REBMAN'S MEDICAL REFERENCE-ATLASES.

(*LEHMANN'S MEDICINISCHE HANDATLANTEN.*)

In planning this series of Atlases, arrangements were made with representative publishers in the chief medical centres of the world for the publication of translations into nine different languages, the lithographic plates for all these editions being made in Germany, where work of this kind has been brought to the greatest perfection. In this way the enormous expense of producing the plates was shared by the various publishers, so the cost to each one was reduced to practically one-ninth. Thus it has been possible to secure for these Atlases the **best artistic and professional talent**, to produce them in the **most elegant style**, and yet to offer them at a **price heretofore unapproached in cheapness**.

NEW VOLUME JUST ISSUED.

Atlas of External Diseases of the Eye; including a

Brief Treatise on the Pathology and Treatment. By Dr. O. HAAB, of Zurich. Edited by G. E. DE SCHWEINITZ, M.D., Professor of Ophthalmology, Jefferson Medical College, Philadelphia. With 76 Coloured Plates and 6 Engravings. Price 12s. 6d. net.

Other Volumes in the Series recently Published.

Atlas of Internal Medicine and Clinical Diagnosis. By Dr. Chr.

JAKOB, of Erlangen. Edited by AUGUSTUS A. ESHNER, M.D., Professor of Clinical Medicine in the Philadelphia Polyclinic. 68 Coloured Plates, and 64 Illustrations in the text. Cloth, 12s. 6d. net.

Atlas of Legal Medicine. By Dr. E. von Hoffmann, of Vienna.

Edited by FREDERICK PETERSON, M.D., Clinical Professor of Mental Diseases, Women's Medical College, New York. With 120 Coloured Figures on 59 Plates, and 192 half-tone Illustrations. Cloth, 15s. net.

Atlas of Diseases of the Larynx. By Dr. L. Grünwald, of Munich.

Edited by CHARLES P. GRAYSON, M.D., Lecturer on Laryngology and Rhinology in the University of Pennsylvania; Physician-in-Charge of the Throat and Nose Department, Hospital of the University of Pennsylvania. With 107 Coloured Figures on 44 Plates. Cloth, 10s. 6d. net.

Atlas of Operative Surgery. By Dr. O. Zuckerkandl, of Vienna.

Edited by J. CHALMERS DA COSTA, M.D., Clinical Professor of Surgery, Jefferson Medical College, Philadelphia. With 24 Coloured Plates and 217 Illustrations in the text. Cloth, 12s. 6d. net.

Atlas of Syphilis and the Venereal Diseases. By Professor Dr.

FRANZ MRACEK, of Vienna. Edited by L. BOLTON BANGS, M.D., late Professor of Genito-Urinary and Venereal Diseases, New York Post-Graduate Medical School. With 71 Coloured Plates. Cloth, 15s. net.

OTHER VOLUMES ARE IN ACTIVE PREPARATION.

Descriptive Circular and Sample Plate Post Free on application.

LONDON: **REBMAN, Ltd.**, 129, SHAFTESBURY AVENUE, CAMBRIDGE CIRCUS, W.C.

Reg. Tel. Address: "SQUAMA, LONDON."

Telephone No. 2026 GERRARD.

NEW SYDENHAM SOCIETY.

On Fractures and Dislocations.

By Prof. Dr. H. HELFERICH.

This work, translated from the Third German Edition, is issued to subscribers for 1898. It is illustrated with 68 Coloured Plates and 126 Figures in the Text, and the Letterpress is Translated with *Additional Notes* by

JONATHAN HUTCHINSON, Junr., F.R.C.S., Surgeon to the London Hospital.

Those wishing to join the Society should communicate direct with the Hon. Secretary, Mr. JONATHAN HUTCHINSON, 15, Cavendish Square, London, W., or the Society's Agent, from whom copies of the Annual Report containing full particulars may be obtained.

Mr. LEWIS, Agent, 136, Gower Street, London, W.C.

ALBUMINURIA AND BRIGHT'S DISEASE.

By N. TIRARD, M.D., F.R.C.P.,

Physician to King's College Hospital, and to the Evelina Hospital for Sick Children.

"Thoroughly sound and well considered, and written in a pleasing and graceful style.....The descriptions of the symptoms and treatment of the various forms of Bright's Disease are clear and essentially practical."—*The Lancet*.

"This is a welcome contribution to the literature of renal disease. Written mainly from the clinical standpoint and based upon the author's own experience, its practical value is enhanced by the ease and simplicity of its style, and the clearness of its illustrations.....We can confidently recommend it alike as a textbook for those commencing to study the subject, and as a work of reference for practitioners wishing to refresh their knowledge."—*British Medical Journal*.

London: SMITH ELDER & CO., 15, Waterloo Place, S.W.

By ARTHUR NEWSHOLME, M.D.Lond., F.R.C.P.

THIRD EDITION, Entirely Rewritten.

ELEMENTS OF VITAL STATISTICS.

Pp. 366, with numerous Diagrams and Index, 7s. 6d. nett.

CHAPTERS I.-II. Population.—III. Registration of Births and Deaths.—IV. Death Certification and Classification of Causes of Death.—V. Registration of Sickness.—VI. Compulsory Notification of Infectious Diseases.—VII. Marriages.—VIII. Fecundity of Marriage.—IX. Births.—X. Death-rates.—XI. Relationship between Birth-rate and Death-rate.—XII. Death-rates corrected for Age and Sex Distribution.—XIII. Male and Female Mortality at Different Ages.—XIV. Infantile Mortality.—XV. Influence of Climate and Social Conditions on Mortality.—XVI. Density of

Population and Mortality.—XVII. Occupation and Mortality.—XVIII. Mortality from Zymotic Diseases.—XIX. Small-pox and Vaccination.—XX. Mortality from Infective Diseases.—XXI. From Cancer, &c.—XXII. Life Tables.—XXIII. Abbreviated Methods of Constructing Local Life Tables.—XXIV. Methods of Calculating Duration of Life.—XXV. Changes in the Expectation of Life.—XXVI. Decline in English Death-rate and its Causes.—XXVII. Statistical Fallacies.—XXVIII. Statistics of Sickness.—XXIX. Miscellaneous.

EPIDEMIC DIPHTHERIA:

A RESEARCH ON THE ORIGIN & SPREAD OF THE DISEASE FROM AN INTERNATIONAL STANDPOINT.

With Diagrams, 7s. 6d.

"Admirably illustrated and clearly expounded.....We take leave of this book by gratefully acknowledging the service which the author has rendered."—*Lancet*.

"There can be no doubt of the skill and candour with which Dr. Newsholme marshals his facts, and he appears to us to strike the just mean between too great boldness in accepting, and too great caution in rejecting the conclusions suggested by his figures."—*British Medical Journal*.

SWAN SONNENSCHN & CO., LIMITED LONDON.

WORKS BY

MR. NOBLE SMITH.

8vo, 2s.

SPASMODIC WRY-NECK.

"Mr. Noble Smith, after detailing the unsatisfactory results that have followed other methods of treatment, gives a list of the cases in which excision of a portion of the spinal accessory nerve has been practised. The result in the majority of cases seems to have been very encouraging."—*Lancet*, 1892.

8vo, 5s.

SPINAL CARIES.

SECOND EDITION. With 89 Illustrations.

"..... Gives a very practical account of the treatment of Spinal Caries."—*Lancet*, Feb. 26th, 1898.

"Surgical practitioners.....will welcome this second and improved edition of Mr. Noble Smith's instructive manual."—*British Medical Journal*, Nov. 20th, 1897.

"Mr. Smith.....has endeavoured to be as practical as possible, and has added special hints of much service to those practitioners who have not the co-operation of the instrument maker. Good illustrations supplement the text, and the work is equally useful to the student and practitioner."—*Canada Medical Record (Montreal)*, Dec., 1897.

8vo, 5s.

CURVATURES OF THE SPINE.

FOURTH EDITION.

"It has been a pleasing occupation to read this small work upon curvatures of the spine, because it seems to contain a nearer approach to the practical solution of the question of 'What is the best plan of treatment for Lateral Curvature of the Spine?' than any which has hitherto been offered."—*British Medical Journal*.

8vo, 6d.

PARALYTIC DEFORMITIES OF THE LOWER EXTREMITIES.

SMITH ELDER & CO., 15, WATERLOO PLACE.

JUST PUBLISHED. Price 12s. 6d.

SQUIRE'S COMPANION TO THE BRITISH PHARMACOPŒIA.

SEVENTEENTH EDITION.

"At the end of each article there is a more detailed account of all the chief preparations and forms in which the drug is used. Under this last heading is included a large amount of trustworthy information regarding numerous formulæ which is not readily obtainable from any other source.....On examining the different articles, it is evident that much care has been expended in a thorough revision, while a few of them have been almost entirely rewritten, thus bringing the whole volume thoroughly up to date.....There has been added a short account of therapeutical agents of bacterial origin by Dr. R. T. Hewlett, which deals shortly with antitoxins, tuberculin, vaccines, mallein, and nucleins."—*The British Medical Journal*, March 18th, 1899.

"'Squire's Companion' is virtually a new book every time it is re-published, so important and numerous are the changes in the text of each successive edition.....The 17th edition, in fact, like its predecessors, is thoroughly brought up to date as regards matter that has been published, the book containing references as recent as January of this year, and a good deal of information given—not the least valuable in the book—is derived from the experiments and personal experience of the editor.....It is safe to say that no one can truthfully claim to know all that is at present required to be known about the new British Pharmacopœia until he has procured, read, and digested the new 'Companion.'"—*Pharmaceutical Journal*, Feb. 25th, 1899.

"The re-arrangement is designed to show the prescriber as quickly as possible what he wants to know about a medicine. It is obvious that this arrangement is equally good for the dispenser, who, in actually carrying out the prescriber's instructions, is concerned chiefly with the data which have guided the prescriber. The notes are brief, but they give what prescribers and dispensers want. It is the cheapest pharmaceutical text-book in the English language, as well as one which physicians and pharmacists could least do without."—*The Chemist and Druggist*, Feb. 25th, 1899.

Its relation to Position at Work and the manner of Illumination.

With numerous Illustrations. 6s., post free.
Bristol: WRIGHT & Co. London: SIMPKIN & Co., Ltd.

Concise yet comprehensive summaries of all in periodical literature important to the practitioner. Facts, not mere opinions, characterise the "Review," instead of the usual indiscriminate and useless notices of crude and unproved views which constitute many so-called "Epitomes."

THE Medical & Surgical "Review of Reviews."

AN INDEXED ILLUSTRATED MONTHLY SUMMARY OF THE BEST IN THE MEDICAL AND SURGICAL PERIODICAL LITERATURE OF THE WORLD.

Price 20s. per annum, post free to any part of the world.

PRINTED IN LARGE CLEAR TYPE, ON SUPERFINE PAPER.

By the suppression of all unessential matter, a paper written with any definite object—and such alone is valuable—can generally be compressed into a comparatively brief report, and yet remain a clear and readable account of the subject, so that nothing of importance is lost, and often, in lucidity, much is gained. To merely mention a few of the leading features of an article serves no useful purpose.

".... The new 'Review of Reviews' will be found extremely useful to the busy practitioner."—*Lancet*.

".... A great boon to the profession all over the world. I applaud not only your scheme, but the manner of its execution...."—JONATHAN HUTCHINSON, LL.D., F.R.S., Ex-President of the Royal College of Surgeons, England.

".... I think you are about to fill a very great want...."—T. CLIFFORD ALLBUTT, M.A., M.D., F.R.C.P., F.R.S., Regius Prof. of Physics, Cambridge University.

".... It would be impossible for such a journal not to take at once a first place...."—*Birmingham Medical Review*.

"As a constant reader of the 'Review,' permit me to express my appreciation.... It will be found most useful by Medical Officers in the Army, Navy, and Colonial Services...."—SIR WILLIAM KYNSEY, C.M.G., late Army Medical Staff, late Inspector-General of Hospitals, Ceylon.

".... Of great value to the general practitioner, and to teachers and authors...."—BYROM BRAMWELL, M.D., F.R.C.P. Edin.

"Destined to the greatest and legitimate success.... Well edited. Giving an exact account of all of importance in science and medical practice."—*Journal des Praticiens*.

"Quite impossible to estimate its great value to the busy practitioner, who, with so little expenditure of time, will be able to keep up with the medical literature of the day...."—ROBERT BELL, M.D., F.F.P.S.

"In appearance and style the 'Review' is all that could be desired.... The necessity for such a journal is well nigh imperative.... Important facts are shortly told, with neither the prolixity of the clinical lecture nor the padding of the professional journalist."—*Journal of Tropical Medicine*.

".... A great advance.... The articles are not too short to be useful and practical, and the index with each number renders reference easy."—C. M. BRISLEY, M.R.C.S., L.R.C.P.

"A remarkable periodical.... Edited with great taste and luxury of type, and of the very greatest value to all who desire to keep themselves au courant with the progress of the medical world...."—*Boletín de la Revista de Medicina y Cirugía Prácticas, Madrid*.

".... Your magazine, dealing with the best, most recent, and determined facts, deserves the support of the entire medical faculty...."—T. ERSKINE MOORE, L.R.C.P., L.R.C.S. Edin., L.M.

".... We cannot conceive a more useful publication than this, which should become one of the most popular medical journals of the age.... In addition to the British, Colonial, and American papers, it epitomises all the foreign Journals; so that nothing of note which is being done or attempted in the civilised world need escape a careful reader."—*Journal of Balmatology and Climatology*.

"A well got up and well edited quarto monthly, replete with good matter gleaned from the world's medical literature. Eagerly taken up by all English-reading physicians and surgeons."—*St. Louis Medical and Surgical Journal*.

".... I had not thought it possible for concise summaries to give such complete and practical details...."—ROBERT BROWN, M.A., M.B., C.M.

".... I have already found several exceedingly useful, and, to me, new points in practice, by which my patients have benefited.... As an up-to-date work of reference your bound volumes will be invaluable...."—STUART HALLOWS, M.B. Edin.

N.B.—Subscriptions should be sent to:—The SECRETARY, The Medical and Surgical "Review of Reviews," Limited, Connaught Mansions, Victoria Street, London, S.W. Drafts, Cheques, and Postal Orders to be made payable to The Medical and Surgical "Review of Reviews," Limited, and crossed "London and County Bank."

Certificate of Dr. A. B. GRIFFITHS, Ph.D., F.R.S.
(Edin.), Analytical Chemist and Assayist,
London.

"Absolutely pure and most agreeable, in fact it is the best Cocoa I have ever examined. Digestibility and Nutrition value are of the highest order. It is superior to other Cocoas because it can be so easily digested and assimilated. It takes the very highest place among Cocoas, and as I frequently take it myself, I can conscientiously recommend it to medical men."

Certificate of Prof. Dr. A. STUTZER, Director of
the Government's Office for Chemical Tests and
Assays in Bonn.

"Absolutely pure, and carefully prepared from materials of the best quality."

Dr. STROHL, of Neuchâtel (Switzerland), Analytical
Chemist.

"Contains all the principles which a rational nutrition of the human body requires in the most digestible form of proportions. It attains a maximum of digestible nourishment which cannot be exceeded without injuring the admirable flavour of the Cocoa."

To enable every Physician and Doctor to form his own opinion about the value of SUCHARD'S COCOA, we are prepared to send, until further notice,

Absolutely Pure.

Uniformly Free from Poisonous Contaminations.

