfectant and deodoriser combined that I have ever tried, and it possesses the very great advantage of leaving no smell behind it when it has done its work."—R. C——, F.R.C.S., Consulting Surgeon to the Charing Cross Hospital.

"As a deodoriser I beg to bear testimony to its efficiency when used even in small quantities. IT FAR SURPASSES ANYTHING I HAVE KNOWN DURING AN EXPERIENCE OF UPWARDS OF FORTY YEARS."—H. P. D——, M.D., Ipswich.

"IT ACTUALLY DESTROYS bad smells, renders the air of the sick chamber perfectly sweet, and DOES NOT CAUSE THE SLIGHTEST INCONVENIENCE TO THE patient."—H. C——, M.D., Helvedere, Kent.

"Professor TUSON'S DISINFECTANT has been used at this Hospital for some time under my own immediate observation. I have found it highly efficacious especially for latrine and laundry purposes, and I can confidently recommend it to any public body or institution. It comprises three powerful disinfecting agents in its constitution, is sold in convenient and diversified form, and has the great advantage of being odourless."—R. D. R. S——, D.P.H. Cambridge, Medical Superintendent, Western Fever Hospital, Fulham.

"I have much pleasure in recording my opinion from practical experience of TUSON'S DISINFECTANT—having used it in my district with the best possible results. As a deodoriser and germicide it stands alone; in fact, its chemical combination is a sufficient guarantee for its efficiency."—R. S——, M.D., Medical Officer of Health to the Erith Local Board.

Sold in 30 oz. and 12 oz. bottles, at 2/6 and 1/-; and in Tins, 1/- each. Gallon Jars and Half-Gallon Jars at 4/6 and 2/6.—a convenient form for Household Use. Powder in bulk at 30/- per cwt. and Liquid in bulk at 3/6 per Gallon. A cheaper powder at 8/6 per cwt.—an excellent deodorant. Special terms to large consumers. To be obtained of all Chemists.

City Offices:—136-7, PALMERSTON BUILDINGS, OLD BROAD STREET.

# CREOLIN JEYES'

PROFESSOR  
CALDWELL SMITH,  
M.A., M.D., D.Ph. Camb.,

*says, in a paper read at the  
British Medical Association,  
1889:—*

"It is in my experience  
"the ideal Deodorant, and  
"as a true Disinfectant I  
"can speak of it in very  
"high terms. . . . .  
"It has this great advantage,  
"that it is not poisonous."

The British Medical Journal,  
January 11th, 1890, says:—

"A man took nearly nine ounces of Creolin,  
"with suicidal intent. He soon became unconscious,  
"and in this condition was admitted into  
"hospital. . . . He was discharged cured in  
"the third week after admission. . . . The  
"case cited is in fact a most powerful testimony of  
"the innocuousness of Creolin, especially as compared  
"with Carbolic Acid. For if this enormous  
"quantity, nearly half a pint, taken into the  
"stomach did not kill the patient, external application  
"of small quantities would probably have  
"no appreciable physiological effects."

The  
**NON-POISONOUS**

**SUBSTITUTE**

FOR

**CARBOLIC ACID,  
CORROSIVE SUBLIMATE,  
AND  
IODOFORM.**

Its Anti-bacterial action being first exhaustively  
proved in Professor KOCH'S Laboratory  
by Dr. von ESMARCH.

PROFESSOR

Dr. von ESMARCH,

Privy Medical Councillor.

*the celebrated Surgeon, writes  
concerning Creolin, in a letter:—*

"I employ the remedy  
"almost exclusively in my  
"clinic and private practice.  
"I am very satisfied  
"with its antiseptic action."

LANO-  
*Creolin*

5 %

made with Lanolin  
is most useful in the  
treatment of wounds,  
skin diseases, and in  
gynaecology.

Dr. Clarke says:—"I am still employing  
"your preparations, and am well pleased with  
"them."—(November 1st, 1890.)

Dr. Munro, *Frickheim, Forfarshire*, writes:—  
"Dr. Munro uses Creolin constantly, and is very  
"much pleased with it."—(May 5th, 1890.)

Rich. Lowther, M.D., *Fernleigh, Grange-over-Sands*, writes:—"I use and prescribe Creolin  
"and Creolin preparations largely, I might almost  
"say exclusively, so extensive is their range of  
"usefulness in cases requiring antiseptic treatment."  
—(November 9th, 1890.)

Geo. F. Blake, M.R.C.S., L.S.A., &c., *Moseley, near Birmingham*, writes on Lano-Creolin:—  
"It is a valuable preparation, and I like it very  
"much."—(November 8th, 1890.)

J. Ward Cousins, M.D., F.R.C.S., &c., *Portsmouth*, writes:—"I use your preparations, and  
"like them very much. Creolin forms an excellent

To the Medical Profession.

# **BEST FOOD FOR INFANTS.**

Doctors are continually being asked by Mothers who cannot or will not "nurse" their babies—"What artificial food do you recommend?" Then comes the difficulty, there being so many Foods, all professing to be the best.

Will the readers of this journal kindly advise the use of

## **Robinson's Patent Barley**

(Made from the finest Scotch Barley)

which has been used with success for 67 years for rearing babies by hand, partly or wholly.

Dr. PYE H. CHAVASSE, in "Advice to a Mother," says:—"ROBINSON'S PATENT BARLEY is the best Infants' Food." (*Answer to question 44.*)

Dr. JOHNSTONE, F.R.C.S., F.C.S., reports:—"Used with milk it forms an agreeable, highly nutritious, and easily-digested Infants' Food."

---

**MANUFACTURED BY**  
**KEEN, ROBINSON & Co., LONDON,**  
Purveyors to H.M. the Queen.

Sold in 1-lb. Tins and  $\frac{1}{2}$ -lb. Packets by Grocers, Chemists, &c.

**DELICIOUS BARLEY WATER AND CUSTARD PUDDINGS CAN BE  
MADE FROM THE PATENT BARLEY.**

# CADBURY'S COCOA

**ABSOLUTELY PURE *therefore* BEST.**

"CADBURY'S COCOA  
is an invaluable addition  
to our dietetic  
resources in the treatment  
of all forms of  
digestive disorders."—  
BRAITHWAITE'S  
RETROSPECT OF MEDICINE,  
1890.

The *Analyst*, comparing the flesh-forming ingredients in Cocoas, gives the following average:—

"Flesh-forming ingredients in Natural Cocoa Nibs	.. .. .	13'00"
"ditto ditto in the best Commercial Cocoa with added Starch and Sugar	.. .. .	6'00"
"ditto ditto in Cadbury's Cocoa, the Standard English Article	.. .. .	21'00"

"The Process of preparation concentrates the nourishing and stimulating principles of the Cocoa Bean."

"Cadbury's Cocoa being absolutely PURE, is therefore the BEST Cocoa."

## PASMA

# HEALING POWDER.

For Burns, Ulcers, Eruptions, Excoriations, Tender and Irritable Skins.

*A preparation which has for more than a quarter of a century stood the test of medical experience, as possessing healing properties of a most marked and rapid character.*

IN CONSTANT USE AT MOST OF THE LONDON AND PROVINCIAL HOSPITALS.

Recommended by the late SIR ERASMUS WILSON, TILBURY FOX, and all leading Dermatologists.

*The Purest and Safest for Toilet and Nursery purposes, contains neither Perfume nor Colouring Matter.*

# EASTON'S SYRUP (CURTIS).

The Original Manufacturers.

Each fluid drachm contains one grain of Quinine, two grains of Iron, and the 32nd part of a grain of Strychnine.

This SYRUP (prepared under the direction of the late Dr. EASTON) has been prescribed both at Home and Abroad for more than a quarter of a century, and pronounced by the highest Medical authorities to possess Tonic powers far exceeding all other preparations. It is always uniform in character, and owing to its careful mode of preparation has never been known to produce any unpleasant symptoms.

Supplied in Original Bottles only, 2/-, 3/6, and 6/- Retail. Usual discount to Medical Men.

See that these preparations bear **OUR** name.

CURTIS &amp; COMPANY, 48, Baker Street, Portman Square, London, W.

# DENAAYER'S PEPTONIDS

*And Extract of Meat*

*Company, Limited,*

118, BISHOPSGATE STREET

WITHIN, LONDON, E.C.

TELEGRAPHIC ADDRESS—"DENAAYER, LONDON."

## DISCRIMINATE FOR YOUR PATIENTS

between the fictitious nutritive value of such invalid foods as are mainly composed of Gelatine or the extractive matters of meat, or both, as many so-called peptones, meat essences, &c., are, and the true strength of meat which is not yielded by its gelatine nor by its extractives, but by the albuminoid matters it contains, and which, by Denaayer's process, are dissolved and converted by pepsine into a delightful and elegant preparation.

See THE LANCET, May 2nd; HOSPITAL GAZETTE, June 5th; CHEMIST AND DRUGGIST, April 16th; ANALYST, May 1st, upon Mr. Denaayer's new method for the Analysis of Peptones, whereby the gelatine is capable of determination, whereas this body has hitherto been unavoidably included with peptone albumose by analysts.

DESCRIPTION WILL BEST BE APPRECIATED WITH THE ARTICLES BEFORE YOU, THEREFORE YOU ARE INVITED TO SEND FOR A FREE SAMPLE OF

DENAAYER'S STERILIZED PEPTONE OF MEAT (2s. per bottle, ready for use).

DENAAYER'S LIQUID PEPTONATE OF IRON (1s. 6d. per bottle).

PULVIS FERRI PEPTONATIS (Denaayer), 4s. per ounce.

PEPSINA PORCI (Denaayer), 3s. per bottle, one-third of an ounce.

*The LANCET, May 2nd, 1891:—*

## THE VALUATION OF MEAT PEPTONES.

An important discrepancy in the method adopted by chemists for the analysis of peptones is pointed out by M. A. Denaayer in a pamphlet of recent issue. In the well-known König process no regard is paid to the determination of gelatine, which it appears is a common constituent of commercial peptone of meat; and as sulphate of ammonia is used for the precipitation of albumose (gelatine being precipitated by the same re-agents), the proportion of albumose is exaggerated. If, as the author states, gelatine enters largely into the composition of many of the preparations in commerce, it becomes a matter of fundamental importance to be able to determine the amount of this body, inasmuch as it is said to present the nutritive value of neither the albumins nor their peptones. The process now published by M. Denaayer admits of the estimation of all three bodies, viz., gelatine, albumose, and peptone. The following is a *résumé* of the method he adopts. . . . . The process is evidently based on accurate and painstaking observations, and it certainly seems to promise, in the hands of careful operators, a means for the satisfactory separation and estimation of albumose, peptone, and gelatine. This last body, the author states, whether normal or injellifiable, is not identical, chemically or physiologically, with peptone or albumose, in that it has a greater percentage of nitrogen, and, unlike them, is not organically assimilable. It is therefore desirable to know the proportion of gelatine contained in preparations of this kind, seeing that they are largely advocated and employed as nutrients in the treatment of disease associated with enfeebled powers of assimilation and digestion. M. Denaayer appears to have been one of the first to recognise the presence of gelatine in meat peptones, and his process will in all probability prove a contribution of no little importance to the analytical domain of chemical science.

Hospitals are supplied at cost of production, and samples of any of the company's products will be sent on application to physicians and surgeons, free of all charges.

# BENGER'S FOOD

(Registered.)

ADELAIDE, 1887.

## For INFANTS, CHILDREN & INVALIDS.

GOLD MEDAL AWARDED, HEALTH EXHIBITION, LONDON, 1884.

HIGHEST AWARD, INTERNATIONAL EXHIBITION, ADELAIDE, 1887.

### MEDICAL OPINIONS.

"Mr. Benger's admirable preparations."—THE LANCET, March 25th, 1882.

"Deserving of the highest praise, and only require to be made known to the profession to ensure their extensive employment."—THE PRACTITIONER, February, 1883.

"Few modern improvements in Pharmacy have done so much as Benger's Preparations to assist the Physician in his treatment of the sick."—THE MEDICAL PRESS, June 13th, 1883.

"Benger's Preparations have deservedly a very high reputation, and are all largely used."—THE MEDICAL TIMES AND GAZETTE, September 8th, 1883.

"Benger's Food is a preparation devised on original lines, and which we can speak of in the highest terms. . . . Infants do remarkably well on it, and it is most suitable for many conditions in adults and old people. . . . There is certainly a great future before it."—THE ILLUSTRATED MEDICAL NEWS, December 22nd, 1888.

"Undoubtedly a great advance on any previous attempt in this direction. It is palatable and excellent in every way. We have given it in very many cases with the most marked benefit, patients frequently retaining it after every other food has been rejected. For children who throw up their food in curdled masses it is invaluable."—THE LONDON MEDICAL RECORD, March 15th, 1882.

### NOTICE TO THE MEDICAL PROFESSION.

BENGER'S FOOD consists of a specially finely ground nitrogenous wheaten meal, cooked, and impregnated with a suitable proportion of the natural digestive principles of the pancreas. When mixed with warm milk or milk and water, as directed on each tin, these digestive principles not only render the starchy matter soluble (as in malted foods), but, further, reduce the casein of the milk to the same digestible condition in which it exists in human milk, so that hard indigestible masses of curd cannot be formed in the stomach. In no other food has this result been attained. It forms a delicate cream entirely free from rough and irritating particles, but rich in all the elements necessary to maintain vigorous health. It can be taken when other Foods disagree.

### EXTRACTS FROM PRIVATE LETTERS.

"The infant was very delicate, and our medical adviser ordered your food. The result in a short time was wonderful; the little fellow grew strong and fat, and is now in a thriving condition—in fact, the 'flower of the flock.'"

"I am pleased to say that when every form of diet failed we were able to give BENGERS FOOD, and to see our children gain rapidly and permanently."

"My last little boy was fed entirely upon it from birth, and a healthier child it would be difficult to find. My wife sounds the praise of BENGERS FOOD everywhere."

BENGER'S FOOD may be obtained in tins at 1s. 6d., 2s. 6d. and 5s. each of Chemists, etc., everywhere, or by Parcel Post direct from the Manufacturers,

**F. B. BENGER & CO., LIMITED,**  
OTTER WORKS, MANCHESTER.

# PEPTONIZED MILK

(PATENT CONCENTRATED).

The remarkable value of Peptonized (*predigested*) Milk has now been completely established. Without calling for any digestive effort, it can, in the absence of all other food, supply the system for an indefinite period with the nutriment which it requires. The great drawback to the more extended use of Peptonized Milk has been the trouble, care, and even skill required to be daily expended to prepare a fairly palatable and uniformly peptonized product. These disadvantages are entirely obviated by the use of this Concentrated Preparation, as by mere dilution with water, a deliciously-sweetened Peptonized Milk, of uniform composition, can be instantly prepared by the most inexperienced person.

*Tins, 1s. 6d. and 2s. 6d.*

# PEPTONIZED COCOA

AND MILK

(PATENT CONCENTRATED).

In this preparation the Cocoa as well as the Milk is peptonized and rendered soluble, and is therefore more readily assimilable than any other preparation of Cocoa extant, and can be digested by even the most confirmed dyspeptic. Besides its extreme digestibility, its perfect palatableness renders it a most delicious as well as wholesome beverage, which can be taken alike by the invalid and by those who, although otherwise healthy and robust, frequently experience a difficulty in digesting any form of Cocoa. For general convenience in use it is unrivalled, as no addition of milk or sugar is needed, but only mixture with hot water.

