J. & A. CHURCHILL'S List is continued on page
5 of the Advertisement Sheet

BOVRIL

What it is

BOVRIL is Beef, the entire lean of the Best Beef procurable. Not the Forty Pounds Weight of Beef which would have to be eaten before the nourishment contained in One Pound of Bovril could be imparted to the system, but Forty Pounds of BEEF obtained from the finest selected Cattle reared in Australia and South America, concentrated by a special process, rendering it the most perfect form of strengthening, stimulating, easily digestible nourishment in the smallest possible bulk.

What it is not

BOVRIL is not merely a Meat Extract containing only the stimulative without the nutritive constituents of Beef. With the ever-increasing rush of Life, commercially and socially, there arose a demand for a stimulant without deleterious after-effects; hence the introduction of ordinary Meat Extracts, Meat Essences, &c. But stimulant without nourishment simply stirs up the Fire of Life without providing for its continuance, thereby exhausting the system; the result being precisely the same as if poker were solely depended on to FUEL the household fires.

INVALID BOVRIL

Is specially prepared for use in the sick room, and is put up in porcelain jars, obtainable from chemists and druggists only.

It contains the entire nutritive and stimulative constituents of Prime Ox Beef, and differs from ordinary Bovril in being more concentrated and quite devoid of seasoning, solving the great difficulty which all medical men recognise of furnishing substantial nourishment to the system through a debilitated stomach, nature being so effectively assisted that perfect digestion and assimilation is certain.

Strength to sustain the patient through the crisis of the illness, and strength to carry the invalid to a speedy convalescence and recovery is all important, and Bovril (which is not merely an Extract of Meat but Meat ITSELF) furnishes the system with renewed strength and increased vitality, being relished and retained when ordinary foods are rejected.

BOVRIL LIMITED, LONDON,

Food Specialists and Hospital Purveyors and Contractors to Her Majesty's and Foreign Governments.

Chairman—THE RIGHT HON. LORD PLAYFAIR, G.C.B., LL.D.