Arsenic, Antimony, Copper, Silver, and Tellurium,

all exist naturally in commercial Bismuth. But **Lead** is used as an adulterant to the extent of 8 or 10 per cent., and is doubtless the cause of those obscure cases of lead-poisoning that occur in patients under treatment with Bismuth, and which have been reported in the Medical Journals.

The calamity of **Lead-poisoning**, and that known as
"Bismuth-Breath"

will not befall the Patient treated with

SCHACHT'S LIQUOR BISMUTHI

Invented and Introduced to the Profession by Mr. G. F. SCHACHT in 1855.

Dose—One drachm diluted: equivalent to a full dose of the Trisnitate.

Mr. Charles Ekin, F.C.S., writing of the prevalence of contaminations in commercial samples of Liquor Bismuthi says: "It must be confessed that the Bismuth preparations of the Pharmacopœia, as at present met with in commerce, are far from satisfactory. It is only just, however, to Mr. Schacht, of Clifton, the inventor of the fluid preparation, to say that the *Liquor as prepared by him* is invariably free, not only from silver, but also from copper, antimony, and arsenic; and that in HIS, prescribers have, at all events, ONE preparation that they may at all times depend upon."

N.B.—*The value of these opinions has been generally admitted by the Profession during an experience of nearly fifty years. The manufacturers therefore hope, both for the security of the Patient and the satisfaction of the Prescriber, that their Professional Friends will be careful to order—*

LIQUOR BISMUTHI (SCHACHT.)

In $\frac{1}{2}$ lb., 1 lb., 2 lb., and 5 lb. bottles. Of all the Wholesale Houses, or direct from the

SOLE MANUFACTURERS,

GILES, SCHACHT & Co., Clifton, Bristol.

NESTLÉ'S CONDENSED SWISS MILK

THE RICHEST IN CREAM.

PERCENTAGE OF BUTTER FAT:

Six samples of NESTLÉ'S MILK bought at random at six different Shops and analyzed by Mr. OTTO HEHNER late President of the Society of Public Analysts, contained AN AVERAGE OF

13.13 per cent. of BUTTER FAT.

*Sample Tin sent free to the Medical Profession on application to HENRI NESTLÉ,

WHAT ARE BISHOP'S VARALETTES?

"VARALETTES" is our registered name for Effervescent Compressed Tablets, embracing such remedies as are best administered in solution. When dropped into water they dissolve rapidly and completely with brisk effervescence, producing a clear and palatable draught. A great advantage of the Varalette over the ordinary compressed tablet is that perfect solution is obtained, thus ensuring the immediate and full activity of the medicament, as well as absolute accuracy of dosage, on which account physicians give them the preference.

LIST.

Antipyrin and Caffeine ...	5 and 1 grs.	Sodium Bromide ...	5 grs.
Bismuth Ammon. Cit. ...	2 grs.	Urotropine ..	4 grs.

ALFRED BISHOP, Ltd., Specks Fields, Mile End New Town, London.

SAVORY & MOORE'S BEST FOOD for INFANTS.

The attention of the Medical Profession is specially requested to the following characteristics of this old-established **SELF-DIGESTING** Food, which has so thoroughly maintained its reputation for superiority during an experience of thirty years:—

- | | |
|---|--|
| <p>Ratio of Albuminoids to carbo-hydrates.</p> | <p>The ratio of the albuminoids to the carbo-hydrates is the same as in human milk,—viz., 1 to 6·4; the ratio in cow's milk being only 1 to 3·8.</p> |
| <p>Albuminoids made easy of digestion not predigested.</p> | <p>The albuminoids are <i>not predigested</i> as in pancreatised foods, but are rendered <i>easy of digestion</i>, leaving (as in human milk) just sufficient work to strengthen and develop the immature digestive powers, instead of weakening and abrogating them by keeping them inactive. Sir WILLIAM ROBERTS's experiments in feeding kittens show that distinct failure of nutrition occurs when the milk is predigested (peptonised), and the same thing has been observed in feeding infants, probably owing, as THE LANCET points out, to atrophy of unemployed glands.</p> |
| <p>Healthy nature of evacuations.</p> | <p>As a consequence of the foregoing the proper peristaltic action of the bowels is maintained, and the healthy nature of the evacuations of infants fed on this food is a satisfactory feature much and favourably commented on by Mothers and Nurses.</p> |
| <p>The curdling of cow's milk prevented.</p> | <p>When mixed with cow's milk it prevents the troublesome curdling in the stomach which takes place when cow's milk is given alone, and assimilates its composition to that of human milk.</p> |
| <p>Complete conversion of the starch.</p> | <p>The active Malt Diastase present provides for the rapid and complete conversion of the starch at the time of mixing into the soluble assimilable products of maltose and dextrine. The point of the gelatinisation (thickening) of the Food—viz., 140° F.—is just that at which Malt Diastase is most active, and the <i>conversion of the starch is consequently the work of a very few minutes only.</i></p> |
| <p>Retention of the Phosphates and Fat.</p> | <p>The retention of the fat and of the phosphates of the wheat and malt, which are so essential to bone formation. These exist chiefly in the outer portions of the grain, <i>the very parts which some manufacturers pride themselves upon so successfully rejecting.</i></p> |
| <p>Absence of Fermentable sugar.</p> | <p>The absence of the fermentable sugar, which in the various malt extracts and milk foods so often gives rise to Diarrhoea and Flatulence.</p> |
| <p>Verdict of Jury as to inferiority of imitations.</p> | <p>It is the ONLY Infants' Malted Food which obtained a Gold Medal at the International Health Exhibition, the Jury being comprised of such authorities as Dr. ATTFIELD, F.R.S.; G. W. WIGNER, F.I.C., the then President of the Society of Public Analysts; Dr. JAMES BELL, F.R.S., the Head of the Government Laboratories; and other distinguished Medical and English and Foreign Experts. This affords significant indication of the value to be attached to the numerous imitations, which, whilst pirating the descriptive notices of the Food, utterly fail to approach its standard of excellence.</p> |

SAVORY & MOORE,
143, NEW BOND STREET, LONDON, W.

CHLOROFORM.

**"DUNCAN'S PURE" IS PREPARED ENTIRELY FROM
ETHYLIC ALCOHOL.**

GELATINE CAPSULES.

(1,500 VARIETIES.)

CASCARA CAPSULES.

EASTON SYRUP CAPSULES.

GREGORY'S POWDER CAPSULES.

BLAUD PILL CAPSULES.

GUARANTEED STRENGTH.

At the request of medical men and others we have analysed a number of **BLAUD PILL CAPSULES** similar in size and colour to those of our own make. These capsules were stated to be each equal to three **Blaud's Pills**, but our analyses showed that in no instance were they equal to more than $1\frac{1}{2}$ **Blaud Pills**. This is neither fair to the medical man nor to his patient.

WE GUARANTEE OUR ONE, TWO, AND THREE PILL CAPSULES TO BE EQUAL RESPECTIVELY IN FERROUS CARBONATE TO ONE, TWO, AND THREE FRESHLY-PREPARED **BLAUD PILLS**. THEY HAVE ALSO THIS DISTINCT ADVANTAGE OVER PILLS, THAT THEY NEITHER OXIDISE NOR HARDEN.

DUNCAN'S SYRUP OF THE HYPOPHOSPHITES.

Stable. Elegant. Reliable.

*N.B.—We now keep a REGISTER of LOCUM TENENS and ASSISTANTS at 30, Beamsley Road, Frintonhall, Bradford, under the charge of Mr. Dawson, our Representative there.
Telegraphic Address:—"Dunhart, Bradford."*

A MANIFEST FRAUD

is being perpetrated upon SURGEONS

by persons who are now offering, as Wood Wool Wadding and Wood Wool Tissue, a totally different material to our well-known Dressings.

The fraud can easily be detected by the simple test of a 10 per cent. solution of Aniline Chloride, as shown in the *Hospital* report below.

We have had this imitation examined by eminent analysts and surgeons, who confirm in detail the report below, and they further state that the material referred to is **chemically, physically, and mechanically different** from and *less absorbent* than our Hartmann's Patent Wood Wool Wadding and Tissue, as invented and introduced by us, and known to Surgeons as Wood Wool Dressings for many years past.

The "Hospital," Oct. 22nd, 1898, reports:

HARTMANN'S PATENT WOOD-WOOL WADDING AND TISSUE.

(THE SANITARY WOOD WOOL COMPANY, 26, THAVIES INN, HOLBORN CIRCUS, E.C.)

The dressings known by the above descriptive title have been submitted to us and fully tested by practical trial. We would specially call attention to the ready way in which these dressings take up heavy and copious secretions. This is due to the coarseness of the fibre, and the free passage of fluids through the interspaces. The coarse, soft, and pliable strands of the wood fibre are intermingled with and held together by a certain proportion of fine cotton absorbent wool (20 per cent.). Many so-called wood-wool dressings now on the market contain no wood-fibre at all, and answer but indifferently the purposes for which they are intended. The presence of wood-wool fibre can be detected by dipping into aniline chloride, which is readily taken up by ligneous tissues and deeply stained yellow. We have before us a sample of Hartmann's Wood Wool Tissues tested in this fashion, and in which the woody fibre deeply dyed manifests itself to the obvious extent of about 80 per cent.

We therefore ask Surgeons to

See that the word "**HARTMANN'S**" appears on every label!

For Cancerous or Urethral Discharges and Suppurating Wounds.

HARTMANN'S

Patent Wood Wool WADDING

Patent Wood Wool TISSUE

absorb all kinds of discharges. They give perfect drainage to the wound, frequent change of dressing is avoided, and therefore the greatest economy attained. They are thoroughly antiseptic, as they consist mostly of Pine Wood. On a wound they will be found to thoroughly suck up and absorb all discharges, and they will not stick to the wound, nor will they heat like cotton wool and other dressings.

But the most convincing proof of all is the fact that all the leading hospitals use this dressing to the extent of **200,000 lbs. annually.**

Adopted in H.M. Government Hospitals and by the Board of Trade.

ANY SURGEON, who by chance, has not yet tried these Dressings should write for **SAMPLE PACKETS** Gratis and Post Free.

REDUCED PRICES TO HOSPITALS ON APPLICATION.

"THE LANCET" on

VAN HOUTEN'S COCOA,

JULY 3rd, 1897.

"In a recent analysis
" which we have made, the results
" distinctly indicate the advantage of
" VAN HOUTEN'S PROCESS of manu-
" facture. Thus this Cocoa yields
" a decoction containing a maximum
" proportion of the valuable food con-
" stituents of the bean, and what is
" of more importance still, these are
" presented in a condition more easy
" of assimilation and digestion than in
" Cocoa not so prepared."

A few Facts in favour of Scott's Emulsion.

Patients readily take and retain Scott's Emulsion when their stomachs and palates rebel against the plain cod-liver oil. A minute and uniform division of the oil is unquestionably an advantage, both in digestion and absorption. And in Scott's Emulsion this division is **MAINTAINED INDEFINITELY**, and the oil **REMAINS FREE FROM RANCIDITY**.

Glycerine is an important factor in Scott's Emulsion also, and should not be lost sight of. In the digestion of fat Nature makes glycerine; makes it for a purpose and uses it, thus showing the need of it. We add glycerine especially because it prevents fermentation, because it sweetens without aggravating uricacidæmia or glycosuria as sugar does, and because it assists absorption and aids nutrition. We owe much to the glycerine.

To the Hypophosphites of Lime and Soda we look for a necessary constituent of brain, nerve, and bone structure.

Is not the above combination better than plain cod-liver oil? And is it not a further advantage that the physician can absolutely rely upon Scott's Emulsion as being a **PERMANENT EMULSION, FREE FROM RANCIDITY?**

SCOTT & BOWNE, LTD., MANUFACTURING CHEMISTS, LONDON, E.C.

"Opium is undoubtedly the most important and valuable remedy of the whole Materia Medica. For other medicines we have one or more substitutes; but for Opium none—at least in the large majority of cases in which its peculiar and beneficial effects are required."—PEREIRA.

OPIUM SHOULD ALWAYS BE PRESCRIBED IN THE FORM OF

NEPENTHE

A preparation derived ENTIRELY FROM OPIUM by a process which, whilst eliminating all those constituents that give rise to disagreeable after-effects, retains, in the fullest degree, the unrivalled sleep-producing and pain-allaying properties of the drug.

It is claimed for **NEPENTHE**

That it does not produce Nausea.

That it does not produce Constipation.

That it does not produce Headache.

That it does not produce Depression.

That it does not produce Loss of Appetite.

That it does not produce diminution of nervous energy.

That it does not produce prostration of strength.

That it does produce natural and refreshing sleep.

That it gives more relief than other form of Opium or its Alkaloids.

That it often succeeds when other Anodynes fail.

That habitual use does not perceptibly weaken its effects.

That it is always of uniform strength.

That it may be administered to patients who cannot tolerate any other form of Opium.

That it is the safest and best preparation of Opium.

Strength same as that of Tinct. Opii, P.B. Dose: 5 to 30 minims.

Sent out in the following forms:—

Nepenthe (ordinary), in 2 oz., 4 oz., 8 oz. and 16 oz. Bottles.

Glycerole of Nepenthe, for Hypodermic Injection (8 times the single strength), in 1 oz. Bottles.

Double Strength Nepenthe, in 2 oz., 4 oz., 8 oz. and 16 oz. Bottles.

Nepenthe Suppositories, in boxes of 3 doz. (in moulds of distinctive shape), three strengths equivalent to $\frac{1}{4}$ gr., $\frac{1}{2}$ gr. and $\frac{3}{4}$ gr. morphia respectively.

FERRIS & CO., BRISTOL.

Reports of Cases and fuller particulars at the disposal of Medical Men.

Infant Feeding

during the Hot Season.

10

Peptogenic Milk Powder when added to cows' milk, water, and a little cream, yields a product very closely approximating to breast milk.

Should the use of cream not be convenient, it may be dispensed with.

Peptogenic Milk Powder is especially recommended for infant feeding during the trying hot season. The milk, when prepared with this powder, is as digestible as mothers' milk, no more so.

Supplied to the Medical Profession in two sizes, at 1s. 9d. and 3s. 4d. each.

Specimen and literature will be forwarded on request.

Originated and Manufactured by

Fairchild Bros. & Foster,
NEW YORK.

Agents for Europe, Asia, Africa, and Australasia

Burroughs Wellcome & Co.,
LONDON and SYDNEY.

The Necessity of Modifying Caseine.

"The object to be accomplished in the preparation of cows' milk (for infants) is to make it resemble human milk as much as possible in chemical and physical properties. To do this, it is necessary to reduce the proportion of caseine, to increase the proportion of fat and sugar, and to overcome the tendency to coagulate into large firm masses upon entering the stomach."—STARR.

"Thus it is a well-known fact that the albuminoids of human milk differ in a number of ways from the corresponding bodies in cows' milk. The difference is not merely due to difference in the proportion of albuminoids contained in the two milks, but rather to the nature of the substance itself. Simple dilution of cows' milk with water is without avail in obviating this tendency of the milk to form tough and more or less indigestible curds. It is obvious, therefore, that any method of modifying cows' milk that aims to produce a product analogous to mothers' milk must take into account this radical difference in the nature of the two caseines."—CHITTENDEN.

Peptogenic Milk Powder (Fairchild)

converts the caseine into a condition corresponding in constitution and digestibility to the peptone-like albuminoids of breast milk. It furnishes the sugar of milk and mineral ash salts, and modifies cows' milk in all particulars to the composition of normal breast milk.

Supplied to the Medical Profession in two sizes, at 1s. 9d. and 3s. 4d. each.

Specimen and Literature will be forwarded on request.

BAYER'S PHARMACEUTICAL SPECIALITIES.