*In Tins, 2s. 6d., to make fifteen breakfast cups of Cocoa, or ten or more breakfast cups of rich Chocolate.*

*Also in Smaller Tins, 1s. 6d. each.*

N.B.—The milk used in these preparations is secured from farms under our control, and where the sanitary arrangements have been made perfect, and in addition to this, sterilisation, after the most approved modern methods, is provided for, thus ensuring complete immunity from communication of the infectious diseases which are unhappily so often spread by means of milk.

## *Opinions of the Medical Press.*

The LANCET, June 15th, 1889:—

"Peptonized Milk (Patent Concentrated) is an excellent article. In consistence it is like a thick cream, agreeable in flavour, and yet so well peptonized that it gives no coagulation with dilute hydrochloric acid, even after heating. It will be of great value. The Peptonized Cocoa and Milk (Patent Concentrated) is clearly founded on the above. In appearance it resembles chocolate cream, and it is delicate in flavour, and yet peptonized. It is almost needless to say of Messrs. Savory & Moore's novelties that they are well prepared."

The PRACTITIONER, July, 1889:—

"We have carefully examined and tested Savory and Moore's Peptonized Cocoa and Milk and Peptonized Milk, and have used them ourselves and for patients of fastidious appetite. We find them well peptonized, capable of keeping even when the tins are opened for a considerable time, and very palatable. The Cocoa and Milk forms a thin and inviting beverage of a pleasant nutty flavour, and is retained well even in cases of chronic neurotic vomiting. The Peptonized Milk mixes well with tea or coffee, and improves the taste of both. These properties render Messrs. Savory and Moore's latest preparations a valuable addition to the sick-room dietary, and we can recommend them to the profession."

The MEDICAL PRESS AND CIRCULAR, Sept. 4th, 1889:—

"The Peptonized Cocoa and Milk and Peptonized Milk introduced to our notice by Messrs. Savory and Moore, like everything emanating from their laboratory, are most carefully prepared and of the highest quality. There is, moreover, a delicacy in flavour and aroma with the Peptonized Cocoa which shows at once that the products of selected growths only obtain a place here. It is, therefore, one we can unhesitatingly recommend."

*N.B.—These Preparations keep well after the Tins are opened.*

## SAVORY & MOORE,

*Chemists to the Queen, H.R.H. the Prince of Wales, H.H. the Khedive of Egypt, &c.*

143, NEW BOND STREET, LONDON.

# The ORIGINAL RAW FOOD EXTRACT

(Introduced to the Medical Profession in 1878).

AN  
IDEAL  
FOOD.

**BOVININE**  
A RAW FOOD EXTRACT.

IT  
STANDS  
ALONE.

THE VITAL PRINCIPLES OF BEEF CONCENTRATED.

CONTAINING 20 PER CENT. OF COAGULABLE ALBUMEN.

PALATABLE.      NUTRITIOUS.      PERMANENT.      ECONOMICAL.

BOVININE is a preparation of the juices of lean uncooked beef, prepared by a cold process. In it are preserved *all* the nutritive elements, as well as the salts and extractives, as such, having undergone no disintegration or decomposition. It is the most concentrated and nutritious food yet presented.

## What the Medical Profession say of BOVININE.

"For exhausted *professional* or *business* men **BOVININE** will, better than any nutrient I know of, build up and restore the overtaxed mind and body."

"I am more than satisfied with the preparation, it is one on which the Profession may rely without fear of disappointment."

"It is so concentrated that half a teaspoonful seems to communicate more support than a dessertspoonful of many kindred preparations."

"**BOVININE**, in my opinion, is invaluable."

"Its place cannot be supplied by any other preparation."

"Deserves the highest endorsement the Medical Profession can give it."

"I am prescribing **BOVININE** daily, and have yet to find a pathological condition that it will not benefit."

"I am each day more impressed with its great value."

"It never disappoints."

"It is tolerated by the most irritable stomach."

"I have found the stomach to retain **BOVININE** when *all* other substances of a liquid nature were rejected."

"It finds its way into the blood by some blessed short cut."

"As a restorative after **INFLUENZA** it is of the greatest possible value."

"In a practice of *forty-seven* years I have found nothing to equal it in its power to restore a patient after *wasting diseases*."

"It has yielded unparalleled results in cases of *typhoid*, *pneumonia*, *acute phthisis*, and *gastric catarrh*."

"The invigorating effects of **BOVININE** in a severe case of *choleraic diarrhoea* were magical."

"For *dyspeptics* there is nothing equal to it."

"In *typhoid fever* **BOVININE** is especially useful."

"The results I obtained in two cases of *extreme debility* and *wasting in infants* were really astonishing."

"In *Bright's disease*, with large albuminous waste, it is the best food I have found."

"It is one of the few articles which, I believe, will never go out of fashion."

SAMPLES will be furnished to any Member of the Medical Profession free, carriage paid, upon application to the Company.

PREPARED ONLY BY

THE J. P. BUSH MANUFACTURING CO., Chicago & New York, U.S.A.

DEPOT FOR THE UNITED KINGDOM—82, SNOW HILL, LONDON, E.O.

SOLD BY CHEMISTS. IN BOTTLES (TWO SIZES), 12 oz., 4s. 6d.; 6 oz., 2s. 9d.

# PESSIMISM IN THERAPEUTICS

---

**"If all Medicine were dumped into the Sea, it would be so much the better for Humanity and so much the worse for the Fish."**

---

While more or less of the practice of medicine may be empirical, the experienced physician has learned too well the indications for and the true value of a properly prepared and timely administered cathartic, emetic, diaphoretic, diuretic, narcotic or oxytocic, to lend his endorsement to the above quotation.

The history of medicine does not record a greater advance than has been made during this decade through the researches in Bacteriology in its relation to the etiology of disease; as a consequence, the words "Antizymotic," "Antiseptic," "Germicide," have become familiar terms in modern therapeutics and their use, value and scope constitute the most important feature in our recent progress in medical knowledge.

The first Antizymotic and Antiseptic, introduced as such by the Chemist to the Physician, is the now well known combination of ozoniferous essences and vegetable antiseptics with benzo-boracic acid, denominated

# LISTERINE.

It is noteworthy that Listerine was introduced in a manner, whereby its inhibitory value as an antizymotic, its power to prevent septic conditions and to arrest putrefaction was *clearly* demonstrated.

The originality of the product, its intrinsic value and standard antiseptic strength at once gained for it a firm foothold in the estimation of the Physician and Surgeon.

Listerine is of uniform, exact, and known antiseptic strength, and as such may be relied upon to produce identical results in identical conditions.

With the increasing usefulness of the microscope in the diagnosis of disease and a continuation in the rapid strides towards perfection in Organic Chemistry we may yet, in contradiction to the headlines upon this page, be able to write:

**"NATURE PROVIDES A CURE FOR EVERY HUMAN ILL."**

Judging from the past and present then, the tendency should be toward:

# OPTIMISM IN THERAPEUTICS.

 Messrs. MAW, SON, & THOMPSON, 7 to 12, Aldersgate Street, London, E.C., will supply specimen and literature fully descriptive of LISTERINE, upon demand.

LISTERINE IS MANUFACTURED ONLY BY THE LAMBERT PHARMACAL CO., ST. LOUIS, U.S.

# FRIABLE PILLS! —UPJOHN—

Crushed to a powder under the thumb.

Crushed to a powder under the thumb.

## TO PHYSICIANS.

Assuming that it is conceded that Pills or Tablets **MADE WITHOUT COMPRESSION** or **EXCIPIENT**, so that the drugs employed are left in an **UNCHANGEABLE, DRY, and POWDERY FORM**, are preferable to those made by methods employing either excipient or pressure, and yielding products that soon become hard and impermeable by the digestive juices, and that the porous, dry, and friable condition of the contained drug is a measure of the permeability and solubility of the pill by the digestive juices, we invite your attention to **THE UPJOHN FRIABLE PILLS**, which can be **CRUSHED TO A POWDER** under the thumb, as per illustration.

This will demonstrate clearly their friable and powdery condition, and we ask you at same time and in same manner to crush or try to crush pills or tablets of other makers.

We also invite other comparative tests, the clinical test being the one on which the decision should be largely based.

*Samples and List of Formulæ, with Prices, to any Chemist's address on application to*

**JOHNSON & JOHNSON,**  
LIMITED,

**1 & 2, AUSTRALIAN AVENUE, LONDON, E.C.**

(Sole Agents in Great Britain and Ireland for the UPJOHN PILL AND GRANULE COMPANY.)

# MORRHUOL

(CHAPOTEAUT.)

The Active Principles  
OF  
Cod Liver Oil.

Morrhuel (*Extractum Olei Morrhue Alcoholicum*) is dispensed in capsules, each of which represents the medicinal qualities of one teaspoonful of Cod Liver Oil.

**PRINCIPAL EFFECTS.** Increase of appetite, abatement of cough, regularity of digestion and stools, promotion of sound sleep, and strength.

**THERAPEUTIC APPLICATION.** In Bronchitis, Phthisis, Rickets, Scrofula, lymphatic conditions generally, and where Cod Liver Oil is usually exhibited with advantage.

**PROFESSOR GERMAIN SEE** says:—"I employ with success a special extract of Cod Liver Oil known as Morrhuel, one gramme of which represents 25 of the crude drug. It is certain that this remedy is not only tolerated but absorbed, and that its anti-emaciative properties are the same as the oil." (*Régime Alimentaire.*)

**DR. LAFAGE** writes:—"Under the influence of Morrhuel (6 to 8 capsules in 24 hours) the cough is rapidly lessened in violence, the appetite returns, the assimilation of food becomes more perfect, the complexion improves in tint and the patient experiences an increase of strength." (*Bulletin Thérapeutique.*)

*A brochure concerning "Morrhuel" will be sent on application.*

# MORRHUOL CREOSOTÉ.

*Each Capsule contains 3 grains of MORRHUOL, the active principles of Cod Liver Oil, with 1 grain of Guaiacol, the active principle of CREOSOTE.*

The large doses of Creosote recommended in the treatment of Tuberculosis at all stages of the disease, may be administered with perfect safety and considerable advantage combined with Morrhuel.

These Capsules do not irritate the mucous membrane of the stomach, have no taste or smell, are tolerated by most patients, and under suitable Hygienic conditions will do much to repair the lesions and prevent further ravages of the bacillus.

## DUSART'S SYRUP AND WINE OF LACTO-PHOSPHATE OF LIME.

Phosphate of Lime (the restorer of muscular fibre and bone) rendered assimilable by the action of its natural solvent, Lactic Acid.

These preparations act as general excitants of the nutritive functions, ensure digestion, stimulate the appetite, and enrich the milk of ladies suckling. They are prescribed with advantage in Teething, Rickets, or tardy development of children; and in Convalescence, Dyspepsia, Wounds, Fractures, and Affections of the Osseous System. The Syrup acts as a Specific in Infants' Green Diarrhoea.

## DUSART'S SYRUP OF LACTO-PHOSPHATE OF LIME AND IRON

Is a Ferruginous Medicine, Invaluable where any of the above cases are complicated with Anæmia.

# SANTAL-MIDY

This Pure Essential Oil is distilled from Mysore Sandal Wood, by MIDY'S Process, and is dispensed in small, soluble, spherical Capsules, containing five drops each.

In diseases of the urinary organs "**SANTAL-MIDY**" has a very prompt and marked effect; in Blenorrhœa the discharge is reduced to a few drops of muco-pus in a few hours; and in Chronic Catarrh of the Bladder, Cystitis, and Nephritis it acts with excellent results, much more promptly, in fact, than with the impure oil of commerce. Dr. POSENER, in a communication to the Berlin Medical Society, says:—

"The purity of Ol. Santal is of the greatest importance; the best form we have used is the French preparation known as '**SANTAL-MIDY**,' in small pearls easy to swallow, and readily supported by the stomach; the patients took from 10 to 12 daily."—*Deutsche Medicinal Zeitung*, July, 1886.

PARIS: Rigaud & Chapoteaut, successors to Grimault & Co., 8, Rue Vivienne.

LONDON: Wilcox & Co., 239 Oxford Street, W., and of all Chemists.

# WYLEYS'

## Gelatine-Coated Oval Pills.

(ENGLISH MANUFACTURE.)

Manufactured from selected drugs in our own laboratories, and placed before the medical profession at a moderate price.

# Cod Liver Oil in Hot Weather.

LONDON.]

JUNE 27TH.

[1891.]

FORTUNATELY, the taste of an individual, if it be not perverted, is the very best guide as to the food required. The profoundest student of dietetics must fall back upon taste for guidance the same as the greatest ignoramus. It is not possible for us to ascertain the accurate composition of food to be eaten daily, for in eating, as in other things, variety is the spice of life. Experiments have shown that, if life and health are to be preserved, something more is required than simply so much albumen, sugar, oil, salts, &c. The habits of well-preserved people are doubtless the best guide as to what constitutes proper foods.

It is, of course, undisputed that food is eaten for the force it may liberate on being burnt up in the system; for the heat of the human body is well known to be a slow fire, in which the food is being burned or oxidized by the oxygen inhaled through the lungs. But some of the food has to replace the worn-out tissues, and that which mainly contributes to this is the albumen, such as the white of egg, fibrin of meat,

casein of milk, &c. This albumen is absolutely indispensable to the sustenance of life, and existence can be maintained longer on meat alone than on any other class of food. Hence we find that those nations and people who are meat-eaters exhibit, on the whole, greater momentum than their differently nourished and less well-fed brethren.

The vegetable kingdom affords a splendid variety of nutritious and toothsome foods and delicacies, more or less indispensable to man, and capable of sustaining life. But they are best adapted for life in hot countries, and those who live in them cannot partake so freely of meat as those living in colder climates. Fruits contain various salts which exert a goodly influence upon the liver and kidneys; and we have often heard it said by the inhabitants of warmer countries that if one would eat fruit freely in summer there would be consequent freedom from piles throughout the year. Often in convalescence, as the tongue is clearing, a piece of fruit will be more grateful than all other gifts nature could bestow.

Coming to oils, we find them an indispensable requisite to all. The ills that follow their withdrawal are multiform and serious. A large share of the wasting diseases of infants, such as rickets, consumption and scrofula, are often associated with too little oil. The system seems to store up oil for future use as she does nothing else. The hibernating animals put on an overcoat of fat before they betake themselves to their long wintery sleep. Whenever there is a demand for a greater and prolonged generating of heat, there is need for fat.

Those who inhabit Arctic regions find in fat their chief sustenance. Fat conserves the body-heat, and hence the endurance of fat-eating people, and their less likelihood of having cramps in cold water. Dwellers in cold climes do not suffer from that fell disease—consumption; and it is remarkable that the only remedy known for this disease is the food of the Arctic dwellers.

It is generally supposed that cod liver oil is not so well adapted for hot as for cold weather, but the fact is that cod liver oil, properly taken, will agree in summer as well as at any other season. The body does not withdraw its need for fat in summer, and those afflicted with consumption will do well to take at such time the Kepler Solution of Cod Liver Oil, which is prepared in malt, &c. But by no means dispense with the oil.

The Kepler Solution and Kepler Malt Extract supplied to the Medical Profession in bottles, containing  $\frac{1}{2}$  lb. and  $1\frac{1}{2}$  lb. at 1s. 8d. and 3s. Retail prices, 2s. 6d. and 4s. Special terms to Hospitals. Supplied by all Chemists throughout the world.

