# **VAN HOUTEN'S COCOA,**

**JULY 3rd, 1897.**

**"In a recent analysis  
"which we have made, the results  
"distinctly indicate the advantage of  
"VAN HOUTEN'S PROCESS of manu=  
"facture. Thus this Cocoa yields  
"a decoction containing a maximum  
"proportion of the valuable food con=  
"stituents of the bean, and what is  
"of more importance still, these are  
"presented in a condition more easy  
"of assimilation and digestion than in  
"Cocoa not so prepared."**