TANNIGEN.

(Tri-acetyl of Tannin.)

Tannigen is an acetic derivative of Tannin, possessing neither taste nor smell, insoluble in water and dilute acids, but easily soluble in the presence of alkalis. It passes through the stomach entirely unchanged, decomposition only commencing in the intestines.

Tannigen may be prescribed with very great advantage in all cases where it is desired to produce an astringent action, without irritation, on the intestinal mucous, and renders especially valuable service in the treatment of acute and chronic colic in children.

Tannigen has been described by Drews, of Hamburg, as "an absolutely reliable agent in the summer diarrhoea of children." This opinion has been confirmed by numerous Continental and British authorities, and we confidently recommend that, in this exceedingly troublesome complaint, Tannigen be given a trial. Equally successful results attend its use in adults.

DOSE: For Adults, 8 to 12 grains four to six times a day.

" " Children, 2 to 5 " " "

ASPIRIN.

(Acetic Ether of Salicylic Acid.)

A perfect substitute for Salicylic Acid and its salts. It does not irritate the mucous membrane of the stomach. In consequence of its slow tendency to decompose it passes through the stomach unchanged, being split up into its component parts only in the intestinal alkaline fluids. It does not cause any disturbances of the stomach or loss of appetite. Moreover, it possesses an agreeable slightly acid taste, which favourably contrasts with the repugnant sweet taste of the Salicylates. Aspirin causes none of the unpleasant after effects which so frequently attend the use of Salicylic Acid and its salts.

Extensive clinical trials have proved that Aspirin is equally effective as a therapeutic agent with Salicylic Acid and its salts, whilst it possesses at the same time the great advantage of having absolutely none of the drawbacks which prohibit at times the use of the latter.

TRIONAL, IODOTHYRINE, TANNOPINE, SALOPHEN, LYCETOL, CREOSOTAL, DUOTAL, HEROIN, PROTARGOL, ARISTOL, EUROPHEN, TETRONAL, ANALGEN, LOSOPHAN, IRON SOMATOSE, MILK SOMATOSE, PHENACETINE-BAYER, SULFONAL-BAYER, PIPERAZINE-BAYER, SALOL-BAYER.

Samples and Literature willingly supplied on application to the Wholesale Depot for all BAYER'S Specialities.

THE BAYER COMPANY, LD., 19, St. Dunstan's Hill, London, E.C.

Also at MANCHESTER, BRADFORD AND GLASGOW.

BAYER'S Pharmaceutical Specialities.

THE most reliable of the hypnotics. Acts quickly and surely, and is not attended by any secondary effects. The sleep produced by Trional is as calm and refreshing as the natural one; it is deep and dreamless, and the patient awakes without showing the least sign of drowsiness. In small doses, Trional prevents the night sweats of Phthisis.

An albuminous food product prepared from meat, containing the albuminous elements of the latter in an easily soluble form. The salts present in Somatose correspond to the nutritive salts of fresh meat, among which occur phosphate of potassium so important in the formation of muscular and cellular tissue.

Somatose is an almost tasteless, odourless powder, easily tolerated by the most delicate stomachs.

INVALUABLE IN INFLUENZA.

A PERFECT substitute for salicylate of sodium, as it acts quite as promptly, but without producing any of the unpleasant after effects so frequently attending the use of this drug. Its action is sure and quick.

AN excellent substitute for Codeine. In doses of 5 milligrammes Heroin has given excellent results in cases of bronchitis, pharyngitis, catarrh of the lungs, and in asthma bronchiale. In the latter two cases the dose may be increased to 1 centigramme.

TANNIGEN, TANNOPINE, IODOTHYRINE, CREOSOTAL (Pure Carbonate of Creosote), DUOTAL (Pure Carbonate of Gualacol), ARISTOL, EUROPHEN, PROTARGOL, PHENACETINE-BAYER, SULPHONAL-BAYER, PIPERAZINE-BAYER, ANALGEN, LOSOPHAN, TETRONAL, SOMATOSE, IRON SOMATOSE, MILK SOMATOSE, &c.

Trional

(Diethylsulphon
Methylethan).

In simple insomnia TRIONAL will produce sleep in from 15 to 30 minutes with absolute certainty.

DOSE.—15 to 30 grains, followed by a hot drink. A good method of administration is in the form of Palatinoids (Messrs. Oppenheimer, Son & Co., 179, Queen Victoria Street, E.C.), or in the form of Oxy-Carbonated Trional Water (manufactured by Messrs. Cooper & Co., 80, Gloucester Road, S.W.).

Somatose

*Sold by us, as hitherto, on behalf of the
BRITISH SOMATOSE CO., who now possess
the selling rights for Great Britain and
Ireland.*

Invaluable in wasting diseases in convalescence from exhausting diseases, and in children of backward development.

Acts as a most efficient galactagogue, rapidly producing an increased flow. Indicated in all conditions where an invigorating and easily absorbed food is required.

Dose.—One level teaspoonful three times a day in milk, soup, coffee, cocoa, etc.

Salophen

(Acetyl para Amidosalol).

ABSOLUTELY non-toxic. Specially indicated in acute articular rheumatism, sciatica, chorea, migraine, and neuralgia.

Dose.—16 grains, three or four times a day, in powder or in the form of lozenges.

Heroin

(Di-acetic ester of Morphia).

HEROIN does not cause constipation. Its dose is much smaller than that of morphine. Heroin can be administered to patients with a weak heart who cannot tolerate morphine. It is best given in the form of powder, mixed with sugar, or may be dissolved in brandy or water acidulated by the addition of a few drops of acetic acid.

Samples and Literature may be had on application to—

THE "Allenburys" Foods

FOR

Infant Feeding.

A PROGRESSIVE SERIES OF FOODS.

These Foods are perfectly sterile in themselves, and are best given with the "Allenburys" Feeder, which is capable of easy and complete sterilization, thus presenting a physiologically accurate diet, free from all fear of contamination by the products of decomposition.

The "Allenburys" Milk Food No. 1

is as near an equivalent of Mothers' Milk as it is possible to make.

It is a dry powder, put up in hermetically sealed tins, and is prepared by removing from the Cows' Milk the excess of casein and adding sufficient cream (fat) with milk-sugar and albumen to make up the proper percentage composition.

It requires the addition of *boiled water only* in its preparation.

To be given until the child is three months old.

The "Allenburys" Milk Food No. 2

contains also all the elements of human milk in proper proportions. To this is added a small proportion of the soluble products of the action of malt upon wheat, *i.e.* : maltose, dextrine, and soluble phosphates. These give the required stimulus to the developing amylolytic functions.

It requires the addition of *boiled water only* in its preparation.

To be given from the third to the sixth month of infant life.

The "Allenburys" Malted Food No. 3

is a partially predigested food, obtained by the action of Malt Extract upon a selected wheaten flour rich in gluten. The flour being first cooked, the starch grains are well broken up and then partly converted by a diastasic ferment. There are no irritating spicules of malt present, as happens in the commoner so-called malted foods.

Being a farinaceous food, it requires the addition of fresh milk in its preparation.

To be given after six months and onwards.

The "Allenburys" Feeder.

Simplest and Best.

The *Practitioner* writes: "We know of no better Feeder . . . so simple, so easy to keep in order."

Samples of the "Allenburys" Foods sent free to the Profession on application.

Allen & Hanburys Ltd., Plough Court, Lombard Street, London.

Infants' Food Manufactory: WARE MILLS HERTFORDSHIRE

"A Distinct Advance on Easton's Syrup."

—THE LANCET.

EASTON'S SYRUP has a world-wide reputation as a reliable and potent tonic. It was formulated at a time when such preparations were always compounded in the form of a Syrup. The sugar in these preparations is, however, not merely inert, but to some constitutions actually prejudicial.

Bynin Amara.

TRADE MARK.

ALLEN & HANBURY'S have carried out the idea of substituting their BYNIN (Liquid Malt) for the Syrup in these preparations, one of which—**Bynin Amara**—is the homologue for **Easton's Syrup**. Time has already shewn the extreme dietetic value of this improvement, whereby a valuable nutrient and an active diastasic ferment are supplied.

In BYNIN AMARA the phosphates of Iron, Quinine, and Strychnine are combined with Bynin (Liquid Malt), affording a digestive, restorative, and antifebrile tonic. The presence of Bynin enables this preparation to be given beneficially in conditions of dyspepsia where the ordinary Easton's Syrup has hitherto been contra-indicated.

The analytical records of *The Lancet* endorse the practical results obtained:—

"This excellent preparation is a distinct advance on Easton's Syrup . . . and is admirably adapted for the administration of one of the best tonic combinations known."

The British Medical Journal adds confirmation:—

"The preparation is very palatable, and there is no doubt it will be appreciated as a pleasant means of obtaining the tonic effects of Easton's Syrup combined with the DIASTASIC and NUTRITIVE value of Extract of Malt."

Allen & Hanburys Ltd., Plough Court, Lombard Street, London.

Sterilize your Milk !

THE "ALLENBURY'S" MILK PASTEURISER (PATENTED.)

DR. HEWLETT, Author of *A Manual of Bacteriology, Clinical and Applied*, having designed an apparatus for the sterilisation or pasteurisation of milk, at once efficient, simple, and inexpensive, ALLEN & HANBURY LTD. have great satisfaction in introducing it to the profession as a perfect and reliable milk steriliser, and one thoroughly adapted to popular requirements.

No article of diet is so likely to convey disease as milk, for, by its nature, it forms an excellent medium or pabulum for the growth and multiplication of the minute living germs which are now known to be the cause of a large number of diseases. Many epidemics of typhoid and scarlet fevers have been traced to a contaminated milk supply, while the germs of tuberculosis, cholera, diphtheria, blood-poisoning, and many others, will grow and multiply in milk. The tubercle bacillus has been repeatedly found in the milk supply of towns—in 17 out of 93 samples at Manchester, and in 9 out of 16 samples, **more than half**, at Cambridge,—and, when present in milk, is usually of an extremely virulent nature (*vide* Report of the Royal Commission on Tuberculosis).

By the process of pasteurisation, so called after the illustrious French chemist and scientist PASTEUR, who discovered it, all the advantages of

boiled milk are retained without its disadvantages. The process consists of heating the milk to a temperature of 150° F. to 158° F., and retaining it at that temperature for about 20 minutes; a lower temperature would not with certainty kill the disease-germs; a higher temperature alters the quality of the milk. Efficient pasteurisation destroys the disease germs without altering the flavour, nutritive and other qualities of the milk, and milk so treated will keep sweet for 24 to 48 hours longer than untreated milk.

The "Allenbury's" Milk Pasteuriser (Dr. Hewlett's patent) has been devised to carry out the somewhat delicate process of pasteurisation with certainty and without the use of a thermometer or any complicated apparatus. This Pasteuriser is inexpensive, is of the simplest construction, and cannot get out of order, and, provided the simple directions supplied with each apparatus be carried out, the milk must be efficiently pasteurised.

Price complete, 6s. 6d. Japanned, 7s. 6d. Box and Post, 1s. extra (in Great Britain).

'Kepler' Malt Products

HAVE FROM THE FIRST BEEN
RECOGNISED AS STANDARD
PREPARATIONS OF UNDENI-
ABLE EXCELLENCE AND RE-
LIABILITY.

**Burroughs Wellcome and Co.,
London and Sydney.**

'Kepler' Malt Extract.

IS the "best known and largest used Extract of Malt" (*The Lancet*). It is the Malt Extract upon which the medical profession relies, and its unique reputation to-day is built upon the solid foundation of practical experience. Its perfection is not, therefore, theoretical only, but is established by actual clinical facts.

Small and large bottles, 1s. 8d. and 3s. each.

H 66

'Kepler' Solution.

IS a molecular incorporation of the finest Norwegian Cod Liver Oil in 'Kepler' Malt Extract. During the summer the intolerance of cod liver oil is conquered and its digestibility increased by its administration in solution in 'Kepler' Malt Extract. "An ideal form for the administration of fat."—*British Medical Journal*.

Small and large bottles, 1s. 8d. and 3s. each.

Superior to Cod Liver Oil, Tincture of Iron, or Peptone.

HOMMEL'S HAEMATOGEN,

(Haemoglobinum concentratum et Glycerinum purissimum [English Patent, No. 12504, A.D. 1894], agreeably flavoured).
Entirely free from Antiseptic Chemicals.

A BLOOD-FORMING TONIC OF THE UTMOST VALUE.

In General Debility, Anæmia, Chlorosis, Neurasthenia, Rickets, Scrofula, Weak Heart,
Wasting Diseases of Children, Chronic Catarrh of the Stomach and Bowels,
Loss of Appetite, Slow Convalescence after Fevers, and Over-Rapid
Growth in Young Persons.

UNSURPASSED AS A MEDICINE FOR CHILDREN.

No Flavouring required.

Highly Relished by Patients of all Ages.

Being a Fluid, it is very easy to take.

Gives Excellent Results in Rickets and Scrofula.

Far superior to Cod Liver Oil, Iodide of Iron, and similar preparations.

"Using Hommel's Haematogen, I have had surprising success in cases of Anæmia, Debility, and Weak Digestion. In the treatment of Children, I have given up Cod Liver Oil, Chemical Preparations of Iron, and Sweet Wines, and instead of them, I use only Haematogen, which has proved itself in my experience, to be efficacious and prompt in its action. It has the further advantage of Possessing an agreeable taste, which makes it preferable to all other Haemoglobin Preparations."—

Dr. N——, Specialist for Children's Diseases, Munich.

A POWERFUL RESTORATIVE IN DISEASES OF THE LUNGS.

"I consider Hommel's Haematogen to be a Food Product which has not as yet any equal, especially in the treatment of those who are recovering from illness."—Dr. S——, Specialist for Diseases of the Lungs, Berlin.

"I have employed Hommel's Haematogen in about 100 cases of Anæmia, Scrofula, Consumption, Tedious Convalescence, and Debility. I have been so satisfied with it, that I do not now prescribe any other preparation of Iron."—Dr. D——, Berlin.

Hommel's Haematogen may be given to Infants at the Breast, to Children of any Age, and to Adults continuously from year to year. Being a Natural Organic Product, it never causes any unpleasant symptoms whatever, nor does it ever produce vascular excitement nor throbbing of the temples (orgasm).

GIVES AN APPETITE EVEN IN THE WORST CASES OF DISTASTE FOR FOOD.

Hommel's Haematogen contains (1) Perfectly Pure Haemoglobin, (2) the whole of the Salts which are found in Fresh Blood, and (3) the Highly Important Albuminous Constituents of the Serum in a Concentrated and Purified Form, without any trace of Decomposition. It is not peptonised or predigested, for artificial digestion, whether it is accomplished by the action of acids and pepsin or by heat, is quite different from the natural process. It has been proved by Professor NEUMEISTER, of Jena, and Professor CAHN, of Strasbourg, that peptones, albumoses and peptonised preparations are not by any means absorbed directly, but are converted into albuminate before being absorbed. There is no doubt that artificial digestion brings about the decomposition of substances, which are of the highest importance for building up the tissues of the body. This is strikingly shown by the great success of Hommel's Haematogen, in cases of Rickets, Scrofula, Wasting Diseases of Childhood, &c., in which not only Peptonised Preparations, but Cod Liver Oil, Iodide of Iron, &c., had been employed without any benefit.

We shall be happy to forward Samples and Literature of Hommel's Haematogen, gratis and carriage paid, to Medical Practitioners who may wish to give it a trial.

Kept in Stock by all Pharmaceutical Chemists. Price of Original 9-oz. Bottle, 4/-.