**BURROUGHS, WELLCOME & CO., Snow Hill Buildings, LONDON, E.C.,**

*Will be happy to supply Trial Specimens to Medical Men free on request.*

# The Throat & Voice.

LONDON.]

JUNE 27TH.

[1891.]

## CHLORATE OF POTASH "TABLOIDS."

FOR AFFECTIONS OF THE VOICE, THROAT AND RESPIRATORY SURFACES GENERALLY.

By using the "Tabloids" the drug is effectually brought in contact with the oral mucous surfaces as a continuous gargle, and its specific action made certain. In acute sore throat, Chlorate of Potash "usually relieves the uneasiness in a few hours" (Cohen). "It is used in ulcerated mouth and follicular pharyngitis, and has been employed in croup, diphtheria and spasm of the larynx" (Brunton).

"Of convenient size, they are beautifully made; and, as they dissolve slowly in the mouth, are well suited for throat affections."—THE LANCET.

Supplied to the Medical Profession in beautifully graven white metal boxes, blue silk label, at 4d. and 8d. each. Retail prices, 6d. and 1s. each.

## CHLORATE OF POTASH AND BORAX "TABLOIDS."

The "Tabloids" afford an agreeable form in which to administer Chlorate of Potash and Borax.

Supplied to the Medical Profession in beautifully graven white metal boxes, pink silk label, at 4d. and 8d. each. Retail Prices, 6d. and 1s. each.

## CHLORIDE OF AMMONIUM "TABLOIDS."

The solvent and discutient as well as antiphlogistic powers of Chloride of Ammonium are well known, and have led to its extensive employment in cases of sore throat and bronchitis, attended with abundant secretion of thick and tough mucus or phlegm. The "Tabloids" slowly dissolving secure direct and continuous contact with the inflamed surface. They quickly mitigate irritation, and lessen expectoration.

Two or three of the "Tabloids" will sometimes entirely relieve coughs that have long resisted treatment with ordinary remedies.

Supplied to the Medical Profession in bottles at 5d. and 9d. each. Retail prices, 6d. and 1s. each.

## VOICE "TABLOIDS."

*Composed of COCAINE, Chlorate of Potash and Borax.*

Impart a clear and silvery tone to the voice. Easily retained in the mouth while singing or speaking. Now used by the leading singers and public speakers throughout the world.

DIRECTIONS.—A single "Tabloid" may be slowly dissolved in the mouth to remove huskiness or hoarseness.

Supplied to the medical profession in beautifully graven white metal boxes, blue silk label, at 8d. and 1s. 4d. each. Retail prices, 1s. and 2s. per box.

## SAL PRUNELLA "TABLOIDS."

(NITRATE OF POTASH.)

"A popular remedy, sometimes successful in mild cases of incipient inflammatory sore throat, is a small piece of nitre allowed to dissolve slowly in the mouth" (Waring).

DIRECTIONS.—One or more (5 gr.) "Tabloids" should be dissolved slowly in the mouth for the local effect.

Supplied to the Medical Profession, in bottles of 100, at 9d. each. Retail price, 1s. each.

## HAZELINE.

WITCH HAZEL PLANT.

A colourless, distilled product, containing the volatile active principles of the fresh green twigs and leaves of the Witch Hazel.

Properties—*Hæmostatic, Anodyne, and Astringent.*

Prescribed in cases of hæmorrhage from the nose, lungs, womb, rectum, &c. Is a valuable agent in the treatment of bruises, sprains, inflammation, peritonitis, piles, fistula, anal fissure, ulcers, varicose veins, eczematous surfaces, tonsillitis, pharyngitis, nasal and post-nasal catarrh, stomatitis, leucorrhœa, nasal polypi, &c.

DIRECTIONS:—In catarrh or cold in the head, may be sniffed up the nostrils with an equal part of tepid water.

Dose for irritated or inflamed throat and lungs half to one teaspoonful occasionally.

Supplied to the Medical Profession, in  $\frac{1}{4}$  and 1lb. bottles, at 1s. 2d. and 3s. 6d. each. Retail prices, 1s. 6d. and 4s. 6d. each.

## VEREKER IMPROVED CHLORIDE OF AMMONIUM INHALER.

"The neutral vapour of Chloride of Ammonium removes unhealthy and offensive secretions, and restores the long diseased or weakened nasal and respiratory mucous membrane to a healthy state, so that in cases of catarrh, where thickening, induration, and irritation exist, a most decided improvement is brought about in a short time."

In throat-cough, pharyngeal irritation, and relaxation and weakness of the throat, it acts as a most effective alterative and tonic to the mucous membrane.

Note.—This is the only Inhaler which affords absolutely neutral vapour of Ammonium Chloride, a most useful stimulating expectorant.

Dr. SMYLY, Ex-Pres. Royal College of Surgeons, Ireland, says:—"It is the best Inhaler for Chloride of Ammonium I have met with."

Supplied to the Medical Profession at 5s. each. Retail 7s. each.

**BURROUGHS, WELLCOME & Co., Snow Hill Buildings, LONDON, E.C.**

*Will be happy to supply Trial Specimens of Pharmaceutical Preparations to Medical Men free on request.*

# INFLUENZA.

---

## PUMILINE.

---

No remedy proves so effectual in relieving post-influenzal catarrh of the respiratory tract as **PUMILINE ESSENCE**, both internally and by Inhalation. If used early in the attack **PUMILINE** allays the irritation and prevents the pneumonic and other pulmonary complications (emphysema, hæmoptysis, &c.) which are such fatal sequelæ of influenza. It has also shown itself to be possessed of very beneficial properties in the treatment of most chronic and subacute forms of laryngeal, bronchial and pulmonary disease.

Inhalation is best carried out by Stern's Steam Inhaler, but an ordinary bronchitis kettle will answer the same purpose.

Convalescence after influenza is shortened and recovery is hastened by the use of Pumiline Baths (Pumiline Extract in hot water).

---

# PEPSALIA DIGESTS the FOOD.

Moreover it not only digests the food, but does so in the most natural way.

Pepsalia utilises the natural digestive agents, themselves incapable of injuriously affecting the stomach walls. This is distinctly not the case with the so-called digestive ferments of vegetable origin, such, for example, as the juice of the papaw plant.

This interesting product acts but feebly in acid or dilute solutions, and is altogether rather a physiological curiosity than a useful therapeutical agent.

Our aim has been to imitate Nature by supplementing and completing the imperfectly performed function of digestion, and so to restore nutrition to its normal standard. Pepsalia therefore represents the most active ferments obtainable, and can be relied upon to digest the food without weakening or irritating the stomach.

This with the same ease and certainty no other preparation can do.

*Pepsalia provides, in an agreeable and elegant form, all the essential factors for complete and prompt digestion. It is moreover a perfectly stable preparation and keeps well in any climate.*

---

**G. & G. STERN, 62, GRAY'S INN ROAD LONDON, W.C.**  
**SAMPLES FREE TO MEDICAL MEN.**

# "Vinolia" Soap.

**PUREST—SAFEST—BEST.**

**Does not Dry and Shrivell the Skin, Hair or Nails.**

Floral, 6d.; Balsamic, 8d. per tablet.

"Of unquestionable excellence, and much in favour with the profession."—*British Medical Journal*.  
 "Odour delicate."—*Lancet*.  
 "An ideal soap, delightfully perfumed."—*Chemist and Druggist*.  
 "Excellent from its purity."—*Queen*.

Otto Toilet, 10d.; and Vestal, 2s. 6d. per Tablet.

**FOR ITCHING, INSECT BITES, FACE SPOTS, HAFES, SUNBURN, ECZEMA, &c.**

"For acne spots on the face, and particularly for eczema, it is undoubtedly efficacious, frequently healing eruptions and removing pimples in a few days. It relieves itching at once."—*Baty*.

1s. 9d., 3s. 6d., and 6s. per Box.

"LYPSYL."

(A coralline Emollient for the lips), 1s. per Box.

**AROMATIC, FLORAL, REFRESHING, PRESERVATIVE.**

"It contains no salicylic or mineral acids, or bleaching corrosive alkalis. Instead of soap, it is made with the harmless Saponin (South American Soap Bark), which lathers and cleanses beautifully."

English, 2s. 6d.; American, 1s. 6d.

It is superfatted, and made with most demulcent materials. It is free from impure, rancid fats, and cheap, inferior scents. Does not irritate.

"It lathers freely and acts as a healing protective."—*Chemist and Druggist*.

In Collapsible Tubes, 1s. 6d.

**FOR TOILET, NURSERY, TENDER FEET, OILY SKINS, PERSPIRING HANDS, &c.**

"Superseding the old toilet powders, which are apt to cause acne spots on the face by blocking up the pores of the skin."—*Lady's Pictorial*.

1s. 9d., 3s. 6d., and 6s. per Box, in Pink, White and Cream.

Yields a most soothing, substantial lather, and does not dull the razor, or eat into and irritate the skin.

1s., 1s. 6d. and 2s. 6d. per Stick. Flat Cakes, in Porcelain-lined Metal Boxes, 2s.

**Special Terms to the Profession.**

Crude drugs, without greatly differing in physical character, may contain widely different quantities of alkaloids, consequently Tinctures made from such drugs must necessarily vary considerably in strength. Tinctures made from **Standardised Drugs**, owing to different methods of manufacture, also vary considerably in strength, hence the necessity for **standardising the finished product.**

# TO PHYSICIANS

## SOUTHALLS' STANDARD TINCTURES

### ARE INVALUABLE.

They are of B.P. strength—are all assayed after preparation—contain a definite amount of alkaloid or other active principle, and can therefore be relied on to produce the same effect under the same conditions.

TRADE SAMPLES of Potent Tinctures, from leading houses, analysed by us SHOW EXTREME VARIATION; the strength of the "Standard" Tincture is shown also for the purpose of comparison.

#### TRADE SAMPLES.

e.g.	Aconite .. ..	'046 to '068	Per cent. of Ether Soluble Alkaloids ..	'05	Per cent.
	Belladonna .. ..	'007 " '026	" " Alkaloids .. ..	'025	" "
	Conium .. ..	'026 " '093	" " Coniine and other Alkaloids ..	'060	" "

In the "Standard Tinctures" the active principles are not added as such after each assay, but in the form of crude drug, thus the natural condition of these principles is retained.

Physicians are requested when prescribing to order the tinctures as follows:—"TINCT. CONII (SOUTHALL)."

PAMPHLETS GIVING PRICES AND PARTICULARS SENT POST FREE. SAMPLES OF ANY TWO OF THE TINCTURES FREE ON APPLICATION.

#### The TINCTURES, either B.P. Strength or Concentrated,

May be obtained at the Ordinary Wholesale Price from all Wholesale Chemists and Druggists, or direct from the Manufacturers.

## "WARRINGTON"

TRADE *Warrington Chemical Co.* MARK

## CHLOROFORM

(PURE ANÆSTHETIC.)

#### The "British Medical Journal" reports—

"We have examined a specimen of 'Warrington' Chloroform, which, we are informed, is manufactured by a special process. It is quite free from the impurities commonly found. The results of our analysis enable us to state that it is a very pure product."

#### The "Lancet" reports—

"The results of our analysis of 'Warrington' Chloroform are eminently satisfactory, and testify to the great purity of the sample, a point of the utmost importance to those who are concerned in the administration of the anæsthetic. 'Warrington' Chloroform is interesting chiefly because it is obtained by a special process from Ketones."

#### "Helbing's Pharmacological Record," January, 1891—

"Ketone Chloroform is at least as pure as and cheaper than any Chloroform that can be obtained, and has undoubtedly the same physiological action."

"Warrington" Chloroform is now used exclusively in some of the leading Hospitals.

"Warrington" Chloroform is perfectly pure, and cheaper than Methylated Chloroform.

"You should easily obtain 'Warrington' Chloroform from the Wholesale Houses, but please see the bottles have the registered label and protective band of the 'Warrington' Chemical Co. on, to ensure getting the pure article—for instances have been brought to our notice where Acetone Chloroform has been substituted for 'Warrington' brand when ordered."

N.B.—Acetone Chloroform is not 'Warrington' Chloroform.

MANUFACTURED BY

**THE WARRINGTON CHEMICAL COMPANY,**  
WARRINGTON, LANCs.; and 46, JEWIN ST., LONDON, E.C.

All communications to be addressed to London.

## THE VOMITING OF PREGNANCY.

A complication of Pregnancy as frequent as it is sometimes alarming, is one which taxes the intelligence and sagacity of the accoucheur to its utmost. It is also a disease which can never be successfully combated by mere empirical measures; for a careful and exhaustive enquiry into its possible or probable causes is absolutely essential to satisfactory or conscientious treatment.

In most of the ordinary cases, correction of any errors in diet will perhaps be sufficient to arrest the vomiting, or at all events to keep it within the usual limits of night and transient "morning sickness" or "nausea." This may be satisfactorily attained by substituting for the ordinary food some vegetable soup to which a little Liquor Carnis (Caffyn)<sup>1</sup> has been added; a cup of Malto-Carnis<sup>2</sup> taking the place of the ordinary tea or coffee.

By thus giving the digestive system a day or two's rest the vomiting may quickly disappear, and by occasionally alternating this treatment with ordinary feeding, the usual "vomiting period" may be comfortably passed.

But there are the more severe or prolonged cases, in which vomiting is violent and persists for some weeks or months, and in which abortion or madness is threatened: and which require special care.

Whatever view may be taken of the pathology, the principle of rational treatment is to diminish the reflex excitability of the vomiting centre, to remove any possible or probable mechanical or local cause—to obtain sleep and to maintain strength.

Having rectified any mal-position of the uterus, relaxation of the abdominal wall, accumulation of feces, distension of the bladder, or any of the numerous visceral irritation which may be to a more or less extent responsible for the symptoms, new sedatives, such as Hyoscyamus, Bromides, Chloral Hydrate, Belladonna, Opium, &c., should be administered with great caution, so as to increase the "resistance" of the important centres and to produce sleep.

Success in the latter object is dependant to a great extent upon the assimilation of food, for this reason Liquor Carnis (Caffyn)<sup>1</sup> may be given in one teaspoonful doses every quarter of an hour; the patient sucking small pieces of ice in the intervals. Should this be retained and the nausea arrested, a wineglassful of clear vegetable soup, to which a dessert-spoonful of Caffyn's Liquor Carnis<sup>1</sup> has been added should be administered every hour or two. Subsequently a little corn flour or arrowroot may be given combined with Caffyn's Malto-Carnis<sup>2</sup> or Liquor Carnis.<sup>1</sup> Thirst is often very troublesome, and since it is not advisable to administer too much fluid, small quantities of ice and lemon juice will doubtless be found to satisfy this craving. Wine and alcohol must only be given in accordance with the accoucheurs discretion. Later on a cup of Malto-Carnis (Caffyn)<sup>2</sup> occasionally, will prove a valuable and pleasant restorative, for like its predecessor Liquor Carnis,<sup>1</sup> it may be given without the slightest fear of any gastro-intestinal irritation: being rapidly absorbed and proving a most satisfactory stimulant.

It is with ample evidence of the value of our preparations in this particular branch of therapeutics, we, the proprietors of Caffyn's Liquor Carnis<sup>1</sup> and Malto-Carnis,<sup>2</sup> presume to offer the foregoing suggestions to the Profession, feeling sure that the good opinions already expressed will only be emphasised by a further and more intimate acquaintance.

