THE NEW INVALID FOOD

A new peptonised food has recently been introduced into this country by Liebig's Extract of Meat Company, Limited, which satisfactorily combines all the essential qualities of Invalid Diet—it is highly nourishing, easy of digestion and palatable. Of

PEPTARNIS

The *Lancet* of 11th October, 1895, says: "If reference be made to the analysis it "will be seen what a *powerful food* this Liebig's new beef peptone is. Quite one "half of the extract, in fact, consists of the products of peptonic digestion, while "albumen, coagulable on boiling, which, together with water and salts, is able "alone to support the vital processes, occurs in important quantity. The presence "of a notable proportion of soluble phosphatic constituents is calculated to further "add to the beneficial influence of this preparation upon nutrition."

INVALUABLE FOR
INVALIDS and CONVALESCENTS and for cases of DYSPEPSIA
or WEAK DIGESTION.

SAMPLES FOR TESTING FREE

To Medical Men and Hospitals

on application to Liebig's Extract of Meat Company, Limited, 9, Fenchurch Avenue, London, E.C.

Scientific Board:—

Sir Henry E. Roscoe, F.R.S., D.C.L. Dr. Max von Pettenkofer. Dr. Carl von Voit.