Dose for young Infants, Half a Tea-spoonful, or One Tea-spoonful, twice a day in Milk, of the proper heat for drinking. For Children, One Table-spoonful, either pure or mixed with any convenient liquid. For Adults, One Table-spoonful twice a day BEFORE food, so as to secure the full benefit of its powerful appetising effect.

AWARDS.

GOLD MEDAL, International Health Exhibition, London.
FIRST ORDER OF MERIT AND MEDAL (Highest Award), Adelaide.
HIGHEST AWARD, Medical and Sanitary Exhibition, London.
FIRST ORDER OF MERIT AND MEDAL, Melbourne.

Liquor Pancreaticus (Benger).

For the preparation of peptonised or partially digested milk and other articles of food.

Simple directions for use enclosed. In 4-oz., 8-oz., and 16-oz. Bottles.

The *British Medical Journal*, in an article on Benger's Preparations, says:—"Time and use have justified the claims put forward for these preparations."

The *London Medical Record* says:—"These are undoubtedly a great advance on any previous attempt in this direction..... The introduction of these preparations is a distinct advance in therapeutics."

The *Medical Times and Gazette* says:—"Benger's Preparations have deservedly a very high reputation, and are all largely used."

Liquor Pepticus (Benger).

An exceedingly active fluid pepsine, without disagreeable taste.

Dose.—One or two tea-spoonfuls with meals. In 4-oz., 8-oz., and 16-oz. Bottles.

Benger's Peptonised Beef Jelly.

A delicious quick restorative for Invalids and the Aged. In patent glass jars. No metallic contamination possible. Retail, 2s. each.

The *Lancet* says:—"It is a most valuable form of concentrated food."

The *London Medical Record* says:—"Invaluable for old people; also in convalescence with acute diseases."

A Physician writes:—"I feel I cannot express my gratitude to you sufficiently, as your Beef Jelly is the only thing my niece can retain, and it has certainly kept her alive for the last week."

Benger's Peptonised Chicken Jelly.

In similar glass jars. Retail, 2s. each.

The *Lancet* says:—"Mr. Benger's preparations are now so well known that all we need say of the sample before us is—that it is excellent. It has a delicate chicken flavour."

The *Medical Press* says:—"Few modern improvements in pharmacy have done so much as Benger's preparations to assist the physician in the treatment of the sick."

Benger's Preparations may be obtained through all Retail and Wholesale Houses and Shippers, or of the Manufacturers—

F. B. BENGER & CO., Ltd., Otter Works, Manchester.

TELEGRAPHIC ADDRESS:—"Benger's, Manchester."

PAPINE

THE ANODYNE.

Formula.—PAPINE is the Anodyne or pain-relieving principle of Opium, the narcotic and convulsive elements being eliminated. One fluid drachm is equal in Anodyne power to $\frac{1}{4}$ grain Morphine.

Indications.—The acute stage of all inflammatory diseases (Coryza, Bronchitis, Pleurisy, Peritonitis, Enteritis, Dysentery, etc.), Neuralgia, Convulsions, Colic, After-Pains, Dysmenorrhœa, Headache, Asthma, Syphilitic and Rheumatic pain, and pain of any kind—a safe opiate for children. It has less tendency to cause Nausea, Vomiting, Constipation, etc., than any other preparation of Opium.

Dose.—For adults, one teaspoonful; for children under one year, 2 to 10 drops.

PRICE—Half-Pound Bottle, 4s. 6d.

The usual discount to Medical Men requiring it for their own use or for dispensing.

BATTLE & CO., St. Louis.

GENERAL DEPOT FOR GREAT BRITAIN

ROBERTS & CO.,
76 NEW BOND ST. LONDON, W.

"MALTINE," the original extract of malt prepared by the vacuum process, differs from the bulk of malt extracts that flood the market in the following important particulars. It is prepared from the choicest malted Barley, Wheat, and Oats, and contains the whole of the valuable nutritive and digestive properties that by the most elaborate machinery and processes can be possibly extracted from our most important cereals. The ordinary malt extract contains the merest trace of any digestive principles, whereas **"MALTINE"** is unequalled in its proportion of diastase.

While it has been accorded the first place in the list of malt extracts by reason of its richness in diastase, many physicians and scientific chemists attach equal importance to **"MALTINE"** regarded as a Food. In the preparation of **"MALTINE"** it is designed not only to present a starch-digesting agent of unexampled activity, but it is sought to conserve in the fullest measure the recognised nutritive constituents of the best malt. This has been done, with the result that **"MALTINE"** contains a large amount of the carbohydrates—dextrin and maltose—and the phosphates and albuminoids derived from malting the choicest grain, the great therapeutic value of which is largely due to the assimilable condition in which they are presented in **"MALTINE."**

Apart from its exceptional richness in Diastase and Nutritive Properties, **"MALTINE"** distinguishes itself from the other malt extracts by a convenient semi-liquid consistence, an attractive amber colour, and agreeable flavour.

As a palatable Concentrated Food and an active Digestive Agent, **"MALTINE"** has rendered very useful service, and is one of the most frequently employed auxiliaries in general practice.

"In diastasic power **"MALTINE"** is superior to the best extracts of malt I have ever seen."—Dr. STUTZER, Director of the Imperial Agricultural Chemical Laboratory for Rhenish Prussia.

"Clinical experience enables us to recommend it as a nutritive and digestive agent, in virtue of its albuminoid contents and its richness in phosphates and diastase."—BRITISH MEDICAL JOURNAL.

"MALTINE" WITH CASCARA SAGRADA

"MALTINE" is undeniably an ideal vehicle for the administration of Cascara Sagrada. The pleasant flavour of the **"MALTINE"** successfully modifies the bitter taste of the Cascara Sagrada, and in this combination the valuable characteristics of the drug are presented without any of the undesirable features.

*In Prescribing, kindly specify **"MALTINE COMPANY."***

WE SHALL BE PLEASED TO SUPPLY SAMPLES FREE OF CHARGE AND CARRIAGE PAID TO MEDICAL MEN.

Re PHENACETINE.

IMPORTANT WARNING TO MEDICAL MEN.

As discoverers and original makers of this **safe and valuable antipyretic** we consider it to be our duty to **warn** the Medical Profession that an adulterated substance is now on the market, and is being sold as genuine Phenacetine. (*Vide* current Chemical and Pharmaceutical periodicals). Our name is so well known in connection with this product, that, for our reputation's sake we are compelled to issue this notice.

Medical Men can protect themselves and their patients, and can rely upon obtaining a thoroughly pure product by adding the name **BAYER** when prescribing Phenacetine.

PHENACETINE-BAYER

is the pure and original product; the name is a guarantee of purity. Phenacetine-Bayer is put up in 4, 5, 8, and 16 grain tablets, as well as in the powder and crystal form.

Samples and literature can be obtained on application to the Wholesale Depots for all Bayer's Pharmaceutical Specialities

THE BAYER COMPANY, Limited,

'SOMATOSE'

THE BRITISH SOMATOSE Co., Ltd., has been formed for putting before the public in a prominent manner the recently discovered invalid food — **SOMATOSE** — A **NUTRIENT MEAT POWDER** — almost tasteless and odourless. It can and does put life and strength into the weakest invalids and those whose condition precludes the use of ordinary foods. It is not a Patent Medicine or a drug, but a food in a form never before obtainable.

SOLD BY ALL CHEMISTS.

The BRITISH SOMATOSE Co., Ltd., 165, Queen Victoria Street, London, E.C.

Thyroid.

To name the affections in which the Thyroid treatment has been tried would necessitate the enumeration of a long list of pathological conditions.

It is a medium of the first importance in Myxœdema, Cretinism, Goitre and Obesity. It is of great value in Acute and Chronic Melancholia and Acute Delirium. The results following its employment in Psoriasis, Scleroderma, Eczema, Tetany, and certain phases of Insanity, and in retarded development of children, have been such as to warrant further experiment.

Armour's Desiccated Thyroid Thyroid Tablets and Elixir Thyroid.

are carefully made from selected material, and may be depended upon in all cases where the Thyroid treatment is indicated.

ARMOUR & COMPANY (Chicago), LONDON, E.C.

Will be pleased to send Samples of any of their Laboratory Products to Physicians interested, with Pamphlets.

CONTREXÉVILLE

Be Careful to specify:

SOURCE
DU

PAVILLON

GOUT, GRAVEL, DIABETES, ARTHRITISM

(Diuretic, Tonic, Digestible)

The Contrexéville Mineral Water (Pavillon SPRING) is a diuretic and laxative, a tonic, a stimulant, and aid to digestion. — It acts upon the secret mechanism of nutrition, as is proved by its influence in checking the production of uric acid and glucose: it favourably modifies those morbid processus of biological chemistry which result in the accumulation of uric acid in the blood, inducing the phenomena of gout. — It facilitates the elimination of urinary deposits, by contracting the ducts containing them and increasing the quantity of liquid by which these vessels are flushed. — It assists the cicatrization of the inflamed mucus of the urinary organs, and helps to restore the normal acidity of the urine; facilitates the flow of the bile, by causing contraction of the biliary ducts and the expulsion of calculi; and is invaluable in the treatment of congestion of the liver.

FALIÈRES' PHOSPHATINE.

The Ideal Food for Infants and Children.

REGISTERED TRADE MARK, No. 177,079,

"OSPHATINE."

Under the influence of FALIÈRES' PHOSPHATINE Children soon acquire a robust constitution, teething is facilitated, the mineral strengthening and building up of the bones is assured, and diarrhoea but very rarely occurs.

THE LANCET, of 8th October, 1898, in its Analytical Report of PHOSPHATINE, says:—"Added to milk it affords a food admirably adapted for the requirements of infants. Phosphatine, in fact, supplies just those important elements in nutrition upon which the proper growth and development of infants so much depend."

SAMPLES, with DESCRIPTIVE PAMPHLET, SENT FREE to the PROFESSION on application to

FALIÈRES' PHOSPHATINE AGENCY, 64, Holborn Viaduct, LONDON, E.C.

We shall be pleased to send gratuitously some of the PHOSPHATINE to the Hospitals for Poor Children and to the Poor recommended to us by Medical Men.

THE ORIGINAL PREPARATION.

REPORT OF "THE PRACTITIONER."

"Experience has shown this preparation to possess the same efficacy as Santal Oil itself. It mixes perfectly with water and has a taste by no means disagreeable, in which particular it contrasts very favourably with the ordinary mixture it is intended to replace."

To ensure obtaining this preparation, please write: "*Liq. Santal Flav. c. Buchu et Cubebâ (Hewlett's).*"
Price 10s. 6d. per lb. packed, for dispensing only, in 22, 40, and 90-oz. Bottles.

INTRODUCED AND PREPARED ONLY BY

C. J. HEWLETT & SON, Wholesale Druggists, 40, 41 and 42, Charlotte St., London, E.C.

Cadbury's

cocoa

Absolutely Pure therefore Best.

CADBURY'S Cocoa, on the testimony of the *Lancet*, "represents the standard of highest purity." It is entirely free from all foreign substances, such as Kola, Malt, Hops, &c., nor is alkali used to darken the colour (and so deceive the eye).

CADBURY'S Cocoa is very easily digested; it imparts new life and vigour to those of delicate constitution, and can be safely and beneficially taken by the robust and delicate alike. For Children it is an ideal beverage, promoting healthy growth and development in a remarkable degree.

*Always insist upon having CADBURY'S (sold only in Packets and Tins),
as other cocoas are often substituted for the sake of extra profit.*

SYR. HYPOPHOS. CO. FELLOWS

CONTAINS THE ESSENTIAL ELEMENTS of the Animal Organisation—Potash and Lime;

THE OXIDISING AGENTS—Iron and Manganese.

THE TONICS—Quinine and Strychnine;

AND THE VITALISING CONSTITUENT—Phosphorus: the whole combined in the form of a syrup, with a

SLIGHTLY ALKALINE REACTION.

IT DIFFERS IN ITS EFFECTS FROM ALL ANALOGOUS PREPARATIONS; and it possesses the important properties of being pleasant to the taste, easily borne by the stomach, and harmless under prolonged use.

IT HAS GAINED A WIDE REPUTATION, particularly in the treatment of Pulmonary Tuberculosis, Chronic Bronchitis, and other affections of the respiratory organs. It has also been employed with much success in various nervous and debilitating diseases.

ITS CURATIVE POWER is largely attributable to its stimulant, tonic and nutritive properties, by means of which the energy of the system is recruited.

ITS ACTION IS PROMPT; it stimulates the appetite and the digestion, it promotes assimilation, and it enters directly into the circulation with the food products.

The prescribed dose produces a feeling of buoyancy, and removes depression and melancholy; hence the preparation is of great value in the treatment of mental and nervous affections. From the fact, also, that it exerts a double tonic influence, and induces a healthy flow of the secretions, its use is indicated in a wide range of diseases.

THE FELLOWS MEDICAL MANUFACTURING CO., LTD.,
94, Paul Street, Finsbury, London, E.C.

MISTURA CERII COMPOSITA

MACKEY'S ORIGINAL PREPARATION.

TONIC, STOMACHIC, AND ANTI-DYSPEPTIC.

Composition—Ceri Am. Citrat., Tinct. Nux Vomica, Acid Hydrocyanic, P.B., and Spt. Chloroform.

This preparation has been made in accordance with the prescription of a most eminent Physician, and it is found that the Cerium and the other sedatives are presented in a form which produces the highest beneficial action which the ingredients are capable of giving.

It has been much used, with marked advantage, in Chronic Intestinal Eruption, and in irritable Dyspepsia, attended with Gastrodynia, Pyrosis, and Chronic Vomiting. In obstinate Vomiting, especially in the Vomiting of Pregnancy, Mist. Cerii Co. seldom fails.

In Bottles, 2s. 9d., 5s., and 9s. each.

INTRODUCED AND PREPARED ONLY BY

MACKEY, MACKEY & CO., LTD., Wholesale Druggists and Manufacturing Chemists,
175 GRANGE ROAD BERMONDSEY, S.E.

OREZZA.

This remarkably fine Tonic Mineral Water issues from a Spring 1968 feet above sea level at Orezza, in the Island of Corsica, is bottled at the spring, and is certified to be absolutely free from microbes.

It was known and used in France during the last century, but came prominently under the notice of the Medical Profession in that country in the year 1853 through a report published by the Academy of Medicine of Paris of an analysis by Dr. Foggiale, a renowned Professor of Chemistry, confirmed by Mons. Ossian Henri, and by numerous physicians and chemists.

Since then the water has been extensively used in France and her Colonies and in Egypt and South America, as well as in Spain and other European countries and is considered to be the best of all Mineral Waters in cases of Anæmia, Chlorosis, Leucorrhœa, and all diseases arising from impoverishment of the blood, and has been found of the utmost value in Gastralgia, Dyspepsia, and affections of the Liver and Spleen caused by residence in tropical climates, and in Debility after long illness, and in Intermittent Fever. It is certified to contain—

IRON, Carbonate and Protoxide
SODIUM, Carbonate.

MAGNESIUM, Carbonate.
CALCIUM, Carbonate.

POTASSIUM, Chloride.
SODIUM, Chloride.

With traces of Manganese and Arsenious Acid, and has sufficient "free" Carbonic Acid to cause it to effervesce slightly on being poured into a tumbler.

It is the most palatable and digestible of all strong ferruginous waters, and with the addition of a little Lime Juice or Lemon Syrup makes a pleasant table beverage

WHOLESALE ORDERS TO BE SENT TO THE IMPORTERS—

PIPERIDINE TARTRATE. The New Uric Acid Solvent.