<sup>1</sup> LIQUOR CARNIS (CAFFYN).—"A nourishing fluid, consisting of the Uncooked Juice of meat or muscle-plasma, permanently preserved by the addition of a definite quantity of a Carbohydrate.—A valuable Food and Tonic for Infants and Invalids."—*British Medical Journal*.

<sup>2</sup> MALTO-CARNIS (CAFFYN) contains two-thirds (66%) of LIQUOR CARNIS (CAFFYN) (Uncooked Juice of Beef) in combination with Extract of Malt and Cocoa.

### CAFFYN'S

### JELLY-CARNIS.

Contains two-thirds (66%) of Liquor Carnis (Caffyn), and all the Stimulating substances characteristic of ordinary Beef-Essence and Liebig's Extract of Meat, as well as the soluble Albuminoids present in Raw-Meat-Juice.

May be eaten cold as a Jelly or may be taken hot in the form of Beef-Tea by simple dilution with hot water.

SPECIMENS FREE.

### CAFFYN'S

### MALTO-CARNIS.

Contains two-thirds (66%) of Liquor Carnis—Caffyn—(Uncooked Juice of Beef) in combination with Extract of Malt and Cocoa.

This preparation contains the tissue-forming properties of Liquor Carnis (Caffyn), the fat and heat-producing carbohydrate—Extract of Malt—with the refreshing stimulant of Cocoa.

TO MAKE A BREAKFAST CUP OF MALTO-CARNIS (CAFFYN).

Into an ordinary breakfast cup, place a dessert or table-spoonful of Malto-Carnis (Caffyn), to which add gradually, stirring briskly, hot (not boiling) milk or milk and water if preferred. Sweeten to taste.

**SCHACHT'S**

A combination of SCHACHT'S LIQUOR BISMUTHI and  
PEPSINA LIQUIDA (the most powerful Fluid  
Pepsine known) with sedatives.

**N.B.**

**LIQUOR**

FORMULA.—Each drachm contains, in addition to the Pepsine and  
Bismuth, gr. 1-24 Morphine Mur., min. ij Acid. Hydrocyan. B.P. and min. v  
Tinct. Nucis Vom. Dose: 1 drachm diluted.

**BISMUTHI**

The remarkable efficacy of this formula has been conclusively shown in  
very many cases of dyspepsia, especially those attended by gastric pain,  
after eating. It arrests vomiting, banishes or alleviates the pain, and renders  
excellent service as a digestive nerve-tonic when such a remedy is indicated.

In 4 oz., 8 oz., and 16 oz. Bottles.

**SEDATIVUS.**

Sole Manufacturers:

GILES, SCHACHT & CO., CLIFTON, BRISTOL.

# Fry's Cocoa

**FRY'S PURE CONCENTRATED SOLUBLE COCOA**

Prepared by a new and special scientific process securing extreme solubility.

A large number of testimonials approving in the highest terms of this article, have been received from the medical faculty, who state that they have not only  
adopted it for family use, but have also recommended it in many cases to their patients. Apply for Samples and Copy of Testimonials to the Manufacturers,

J. S. FRY & SONS, BRISTOL, and 252, CITY ROAD, LONDON, E.C.

Paris Exhibition, 1889, Gold Medal awarded to J. S. FRY & SONS. 50 Prize Medals awarded to the Firm.

**FIVE PRIZE MEDALS AWARDED.**

**ANODYNE AMYL COLLOID**

(FERRIS), registered. One of the best topical appli-  
cations in cases of neuralgia, sciatica, &c.

In bottles, 2s. 9d., 4s. 6d., 8s., and 15s. each; 24s., 42s., 78s.,  
and 150s. per doz.

**GLYCERINE AND CODEIA**

JELLY (FERRIS). A pleasant and very serviceable  
agent in treatment of chronic laryngitis, phthisical  
cough, &c.

In glass jars, 2s. each; 21s. per dozen.

**IODOFORM PASTILLES**

(FERRIS), two grains of Iodoform in each. Will be  
found useful in many affections of the throat and  
mouth, especially those of syphilitic origin.

5s. 4d. per lb.; or in bottles, 1s. each; 10s. per doz.

**LIQ. ARSEN. BROMAT.**

(FERRIS). In epilepsy and other diseases of the  
nervous system.

Dose, 1 to 2 minims. 2s. 8d. per lb.

**LIQ. COPAIBÆ ET SANTAL.**

COMP. (FERRIS). A cheap and elegant formula.  
Contains Copaiba, Sandal, Cubebs, Buchu, and Matico.  
Forms a clear mixture with water.

Dose, 1 drachm. 3s. 6d. per lb.

**LIQ. SECALIS AMMONIAT.**

(FERRIS). The original formula; has stood the test of  
thirty years; is always reliable.

Dose, 30 drops in water every ten minutes. 8s. per lb.

licious Cocoa.

*Fletcher's*  
*Hydrobromates*

FROM

The Medical Press and Circular.

APRIL 17, 1889.

NOTHING could be more elegant as a pharmaceutical preparation than Messrs. Fletcher's SYRUP OF THE HYDROBROMATE OF QUININE. The taste is agreeable, and free from the many unpleasant flavouring agents that are so often used to conceal the bitterness of quinine. The Syrup has the further advantage of keeping well, not producing an appreciable deposit after being kept in an uncorked bottle for a very considerable time. *But its chief value consists in its prevention of cinchonism, and of this property we speak with much confidence, from personal experience.* In the convalescence of fevers, and in the many forms of *asthenia* that are so common in large cities, we have found it of much benefit, and in none more so than in the *anæmia* of young girls of sedentary occupation, whose opportunities for out-door exercise are too few. Amongst other cases we have tried its efficacy in the treatment of *alcoholism*, and have found that it gives tone to the stomach, promotes digestion, and restores the tone of the voluntary muscle tissue, getting rid of the tremor that is so characteristic of alcoholic saturation. FOR CASES IN WHICH QUININE IS ADVISABLE THE PRESCRIBER CAN OBTAIN ALL THE GOOD EFFECTS OF THE ALKALOID WITHOUT ANY OF ITS DISADVANTAGES, BY PRESCRIBING FLETCHER'S SYRUP OF THE HYDROBROMATES.

SOLE MANUFACTURERS:—

# PREPARATIONS OF CERIUM

BY ROYAL LETTERS PATENT.

## LIQ. CERII.

3j is equivalent to a full dose of Cerium Oxalate.

Price in bottles - - 2/9, 5/-, 9/-

## MIST. CERII COMP.

A combination of Liq. Cerii Tinct. Nucis Vomica, Acid Hydrocyanic and Spt. Chloroformi. Dose 3ss to 3j.

Price in bottles - - 2/9, 5/-, 9/-

## SYR. CERII BROMID. CO.

A combination of the Bromides of Cerium, Quinine and Strychnine. Dose 3j.

Price - - - - 4/- per lb.

These preparations, since their introduction by Mackey, Mackey & Co. in 1879, have been used with marked success in Pyrosis, Irritative Dyspepsia, Gastrodynia and Diarrhoea. In Chronic Vomiting and the Vomiting of Pregnancy the Mist. Cerii Co. is invaluable. As a sedative tonic in convulsive diseases as Chorea, Epilepsy, Hysteria, Whooping Cough and Neuralgia, the Syrup Cerii Bromid. Co. is of great value.

INTRODUCED AND PREPARED ONLY BY

**MACKEY, MACKEY & CO.** (Wholesale Druggists and Manufacturing Chemists.), 1 & 2, BOUVERIE STREET, LONDON, E.C.

# BULLOCK'S PEPSINA PORCI. DOSE— 2 to 4 grains.

Since the introduction by Dr. LIONEL BEALE of PEPSINA PORCI, Mr. BULLOCK has devoted special attention to its manufacture.

## BULLOCK'S ACID GLYCERINE OF PEPSINE. DOSE— 1 to 2 drms.

Possesses at least three times the digestive power of (and in most cases considerably more than) any other preparation of Pepsine and Glycerine, or fluid form of Pepsine whatever.

May be prescribed with most substances compatible with Acids. In 4 oz., 8 oz., and 16 oz. Bottles, and in Bulk.

The published experiments of G. F. DOWDESWELL, Esq., M.A. Cantab., F.C.S., F.L.S., &c., Dr. PAVY, Professor TUSON, the late Professor GARROD, and others, conclusively demonstrate the marked superiority of BULLOCK'S PEPSINA PORCI AND ACID GLYCERINE OF PEPSINE over every other Pepsine or preparation of Pepsine—ENGLISH, FRENCH, GERMAN OR AMERICAN.

\* \* In prescribing either of the above preparations, it is suggested to insert in parenthesis as follows (BULLOCK).

**J. L. BULLOCK & CO.,** 3, Hanover Street, Hanover Square, London, W.

# FER BRAVAIS

**FER BRAVAIS**  
**FER BRAVAIS**  
**FER BRAVAIS**  
**FER BRAVAIS**

Most efficacious in restoring the vitality of the blood and enabling the constitution to resist climatic influences.

Invaluable in all cases of anæmia, chlorosis and general debility.

The most assimilable of all Iron preparations.

Highly recommended for weak and debilitated ladies and children.

"It has all the good effects of iron without producing constipation or disturbing the digestion, and it does not blacken the teeth." — British Medical Journal.

SOLD BY ALL CHEMISTS, WITH DROP MEASURE

# OXYIODIDES OF CALCIUM AND BISMUTH.

AS SUGGESTED BY DR. HUGH WOODS.

**LIQ. CALCIS IODINATÆ.** A newly-discovered compound of Iodine and Calcium. Valuable in Rheumatism, Gout, Syphilis, Strumous or Tubercular Disease, Gout, and many other affections. Highly antiseptic and deodorant.

Dose—m.v. to xx. Price, 4 oz. bottles, 1s. 2d.; 8 oz., 2s.; 16 oz., 3s. 6d.

**RED OXYIODIDE OF BISMUTH.** Fine, copper-red powder, free from taste or smell, strongly antiseptic. Powerful healing properties, very superior to Iodoform. Useful in skin diseases, eczema, intertrigo, sweating feet, chapped hands, &c.

Price, 1s. 6d. per oz. Ointment (1 in 10), 3s. 6d. per lb.

**YELLOW OXYIODIDE OF BISMUTH.** Valuable for application to throat, &c. Excellent antiseptic application to wounds and sores. Useful in skin affections. Valuable for internal use in cancer of the stomach, gastric ulcer, &c.

Dose—5 to 20 grains. Price, 1s. 4d. per oz. Ointment (1 in 10), 3s. per lb.

Leaflets descriptive of above, and monthly price current, on application. Special terms to Hospitals and public institutions.

**WILLOWS, FRANCIS & BUTLER,** Wholesale & Manufacturing Chemists and Export Druggists, 101, High Holborn, London.  
ESTABLISHED 1751.

# Fluidwick

## A REMARKABLE NATURAL CHALYBEATE. THE MOST VALUABLE SPECIFIC

Which has yet been discovered for ANÆMIA and CHLOROSIS.

Proved by the testimony of MEDICAL MEN who prescribe it.

**THE HIGHEST AWARD INTERNATIONAL MEDICAL EXHIBITION, 1881.**  
Was given to the discoverer of this Unique Chalybeate, by Thomas Greenish, Esq., President Pharm. Soc.; Peter Squire, Esq., Author "British Pharmacopœia"; Professor Redwood; Dr. Robt. Parquharson; H. Buchanan Baxter, M.D. and Thos. Hyde Hills, Esq.

The Analysis by Prof. White, M.P.S., afterwards confirmed by Professor Redwood, as follows:—

Oxide and Carbonate of Iron	...	...	...	144.00
Sulphate of Magnesia and Soda	...	...	...	59.20
Carbonate of Lime	...	...	...	11.54
Muriate of Magnesia (Chloride)	...	...	...	15.16
Silex	...	...	...	5.40
Carbonate of Magnesia	...	...	...	5.42
Soda	...	...	...	0.22

WHOLESALE DEPOT:—

LONDON AGENT:—

63, HIGH STREET, Borough, S.E.; Ingram & Royle, Farringdon Street.

## DUNCAN, FLOCKHART & CO., EDINBURGH.

### CHLOROFORM.

(Duncan's.)

Prepared from Pure and Methylated Spirit. Also Blue label Chloroform.

### A. C. E. MIXTURE.

(Duncan's.)

Prepared from Pure and Methylated Chloroform. Put up in  $\frac{1}{2}$  lb., 1 lb. and 2 lb. Bottles.

### CHLORIC ETHER.

(Duncan's.)

This is a special preparation, quite different from Spir. Chloroformi P. B., perfectly miscible with water, and always of the same strength.

### CASCARA SAGRADA CAPSULES.

Each Capsule equal to  $\frac{1}{2}$ ,  $\frac{1}{4}$  or 1 teaspoonful of Fluid Extract of Cascara Sagrada. They can also be had in combination with  $\frac{1}{2}$  or 1 grain of RUONYMIN.

### BLAUD'S PILL CAPSULES.

In 3 Sizes, equivalent respectively to 1, 2 or 3 Bland's Pills.

These Capsules differ from all others, and have advantages which no others possess. They are made from Pure Unoxidised Carbonate of Iron by a special process. They are so prepared, that while they retain indefinitely the full efficacy of fresh Bland's Pills, they have no tendency to become hard and insoluble by keeping, as the pills often do. They are small in size. Owing to the special process adopted by D., F. & Co., the 3 pill Capsule is hardly larger than a single Bland's Pill. They are vomica and flexible, and much more easily swallowed than pills. They can be had in combination with Arsenic, Nux Vomica, &c.

### EASTON'S SYRUP CAPSULES.

Each Capsule equivalent to 20, 30 or 60 minims of Easton's Syrup.

### SYRUP. HYPOPHOS. COMP.

(Duncan's.)

Some time since we had several samples of well-known SYRUP. HYPOPHOS. COMP. analysed by Mr. D. B. DOTT, F.R.S.E., F.I.C., Ph.C., and in no one case did he find so large a proportion of the active constituents as is found in our preparation by a precisely similar analysis—which analysis is an absolute proof that the proportions of the different ingredients which we state are in our Syrup ARE ACTUALLY PRESENT. We, therefore, submit that from the use of our Syrup the best results may be confidently anticipated.

In proof of our statements we subjoin the report of Analysis referred to.

**NOTE.**—Our Syrup will darken in colour by lengthened keeping, and so must every Syrup which contains a similar proportion of FERROUS Hypophosphite.

In prescribing please say: SYRUP. HYPOPHOS. COMP., (Duncan's.)

The above may be ordered through any Wholesale or Retail Druggist. The Capsules and Syrup are sold and dispensed by

**Messrs. ROBERTS & CO., 76, New Bond Street, LONDON, W**  
Wholesale from WM. EDWARDS & SON, 157, Queen Victoria Street London, E.C.

"Analysis of SYRUP. HYPOPHOS. COMP. (grains per drachm)."

	DUNCAN'S.	No. 1.	No. 2.	No. 3.	No. 4.
Hypophosphite of Quinine	.25	.14	.11	.09	.12
" " Iron	.77	.72	.10	.28	.15
" " Manganese	.27	.22	.00	.16	.08

## GRANULAR EFFERVESCENT PREPARATIONS.

ESTAB. 1857.

