## SUBSCRIPTIONS.

THE following Laws of the Association will be strictly enforced:—

15. The subscription to the Association shall be One Guinea annually; and each member on paying his subscription shall be entitled to receive the publications of the Association of the current year. The subscriptions shall date from the 1st of January in each year, and shall be considered as due unless notice of withdrawal be given in writing to the Secretary on or before the 25th of December previous. If any member's subscription remain unpaid twelve months after it shall have become due, the publications of the Society shall be withheld from such member until his arrears be paid.

16. The name of no member shall remain on the books of the Association, whose arrears extend over three years; but the omission of the name from the list of members shall not be deemed, either in honour or equity, to relieve any member from his liability for the subscriptions due for the period during which he has availed himself of the privileges of membership.

THOMAS W. WILLIAMS, *General Secretary.*

Birmingham, January 1864.

## ADVERTISEMENTS.

## Clock Making.—"Benson's great

piece of Clock Work is certainly a marvellous achievement in clock-making, both as regards the workmanship, and its capacity under difficult circumstances for time measuring."—*Mechanics' Magazine*, Sept. 15, 1862. Clocks by the first artists of the day for the drawing room, dining room, bed room, library, hall, staircase, bracket, carriage, church, turret, railways, warehouse, counting house, musical, and astronomical. Church and turret clocks specially estimated for. Benson's illustrated pamphlet on clocks (free by post for two stamps) with descriptions and prices, enables those who live in any part of the world, to select a clock. Also a short pamphlet on Cathedral and public clocks, free for one stamp. Prize Medal and honourable mention in classes 33 and 15. J. W. BENSON, 33 and 34, Ludgate Hill, London. Established 1749.

Watch and Clock Maker by Special Warrant of Appointment to H.R.H. The Prince of Wales.

## Price's Glycerine, its Uses and

Purity. See "De la Glycerine, de ses Applications à la Chirurgie et à la Médecine," by the eminent French Surgeon, M. Demarquay, pp. 240. Paris: P. Asselin. 1863. Or, "On Glycerine and its Uses in Medicine. Surgery, and Pharmacy." By Dr. W. Abbotts Smith. London: H. K. Lewis.

## Surgical Instruments.—Arnold

& SONS continue to supply Instruments of the best workmanship at moderate prices, manufactured on the premises under their own superintendence.

ARNOLD & SONS, 35 and 36, West Smithfield, E.C.  
Established 1819.

## Liquor Bismuthi, (Schacht)—a

fluid preparation of Bismuth, not decomposed by dilution. This article has been extensively used at the Bristol General Hospital, and in private dispensing, since 1857; and is recommended by many of the faculty as more efficacious and more convenient of administration than any other form of the remedy.

Prepared by G. F. SCHACHT, Chemist, Clifton.

London Agents: Messrs. DREW, BARRON, & CO., Bush Lane and Messrs. SAVORY & MOORE, New Bond Street.

## For Varicose Veins and Weak-

NESS, Very superior SURGICAL ELASTIC STOCKINGS and KNEE-CAPS, on a New Principle, pervious, light in texture, and *inexpensive*, yielding an efficient and unvarying support, under any temperature, without the trouble of Lacing or Bandaging. Likewise, a strong low-priced article for Hospitals and the Working-classes.

ABDOMINAL SUPPORTING BELTS for both Sexes, those for Ladies' use, before and after accouchement, are admirably adapted for giving adequate support with EXTREME LIGHTNESS—a point little attended to in the comparatively clumsy contrivances and fabrics hitherto employed.

Instructions for measurement and prices on application, and the articles sent by post from the

Manufacturers

POPE and PLANTE, 4, Waterloo Place, Pall Mall, London. The Profession, Trade, and Hospitals supplied.

## Twinberrow's Patent

DOUBLE-ACTION RESERVOIR INJECTION APPARATUS is the most SIMPLE and PERFECT yet produced. The Piston, which so frequently gets out of order, is not introduced.

Twinberrow's Patent Double-Action SYPHON SYRINGE, with ADDITIONAL PIPES for ALL PURPOSES, possesses great advantages over other Syringes of a like description, having an UNINTERRUPTED STREAM, and consequently discharging DOUBLE the QUANTITY of FLUID in HALF the USUAL TIME and with MUCH LESS EXERTION.

## TESTIMONIALS.

"TWINBERROW'S 'DOUBLE-ACTION' (Syphon) SYRINGE' is the most generally useful Instrument of the kind with which I am acquainted. For the more ordinary purposes it is especially well fitted, being COMPACT, PORTABLE, and NOT LIABLE to GET OUT OF ORDER. By a very simple arrangement the Instrument may be rendered available as an EYE DOUCHE, an EAR SYRINGE, and for WASHING OUT THE BLADDER. For these purposes it is peculiarly well adapted, being continuous in its action.—JOHN ERICHSEN, Professor of Surgery at University College, and Surgeon to the Hospital."

"I have seen and made use of your DOUBLE-ACTION SYRINGE, and think very highly of it.—WM. FERGUSSON, Professor of Surgery at King's College, and Surgeon to the Hospital."

## Twinberrow's Patent Eye Douche.

(Testimonials from the First Oculists.)

By the action of the Eye Douche in common use, the stream is intermittent, consequently causing in some instances irritation; whereas, by employing the PATENT DOUCHE this objection is completely obviated, the fluid being projected in a continuous, gentle, soft shower.

TWINBERROW, Dispensing Chemist, Sole Patentee, 2, Edwards Street, Portman Square, London.