PIPERIDINE possesses uric acid solvent powers greatly superior to any other known substance, and, in combination with tartaric acid forms a pleasant salt, which may be taken in 5 to 15 gr. doses in all wines, mineral waters, &c., *ad libitum* or before meals.

See *LANCET*, July 28, 1895; *BRITISH MEDICAL JOURNAL*, February 27, 1897; *CENTRALBLATT DER PHYSIOLOGIE*, Bd. III., p. 434.

GUAIPEROL. (Guaiacolate of Piperidine.)

THIS REMEDY FOR PHTHISIS which combines the antiseptic properties of Guaiacol with the vascular tonic action of Piperidine has been tried with considerable success at the London and other Chest Hospitals. It has not the irritant properties of Guaiacol, and possesses many advantages over the latter substance and preparations of the same now on the market. Dose from 10 grs. twice a day, preferably in cachets after meals.

See *BRITISH MEDICAL JOURNAL*, January 16, 1897, and July 16, 1898, &c.

ERYTHROL TETRA NITRATE (TURNER).

The New Vaso-Dilator.

The difference between the action of Erythrol Tetra Nitrate and other Vaso-Dilators consists mainly in the fact that the vaso-dilatation produced by it is of a *much more permanent* nature; the administration of gr. 1 by the mouth causing a reduction in arterial tension lasting for more than five hours.

See *BRADSHAW LECTURE*, 1895; *ORONIAN LECTURE*, 1896; *BRITISH MEDICAL JOURNAL*, April 10, 1897, January 1 and January 8, 1898, &c.

The "D.C.L." Malt Extract

which was shown at the **BRITISH MEDICAL ASSOCIATION** Meeting in Edinburgh this year is guaranteed to be a perfectly pure Extract made from Malted Barley only. The Grain used is chosen with the greatest possible care, and as The Distillers Co., Ltd., purchased over **400,000 quarters** during last year, it must be apparent that their knowledge is exceptional. Malting is conducted entirely on their own premises, the machinery employed is of the most perfect description, and every lot made is carefully tested before being bottled.

THE "D.C.L." MALT EXTRACT can be obtained combined with Cod Liver Oil. Medical Men can have Samples sent free on application, and are respectfully urged to prescribe "D.C.L." to their patients, otherwise very inferior makes may be supplied.

There are several older makes of Malt Extracts now before the public which are valueless in dyspepsia as they are utterly innocent of Diastase and are artificially thickened with Dextrine.

"D.C.L." MALT EXTRACT is reliable in every particular.

Sole Makers; THE DISTILLERS CO., Ltd., Edinburgh.
MANUFACTURERS OF THE CELEBRATED "D.C.L." YEAST

ROBINSON'S Original CONCENTRATED WATERS.

ESTABLISHED 1855.

When diluted in the proportion of one part to 40 parts of water at 80° temperature, they faithfully represent the Medicated Waters of the British Pharmacopœia. They are always of uniform strength, and will keep good any length of time in any climate.

A Hint to Doctors.

As a Demulcent and Emollient of superlative merit Liquorice has long held a prominent position. In troublesome coughs and colds, with soreness or dryness of the throat, its use is always accompanied with benefit and ease to discomfort or pain. Doctors who wish to recommend their patients this preparation cannot do better than try

HILLABY'S LIQUORICE PELLETS.

They are absolutely pure and unadulterated; pleasant to take; and unequalled for quality

INSIST ON HAVING HILLABY'S.

Of all Chemists, 1 oz. Tins, 6d.; or a Free Sample will be sent to anyone mentioning this paper.

SPÉCIALITÉ
KEYLESS
LEVER.**With Independent Fly-back
Centre Seconds and
Minute Recorder.*

Dial, showing "numerals" as engraving (or Roman figures if preferred). The movement is Chronograph, with Fly-back Independent centre seconds. The Balance is adjusted for changes of temperature and climate, with Breguet Spring for resisting the jerks and shocks caused by riding, driving, rowing or jumping. Warranted for five years.

Sent by Registered Post,
Price £3 17s. 6d.
Abroad 2/6 extra.

IMPORTANT. —

For recording time in fifth parts of seconds up to 30 minutes. Pressing the button at top, the large centre seconds hand starts revolving and recording the seconds in fifth parts (independently of the ordinary watch movement), and working automatically upon the small minute dial at top, causes the small hand to register a minute each time the large centre seconds hand reaches Zero (300). Pressing the button a second time, both those hands come to a dead stop (without interfering with the time part of the watch), thus registering to the fifth part of a second the exact time that has elapsed. Pressing the button a third time, both the centre seconds and minute recording hands fly back to Zero, and are ready to start again.

MORRIS GOLDSTEIN,

24 Oxford Street, London, W.
10-16 BLINDING AVENUE, BRIGHTON, S.W.

FOR VARICOSE VEINS AND WEAKNESS.

Very superior **SURGICAL ELASTIC STOCKINGS** and **KNEM-OAPS**, on a new principle, pervious, light in texture, and inexpensive, yielding an efficient and unvarying support, under any temperature, without the trouble of lacing or bandaging. Likewise a strong, low-priced article for hospitals and the working classes.

Abdominal Supporting Belts for ladies' use before and after accouchement, are admirably adapted for giving adequate support with extreme lightness—a point hitherto little attended to.

Instructions for measurement, and prices on application, and the articles sent postage free from the manufacturers.

T. HAWKSLEY,**OTACOUSICAL CATALOGUE.**

Just Published.

A Profusely Illustrated and Descriptive Catalogue (80 pages), of all forms of hearing trumpets, resonators, and other apparatus, to assist the deaf, including extracts from Sir W. Dalby's paper "On the Preservation of Hearing." No catalogue so complete and comprehensive of every kind of aid to help the deaf when beyond the reach of medical art has yet been presented to the profession. Many new instruments, electrical and otherwise, are described. Copy will be sent post free on receipt of card.

INFANT WEIGHING MACHINES—

or Pèse Bebe; consists of a spring balance, with 6-inch dial, surmounted by a hollow wicker tray large enough to hold an infant up to one year old. The apparatus is very firm, all that is necessary being to lay the infant on the tray, and as soon as it is free from the nurse's hands observe the weight indicated on the dial. Charts are provided with divisions for the weight every week up to 52 weeks, and a normal curve of healthy, natural growth is given to show how to record the weighings.

FRACTURED PATELLA.—A WALK-

ing splint for use after union of the upper and lower fragments. The steel joints at the sides are so made that the degree of bending at the knee joint can be gradually increased. In case of a slip the knee cannot bend more than is allowed by this adjustable stop, and thus prevents over-stretching of the newly-formed ligament. To assist extension of the limb a strong elastic band joins the upper and lower parts of the splint. This also is adjustable, and greatly assists the weakened quadriceps muscles in walking; as used at Guy's, the Middlesex, and St. Bartholomew's Hospitals. In the usual form, for twelve months' use, the splint is about 12 inches long, but for permanent disablement it is better to carry a light support to the heel of the foot.

FLOATING KIDNEY CONTROLLED

as follows: 1st, by a light spring passing round the waist or hips. In front is an inflating pad to keep the kidney in place; 2nd, a closely-fitting belt with an adjustable air pad to control the kidney; 3rd, adjustable air pads for attaching inside the corsets of ladies. By one or other of these methods almost any kidney may be so supported as to give its owner no trouble.

BELTS.—ABDOMINAL FOR

general support to the abdominal walls and for obesity. The support given by the above enables the wearer to walk more erect, breathe more freely, and ride with comfort. The uncomfortable swinging of the abdomen whilst hunting is remedied and in case of a fall the chances of internal injury to the rider are much lessened, no understraps required. Made in various materials according to the work required of them or the climate. Required circumference of pelvis, just below hip and for what object and country required.

STERILIZATION OF MILK—AT

home. For infants and invalids. Bottles fitted with automatic valves. Illustrated pamphlet of apparatus and prices post free. "Not the least of their many good points is the readiness with which people learn to use these sterilizers. The credit must be assigned to the simplicity of the apparatus." Illustrated pamphlets free on application.

WEIGHING MACHINES FOR

Adults, with or without Stadiometer.—These machines weigh accurately up to 20 stones, and are divided to 4 oz.; have been constantly used for thirty years in schools, hospitals, and prisons for many thousand weighings yearly, and are still as good as ever; will turn with a post-card; nothing to get loose or out of order; and a fine adjustment enables the owner to make any correction necessary from wear, painting, &c. The stadiometer measures heights to 6 feet, which latter are divided into inches and tenths, or centimetres and millimetres, or both, vide Dr. C. Roberts on anthropometry; will fit any corner of the consulting room. Recording cards provided for weight, height, and chest measurement.

357, OXFORD STREET, W.

HUXLEY'S ABDOMINAL BELTS,

for Pregnancy, Obesity, Umbilical Hernia, and
general Abdominal Weakness,

(THE INVENTION OF VALLAISE),

are made expressly in all cases, the material being selected with due regard to the requirements of each case. Made of cotton and silk, each of best quality only.

MEASUREMENT REQUIRED.—Circumference at a, b, and c, depth from a to c stating sex and any other particulars that can be given.

EDWARD HUXLEY, 13, Old Cavendish Street, Oxford Street, W.

BAILEY'S PATENT ABDOMINAL BELTS.

For General Support, Pregnancy, Prolapsus Uteri, Umbilical Hernia, Uterine Support, Laparotomy, Floating Kidney.

Over 16,000 of these Belts have been sold. The only ones which will not ruck up.

No Belt which is cut in one piece can give efficient support to the abdominal walls without undue pressure on the hips.

They are so constructed that the part which surrounds the abdomen is distinct from that which surrounds the hips, so that each part can be adjusted properly, and as the size of the hips varies very much in different persons, this is a matter of the first importance.

The Greatest Improvement ever Effected.

Competent Female Assistants attend many of the leading London Hospitals.

EVANS & CO.'s

SPECIAL NOTICE TO THE PROFESSION.

During the past few years our connection with the Medical Profession has more than DOUBLED, owing to the many recommendations, and also to the fact that we spare no effort to give our customers every satisfaction.

Our NEW GOODS for SUMMER are now ready.

OPINION OF THE PRESS.—*St. James's Budget* says: "A house which can be depended upon to use excellent materials. They have many military men amongst their customers, which is an index of punctuality and good fit."

FROCK COAT

(par excellence) in Vicuna or Cheviot, £3.

(Same as charged by credit tailors for £5).

We have now secured some very special materials suitable for Hospital and Surgical wear, and can supply good wearing Trousers, made to order, at 14s. 6d. and 18s. 6d., and Frock Coats in two weights, thin and medium, at 45s. Lounge Suits from £22 10s.

EVENING DRESS SUIT

(Silk Lined), £4 4s., £5 5s., £6 6s., £7 7s.

HUNTING AND RIDING BREECHES, KNICKERBOCKER BREECHES.

These require skill in cutting and making. Mr. EVANS superintends every pair and guarantees satisfaction, well knowing that nothing is more uncomfortable than a pair of ill-fitting breeches.

SPECIALITIES.—Good Fit, First-class Workmanship, Details accurately carried out to individual wants, and Reasonable Charges.

INSPECTION INVITED.

Medical Gentlemen who have found it difficult to get a good fit are invited to give us a trial order. Those living at a distance and unable to call, can rely on having a perfect fit by sending garments as guide.

EVANS,

77, GREAT PORTLAND STREET, LONDON, W.,
and 20, KING'S ROAD, BRIGHTON.

IMPROVED INSTEP ARCH SOCK

HOLLAND'S PATENT.

"Most valuable for Flat-Foot."

British Medical Journal, November 10th, 1898:—"The INSTEP ARCH SOCK has been long and widely used, and the new form appears to embody a distinct improvement."

The Lancet, June 11th, 1898:—"The INSTEP ARCH SOCK introduced by Mr. Thomas Holland is a useful appliance."

The Sock is worn inside the Boot. A tracing of the foot is the best guide for size.

Price 4s. single. 6s. 6d. per pair. Children's 5s. 6d. per pair.

HOLLAND, 40, South Audley Street, London, W.

THE "CONSULTANT."

A Magnificent Repeating Watch.

SPECIALLY MANUFACTURED FOR LEADING PHYSICIANS AND PURPOSES OF PRESENTATION

STRIKES THE HOURS
AND QUARTERS ON
A BEAUTIFUL
MUSICAL GONG.

SUPPLIED LARGELY
TO MEDICAL
SOCIETIES FOR
PRESENTATIONS.

This magnificent and princely watch has found a large sale amongst gentlemen in leading positions throughout the United Kingdom and the Colonies. Until H. WHITE stepped in with his famous system of supplying the public direct from the factory—which has so completely revolutionized the watch trade—a watch of THIS CLASS WAS QUITE OUTSIDE the reach of most people, other than the most wealthy. But under H. WHITE'S beneficent system—by which a medical man can now purchase a SINGLE watch DIRECT from the MANUFACTURER at the same price as an ordinary retailer himself has to pay—a saving of quite 50 PER CENT. IS ASSURED TO EVERY PURCHASER.

The "CONSULTANT."—A Magnificent Keyless 1-plate Lever Independent Centre-Seconds Repeater Hunter. The movement is of the highest type and finish, jewelled in 30 actions. Fitted with Breguet Hair Spring, and real cut compensated expansion balance, which guarantees the watch keeping correct time in any climate, whether at the Tropics or the North Pole. Specially heavy 18 c. Gold Hunting Cases with white enamel dial so divided as to indicate the tiniest intervals of time—to the 300th part of a minute. The chronograph or centre-seconds finger may be controlled and brought to a dead stop and sent back to zero by a simple pressure of the small disc which may be noted on the case above the figure XII without in any way interfering with the time-keeping portion of the movement. This independent action renders this remarkable

A VALUABLE HINT.

This watch would, if purchased from a West End London jeweller, cost not less than double H. WHITE'S price. The advantage to be gained in dealing direct with the manufacturer is obvious.

watch invaluable for annotation, scientific or experimental work. By sliding the small spring at the side of the case, it can be made to strike the hours and quarters at pleasure, on a beautiful cathedral gong.

The advantage and charm of possessing a watch of this description, so entirely unique and distinct from the ordinary watches worn, are quite apparent. Many of them have been purchased by medical societies for presentation to retiring members, and have met with their entire approbation. A watch of this type is truly a magnificent investment, since even after years of wear it could always represent the amount expended in its original purchase.

H. WHITE'S Price £21 10s. truly worth £30 to £40.

Simple in Construction, Accurate in Performance.

ONE OUT OF THOUSANDS.—Dr. A. E. O., District Surgeon, Richmond, Natal, S. A., writing under date January 26th, 1898, states:—"I delayed acknowledging the receipt of the gold watch sent to my order until I had tested it. I am very pleased indeed with it in every respect—appearance and timekeeping are both excellent. Will you kindly send me, etc., etc."

LADIES' AND GENTS' GOLD AND SILVER WATCHES FROM 25/- TO £30.

APPROBATION.—The above watch, or any selected from catalogue, will be sent for inspection to any reader of this Journal on receipt of references. No obligation to purchase would exist. **WEATHER**, should the goods fail to please. (Medical practitioners preferred).

A GUIDE BOOK full of valuable hints, and containing full descriptions of H. WHITE'S watches and jewellery will be sent to every gentleman who applies for one. It may save you many pounds.

Every watch sent at our risk to any part of the United Kingdom, carriage paid, on receipt of cheque, F.O.O., draft or notes. Colonial orders receive careful attention from one of the members of the firm. Foreign insured postage, British Possessions, 2/6 extra; others 5/-.