We beg to call the attention of the Medical Profession to the fact that we were the original inventors and makers of Granular Effervescent Preparations, and that for more than thirty years we have given our sole attention to perfecting this one class of articles. In these preparations, which are universally admitted to be the finest in the market, the most scrupulous care and attention is given by us to ensure uniformity, and we guarantee that they may be absolutely relied on. As the Profession naturally wish to obtain the best preparations for their patients, they will make certain of doing so, if, when prescribing, they specially mention *Bishop's*, as by that means they will not only secure the best article in the market, but be certain that the materials used are of the finest quality and always kept up to the highest standard.

**SILVER MEDAL, PARIS EXHIBITION, 1889.—HIGHEST AWARD FOR GRANULAR PREPARATIONS.**

## UNG. EMOLLIENS

(ELTON & CO.)

An Ideal Ointment Basis.

UNG. EMOLLIENS is prepared expressly for the Medical Profession, and will be found to far surpass in therapeutic value any previous preparation of the kind brought to their notice.

## UNG. EMOLLIENS ANTISEPTICUM.

(ELTON & CO.)

Prepared by the same special process of manipulation as the UNG. EMOLLIENS, but medicated by combination with a new and specially prepared basic and antiseptic Salt of Zinc and other approved remedies.

The following skin diseases may be mentioned, in which it has proved a most valuable and certain remedy:—Pruritus Ani, Eczema, Acne Rosacea, Erythema, Herpes, Impetigo, Psoriasis, Scourvy, Erysipelas, Urticaria, Prurigo, Tinea-Verucolor, or any other irritation of the epidermal surface.

It is perfectly miscible with all fats, oils and waters, and may be dispensed with any other medicament the physician desires to use in addition to its present constituents.

Prepared only by the Proprietors, Messrs. ELTON AND CO., 28, Endsleigh Gardens, N.W.

# ROBINSON'S CONCENTRATED WATERS.

[ESTABLISHED 1855.]

[ESTABLISHED 1855.]

One Ounce of these Waters added to Forty Ounces of Distilled Water forms a clear Medicated Water (without filtering), similar in every respect to those prepared according to the directions of the British Pharmacopoeia, and free from all Chemical Impurity. They are prepared to supply a want long felt by Chemists and Medical Men, and by their use a fresh supply of any of the Medicinal Waters may be obtained at a moment's notice. They are not affected by age in any climate. N.B.—Used in the proportion of one part to thirty-two of Water, they represent the Medicinal Waters of the United States Pharmacopoeia.

## CALLARD'S DIABETIC FOODS.

The best substitute for ordinary Bread is our speciality—**GLUTEN and ALMOND BISCUITS**—containing less starch than any Gluten Bread, and are light, crisp, and palatable.

"THE LANCET," Oct. 5th, 1889, says:—

"No less than ten varieties of Callard's Diabetic Foods have been submitted to us, and after careful examination we are able to report that all are excellent. In texture and flavour all the samples were admirable, and several would be eaten with pleasure even by persons who were not under diabetic restraints."

"THE BRITISH MEDICAL JOURNAL,"

Nov. 23rd, 1889, says:—

"We have examined several kinds of Callard's Diabetic Foods. The samples we have received have been very well prepared, and evidently from the best materials, and they are in every way well suited for the purpose intended."

Samples post paid, 1s.

Return Tickets at Reduced Fares. For full particulars apply to Messrs. GRAY, DAVES, & Co., 4, Pall Mall East, S.W., or at the Offices of the Company, 138, Leadenhall Street, E.C.

**JOHN WEISS & SON** beg respectfully to inform the Members of the Medical Profession that they have in addition to their premises 237, OXFORD STREET, and 69, STRAND, LONDON, in response to numerous requests, opened a Branch Establishment at 42, KING STREET, MANCHESTER, where will always be found an extensive and varied stock of Surgical Instruments, Appliances, and Dressings, including all the latest improvements.

A staff of thoroughly competent workmen and fitters, including a female attendant, are employed on the premises to manufacture any articles required, and to fit all kinds of Bandages, Trusses, Orthopædic Instruments, &c.

A large assortment of their well-known high-class cutlery is also kept in stock.

## DR. FELIX SEMON'S ELECTRIC LAMP FOR ILLUMINATING THE MOUTH, NOSE, LARYNX, VAGINA, AND RECTUM.

This instrument is worked by means of a small primary battery, which is easily carried; and when exhausted recharged, if returned to us for that purpose.

## Dr. Fisher's Patent Fixture for Fractured Patella.

Used effectually uncovered for the treatment of recent cases of Fracture, for the complete Fixture of the Upper Fragment, as soon as the swelling subsides.

More especially intended to be worn as a permanent support. Covered in cases of long standing for the efficient support and fixture of the Patella and Quadriceps Tendon, thus establishing the power of that group of muscles, same time allowing free action of the joint.

Proof of this has been afforded by the testimony of eminent Surgeons, and the experience gained in cases where it has been used with the greatest success.

A plaster cast of the knee is required.

## Dr. Fisher's Improved Bow-leg Splint.

This Splint has been in use for the last eight years with great success, during which time a thousand pairs have been applied with the desired effect.

### Directions for Application

Should these splints not fit at the garter, calf, or ankle it is only necessary to warm the part gently before the fire till it bends freely, then to mould it on the leg so as to make it fit, and hold it in that position for a couple of minutes until it sets.

The success attending their use must depend a good deal on the attention paid in keeping the centre strap as tight as the child will bear it without inconvenience.

These splints may also be worn as a support for weak ankles only, but it is necessary in giving directions whether the child is inclined to walk on the inner or outer side of the foot.

In all cases light lace boots should be worn.

Price, covered in good style, per pair 21s. 0d.

Ditto, in superior quality, per pair 31s. 6d.

## Dr. Fisher's Patent Flexible Knee-cap.

For Supporting the Knee-joint under any circumstances.

The principle on which this Knee-cap is made speaks for itself. The front is of steel wire worked in a manner so that the meshes dovetail with the extension of the limb without losing pressure from side to side, lined with chamols, consequently allowing free action of the joint, which object is not achieved by any other knee-cap made.

The top and bottom straps are merely for the purpose of keeping it in position; but the middle are of soft buck-skin, by which any pressure necessary may be kept up as the wearer desires. It is cool and light, and scarcely any size to the joint, and calculated to wear for years.

Price 30s

(Second Floor.)

# LYNCH & Co.

*Beg to draw the attention of the Profession to the following useful Instruments at their Wholesale Prices, any of which will be forwarded on receipt of order.*

## ENEMAS.

### IRRIGATEUR.

The high prices at which these Instruments have hitherto been offered have naturally retarded their employment, notwithstanding the evident advantages they possess over ordinary Enemas, viz., their extreme cleanliness and the ready means they offer for self use. LYNCH & CO., by improved process of manufacture, suggested to an eminent French firm, have succeeded in bringing them within the reach of most persons requiring such appliances, and respectfully offer them to the medical profession at subjoined prices:—

$\frac{1}{2}$ Pint,	complete with Tube, Rectum and Vagina Pipes, in		
	Polished Wood Box	-	10/6 each
1 Pint	"	"	12/6 "
$1\frac{1}{2}$ Pint	"	"	15/- "

## LYNCH'S PATENT VALVED ENEMA.

LYNCH & CO. have long recognised the imperfect nature of the Valves hitherto employed in the construction of Enemas, and their liability to destruction from contact with greasy matter, from clogging, and even in some cases actually rusting in the Valvular Chamber. In the employment of Glass they have secured a material not only free from the foregoing defects, but combining all the essentials of incorrodibility, cleanliness and perfect continuous action. The Valves are so situated, being placed at the extremity of both inlet and delivery tubes, as to admit of their ready removal and replacement, if desirable; and being WITHIN the india-rubber, are perfectly protected from any possibility of breakage. The simplicity of the Apparatus, the entire absence of complication, and the extremely moderate price warrant the Inventors in hoping for its universal adoption.

**Manufactured of the Finest Rubber and Warranted not to Split.**

Price 37/- per Dozen.

# J. F. MACFARLAN & CO.,

## MANUFACTURERS OF

# Antiseptic Dressings and Appliances

USED IN THE

# Listerian System of Surgery.

**OUR LISTERIAN DRESSINGS** were the first in the Market, and were prepared under the guidance of Professor Sir JOSEPH LISTER, and according to his Special Formulae, which have since been published. These Dressings are now known and used wherever the Antiseptic method is employed in Surgical Practice. The demand which followed their introduction in 1871, and which has since continued steadily to increase, warrants us in believing that the accuracy with which these and all subsequent Dressings have been prepared, has secured the confidence of the Profession.

May be obtained through Wholesale Houses, or direct.

# PATENT 13588 KARSWOOD RUBBER SILK

A NEW WATERPROOF SUBSTANCE for SURGICAL and CURATIVE PURPOSES.

Not affected by hot water, nor injured by close packing. Does not stick together when heated.—Can be washed and used again and again.—Much superior to Oiled Silk or Gutta Percha Tissue for covering poultices, Hot and Cold Fomentations, &c.—Is not affected by Hot or Cold Climates.

Extract from the "British Medical Journal."

"KARSWOOD RUBBER SILK possesses qualities which make it preferable to Oiled Silk or Gutta Percha Tissue as a Dressing, and does not deteriorate by keeping, even in a hot climate, being capable of bearing a high temperature, both in the air and in a fluid medium. The RUBBER SILK is thin and light, and can be applied to any surface without any mechanical trouble through crumpling or splitting, &c."

The Editor of *Health* says:—"Much superior in every way to the ordinary Gutta Percha or Oiled Silk.....we recommend this substance to the notice of all medical men and nurses."

Sold in Packets, 6d. and 1s. each, at 4s. and 8s. per dozen, and in pieces from 1 yard to 25 yards at 4s. per yard, 36 inches wide.

Wholesale—MAW, SON & THOMPSON, and all Wholesale Houses, & of the Manufacturer, E. GRIFFITHS HUGHES, Operative Chemist, VICTORIA STREET, MANCHESTER.

## HAWKSLEY'S

### STANDARD WEIGHING APPARATUS.

Suitable for the use of Physicians, Hospitals, Asylums, Prisons, Insurance Offices, Workhouses.

No. 1 APPARATUS, weighs from 4 oz. to 20 st., platform 19 x 13, £5 5s.

TABLE APPARATUS, only 15 in. high, weighs from 1 oz. to 16 st., platform 13 x 10, £4 4s.

The above Apparatus have each solid brass levers, with sliding weight. They may be taken to pieces for the convenience of packing, and will bear severe usage. Each Apparatus has two adjustments, enabling anyone to apply the necessary correction.

DR. A. T. BERRY, of Watford, says:—"I have used for the last three years a machine which I got from T. Hawksley, 357, Oxford Street. It cost £5 5s., and I find it answers very well. I got it because it was recommended by Mr. Roberts in his interesting book on Anthropology. I keep the machine in my consulting-room, and I have weighed and measured 1,342 people, some often than once."—*Vide* answer to "Subscriber," *Lancet*, October 10th, 1885, page 699.

DR. FERGUS says:—"The weight was taken by one of Hawksley's Weighing Machines, which for simplicity and accuracy of action cannot be surpassed: after all the weighing was done it had not varied a fraction of an ounce."—*Vide* "Report of the Marlborough College Natural History Society," for the half-year ending Midsummer, 1874.

**SOLE ADDRESS: 357, OXFORD ST., LONDON, W.**

# WARD'S INVALID CHAIR MANUFACTORY,

246 & 247, TOTTENHAM COURT ROAD, LONDON. (Late of Leicester Square).

The largest assortment in the world of INVALID CHAIRS, SPINAL COUCHES, BATH CHAIRS, BED TABLES, and INVALID FURNITURE, &c., for Sale or Hire.

Prize Medals—London, 1861 and 1862; Paris, 1855, 1867 and 1878 (3 Medals); Vienna, 1873 (2 Medals); Dublin, 1865.

TO THE QUEEN AND ROYAL FAMILY.

Established  
180 years.

No. 19.—Ward's Victoria Three-Wheel Bath Chair, with leather hood. German shutter and patent spring front iron, to which shafts for a pony may be attached.

No. 10 is Ward's General Invalid Couch. It adjusts the back, seat and legs; and is recommended by the Faculty as being the most complete Bed ever made for confirmed invalids or for fractured limbs.

No. 46. Reading Stand, for holding a book in any position. Portable for travelling.

No. 1.—Self-propelling Chair, mounted on 24-in. wheels outside, and may be used by a child eight years of age with the greatest ease.

No. 210.—The back of this chair is made to recline to any angle, and with leg rest fixed, an invalid may lie at full length.

No. 14 is the simplest and best constructed Chair for carrying invalids up or down stairs. The sketch conveys the exact idea. It is also made portable for travelling.

Price Catalogue  
Post Free.

## SALMON'S ABDOMINAL BELT.

In Silk Elastic and Thread ditto. From 25s. to 50s.

The Belt is light in texture, and affords a more lifting support than any hitherto made, completely supporting the lower part of the abdomen. It is recommended in cases of Obesity, Tumour, Prolapsus Uteri, and during and after Pregnancy.

HENRY R. SALMON,  
42, Beaumont St., Upper Wimpole St.,  
London, W. (from 87, Wimpole St.)

NOTICE.—Mr. Salmon does not associate electrical properties with any of his surgical bandages. Established 1861.

## SALMON'S OBSTETRIC BINDER.

For immediate Use after Delivery. 6s. 6d., by post 6s. 9d.

The Binder is a substitute for the towel generally used immediately after labour. It is made of strong linen, and dispenses with the usual pinning. The advantages of the Binder are facility of application combined with comfort and greater efficiency. Measurement required, ordinary size of waist. Each one stamped with name and address.

HENRY R. SALMON,  
42, Beaumont St., Upper Wimpole St.,  
London, W. (from 87, Wimpole St.)

WHEN THE WEIGHTS ARE REMOVED

Miss THOMAS, Anderton, Devonport, says:—"I have much pleasure in assuring Mr. Woods that the Invalid Bedstead gives great satisfaction. The value and comfort can hardly be over-estimated or too widely made known to the public."

**IMPORTANT.**—The Meeting of the British Medical Association, held in Leeds. At the Museum of Exhibits we again practically showed that WOODS' PATENT STEEL WIRE MATTRESSES are the strongest made. Other makers were challenged to give similar tests; but no attempts were made to compete against us on the score of **STRENGTH** and **DURABILITY**. Practical proofs to practical men speak more forcibly than any amount of "theorizing."  
**Sole Makers: THE LONGFORD WIRE COMPANY, LIMITED, WARRINGTON.**

Maythorn's Celebrated Ripon Cart. Price from 28 guineas, or Three Annual Payments of 10 guineas each.

## MAYTHORN & SON, Coach Builders, BIGGLESWADE, Estab. 1842.

J. M. & SON build carriages of every description, but of highest quality only, and any kind may be acquired by their **NEW HIRE PURCHASE SYSTEM** upon the most liberal terms ever offered. Full particulars on application.

## THE PYTCHLEY GIG

This vehicle is low hung, easy of access, and specially adapted to the medical profession, and to invalids, the shafts being fitted on an entirely new principle, rendering knee motion impossible. Full particulars on application.

**HENRY SMITH,**  
Carriage Manufacturer,  
NORTHAMPTON.

## THE MINIATURE VICTORIA.

C. F., in order to meet the many enquiries by the profession, and the great demand for his carriages both at home and abroad, has introduced a new, light, elegant, and easy Victoria, hung upon Cee springs with rubber bearings, and at as low a price consistent with durability and quality. Price 75 gs. Drawings on application.

**C. FUGE, TAUNTON.**

## CLARK'S, WOLVERHAMPTON. Established 1842.

**MEDICAL BROUGHAMS**, both single and Circular Front, with all the latest improvements, built with steel, weight only 6 cwt. Warranted for two years. Kept in stock ready for use at a day's notice. Seven first class Prize Medals awarded for design and superior workmanship.

Illustrated Catalogue Free.

**New Brougham-Hansom**, forming either open or closed carriage. Light, elegant, and roomy. May be driven from inside or outside. Horse stumbling does not affect passenger, being low and easy of access. The most suitable vehicle yet built for medical men who require a comfortable light carriage. Drawings and prices free to any address. Apply, Jno. MARSTON & Co., Hansom Builders, Bradford Street, Birmingham.

**Brougham.—By Offord.—A** capital double-seated, suitable for one horse and hilly district, painted and lined blue, £60.—HELY, Coach Builder, Sevenoaks.

"Among the carriages at the SPORTSMAN'S EXHIBITION was a very neat, close HANSON, with a body as comfortable as a single Brougham, and capable of admitting a lady without difficulty or injury to her dress. This was built by BRAINSBY & SONS, 48, 49, and 106, Long Acre. Weight about 7 cwt. It is a very useful article, especially to medical men."—*Vide The Field*.

"Is the best modification and combination of the Hansom Cab and Brougham yet seen."—*Daily Telegraph*. Landaus; Broughams, Victorias, Stanhopes, and other Phaetons. Cee-spring Gigs, Dog Carts, Buggies, Polo Dog Carts.

## Special.—Brown Gelding, 15-3

full, age six, substance, well-conditioned—good-looking, unblemished, light-hearted, does not shy, up to any weight and safe footed. Quiet to mount and stand at door; dark rich old-fashioned colour. Has no vice, fit for immediate and regular work. Suit Brougham or Victoria, £50. Or hire £5 per month. Owned if retained 12 months. All risk ours. Horses in all parts.—FREDERICK ONCHARD, 10 & 11, Vernon Mews, Portobello Rd., Notting Hill.

**Brougham.—Single-seated, in** condition, equal to new, by London builder, suitable for one horse, painted and lined blue, £70.—HELY, Coach Builder, Sevenoaks.

## MENTAL AFFECTIONS.

## HALLIFORD HOUSE, SUNBURY-ON-THAMES.

Sixteen Miles from London, Waterloo Station Loop-line.

Established by Dr. JOSEPH SEATON in 1846, for the reception of a limited number of Mental Invalids of the higher classes—those especially who, under care and treatment, may reasonably be deemed curable. Patients relatives and friends received as voluntary boarders.—Apply, D. R. EDWARDS M.D., RESIDENT MEDICAL SUPERINTENDENT.

### THE MOAT HOUSE, TAMWORTH, STAFFORDSHIRE.

Stations, L. & N. West. & Mid. Railways.

This Elizabethan mansion, standing in its own grounds (within 5 minutes drive of stations), is devoted to the care and treatment of a few ladies suffering from mental and nervous disorders. The comforts, privacy and occupations of home life are assured.

Voluntary patients received without certificates.

Medical Attendants—J. HOLMES JOY, M.A., M.D. and S. H. HARRISON, L.R.O.F. For terms, etc., apply to H. HOLMES, M.A. Camb., Resident Proprietor.

### BOURNEMOUTH. GRAND HOTEL, FIR VALE.

This Hotel is sheltered from the north and north-east winds, and is most comfortably arranged and furnished. Principal rooms face due south, and look over grounds laid out with pine trees and rhododendrons. All rooms lofty and spacious. Excellent cuisine. The Hotel can be approached without any steep ascent.

L. WILLIAMSON, Manager.

### Sidmouth, South Devon.—

KNOWLE HOTEL.—First-class Family Hotel. Grounds of many acres with sheltered walks in full view of the sea. Good cuisine and wines. Hot and cold sea-water baths. Sidmouth is remarkably sheltered by steep hills from the north and east winds, and has a mild spring climate with a high record of bright sunshine. It is very suitable for asthmatic patients, convalescents from influenza, and other classes of invalids. Through train from Waterloo.

### ALPINE HEALTH RESORT.

MALOJA, UPPER ENGA-DINE, SWITZERLAND.—6,000 feet elevation. The Grand Hotel-Kursaal Maloja, open from June to September. Magnificent establishment with high comfort. 350 beds. ## THE COPPICE, NOTTINGHAM.

**Hospital for the Insane of the MIDDLE and UPPER CLASSES.**—President—the Right Hon. The EARL MANVERS. This institution having been considerably enlarged, there are now Vacancies for Patients, of both Sexes, at moderate rates of payment.—Particulars as to terms, etc., may be obtained from Mr. TATE, Medical Superintendent.

## Peterborough House, Fulham,

S.W. (close to the Parson's Green Station, District Railway). a Private Asylum for the Cure and Treatment of Ladies Mentally Afflicted.

This Establishment, removed from Earl's Court House, South Kensington, has grounds of 12 acres, tastefully laid out.

Resident Proprietress; Mrs. GARDINER HILL.

For terms and particulars apply to

J. E. HILL, L.R.C.P.,  
 Resident Medical Superintendent.

## Warneford Asylum, Oxford.

—This Asylum, for the care and treatment of the Insane of both sexes of the middle and upper classes, is pleasantly situated on Headington Hill, near Oxford, and has been recently enlarged. The grounds are extensive, and cricket, tennis, billiards, dances, and other amusements are amply provided. There are now vacancies for patients at moderate charges.—For particulars, apply to the Medical Superintendent, Dr. BYWATER WARD.

## Exeter Asylum, Digby's near Exeter.

This Asylum, newly erected, is lighted by electricity, and is especially designed and constructed for the proper treatment of the insane.

The situation and climate are most salubrious, the Buildings having a southern aspect, and about 90 acres of land are attached to the Asylum.

Private Patients are admitted at £1 per week. This sum includes everything except clothing.

For forms of admission, order, etc., apply to the Medical Superintendent.

## BOREATTON PARK.

This private Asylum which was founded by the late W. H. O. SANKEY, M.D., for the reception of a limited number of ladies and gentlemen mentally afflicted is now conducted on the same lines by his son, E. H. O. SANKEY, M.B., late Medical Superintendent of the Warwick County Lunatic Asylum.

The Mansion stands in its own grounds, handsomely laid out in gardens and terraces, in the middle of an extensive and picturesque Park in which are some 70 head of deer, and commands a magnificent view of Welsh mountain scenery.

The Asylum is situated about ten miles from Shrewsbury, and within easy distance from Baschurch Station, G.W.R. Letters and telegrams should be addressed to Dr. SANKEY, Boreatton Park, Baschurch, Salop.

## FLOWER HOUSE, CATFORD, S.E.

A Sanatorium of the highest class for the treatment and cure of gentlemen of unsound mind.

Apply to Dr. MEDLEY, Resident Medical Superintendent.

N.B.—Under the New Act voluntary boarders can be received, on their own personal application.

## Coton Hill Hospital for the

INSANE, near STAFFORD. Chairman of the Committee of Management, the RIGHT HONORABLE LORD WHOTTELSEY, Consulting Physician, Dr. REAUV. This Hospital is devoted to the care and treatment of the UPPER and MIDDLE CLASSES who are mentally afflicted, providing accommodation and home comforts at moderate rates of payment. The terms of admission vary from £1 to £3 2s. per week according to the requirements of the case. Patients can have, if required, private rooms and special attendants. There are also semi-detached villas in the grounds for the accommodation of private patients. The Hospital is beautifully situated in a high and healthy position; the grounds are extensive and tastefully laid out; also cricket field, lawn tennis courts, etc. Further particulars as to the terms can be obtained from E. W. KILSON, the Medical Superintendent.

## St. Andrew's Hospital for MENTAL DISEASES, Northampton.

For the Upper and Middle Classes.

President: The Right Hon. The EARL SPENCER, K.G.  
 Chairman of the Committee of Management:  
 The Most Hon. the MARQUIS OF NORTHAMPTON, K.G.

The Institution is pleasantly situated one mile from the Northampton Station of either the London and North-Western or Midland lines, being 1½ hours from London, and is surrounded by more than 100 acres of pleasure grounds. The terms vary from 26s. a week upwards, according to the requirements of the Patients, who can have, if desired, private rooms in the Hospital, and in detached Villas on the Grounds, and at Moulton Park, a branch establishment two miles from the Hospital, but connected by telephone. Special attendants, horses, carriages, etc., are provided if required. There are also seaside establishments in North Wales to which Patients may be sent. For further information apply to the Medical Superintendent.

## Church Stretton Private ASYLUM, Stretton House, Church Stretton, Salop.

This asylum was established in 1853 for Gentlemen of the upper and middle classes; it possesses many natural advantages, standing 600ft. above sea level, amidst unrivalled hill scenery and with a bracing atmosphere. There are best facilities for recreation and amusement, including extensive private grounds, large farm, workshops, tennis lawns, &c. 4½ hours from London. Terms moderate. Suites of rooms for first-class cases.

CAMPBELL HYSLOP, Supt.

Dr. HORATIO BARNETT, B.A., } Med. Supt.

M.B. (Cantab.), M.R.C.S., &c.

(See Medical Directory for further information).

## HARPENDEN HALL, HERTS.

Twenty-five miles from London on Midland Railway. Five minutes' from station. Established 1846, for the treatment and care of a limited number of Ladies suffering from Mental Diseases. The house is home-like; amusements and carriage exercise are provided. Private suites of apartments, and special attendance if desired. Terms moderate; apply to A. MACLEAN, Proprietor and Medical Superintendent.

## Barnwood House Hospital for MENTAL DISEASES, Barnwood, near Gloucester.

Exclusively for PRIVATE PATIENTS of the UPPER and MIDDLE CLASSES.

This Institution is devoted to the care and treatment of persons of both sexes at moderate rates of payment.

The terms vary according to the requirements of the patients, who can have private rooms and special attendants, or be accommodated in detached villas and in the branch convalescent establishment on the hills.

Under special circumstances the rates of payment may be greatly reduced by the Committee.

For further information apply to Dr. NEEDHAM, the Medical Superintendent.

## NEWLANDS HOUSE, Tooting Bee Road, Tooting Common, S.W.

### CHANGE OF ADDRESS.

The Proprietors beg to announce that the above House has been substituted for Blacklands House, Chelsea, and licensed for the care and treatment of gentlemen of unsound mind. Voluntary boarders can also be received. The House is near Balham Station, and forty minutes' drive from Charing Cross. It has been fitted with the most modern appliances for sanitation, and for the treatment of the insane.

Apply to E. T. HALL, Esq., M.R.C.S., Resident Medical Superintendent.

## THE RETREAT, FAIRFORD, GLOUCESTERSHIRE.

An hour from Oxford, G.W.R. 12 miles from Swindon, Ret. 1832. A Licensed Home for the care and treatment of Ladies and Gentlemen mentally afflicted. Special accommodation and carriage exercise provided. Pleasantly situated, with extensive grounds. Terms most moderate.—Address, D. LEE, M.R.C.S., Res. Supt. and Proprietor.

# HAYDOCK LODGE, NEWTON-LE-WILLOWS, LANCASHIRE.

Visiting Physician—ALEXANDER DAVIDSON, M.D., F.R.C.P., Physician to the Liverpool Royal Infirmary.

Is charmingly situated in a healthy and retired neighbourhood, midway between Liverpool and Manchester, about 2 miles from Newton-le-Willows Station on the London and North Western Railway. It is a comfortably-furnished Country Mansion, especially adapted for the care and treatment of persons of unsound mind.

Besides the use of the general sitting-rooms, &c., patients of both sexes can have private apartments and special attendants at moderate rates of payment. Information as to terms, &c., may be obtained on application to the Resident Medical Superintendent, CHARLES T. STREET, L.R.C.P.Lond., M.R.C.S.Eng.

Telegraphic Address: "Street, Ashton-in-Makerfield."

*N.B.—Private patients only are received, and to meet the requirements of persons of education and good social position, whose means do not allow of their paying the usual rates, special accommodation and attendance is provided at from £40 a year, payable monthly in advance.*

## WONFORD HOUSE HOSPITAL for the INSANE, near EXETER.—A Registered Hospital

for the UPPER and MIDDLE CLASSES.—This Institution is situated in a beautiful and healthy locality, within a short distance of the City of Exeter. There is comfortable accommodation at moderate rates, both in the Hospital itself and at Plantation House, Dawlish, a seaside residence on the South Devon Coast, affording more privacy, with the benefits of sea-air and a mild and salubrious climate. Private Rooms and Special Attendants provided, if required. Voluntary Patients or Boarders also received without certificates.—For terms, &c., apply to P. MATEY DEAS, M.B., M.S.Lond., Resident Medical Superintendent.

## MENTAL AND NERVOUS DISORDERS. — WEST MALLING PLACE, KENT. —

Beautifully situated in a retired position, in one of the healthiest localities in England, an easy distance from Town on the Sevenoaks and Maidstone Railway. Old established. Fully equipped, and perfectly adapted in itself and by its surroundings, for CARE AND CURE UNDER HOMELIKE CONDITIONS. Resident phys., Dr. JAMES ADAM, late Phys.-Supt., Crichton Royal Inst., &c. (See Warley St. Cavendish Sq., W., on Wednesday Mornings). Voluntary Boarders received under the New Act without certificates.

## THE "SHRUBBERY," SOUTHALE, MIDDLESEX.—A Private Asylum or Home for

the Care and Treatment of Eight Ladies suffering from Nervous and Mental Disorders. The grounds are pleasant and secluded. The patients are under the constant supervision of Miss H. J. ROSSER, Proprietress, to whom all communications should be addressed.

## ASHWOOD HOUSE, KINGSWINFORD, STAFFORDSHIRE.—PRIVATE ASYLUM

for the reception and Medical treatment of a limited number of Ladies and Gentlemen, nervously or mentally afflicted. The House stands in picturesque grounds of 40 acres in extent; the soil, sand and gravel; climate genial; the locality notoriously healthy. The Patients associate with the family, congenial occupation is encouraged, and every possible freedom allowed consistent with safety. Carriage exercise, Billiard Table, Tennis Lawns, and a variety of amusements provided. Boarders received without certificates. Friends of patients if desirous may reside in the house on fee. Proprietress: Mrs. PRITCHARD and PRITCHARD.

## COURT HALL, KENTON, SOUTH DEVON.—A Private Home for Ladies mentally

afflicted. Established 22 years, and Licensed for Eight Patients. The House stands in its own grounds in a charming neighbourhood, within easy distance of the sea, the railway and the City of Exeter. Carriage exercise. Medical Attendant, Dr. A. DE WINTER BAKER, of Dawlish. Highest references.—For Terms, &c., apply Mrs. MILES, Proprietress.