IMPORTANT.—No connection with any other Market Street firm. Only First Grade Goods supplied.

PRUDENTIAL
ASSURANCE COMPANY, LIMITED.

HOLBORN BARS, LONDON, E.C.

FOUNDED 1843.

INVESTED FUNDS - - - £33,000,000.

National Provident Institution
FOR MUTUAL LIFE ASSURANCE.

INVESTED FUNDS.....Exceed £5,250,000.
PAID IN CLAIMS.....Nearly £10,500,000.
The Profits are divided solely amongst the Assured.
Already Divided £5,400,000.

Endowment-Assurance Policies are issued, combining Life Assurance, at minimum cost, with provision for old age. The practical effect of these policies in the National Provident Institution is that the Member's life is Assured until he reaches the age agreed upon, and on his reaching that age the whole of the premiums paid are returned to him, and a considerable sum in addition, representing a by no means insignificant rate of interest on his payments.

Established 1842.

MAYTHORN'S RIPON BUGGY (Built in Two Sizes).

MAYTHORN'S RIPON BUGGY.

This handsome and fashionable Buggy is designed to obviate disadvantages present in almost all others. Being hung low its hood offers very little resistance to the wind, and egress is most easy. The hood comes well over the seat and gives thorough protection. Perfect balance is secured by a sliding seat. The price is most moderate, viz.,

Cob size, 50 Guineas cash, or three annual payments of £15 7s. 6d. each.

Horse size, 52 Guineas cash, or three annual payments of £15 2s. 4d. each.

Illustrated price list on application.

MAYTHORN'S DUCHESS CAR (BUILT IN THREE SIZES).

The shafts of this unique Car are successfully arranged in a special manner so as to form no obstacle to the entrance, and therefore only one step is necessary even in those suitable for full-sized horses.

Full particulars, photo, and prices on application to MAYTHORN, BIGGLESWADE.

THE CHIRI-PA' PATENT HYGIENIC CYCLE SEAT PAD

FOR LADIES.
Measurement required—
2 inches below waist.

PATENT No. 9540.

Prices, 5/6, 7/6, & 10/6 each.

This invention consists of a pad which is worn under the garments, and comes into direct contact with the hard saddle and prevents chafing or saddle soreness, and after effects of chill through riding.

The pad is scientifically and beautifully made, and after exhaustive trials has been proved to be perfect.

They are made in three qualities, for either Ladies or Gents, prices 5/6, 7/6, and 10/6 each. Obtainable from every first-class Ladies Outfitters, Stores, &c. If unable to obtain will be forwarded, post free, 3d extra, from Patentees.

St. Luke's Hospital,
London, E.C.

ESTABLISHED 1751.
This Hospital was established for the treatment of mental diseases of the middle classes. Preference is given to acute cases, and these are admitted either gratuitously or on payment of a weekly sum varying from 14s. to 30s., according to the circumstances of each. Patients are eligible for admission from any part of the United Kingdom. Forms of application may be had from, and enquiries addressed to, the Secretary, at the Hospital.
The Convalescent Establishment in connection with the Hospital is at St. Lawrence, near Ramsgate.

W. H. BAIRD,
Secretary.

Exeter City Asylum.

PRIVATE PATIENTS are admitted into this Asylum at a uniform rate of 25s. a week. This sum includes everything except clothing. For further information, printed forms of certificates, etc., apply R. L. RUTHERFORD, M.D., Medical Superintendent.
"The wards are in excellent order, bright and cheerful, and those occupied by the patients of the private class should attract many, whose means are limited, from all parts of England."—Extract from the Forty-eighth Report of the Commissioners in Lunacy.

THE MOAT HOUSE,
Tamworth, Staffordshire.**A HOME FOR NERVOUS AND MENTAL CASES.**

Stations, L. & N. West. and Mid. Railways.
The House stands in grounds of ten acres (within 5 minutes' drive of either station), and is devoted to the care and treatment of a few ladies suffering from nervous and mental disorders, who enjoy the comforts, privacy, and occupations of home life. Voluntary patients are received without certificates. For terms, etc., apply to the Resident Proprietor, B. HOLLIS, M.A.Camb., J.P.

KINGSDOWN HOUSE,
BOX, WILTS.

Country Licensed HOME for mentally afflicted invalids of the upper and upper middle classes. Voluntary patients (not under certificates) also received. The establishment is under the direct control of the Resident Medical Proprietor, assisted by his wife. Terms from 1½ guineas per week.—Apply to H. C. MACBRYAN.

ST. ANDREW'S HOSPITAL FOR MENTAL DISEASES, NORTHAMPTON.

FOR THE UPPER AND MIDDLE CLASSES ONLY.

President—The Right Hon. The EARL SPENCER, K.G.

The Institution is pleasantly situated in a healthy locality, one mile from the London and North Western or Midland lines, and 1½ hours only from London.
It is surrounded by more than 100 acres of pleasure grounds.

Great care is exercised in the classification of the patients according to their habits and different degrees of mental aberration, so that those who are quiet or convalescent may not associate with those whose minds are more affected.

Ample means of occupation and amusement are provided, including Cricket, Croquet, Lawn Tennis, and Archery. There are also Billiard Rooms, and large Recreation Hall and Theatre.

The terms vary from 25s. to £4 4s. a week according to the requirements of the case.

Patients paying higher rates can have Special Attendants, Horses and Carriages; and Private Rooms in the Hospital, or in detached Villas in the grounds of the Hospital; or at Moulton Park, a branch establishment, two miles from the Hospital.

There is also a Seaside House, to which Patients may be sent.

For further information apply to the Medical Superintendent.

BOREATTON PARK.

This Private Asylum, which was founded by the late W. H. O. SANKEY, M.D., F.R.C.P., for the reception of a limited number of ladies and gentlemen mentally afflicted, is now conducted on the same lines by his son, M. H. O. SANKEY, M.A., M.B., B.C.Cantab.

Dr. Burd, Newport House, Shrewsbury, M.D. and M.C.Cantab, Consulting Physician to the Salop Infirmary, and to the Salop and Montgomery Lunatic Asylum, &c., is Consulting Physician, and visits the House once a month, and oftener if required.

The mansion stands high, among handsomely laid out gardens in the midst of a picturesque deer park (about 70 head of deer are kept), and commands a magnificent view of Welsh mountain scenery.

Carriages, horses, lawn-tennis, golf, trout and other fishing are provided.

The Asylum is situated about ten miles from Shrewsbury, within easy distance of Baschurch Station, G.W.R., whither carriages can be sent at any time for visitors.

Letters and telegrams should be addressed to Dr. SANKEY, Boreatton Park, Baschurch, Salop.

SPRINGFIELD HOUSE PRIVATE ASYLUM, BEDFORD.

For Forms of Admission, etc., address DAVID BOWER, M.D., as above (Dr. B. attends at 5, Duchesse Street, Portland Place, W., on Tuesdays, from 3 to 4).

TERMS—TWO AND A HALF GUINEAS PER WEEK.
Vacancies will be announced as they arise.

THE RETREAT
Fairford, Gloucestershire.

[ESTABLISHED 1822].

A Licensed Home for the care and cure of Ladies and Gentlemen mentally afflicted. Special accommodation and carriage exercise provided. Pleasantly situated, with extensive grounds. Terms moderate.

Address—D. ILES, Res. Med. Proprietor

Barnwood House Hospital for
MENTAL DISEASES, Barnwood,

near Gloucester.

Exclusively for PRIVATE PATIENTS of the UPPER and MIDDLE CLASSES.

This Institution is devoted to the care and treatment of persons of both sexes at moderate rates of payment.

The terms vary according to the requirements of the patients, who can have private rooms and special attendants, or be accommodated in detached villas and in the branch convalescent establishment on the hills.

Under special circumstances the rates of payment may be greatly reduced by the Committee.

For further information apply to JAMES GAMES SOUTAR, M.B., the Medical Superintendent.

FIDDINGTON HOUSE,
MARKET LAVINGTON, WILTS.

This old-established Asylum (under new management), for Private Patients only, is pleasantly and healthily situated, and stands in about fifteen acres of pleasure grounds, gardens, &c. Every indoor and outdoor amusement provided for the patients, including billiards, cycling, and carriage exercise. Voluntary Patients or Boarders received without certificates. Railway station, Devizes, G.W.R.

For terms, &c., apply to the Proprietor or Medical Superintendent.

Telegrams: RILLY, Market Lavington.

OVERDALE ASYLUM

(late Clifton Hall), Whitefield, Lancashire.

Licensed for a limited number of PATIENTS of the upper and middle classes. It is beautifully situated in a retired neighbourhood, and has all the comforts of home life.—For terms, etc., apply to J. HOLMES, M.D., Resident Medical Superintendent.

THE HUGUENOTS,
East Hill, Wandsworth. ESTABLISHED 1874;
A HOME for Ladies suffering from Mental and Nervous Diseases. Boarders not under certificates also received for care and treatment. A mental Specialist visits. The house has large grounds and is healthily situated near several commons.—Resident Licensee, Mrs. LEECH.

TREATMENT OF MENTAL DISORDERS.**WEST MALLING PLACE,**
KENT.

For a limited number of Ladies and Gentlemen.

Terms, 2 to 5 guineas.

Telegraphic Address: ADAM, West Malling.

PRIVATE ASYLUM,

Near Armagh, Ireland. [ESTAB. 1824].
Licensed under Government Inspector's supervision, for the reception of Ladies and Gentlemen of the upper and middle classes suffering from

MENTAL AND NERVOUS DISEASES.
(Voluntary Boarders admitted).

For particulars apply to the Proprietors, Dr. J. GOWER ALLEN, J.P., and JOSEPH ALLEN, Esq.
Telegraphic Address: "Loughgall, Armagh."

"South Beacon," Hadlow
Down, Buxted, Sussex.

A HOME for the care of ten Mental Invalids (gentlemen only), requiring treatment away from their own homes, but who are not ill enough to be certified. Individual supervision, thirteen acres of garden and recreation grounds, suitable gentlemen companions and men servants provided. Mr. Harmer has had 15 years' experience in mental cases.—For full particulars apply to PHILIP H. HARMER.

ASHWOOD HOUSE, KINGSWINFORD, STAFFS.—Proprietors, Drs. H. G. PEACOCK and J. F. G. PIETERSEN. An old-established and modernised Institution for the Medical Treatment of Ladies and Gentlemen mentally afflicted. The house, pleasantly situated, stands in picturesque grounds, forty acres in extent, with a surrounding country noted for the beauty of its walks and drives. The climate is genial and bracing. Occupation, in-door and out-door amusements, and carriage and other exercise amply provided.—Terms range from 2½ to 6 guineas per week, inclusive, according to requirements as to accommodation, special attendance, &c.—Railway Stations: Stourbridge Junction (G.W.R.) 8½ miles; Dudley (L. & N.W.R.) 4 miles; Wolverhampton (G.W.R. or L. & N.W.R.) 7 miles. Intending visitors can be met at any of these stations.—For further particulars apply to Dr. PIETERSEN, Resident Medical Superintendent.

HAYDOCK LODGE, NEWTON-LE-WILLOWS, LANCASHIRE, is charmingly situated in a healthy and retired neighbourhood, midway between Liverpool and Manchester, about 2 miles from Newton-le-willows Station on the London and North Western Railway. It is a comfortably-furnished Country Mansion, especially adapted for the care and treatment of persons of unsound mind. Besides the use of the general sitting-rooms, &c., patients of both sexes can have private apartments and special attendants at moderate rates of payment. Information as to terms, &c., may be obtained on application to the Resident Medical Superintendent, CHARLES T. STREET, L.R.C.P.Lond., M.R.C.S.Eng., who attends at 51A, Rodney Street Liverpool, on Thursday from 2 to 4. Telegrams: "Street, Ashton-in-Makerfield." Telephone (National) "No. 3, Ashton-in-Makerfield." Visiting Physician—ALEXANDER DAVIDSON, M.D., F.R.C.P., Physician to the Liverpool Royal Infirmary.

WONFORD HOUSE HOSPITAL for the INSANE, near EXETER.—A Registered Hospital for the UPPER and MIDDLE CLASSES.—This Institution is situated in a beautiful and healthy locality, within a short distance of the City of Exeter. There is comfortable accommodation at moderate rates, both in the Hospital itself and at Plantation House, Dawlish, a seaside residence on the South Devon Coast, affording more privacy, with the benefit of sea-air and a mild and salubrious climate. Private rooms and Special Attendants provided if required. Voluntary Patients or Boarders also received without certificates. For terms, &c., apply to P. MAURY DEAS, M.B., M.S.Lond., Resident Medical Superintendent.

"PERITEAU."—A Private Asylum for five mentally afflicted Ladies conducted on the system of a private family, with an utter absence of anything that could remind the invalids that they are under care. A special feature of this establishment is the employment of ladies only as attendants, and numerically being one in excess of the patients. Medical Superintendent, E. W. SKINNER, M.D.—Address, Proprietress (Mrs. SKINNER, Senr.), "Periteau," Winchelsea, Sussex. Personal interview from 2 to 3.30 second Wednesday in every month.—33, Wimpole Street, Cavendish Square, W

FOR THE MEDICAL PROFESSION ONLY.

THE NEW ELECTRIC HOT-AIR BATH (GREVILLE SYSTEM.)

GIVES

Immediate Relief in Joint and Muscle Pains.

Gout
Rheumatism
Rheumatoid Arthritis
Enlarged and Stiffened Joints
Sciatica
Neuralgia
Neuritis
Lumbago
Passage of Gall Stones
Muscular Pains generally

Successfully
treated by
HOT AIR
produced by
Electricity

any previous knowledge of electrical science. The simple act of removing an ordinary incandescent lamp and the insertion of an adaptor or plug (to which is attached a flexible wire communicating with the Generator) in its place, being the only preliminary action required.

PHYSIOLOGICAL EFFECTS.

When treated with the larger machines, a free perspiration is produced all over the body, notwithstanding that only a portion of the body is actually in the heated chamber.

Elimination of the poisonous matter which causes the trouble is effected through the skin and kidneys; dilation of contracted arteries, securing permanent improvement of nutrition.

The body temperature is increased, thereby assuring better circulation of the blood, which is purified and cleansed.

In the opinion of several leading Physicians and Scientists, the inductive influence of the magnetic waves, arising from the electrically heated wires, is a factor of therapeutic importance in addition to the mere heat.

LONDON ESTABLISHMENTS.

FOR LADIES—31, Upper Berkeley Street, Portman Square, W.
FOR GENTLEMEN—32, Upper Berkeley Street, Portman Square, W.

PROVINCIAL ESTABLISHMENTS.

HARBOROUGH—The Royal Baths. BUXTON—The Buxton Hydre.
LEAMINGTON—The Pump Room. BATH—The Pump Room. Opened shortly.
DEWITTS—The Brine Baths. Opened shortly; also at
EDINBURGH, LEICESTER, OXFORD, and other towns.

SPECIAL ADVANTAGES of the GREVILLE SYSTEM

The Generators are especially designed for treatment of the Throat, Neck, Ear, Arm, Shoulder, Elbow, Hip, Leg, Knee, Spine, Stomach, Feet and Whole Body.

These Instruments are manufactured of Aluminium, the purest, cleanest and most suitable metal for such a purpose. The Hot Air is produced by passing Electricity through naked wires of high resisting and non-oxidising quality. The hot air so produced is absolutely pure and free from all products of combustion. The patient is either treated in his or her own bed, at his or her own residence, or on the comfortable couches provided at the Company's Establishments. The temperature in the Generators is easily controlled, and may be raised or lowered at will. The usual degree ordered by the medical man is 300 Fahr. and the bath is generally of forty minutes' duration. The patient is attended by a qualified nurse or bath man, and the instructions of the medical man are faithfully carried out.