## "GLENDOSSILL," HENLEY-IN-ARDEN, WARWICKSHIRE.—

Dr. S. H. AGAR, who has for 15 years conducted an Asylum for both sexes at BURMAN HOUSE, Henley-in-Arden, has relinquished that Establishment as being unsuited to the requirements of the Insane at the present day. Dr. Agar has purchased an ample site in a most salubrious and attractive situation outside Henley-in-Arden, and has built "Glendossill" expressly for the receipt and treatment of a limited number of Upper and Middle-class Insane persons of both sexes. No pains or expense have been spared in designing and constructing, both internally and externally, "Glendossill" for its purpose, in accordance with the most modern and enlightened views, of what is necessary for the comfort, safety and treatment of patients suffering from any form of Insanity. Telegraph and postal address, Henley-in-Arden, Warwickshire.

## MAVISBANK HOUSE, NEAR EDINBURGH.

A Hospital for the Insane and a Home for Mental and Nervous Invalids.

Chairman of the Board of Directors—Sir THOMAS CLARK, Bart., Ex-Lord Provost of the City of Edinburgh.

Mavisbank House is beautifully situated near Hawthornden and Roslin, six miles from Edinburgh. It is a fine old mansion, comfortably furnished, containing large and handsome Dining and Drawing Rooms, Billiard Room, Conservatory, private Suites of Apartments.

The Estate extends to upwards of 120 acres, is well wooded, and beautifully laid out in grass. There are also flower and fruit gardens four and a half acres in extent, with hot-houses and vinerias.

In the treatment of the patients the open-door system is fully carried out, and every effort is made to employ those who would be benefited by it. There are ample facilities for amusement, such as Driving, Cricket, Croquet, Tennis, Golf, Dances, Concerts, and Theatricals.

Inclusive Terms, from ONE to SIX GUINEAS PER WEEK, according to accommodation and attendance required.

Mavisbank House is five minute walk from Polton Station, on the North British Railway. Telegrams—"Keay, Polton." For prospectus, apply to the Resident Medical Superintendent Dr. KEAY, Mavisbank House, Polton, Midlothian.

Southampton.

Required an ASSISTANT to the HOUSE SURGEON. Must be qualified, or a third years' Student at a recognised Medical School. No salary, but board and rooms provided.

Applications, stating qualifications, with testimonials, to be forwarded to the undersigned on or before July 10th, prox.

T. A. FISHER HALL, Secretary.  
June 24th, 1891.

## Durham County Hospital.

The post of HOUSE SURGEON at the above Hospital will be vacant on the 6th of August, 1891. Rule XXI. provides: "That every Candidate for the office of House Surgeon shall be on the Medical Register as a Fellow or Member of the Royal College of Surgeons of England, Edinburgh, or Dublin, or of the Faculty of Glasgow, or a Licentiate of the Royal College of Physicians at London, Edinburgh, or Dublin, or Licentiate of the Society of Apothecaries, or a Graduate in Medicine of a recognised University. That he be appointed for a period not exceeding two years with power of re-election for not more than one year, and so from time to time." The salary is £100 a year, and board and lodging.

Applications for the post, stating age, with testimonials, should be posted to me not later than Friday, the 3rd of July.

V. K. COOPER, Hon. Sec.  
16, South Bailey, Durham.

## Horton Infirmary, Banbury.

Wanted immediately a HOUSE SURGEON and DISPENSER duly qualified and registered, a competent dispenser an essential qualification, there being a Provident Dispensary in connection with the institution. No out-patients. Salary £60 per annum with board and lodging. Applications, with recent testimonials and particulars as to age, &c., to be sent on or before Saturday, the 4th day of July, 1891, to C. H. DAVIES, Honorary Secretary, 27, Marlborough Road, Banbury.

June 23rd, 1891.

## The General Infirmary at GLOUCESTER and THE GLOUCESTER- SHIRE EYE INSTITUTION.

HOUSE SURGEONCY. Salary £100 per annum, with board, lodging, and washing. Candidates must be registered and possess a medical and surgical qualification. Applications, with testimonials, to be forwarded to the Secretary on or before July 5th, instead of June 30th, as previously announced. The successful candidate must be prepared to enter upon his duties at once.

## Miller Hospital and Royal KENT DISPENSARY, Greenwich, S.E.

A qualified JUNIOR RESIDENT MEDICAL OFFICER required. Salary £30 per annum, with board, attendance and washing. This post is tenable for six months, with prospect of re-election as Senior. Applications, with copies of testimonials, should be sent not later than Friday, July 10th, to the Hon. Secretary, from whom particulars can be obtained. Candidates are requested not to canvass either the members of the Committee or Staff.

G. R. ROBERTS, M.-Genl.,  
Hon. Sec.

HOUSE SURGEON AND SECRETARY.

## Tunbridge Wells General HOSPITAL (50 beds).

Wanted a Resident House Surgeon. He must be unmarried, a member of the Royal College of Surgeons, London, Edinburgh, or Dublin, and a Licentiate of the Royal College of Physicians, London, or of the London Company of Apothecaries, or a Graduate in Medicine of a British or Irish University.

His duties will be to attend, under the direction of the Physicians and Surgeons, the in-patients as well as the out-patients coming to the Hospital. He will also be required to give lectures to the Probationers and to act as Secretary.

No private practice allowed, and a month's notice to be given on either side to terminate the engagement. Salary £100 per annum, together with board, furnished apartments in the Hospital, gas, firing, and attendance.

Applications, with testimonials and certificate of registration, must be sent to the Secretary, at the General Hospital, on or before Thursday, 9th July, 1891.

The Election will take place on Wednesday, 15th July, 1891, at 3 o'clock p.m.

E. W. DU BUISSON,  
June 23rd, 1891. Secretary.

## Bloomsbury Dispensary,

22, Bloomsbury Street, London, W.C.

DISPENSER.—A vacancy in the office of Dispenser to the above Institution having occurred, Candidates for the appointment, who must hold a Dispensary Diploma are requested to send their applications with testimonials, addressed to the Chairman of the Medical Committee, not later than 4 o'clock on Wednesday afternoon, the 8th July next. The selected candidates must, if required, attend at the Dispensary on the following Wednesday, the 15th July, at 6 o'clock p.m.

Salary £100 per annum. Information respecting the duties, &c., may be obtained from the Resident Medical Officer.

## Dorset County Asylum.

ASSISTANT MEDICAL OFFICER required at the Second Asylum. This is a temporary appointment (from two to three years) pending the consolidation of the asylums. Salary £120, with board, &c.

For further and full particulars apply to the Medical Superintendent, to whom applications, accompanied by not more than four recent testimonials, are to be sent. The office can be held by a married gentleman.

## Guy's Hospital, S.E.

There are vacancies in the Dental School for FIVE additional ASSISTANT DENTAL SURGEONS, each of whom will be required to attend on one morning or afternoon in the week in the Dental Department. Candidates must possess the qualification of L.D.S. Eng. Applications, with testimonials, to be sent not later than July 1st, 1891, to the Dean from whom further information may be obtained.

## Medical Officer wanted for the Skye District of Invernesshire. Salary £50 per annum.

Applications to be lodged with Messrs. MACLACHLAN & REID, Solicitors, Portree, District Clerks, on or before 6th July, 1891.

## Borough of Blackpool.

### MEDICAL OFFICER OF HEALTH.

The Corporation invite applications for the office of **MEDICAL OFFICER OF HEALTH** for the Borough from duly qualified and registered medical practitioners. Salary, £300 per annum. The appointment is subject to the approval of the Local Government Board and to the general orders of that Board relating to Medical Officers of Health, and in the first instance will be made until the 25th March, 1892.

The person appointed will be required to devote his whole time to the duties of the office and to reside within the Borough. He will also be debarred from private practice during his tenure of the office, and within the Borough for three years afterwards.

Applications (endorsed "Medical Officer,") stating age, qualifications and experience, and accompanied by copies of recent testimonials, to be sent to the undersigned before Monday, the 8th July, 1891.

T. LOFTOS, Town Clerk.

## House Physicians.—Vacancies

having occurred in the **HOSPITAL FOR CONSUMPTION AND DISEASES OF THE CHEST**, those gentlemen who are desirous of becoming candidates for the vacant offices are requested to send in their applications with testimonials, on or before Thursday, July 2nd, and to attend the Medical Committee on the following Monday, at 3.30 o'clock. Testimonials as to moral character as well as medical qualification are required.

Further particulars may be obtained at the Hospital.

HENRY DOBBIN,

Brompton, June 16th, 1891. Secretary.

## Western General Dispensary,

Marylebone Road, N.W.

There is a vacancy here for a **SECOND HOUSE SURGEON**. He must be a fully qualified and duly registered by Act of Parliament. He must be unmarried and reside at the Dispensary. To see patients daily, and to visit the more serious cases at their own homes. Salary, £50 per annum, with board, residence and attendance.

Applications, accompanied by testimonials stating previous experience, to be sent to the Dispensary, addressed to the Secretary, on or before July 4th. The Medical Committee will meet on July 6th, at 8 p.m., when candidates will be required to attend.

WM. KIMPTON, Sec.

## South Charitable Infirmary

and COUNTY HOSPITAL, Cork.

A **MATRON** is required at the above-named Hospital. She must be a thoroughly trained nurse, and qualified to superintend the nursing staff and manage the Hospital generally. She must have filled a similar position in a general hospital for at least three years, or acted as Assistant Matron for a like period. Be unmarried or a widow without encumbrance, and no lady under 30 or over 50 years of age will be eligible for the post.

Salary £70 per annum, with board, residence, and washing.

Applications and copies of testimonials to be addressed to the Secretary at the Hospital, to be sent in by July 3rd, 1891.

## A lady desiring occupation

wishes for position as **LADY-HOUSEKEEPER** in the house of a country surgeon. Thoroughly practical, also musical. Would give £50 a year, payable quarterly. Undeniable references given and required.—Address, R. M. E., BRITISH MEDICAL JOURNAL Office, 429 Strand, W.C.

## Wallasey Fever Hospital.

The Wallasey Local Board require the services of a competent female **NURSE** between 25 and 40 years of age for their hospital in Mill Lane, Liscard, to enter upon the office on the earliest possible date. Salary £35 per annum, with furnished apartments, rations, washing and attendance. Applications, stating age, qualifications, and previous engagements, whether single, or widow without encumbrance, and accompanied by copies only of not more than three testimonials of recent date (not returnable) and endorsed "Nurse," to be sent to the Chairman of the Parks, &c., Committee, Public Offices as below, not later than four o'clock in the afternoon of Thursday, the 2nd proximo.

W. DANGER,

Public Offices, Clerk to the Board.  
Egremont, Cheshire, June 11th, 1891.

## Manchester Maternity

HOSPITAL.

**RESIDENT MIDWIFE and MATRON** required. Diploma in midwifery essential. Salary £50 per annum. Particulars may be had from, and applications, with copies of testimonials, are to be sent, before June 30th, to, the Hon. Sec., 53, Princess Street, Manchester.

## Taunton and Somerset

HOSPITAL and NURSING INSTITUTE, Taunton.

The Office of **LADY SUPERINTENDENT** will be vacant at the beginning of September next.

The Hospital contains 100 beds. There are 30 Nurses and Probationers in the Institute, which adjoins and is under the same management as the Hospital. Salary £70 per annum, with board, lodging and washing. The Lady Superintendent, subject to the full authority of the House Surgeon in the Hospital, and to such By-laws as may be from time to time made, will exercise a general supervision and control over the nursing and domestic departments both of the Hospital and Institute.

There is a competent Housekeeper to manage the details of the kitchen and laundry. Ladies to be eligible should be between 28 and 38 years of age, and have had experience in hospital management and in the training of nurses.

Applications, marked on the outside "Application for Office of Lady Superintendent," with copy testimonials, to be sent to the Secretary on or before the 4th July next.

J. H. BIDDULPH PINCHARD,

13, Hammet Street, Taunton, Secretary.  
8th June, 1891.

*General Manager in London:* GEORGE HARDIE, Esq.

### ABRIDGED PROSPECTUS.

THE ANGLO-AUSTRALIAN INVESTMENT, FINANCE AND LAND COMPANY, Limited, was formed in Sydney, New South Wales, in October, 1880, to purchase and re-sell, or otherwise invest in Freehold Properties in the City of Sydney and its immediate vicinity, to negotiate and advance Loans on Freehold and other Properties, but not Mining Securities.

The investments of the Company have been of a most successful character, as will be shown by the dividends paid to the Shareholders, which have been as follows:—

In 1882 the Dividend was 12½ per cent. per ann.			
" 1883	"	12½	" "
" 1884	"	12½	" "
" 1885	"	12½	" "
" 1886	"	25	" "
" 1887	"	15	" "
" 1888	"	15	" "
" 1889	"	15	" "
" 1890	"	15	" "

The net profits made by the Company from its formation in October, 1880, to June 30, 1890, amount to £146,335, which have been appropriated as follows:—To Reserve Fund, £67,525; to Dividends, £76,324; Balance carried forward, £2,486.

The £150,000 Debentures now offered, being the balance of an authorised total issue of £350,000, will rank *pari passu* with the £200,000 already issued.

The security offered to the Debenture-holders will be the total Assets of the Company, which amount to £1,340,000, subject only to the moneys owing by the Company on mortgage of the freehold properties of the Company, viz., £328,790, which, deducted from the Assets, leaves £1,011,210 as the security for £350,000 Debentures. The Assets of the Company consist of Freehold Properties valued in June last at £666,230; Moneys lent on Mortgage by the Company, £287,208; Uncalled Capital, £384,076; and Undivided Profits, £2,486.

Applications for Debentures must be forwarded to The London and Country Banking Company, Ltd., 21, Lombard Street, London, or its Branches.

Application will be made in due course for a quotation on the Stock Exchange.

Prospectuses and Forms of Application can be obtained at the Offices of the Company, 31, Lombard Street, London.

JAMES LOGAN 95, Bath Street, Glasgow.  
Medical Practices Transferred and Partnerships Arranged. Assistants Supplied, Debts Collected, &c.  
List of Practices and Prospectus free on application

**MEDICAL TRANSFER OFFICES,**  
19, CRAVEN STREET, STRAND, W.C.  
ESTABLISHED 1868.

## Mr. W. T. Peacock, Medical

TRANSFER and PARTNERSHIP AGENT, informs the Profession that he has special facilities for introducing Successors and arranging Partnerships; that if Members who are desirous of disposing of their practices will forward him full particulars (and which will be received in strict confidence) an immediate transfer will probably be effected.

Gentlemen requiring Practices or Partnerships can, on application, select and obtain full particulars of those on Mr. PEACOCK'S books which are open for negotiation.

**ASSISTANTS and LOCUM TENENS**, with satisfactory testimonials as to sobriety and general abilities, can be engaged at very short notice.

No charge made to purchasers or for inquiries.

Office hours, 10 to 5; Saturdays, 10 to 2.

## South Coast.—A good class

and strictly private PRACTICE is for immediate disposal. Receipts average £300 per annum, but as all midwifery and night-work has been declined by the Vendor, there is ample scope for increase. Working expenses are very small, no horse or carriage required. A thorough introduction and good reasons for relinquishing will be given. Premium £150.—Apply to W. T. PEACOCK, 19, Craven Street, Strand, W.C.

## In the Suburbs of a very large

provincial town.—An old-established mixed-class PRACTICE. Receipts, including appointments of about £150, average upwards of £900 per annum, with great scope for increase. Good house; rent moderate. One horse sufficient. Premium £1,000, payable part down and balance as may be arranged.—Apply to W. T. PEACOCK, 19, Craven Street, Strand, W.C.