EASE OF APPLICATION.

Simplicity in use of a Generator may be considered a special feature of the Greville treatment, whereby a nurse, or even an unskilled person, may, under Medical Supervision, employ the Generator with perfect safety without

Patients contemplating treatment, should seek the advice of their Medical Man, so that he may give his instructions to the nurse and bath attendant.

EMPEROR FREDERICK SPRING

(A Mineral Spring containing Soda and Lithia),

OFFENBACH AM MAIN, GERMANY.

Observations made in the Hospital of the University of Göttingen have proved that when the water of the Emperor Frederick Spring is taken the urine becomes more capable of retaining uric acid in solution. The use of the water to the extent required to bring about this result may be continued for a long time without producing any ill effects. It is therefore an excellent table beverage for all those who either have a tendency to the uric acid diathesis or suffer from its consequences, such as sandy deposit in the urine, gout, and formation of concretions. Special terms to Medical Men. Samples supplied gratis by all Wholesale Dealers in Mineral Waters, or forwarded direct from the Spring at Offenbach am Main.

ST. BEATENBERG,

The most successful Alpine Health Resort.

GRAND HOTEL VICTORIA, especially frequented by English families, is the only first-class Hotel, with every modern comfort, built in stone, with latest sanitary and heating arrangements, and in the centre—the best situation—of St. Beatenberg. Bath-rooms, shady terraces, pine woods, nice tennis-ground, &c., with exquisite lake, forest, and mountain scenery; magnificent panoramic views on the Lake of Thoun, Bernese Oberland, &c. A charming Residence for Change and Rest. Purest Air. The Hotel has its own spring, furnishing excellent water. Numerous mountain ascents, walks, and excursions for climbers and non-climbers. A mountain railway runs from Beatenbucht, the landing-stage for steamers on the Lake of Thoun. Good carriage route from Interlaken (two hours' drive). Post, telegraph, Protestant (English) and Catholic churches. Resident physicians. Excellent cooking. Moderate charges, and arrangements for prolonged stay.

Managed by the Proprietor, **THOS. UNGER-DONALDSON** (also of the Hotel Belmont, Montreux).
Telegraphic address: "VICTORIA, BEATENBERG."

Aberystwith, "The Biarritz of Wales,"

is highly recommended for invalids. It possesses the most equable temperature, its shore being swept by the Gulf Stream, and the S.W. breezes of the Atlantic. The drainage is perfect, and the town is supplied with the purest water from Plynlimmon. The late Sir James Clarke, M.D., says: "A fortnight in Aberystwith is equivalent to a month's residence in most watering places."

URIAGE-LES-BAINS

Mason University College,

Birmingham.

(With Queen's Faculty of Medicine.)

PROFESSORSHIP OF PHYSIOLOGY.

The Council invite applications for the above Professorship. The successful Candidate will be required to devote his whole time to the service of the College.

Applications, accompanied by fifty copies of testimonials, should be sent to the undersigned, on or before the 30th June, 1899.

Further particulars may be obtained from
GEO. H. MORLEY, Secretary.

St. Bartholomew's Hospital MEDICAL SCHOOL.

The post of ASSISTANT DEMONSTRATOR OF CHEMISTRY will be vacant at the end of the Summer Session. Full particulars can be obtained from the undersigned, to whom all applications must be forwarded on or before Saturday, 8th July.
JAMES CALVERT, M.D.
Warden.

Owens College, Manchester.

The Senate are prepared to appoint a SENIOR DEMONSTRATOR IN PHYSIOLOGY. The stipend is £150 per annum rising to £200. Applications should be made on or before July 3rd, to the Registrar, from whom further particulars may be obtained.

S. CHAFFERS, Registrar.

University College, Bristol.

PROFESSORSHIP OF PHYSIOLOGY.

The Council invite applications for the post of Professor of Physiology. Full particulars may be obtained on application. Candidates are requested to send in their applications, with testimonials, not later than Wednesday, July 5th.

JAMES RAFTER, Secretary.

Borough of Burton-upon-Trent.

MEDICAL OFFICER OF HEALTH.

The Town Council of Burton-upon-Trent invite applications from competent persons for the appointment of Medical Officer of Health for the District of this Borough who must devote the whole of his time to the duties of the office and engage not to carry on any private practice and to reside within the Borough.

Applicants must be legally qualified for the practice of medicine, surgery and midwifery, and in addition thereto must be registered in the Medical Register, under section 21 of the Medical Act, 1886, either as a holder of a diploma in Sanitary Science, Public Health, or State Medicine, or must have been during three consecutive years preceding the year 1892 a medical officer of a district or combination of districts with a population according to the last published census of not less than 20,000 or have before the passing of the Local Government (England and Wales) Act, 1888, been for not less than three years a Medical Officer or Inspector of the Local Government Board. The salary will be at the rate of £350 per annum, exclusive of authorised disbursements payable quarterly, and the engagement will be terminable on either side by three months' written notice expiring at any time.

The duties of the office will be those prescribed by part II. of the Order of the Local Government Board dated 23rd March, 1891. The gentleman appointed may be required to perform the duties specified in section 13 of the Sale of Food and Drugs Act, 1875, to analyse water and furnish qualitative and quantitative analyses, to test samples of petroleum, to have the internal management of the Borough Hospitals for Infectious Diseases and temporary places for the reception of the sick, and to perform such other duties relating to public health and sanitary matters as may from time to time arise, but a print of the general duties may be obtained on application to me.

Applications in writing stating the age, previous experience and qualifications of the applicant, endorsed "Medical Officer of Health," with not less than three recent original testimonials, which will be returned, must be delivered to the undersigned not later than Wednesday, the 28th day of June, next.

Canvassing the members of the Town Council personally or otherwise will disqualify a candidate.

By order,

Town Hall, T. N. WHITEHEAD,
Burton-upon-Trent. Town Clerk.
5th June, 1899.

Medical Men before applying

for any post as COLLIERY SURGEON in the County of Durham should read the warning given in the *Lancet* and *British Medical Journal* of March 4th, or apply to GRAHAM & SHEPHERD of Sunderland, the Secretaries to the County of Durham Medical Union.

Glasgow Corporation.

POLICE DEPARTMENT.

The Corporation of the City of Glasgow invite applications from persons having a knowledge of Bacteriological and Chemical Research to act as BACTERIOLOGIST in connection with the Health Department of the City.

The person to be appointed shall be required—

- (1) To devote his whole time to the duties of the office, and to act under the direction of the Medical Officer of Health.
- (2) To examine and report on such material as may be sent to the Medical Officer of Health for examination, and to direct the Bacteriological investigations at the Fever and Smallpox Hospitals; and
- (3) To carry on such other investigation as may be required in connection with questions of public health administration, and to perform such other duties under the Medical Officer of Health, as the Health Committee may from time to time direct.

The salary shall be at the rate of £350 per annum during the pleasure of the Corporation.

Candidates for the office must be competent bacteriologists, able to undertake chemical, microscopical, and bacteriological examination and analysis of water, air, soil, milk, tuberculous meat, diseased tissues, and pathological substances, and other examinations of a like nature.

Preference will be given to candidates holding medical qualifications, and having practical experience in the working and management of a public health laboratory.

Applications for the office, accompanied by copies of not more than six testimonials, must be lodged with the Subscriber not later than Friday, 30th June current.

JOHN LINDSAY,
Interim Clerk to the Corporation
(Police Department).

City Chambers, Glasgow,
1st June, 1899.

The General Infirmary at GLOUCESTER and the GLOUCESTERSHIRE EYE INSTITUTION.

There is a vacancy for a PHYSICIAN on the acting medical staff of this Institution.

By the rules of the hospital "all the physicians shall be Graduates in Medicine of one of the Universities recognised by the Medical Council of the United Kingdom, or Fellows or Members of the Royal College of Physicians of London, or Fellows of the King and Queen's College of Physicians of Ireland, or Fellows of the Royal College of Physicians of Edinburgh."

Candidates should send in their applications, diplomas and testimonials, under cover to the Secretary on or before Wednesday, the 5th day of July next.

Members of the acting medical staff are appointed by the Election Committee.

HENRY P. PIKE,
Secretary.

Gloucester,
May 25th, 1899.

St. Marylebone General

June, 1899.

Bradford Poor-law Union.

TWO RESIDENT ASSISTANT MEDICAL OFFICERS.

Wanted, two Resident Assistant Medical Officers for the hospitals and workhouse of the above Union. A Senior, at a salary of £125; and a Junior, at a salary of £100, with prescribed rations, apartments, and washing. They must possess a double qualification, and be registered under the Medical Acts. They must be unmarried men, and must devote the whole of their time to the services of the Union, under the direction of the Visiting Medical Staff and the Guardians. Each appointment will be for one year.

Applications, stating the post applied for, and giving age, and full particulars of experience and qualifications, accompanied by testimonials of character and ability, also diplomas, to be sent to me at the Poor-law Offices, 23, Manor Row, Bradford, before 10 o'clock on Monday, the 3rd July next.

Poor-law Offices, THOS. CROWTHER,
22, Manor Row, Bradford, Clerk to the Guardians.
June 14th, 1899.

Resident House Physicians.—

Vacancies having occurred in the HOSPITAL FOR CONSUMPTION AND DISEASES OF THE CHEST, those gentlemen desirous of becoming candidates for the vacant offices are requested to send in their applications, with testimonials, on or before Wednesday, June 28th, and to attend the Medical Committee on the following Wednesday, July 6th, at 4 o'clock. Testimonials as to moral characters, as well as to medical qualifications, are required.—Further particulars may be obtained at the Hospital.

WILLIAM H. THEOBALD,
Brompton, 6th June, 1899. Secretary.

Royal Portsmouth Hospital.

Wanted, an ASSISTANT HOUSE SURGEON, duly qualified and registered. Salary at the rate of £50 per annum, with board, lodging, etc. He will be eligible for the office of Senior House Surgeon when a vacancy occurs. Applications with testimonials to be forwarded before July 6th, addressed to

J. A. BYERLEY,
Secretary.

Seamen's Hospital Society.

The Committee of Management invite applications for the following appointments to fill vacancies on the staff of their Branch Hospital in the Royal Victoria and Albert Docks, E., and in connection with The London School of Tropical Medicine:—

One PHYSICIAN to IN-PATIENTS.
One PHYSICIAN to OUT-PATIENTS.

By a by-law of the Society candidates for the offices of Physician must be bachelors or doctors of medicine of a University in the United Kingdom and fellows or members of the Royal College of Physicians of London.

By a resolution of a Special Court of Governors of the Corporation, the above by-law has been suspended in order that candidates qualified to practice as physicians may be elected though not possess the full above-mentioned qualifications on condition that within 18 months of their election they obtain these qualifications or cease to be officers of the Society.

Opportunity will be given to the elected officers to give clinical lectures in the wards, and they will as occasion allows be offered chairs on the teaching staff of the London School of Tropical Medicine. The elected officers will be members of the newly-constituted Medical Council, which will advise the Committee of Management of the Seamen's Hospital Society on matters of medical administration; they will also be eligible for election as Members of the Tropical School Committee.

The elected candidates will be appointed for 12 months, but will be eligible for re-election.

Applications, with copies of testimonials, to be sent in on or before the 10th of July to the undersigned, from whom further particulars can be obtained.

By order,
P. MICHELLI,
Secretary.

Seamen's Hospital Society,
Greenwich, S.E., 16th June, 1899.

Manchester Royal Infirmary.

RESIDENT SURGICAL OFFICER.

The Board of the Manchester Royal Infirmary are prepared to receive applications for the above appointment.

Applicants must not be less than 25 years of age, and unmarried. They must be registered and hold a medical and surgical qualification.

The appointment is for twelve months, but the rules provide that the holder of the office is eligible for re-election. Salary £150 per annum, with board and residence.

Applications, with testimonials, and stating age, to be sent, directed to the undersigned, on or before the 6th July next.

By order,
W. L. SAUNDER,
General Superintendent and Secretary.
Manchester Royal Infirmary,
June 19th, 1899.

Manchester Children's HOSPITAL.

Wanted, for the dispensary of the above Institution, a MEDICAL OFFICER. He must be doubly qualified and on the medical register, and shall devote his whole time to the service of the charity. His duties consist in assisting in the out-patients' department and in visiting patients at their homes. Salary £180 per annum.

Applications, accompanied by not more than six copies of testimonials, and stating age, to be sent to the Secretary, Children's Dispensary, Gartside Street, Manchester, on or before June 29th. The appointment will be made on Thursday, July 6th. Duties to commence on August 1st.

North-West London Hospital,

Kentish Town Road.

Applications, with copies of testimonials, for the office of ASSISTANT RESIDENT MEDICAL OFFICER are invited to be sent to me not later than Tuesday, July 4th, 1899.

Salary at the rate of £50 per annum. The junior officer will be eligible for election to the senior post when vacant.

Candidates, who must be duly qualified and registered, should attend a meeting of the Medical Committee on Thursday, July 6th, at 5 o'clock. No allowance for travelling expenses.

ALFRED CRASKE,
Secretary.

Birkenhead Borough Hospital.

A Special General Meeting of the Committee will be held under Law xv. at the hospital on Thursday, 4th July, at 5.30 p.m., for the purpose of electing an HONORARY SURGEON to fill the vacancy caused by the retirement of ANDREW STEWART, Esq., who has completed his full term of office:—

The attention of candidates is directed to the following Laws of the institution relating to qualifications, etc., of Honorary Surgeons:—

Law x.—"No Honorary Physician, Surgeon, or Dentist, shall be re-elected oftener than to complete a period of fifteen years' service from the date of his appointment."

Law xi.—"That no Physician or Surgeon shall be eligible who does not possess a registered medical and surgical qualification obtained in the United Kingdom, nor any medical officer holding a professional appointment in any other public charity. And if any honorary medical officer of this institution shall accept a professional appointment in any other public charity, he shall be deemed to have thereby resigned his office in this institution."

Applications must be addressed to the Secretary at the hospital, endorsed on the envelope, "Election of Hon. Surgeon," and will not be received after 1st July.

(Signed) HENRY BROOKE,
Honorary Secretary.

Birkenhead Union.

ASSISTANT MEDICAL OFFICER wanted by the Guardians of the Poor of the Birkenhead Union for their Infirmary, Workhouse and Schools. Salary £80 per annum, with board, washing, and apartments, but no extra fees. Candidates must be doubly qualified and registered. The selected candidate must undertake to stay at least a year, unless the guardians wish to dispense with his services earlier.

Applications, stating age, qualifications, and previous experience, together with copies of three testimonials (which will not be returned), to be sent to me not later than Monday, 3rd of July next, endorsed "Assistant Medical Officer."

Canvassing the guardians, either directly or indirectly, is prohibited, and will be held to disqualify any candidate.

Clerk's Offices, JOHN CARTER,
45, Hamilton Sq., Clerk to the Guardians.
Birkenhead, June, 1898.

Borough Hospital,

Birkenhead.

Wanted at once, a Visiting HOUSE SURGEON. Doubly qualified, and on the register for this institution. Salary £75 a year, with board, lodging and washing, but no wine, spirits, or beer. A further sum is usually obtained in police and other fees.

The duties of the Junior chiefly consist of visiting the poor at their own homes.

Applications must be in own handwriting, stating age, and with printed copies of not more than five recent testimonials, must be sent to the Chairman of the Weekly Board.

N.B.—Canvassing strictly prohibited and will disqualify.

Bethlem Hospital.