## London Suburb.—An easily

and inexpensively worked PRACTICE of £600 a year, including £50 from transferable appointments and about £5 a week taken in cash. Visiting fees, 2s. 6d. to 5s.; midwifery, about 70 cases a year, from £1 1s. to £2 2s. Good house; rent £10. Premium, to include surgery fittings and drugs, £500.—Apply to W. T. PEACOCK, 19, Craven Street, Strand.

## Cathedral City.—A steadily

increasing private PRACTICE. Receipts average £800 per annum; last year £900. No appointments. Good house centrally situated, and very moderately rented. No assistant kept. Premium about a year's purchase, and six months' introduction given.—Apply to W. T. PEACOCK, 19, Craven Street, Strand, W.C.

## Western County.—In a

small market town. An old-established easily worked PRACTICE. Receipts including an appointment of £30, average £400 a year. Excellent house well suited for a family or resident patients, with large garden, stabling, &c. attached. Suitable for a gentleman with some private means, and desirous of settling in a neighbourhood where there is good society. Premium £400 and three months' introduction.—Apply to W. T. PEACOCK, 19, Craven Street, Strand, W.C.

## South Coast.—Cash Practice.

In a large and fashionable health resort. An easily and inexpensively worked PRACTICE. Receipts average £8 to £10 per week and rapidly increasing, and only four hours daily attendance. All midwifery and night-work has been declined. Small house, rent £45. Premium 400 guineas.—Apply to W. T. PEACOCK, 19, Craven Street, Strand, W.C.

## Partnership.—North of

England. The Half Share of a good old-established country PRACTICE situate in a large village near the sea, with railway station in the place. Receipts, including several valuable appointments, average £800 per annum, and there is scope for great increase. Working expenses very light. Premium moderate.—Apply to W. T. PEACOCK, 19, Craven Street, Strand.

## Locum Tenens.—Mr. W. T.

PEACOCK has now selected a staff of fully qualified experienced and thoroughly reliable gentlemen for the summer season, and can send a suitable gentleman to any part of town or country immediately on receipt of letter or telegram.

## MEDICAL PARTNERSHIP AND CON-VEYANCING AGENCY,

1, ADAM STREET, ADELPHI, W.C.  
The Sale of Practices and Partnerships negotiated. Trustworthy Locum Tenens and Assistants can be had at a few hours' notice.  
N.B.—No charge made to Purchasers.

## Notice.—Mr. J. C. Needes,

with an experience of over a quarter of a century, is in an exceptional position to give intending purchasers independent information concerning most practices and partnerships. Those Investments in the following List marked with an Asterisk are well known to him, having been purchased through his Office by the present Incumbents years ago, and in many other cases, introduction can be given to gentlemen who have taken charge of the practices during the absence of the incumbents:—

### \*In a capital Hunting District

in the Midland Counties, a very easily worked PRACTICE worth about £500 per annum, and capable of great increase, as the present incumbent's having private means has not worked energetically. The patients comprise nobility, clergy, good farmers, &c. Only twenty cases of midwifery. Pleasant residence with stabling, field, and attractive garden attached. Vendor's property. Rent £50. Premium £500.

### West London.—A good general

PRACTICE (rapidly increasing) doing upwards of £500 per annum, including an appointment worth £225 a year. About fifty cases of midwifery yearly. Incumbent will give any reasonable length of introduction. Premium £600.

### In a first class Residential

District, 40 miles West of London, an old established PRACTICE about £900 per annum inclusive of appointments. £200. There is no opposition in the place, which contains a railway station. The practice is easily worked, one horse being sufficient. The residence is detached, modern, contains about 12 rooms, with bath room, etc., and stands in its own grounds. Premium £1,400. A partnership introduction given.

### \*£700 to £800 a year.—The

leading practice in a country town (about 7,000 inhabitants) in the Home Counties, is for negotiation. Transferable appointments consisting of Union, Medical Officer of Health and Clubs yield over £300. The connexion includes all classes from county families downwards. The neighbourhood is picturesque, affording plenty of sport of all kinds. The Incumbent (who has held the practice 11 years, and now wishes to take up another branch of the profession) will give an efficient introduction.

### London, W.—The Succession

to a very old established PRACTICE, of £900 to £1,000 a year, is for negotiation, in consequence of the ill-health of the Incumbent. An appointment held worth over £150 per annum. Scarcely any midwifery or night-work. Large House in one of the finest positions in the neighbourhood.

### £1,000 a year.—The Practice

is situated in a pleasant market town, 100 miles from London, and the income includes about £200 per annum from appointments. The House is detached, situated in the best part of the town, contains nine bedrooms, &c., with stabling, large garden, &c.; rent very moderate. Premium one and a-half year's purchase. The present Incumbent has held the Practice twenty years.

### 20 miles from London.—A

mixed town and country PRACTICE, the cash receipts of which average over £900 per annum for the last three years. One horse kept. Opposition not formidable. The House is very pleasantly situated with garden, etc., attached. Rent £50; premium £950. An efficient introduction given.

### \*Partnership.—A suitable

gentleman (young and accustomed to good society) required as junior partner in a first-class country PRACTICE in the Midland Counties. Appointments held worth £200 to £300 a year. The practice is situate in a small town in a good residential and sporting district, and the connexion comprises nobility, gentry, clergy, farmers, &c. The share for disposal will yield about £500 per annum for which the usual premium of two years' purchase is required.

Apply to J. C. NEEDES, 1, Adam St., Adelphi, W.C.

**MEDICAL TRANSFER & PARTNERSHIP.**  
32, LUDGATE HILL.

## Messrs. Orridge and Co.,

Medical Transfer Agents, Referees, and Valuers, in offering their services to the Profession, have pleasure in referring to the fact, that for about HALF A CENTURY the name of Mr. Orridge has been known in the advertising columns of the leading Medical Journals, as that of one to whom a very large Proportion of the Medical men throughout the kingdom have confided their interests in the adjustment of Partnerships and Transfers.

Purchasers who will communicate (confidentially) the nature and extent of their wishes regarding investments can be apprised of appropriate opportunities as they occur.

On occasions where advice is required in forming a correct conclusion as to the worth or eligibility of a Practice, Messrs. Orridge and Co. trust that their familiarity with the various contingencies that govern value will be found of considerable service to those by whom they may be employed.

N.B.—No charge is made to Purchasers.

## London (Central).—Good-

class non-dispensing PRACTICE. Receipts about £500 yearly, including good appointments. To a gentleman prepared to accept a short introduction liberal terms will be offered.—Apply at Messrs. ORRIDGE & Co.'s offices, 32, Ludgate Hill.

## Dispersal Practice.—Situate

in a thickly populated locality. Easily transferred. Produces £800 yearly. Has been held by vendor about 9 years. Full evidence of *bona fides* will be given. Good introduction. Terms to be arranged according to introduction.—Apply at Messrs. ORRIDGE & Co.'s offices, 32, Ludgate Hill.

## Eastern County.—Bona fide

PRACTICE.—Situate near the sea. Receipts between £700 and £800, including some good appointments. Three months introduction. Comfortable house, garden, &c. Premium £700.—Apply at Messrs. ORRIDGE & Co.'s offices, 32, Ludgate Hill.

# THE SCHOLASTIC, CLERICAL AND MEDICAL ASSOCIATION, LIMITED.

## MEDICAL DEPARTMENT.

This Association was established in 1880 as a Limited Liability Company under the direction of professional men, its object being the creation of a **REPUTABLE AND THOROUGHLY TRUSTWORTHY** Agency. The Medical Department has met with so great success that it has been found necessary for the Association to employ **Managing Directors** (Mr. G. B. Stocker) to devote his whole attention thereto; and he has the assistance of an experienced Medical Accountant and a staff of clerks. Further, a Board composed entirely of gentlemen of high standing in the Medical Profession has been appointed, and to them matters of importance and complaint are referred.

The Association undertakes the **SALE OF PRACTICES AND PARTNERSHIPS**; the introduction of **LOCUM TENENS** and **ASSISTANTS**; **MEDICAL ACCOUNTANCY** (by a duly qualified Medical Accountant); **INVESTIGATION** and **VALUATION** of Practices, &c.; **POSTING BOOKS** and sending out **Books, &c. &c.**

A Pamphlet relating to the Medical Department, with the names of the "Directors" and "The Medical Advising Board," and terms, will be sent on application to—**Mr. G. B. STOCKER, MANAGING DIRECTOR, 8, LANCASTER PLACE, STRAND, W.C.**

Telegraphic Address—"TRIFORM, LONDON."

### FOR SALE.

- (1) **LONDON, W.**—PRACTICE of £800 to £900 per annum in a residential district. Fees 3s. 6d. to 7s. Good corner-house. Price one and a half years' purchase.
- (2) **SOUTH MIDLANDS.**—PRACTICE of £1,200 per annum in a delightful part of the country within two hours of London. One year's Partnership introduction, or even longer. One and a half years' purchase.
- (3) **GOOD LONDON SUBURB.**—PARTNERSHIP in a Practice of over £900 per annum. Good-class patients. One third, or in the case of a well-qualified married man over 30, one-half would be sold. Two years' purchase.
- (4) **30 MEDICAL MEN WITH SPECIAL KNOWLEDGE OF DISEASES OF THE EYE.**—First-rate Opening as Partner, with view to succession. Purchaser should have from £1,000 to £2,000 capital, and must be well qualified.
- (5) **LONDON, E.C.**—PARTNERSHIP in a Practice of over £750 per annum. Premium £400 part by instalments.
- (6) **PARTNERSHIP**, yielding £900 per annum, in a Coast Town, with country work. Exceptionally good house, admirably adapted for resident patients. Purchaser should be over thirty.
- (7) **COUNTRY PRACTICE**, in a delightful part of the South of England, of nearly £600 per annum. First-rate house and garden; rent £100.
- (8) **BEST SUBURB OF A LARGE MANUFACTURING TOWN.**—Receipts £850 per annum. Very easily worked. Midwifery very light. Scope for large increase. Good house with every modern convenience; rent £65. Good society; bracing climate. Premium £1,500.
- (9) **LONDON SUBURB.**—Good-class PRACTICE of £800 to £900 per annum. Fees chiefly 5s. Midwifery light. No appointments. Good house, containing twelve rooms. Price to prompt purchaser, £1,000.
- (10) **HOME COUNTIES.**—PRACTICE of £700 to £800, including appointments of £350, in a country town. Very good house, containing four sitting- and seven bedrooms, with over three acres of garden, which must be purchased with the Practice.
- (11) **LONDON, E.C.**—PARTNERSHIP in a very old-established Cash Practice of £1,000. Present incumbent wishing to live away. Price one and a half years' purchase; part of which may be paid out of the receipts.
- (12) **LONDON, N.**—PARTNERSHIP in a middle- and working-class Practice of over £900 per annum. Purchaser should be single, and over thirty. Price one and a quarter years' purchase.
- (13) **SOUTH COAST.**—Middle- and working-class PRACTICE of nearly £600 per annum, including appointments, &c., over £200. Half-share at first for £100, and ultimate succession to whole without further payment.
- (14) **FAVOURITE SOUTH COAST TOWN.**—Private PRACTICE of £800 per annum. No midwifery has been taken. Price one and a half years' purchase, depending on amount actually done. Purchaser should be aged thirty to fifty.
- (15) **LONDON.**—In a central position, a PRACTICE of £750, with transferable appointments of over £200. Assistant, who does most of the work, will remain, and vendor will give lengthened introduction. Premium £700, part payable by instalments.
- (16) **HOME COUNTIES.**—HALF SHARE of a small but growing PRACTICE in a pleasant town. Entirely private. Share guaranteed to yield £200 first year, £250 second, and £300 third. Price £300.
- (17) **OUTLYING EASTERN SUBURB.**—ONE-HALF or ONE-THIRD SHARE in a PRACTICE estimated at nearly £1,000 per annum. Lowest midwifery fee, £1 1s. Price for Half-Share, £450 cash.
- (18) **LONDON, S.E.**—A PRACTICE of £560, including £400 from Appointments in a working district. Appointments guaranteed in the usual manner. Price £350, with efficient introduction.
- (19) **CASH PRACTICE** in an Eastern Suburb. Receipts over £800 per annum. Many years in the hands of present incumbent. Price £600, part payable by instalments.
- (20) **CASH PRACTICE** in a large Northern Town of over £300 per annum. All midwifery and night work refused. Price £700.
- (21) **LONDON SUBURB.**—Open SURGERY, returning over £400 per annum, though at present worked only as a Branch. No midwifery under £1 1s. Expenses small. Price, including valuable fittings, £350.
- (22) **EASTERN SUBURB.**—Cash PRACTICE of over £550 (receipts for 1890). Visits 1s. 6d. to 3s. 6d. Very good house, with good and large garden, at very moderate rent. Price £500.

### WANTED TO PURCHASE.

- (23) **WANTED TO PURCHASE, PRACTICE or PARTNERSHIP** in the west of London or good hospital town (Manchester preferred). Purchaser is highly qualified, M.D., M.S. Lond., F.R.C.S., &c., aged forty-one, and has ample capital.
- (24) **WANTED TO PURCHASE, a PARTNERSHIP** in a large Practice; in a town preferred. Purchaser is thirty-six, and single. He has considerable private means, but would prefer not to invest more than £2,000 at first. He would buy a share in a Hydro. or Sanatorium.
- (25) **WANTED TO PURCHASE, a good-class PRACTICE** of £800 or £900 per annum, in the Midlands or North (Yorks preferred), or a much larger Practice, suitable for two men to take over in partnership, by a Graduate of Durham, aged 40. Ample capital.
- (26) **WANTED TO PURCHASE, a good Country PRACTICE** of £700 to £1,000 per annum, with appointments, by an experienced doubly qualified Man. Ample means for a good investment. Locality immaterial, but Midlands or South preferred.
- (27) **WANTED TO PURCHASE, a first-rate Country PRACTICE** of £1,000 per annum or thereabouts in the Midlands or South; unopposed preferred. Purchaser is a Bart.'s man, aged about forty, and experienced in good-class country work. He has ample means. Must have a good house.
- (28) **WANTED TO PURCHASE, a SHARE** in a Hydropathic Establishment or Asylum, by an experienced middle-aged Medical Man (Guy's). Can invest £1,500 or more.
- (29) **WANTED TO PURCHASE, a good middle-class PRACTICE** in a country town or suburb of a large town at the seaside, of £900 a year or more. Purchaser is aged thirty-five, and is relinquishing good appointments. Can invest up to £2,000.
- (30) **WANTED TO PURCHASE, a really good-class Country PRACTICE** of £600 per annum upwards, in a place where there is good society, not too remote from London, by an M.R.C.S. and graduate of Edinburgh, aged about thirty-five. Purchaser can invest up to £2,000. Must have a good house.
- (31) **WANTED TO PURCHASE, a Country PRACTICE** (Midlands and unopposed preferred, but not essential) of £600 to £900 per annum, by a Medical Man, M.B., C.M. Edin. Purchaser has private means, and is in a position to purchase at once.
- (32) **WANTED, an unopposed Country PRACTICE** of £600 per annum or more, in an agricultural district, by an experienced, trebly qualified Man; an extremely cold place would not suit. Purchaser has ample capital.

N.B.—There are several hundred purchasers on the books of the Association, so that the sale of any good Practice or Partnership within a reasonable time is certain.