Wanted, two RESIDENT HOUSE PHYSICIANS recently qualified in medicine and surgery.

The term of residence is for six months from June 1st, apartments, complete board, and washing being provided, and an honorarium at the rate of £12 12s. each per quarter will be paid. They will be under the direction of the Resident Physician, and are required to present themselves to him previous to the date of election.

Applications, with testimonials, are to be forwarded to the Treasurer, Bridewell Hospital, New Bridge Street, E.C., endorsed "House Physicians."

Candidates must attend at Bethlem Hospital, Lambeth Road, S.E., on Wednesday, at 11.30 a.m., when the Subcommittee will make the appointments.

Bridewell Hospital, JOHN BREWER,
New Bridge St., E.C. Clerk, &c.
June, 1899.

West Bromwich District HOSPITAL

RESIDENT ASSISTANT HOUSE SURGEON. Salary £50 per annum, with board, lodging, washing and attendance. Must be fully qualified.—Applications to the Secretary.

Derbyshire Royal Infirmary.

ELECTION OF HONORARY SURGEON.

The Weekly Board invite applications for the office of Honorary Surgeon to the Infirmary, vacant by the resignation of Mr. J. Lister Wright.

Candidates must be qualified in accordance with the rules of the Institution.

Applications, stating the qualifications of the candidates, must be delivered to me not later than 12 o'clock on Friday, June 30th, 1899.

Any further information may be obtained on application to me at the Infirmary. The election will take place at a special general meeting of governors, to be held on Monday, 3rd July, 1899.

By order,
Royal Infirmary, WALTER G. CARNT,
Derby, June 12th, 1899. Secretary.

Essex and Colchester Hospital.

Wanted, a HOUSE SURGEON (September 1st) agreeably to the following rule:—

"No person shall be eligible to fill the office of HOUSE SURGEON unless legally qualified to practise Medicine and Surgery, and be duly registered under the Medical Act. He will be required to bring testimonials of his character. He must be a single man and reside in the hospital; he shall not resign his office without giving three months notice in writing."

A Dispenser assists the House Surgeon daily. The House Surgeon gives periodical lectures to probationers. Further information may be obtained from the Secretary, to whom applications may be sent in, with testimonials of recent date (not exceeding five) by Friday, the 14th of July.

Salary £100 per annum, with board, washing and residence.

By order,
Board Room, Colchester. C. L. BECHER,
June, 1899. Secretary.

Bradford Royal Infirmary.

JUNIOR HOUSE SURGEON wanted, whose duties will be to assist the Honorary Staff and House Surgeon, subject to the Board of Management. Salary £50 per annum, with board and residence.

Candidates must be single, doubly qualified, and registered.

Applications, stating age and experience, with copies of recent testimonials as to moral character and professional ability, must be sent to me endorsed "Junior House Surgeon," on or before Monday, June 26th.

Selected candidates will have notice to attend.

By order of the Board,
Royal Infirmary, Bradford, WILLIAM MAW,
June 12th, 1899. Secretary.

Stockton & Thornaby Hospital

Stockton-on-Tees.

Wanted a HOUSE SURGEON. To be non-resident, doubly-qualified, and to dispense. Age not to exceed 30. The appointment will be made on July 11th. The successful candidate will be required to enter upon his duties on or about August 1st, to reside near the Hospital, devote the whole of his time to the Institution, and to enter into a bond for compliance. Salary £200 per annum.

Applications in writing, stating age, accompanied by not more than six recent testimonials, or copies, to be sent to me not later than June 30th.

Canvassing prohibited.
H. G. SANDERSON, Secretary.

ASSISTANTS provided free of charge to Principals.
Telegrams: "CURANDUS," LONDON.

MEDICAL PARTNERSHIP AND CONVEYANCING AGENCY,

1, ADAM STREET, ADELPHI, W.C.

The Sale of Practices and Partnerships negotiated. Trustworthy Locum Tenens and Assistants can be had at a few hours' notice.

N.B.—No charge made to Purchasers.

Notice.—Mr. J. C. Needes, with an experience of over a quarter of a century, is in an exceptional position to give intending purchasers independent information concerning most practices and partnerships. Those Investments in the following List marked with an Asterisk are well known to him, having been purchased through his office by the present Incumbents years ago, and in many other cases, introduction can be given to gentlemen who have taken charge of the practices during the absence of the Incumbents.

***Western County.—An unopposed PRACTICE,** doing at the rate of over £600 a year (including union and clubs £140), situated in an exceedingly beautiful and bracing district. Railway station three miles distant. One horse sufficient. The house contains dining and drawing rooms, four bedrooms, &c., with stabling, large garden and land attached. Rent moderate. Premium £600. Three months' introduction. Personal application if possible.

South London.—An old-

established private PRACTICE about 3 miles from Charing Cross, is for prompt disposal owing to the serious ill health of the incumbent. Cash receipts £500 a year, including appointments £80. About 30 cases of midwifery at one to two guineas. Neither horse or assistant required. Large commodious family residence with garden attached. Rent £80 a year. Premium 1 year's purchase.

Invalid Home for Disposal in

a large watering place on the South Coast. Receipts last year £2,050; total expenses about £1,400. Sixteen patients now in the Home, nearly all permanent cases. Large house specially fitted and arranged and well-furnished. The furniture is valued at £1,500.

London Suburb.—A well-

established PRACTICE, worth between £800 and £900 a year, including appointments (not clubs) nearly £200. Held by present incumbent 10 years. Midwifery one to two guineas. Eighty cases yearly. Good house in a commanding position. Rent £64 per annum. Three to six months' introduction given. Premium 1½ year's purchase.

Hampshire.—Unopposed old-

established country PRACTICE, averaging nearly £300 per annum, including union and clubs £100. Railway station in place. Hunting, shooting, and trout fishing. Nearest resident opposition four miles distant. Horse not needed. Convenient residence, with stabling and large gardens. Rent low. Premium £300. Only about 20 cases of midwifery yearly.

In a pleasant Cathedral City a

steadily increasing PRACTICE worth between £400 and £500 per annum, including appointments about £100. Good house, containing dining and drawing rooms, consulting rooms, 5 bedrooms, dressing room, bath room, &c. Rent under £50 a year. Premium £550. An efficient introduction to meet wishes of purchaser.

Partnership.—An active

gentleman required as PARTNER in a lucrative old-established cash practice yielding about £1,200 per annum, situated in a south-western suburb of London. The bulk of the income is derived from small ready money fees, but there is an increasing amount of better-class private work. Expenses light. Third share for disposal to commence with. Premium 1½ years' purchase. The half share can be acquired after a time.

APPLY TO J. C. NEEDES, 1, Adam Street, Adelphi, W.C.

Locum Tenens and Temporary

ASSISTANTS.—Practitioners requiring the above can immediately obtain thoroughly reliable qualified gentlemen upon application to 1, Adam Street, Adelphi, W.C. Every gentleman engaged by the office in either of the above capacities is personally known to Mr. J. C. NEEDES. An office fee of half a guinea is payable by the principal.

Telegraphic Address: "Acquirement London."

NOTICE OF REMOVAL.

MESSRS. ORRIDGE & CO.

have removed to

66, LUDGATE HILL.

MEDICAL TRANSFER AND PARTNERSHIP.**Messrs. Orridge & Co.,**

Medical Transfer Agents, Referees, and Valuers, in offering their services to the Profession, have pleasure in referring to the fact, that for about HALF A CENTURY the name of Mr. Orridge has been known in the advertising columns of the leading Medical Journals, and that a very large proportion of the Medical men throughout the Kingdom have confided their interests in the adjustment of Partnerships and Transfers to their care.

Purchasers who will communicate (confidentially) the nature and extent of their wishes regarding investments can be apprised of appropriate opportunities as they occur.

On occasions where advice is required in forming a correct conclusion as to the worth or eligibility of a Practice, Messrs. Orridge & Co. trust that their familiarity with the various contingencies that govern value will be found of considerable service to those by whom they may be employed.

N.B.—No charge is made to Purchasers.

the "BRITISH MEDICAL JOURNAL" in Two Volumes may be had at the Offices of the Association, 429, Strand, W.C.

THE SCHOLASTIC, CLERICAL, AND MEDICAL ASSOCIATION, LIMITED.

MEDICAL DEPARTMENT.

This Association was established in 1880 as a Limited Liability Company under the direction of professional men, its object being the creation of a RESPONSIBLE and THOROUGHLY TRUSTWORTHY Agency. The Medical Department has met with so great success that it has been found necessary for one of the Managing Directors (Mr. G. B. Stocker) to devote his whole attention thereto; and he has the assistance of an experienced Medical Accountant and large staff of clerks. Further, a Board composed entirely of gentlemen of high standing in the Medical Profession has been appointed, and to them matters of dispute and complaint are referred.

The Association undertakes the SALE of PRACTICES and PARTNERSHIPS; the Introduction of LOCUM TENENS and ASSISTANTS; MEDICAL ACCOUNTANCY (by a duly qualified Medical Accountant); INVESTIGATION and VALUATION of Practices, &c.; POSTING BOOKS and sending out Bills, &c., &c.

A Pamphlet relating to the Medical Department with the names of the "Directors" and the "Medical Advising Board," and terms will be sent on application to Mr. G. B. STOCKER, MANAGING DIRECTOR, 8, LANCASTER PLACE, STRAND, W.C.

Telegraphic Address:—"TRIFORM, LONDON."

Telephone No. 1854 (GERRARD).

FOR SALE.

- (1) DEATH VACANCY.—LINCOLNSHIRE.—Middle and working-class PRACTICE in a large market town. Cash receipts for 1898, £700, including over £400 from transferable appointments. Premium one year's purchase on the cash receipts for the last 12 months to date, with reduction for any appointment not transferred.
- (2) LONDON, S.W.—An increasing PRACTICE in a residential suburb (middle and working-class) in the South-West of London. Total income averages between £750 and £800 per annum. Three or six months' introduction, Premium £900.
- (3) PARTNERSHIP.—SOUTH WALES.—Old-established colliery Practice, the income (of which vendor's half share is £350 per annum) is mostly derived from appointments. No horse or assistant kept. Premium for half share, £750.
- (4) NORTH OF ENGLAND.—Residential suburb of a large city. Average annual receipts for the last three years £480. Midwifery largely declined. No carriage. Very good house with garden and stabling. Rent £80. Premium £300.
- (5) WEST OF ENGLAND.—Country town. Cash receipts for 1898, £648, including appointments of about £100. Visiting fees 5s. upwards. Large house. Rent £42 10s. Good social and educational facilities. Three months' introduction or longer. Premium £1,000.
- (6) SOUTH OF ENGLAND.—Unopposed country PRACTICE in a picturesque village near the sea. Cash receipts for 1898, £476, including appointments worth over £170 per annum. Small house with garden. Rent £26. Hunting and sea fishing. Premium to an immediate purchaser only £550.
- (7) PARTNERSHIP.—Large and popular seaside town. Cash receipts average over £1,200, increasing. A one-third or one-fourth share would be sold for two years' purchase.
- (8) SOUTH-WEST OF ENGLAND.—Small good-class non-dispensing PRACTICE in a residential town and favourite watering place. Cash receipts for 1898, £338. Very good house. Rent £75. Premium £400. The practice is increasing.
- (9) PARTNERSHIP.—Lancashire.—Country PRACTICE. Cash receipts for last 12 months £830, including appointments worth £200. A one-half share would be sold at once for £600, with option of further purchase after two years. Vendor is taking partner in order to extend the practice.
- (10) PARTNERSHIP.—Large residential town within one hour of London. Mixed class practice. Cash receipts last 12 months nearly £600. A one-half share would be sold for £600. Vendor is taking a partner to extend practice in a new district.
- (11) LONDON.—Outlying Suburb.—Increasing mixed PRACTICE. Cash receipts for 1898, £1,006. Midwifery fees usually £2 2s. Well situated house with stabling and garden. Rent £35. Good introduction. Premium £1,350.
- (12) PARTNERSHIP.—West Riding of Yorkshire, in manufacturing town. Middle- and working-class Practice. Cash receipts for 1898 £1,267. Visiting fees 3s. 6d. to 6s. A one-third share would be sold for £800.
- (13) SOUTH COAST.—Watering Place. Middle and working-class PRACTICE of about £800 per annum. No carriage required. Good house with garden. Rent £66 10s. per annum. Premium £650.
- (14) LONDON, N.—Residential suburb.—A good middle and working-class PRACTICE. Cash receipts average £468 p.a. No carriage. Very good house. Rent £80 p.a. Three to six months' introduction. Premium only one year's purchase.
- (15) SEA COAST TOWN.—PRACTICE of £800 to £900 a year, £650 of which is from easily worked transferable appointments. Premium 1½ years' purchase. Introduction of six months. Purchaser should be a good surgeon.
- (16) YORKSHIRE.—West Riding.—An old-established PRACTICE in a rapidly increasing town. Cash receipts average £867 per annum. Visiting fees 2s. 6d. upwards. Very good house, with stabling and garden. Rent £117. Rent of all kinds. Six months' introduction. Premium only £500. The practice can be worked by living only.

FOR SALE—Continued

- (17) LONDON, S.E. (about two miles from Charing Cross).—Old-established PRACTICE. Cash receipts average £567 per annum. Midwifery fees, £1 1s. and £2 2s. Very good house, with garden, rent £60. Premium only £550.
- (18) SOUTH AFRICA.—PRACTICE in an "up country" town. Cash receipts averaging £1,208, including appointments £330. No assistant. No long distances. Very little nightwork. Well situated house. Rent about £72. Premium only £550.
- (19) UNITED STATES.—PRACTICE in a residential seaside town in an Eastern State. Cash receipts for 1898, £1,100. Visiting fees 6s. Rent about £50. Excellent society. An Englishman or Scotchman would succeed well.
- (20) BRITISH COLUMBIA.—An unopposed PRACTICE of about £450 per annum. Good fees. One horse. Excellent climate.
- (21) LONDON (within one mile of Charing Cross).—Old-established cash PRACTICE. Receipts for 1898, £788. Private house. Rent about £80. Premium £650.
- (22) LONDON, S.E.—Near the Oval.—Mixed PRACTICE. Present incumbent bought the practice in August, 1898. The cash receipts for the 6 months ending March 31st, 1898, were £341. Club and insurance appointments £120. Fees from 1s. Visits 1s. 6d. Midwifery not encouraged owing to vendor's ill-health, which is reason for selling. No carriage. Private house £38. Premium £500.
- (23) DEATH VACANCY.—London, S.E.—Cash PRACTICE. Cash receipts for 1898 £510. Rent of private house £45. Premium £200.
- (24) MIDLANDS.—Large manufacturing town. Working-class PRACTICE. Cash receipts for 1898 £592, including clubs of over £200. No carriage. Rent of house £32. Premium £550, to include outstanding and current accounts. Receipts have been taken out by an accountant.

Utro- Ovarian Pain.

If the pain is over the lower border of the Liver, or lower part of the Stomach, or in short, pain of any description caused by suppressed or irregular menstruation: it will yield to two 5 gr. tablets of Antikamnia. Repeat dose in hour or two, if necessary. Crush tablets, and swallow with a little wine, diluted whisky or toddy.

Antikamnia

Does not depress the heart : no drug habit induced

in the

Treatment

of melancholia with vaso-motor disturbances, anæmic headaches, emotional distress, in relieving the persistent headache which accompanies nervousness.

"In neurasthenia, in mild hysteroid affections, and in the various neuralgias, particularly ovarian, in the nervous tremor so often seen in confirmed drunkards; and

"In angina pectoris this drug has a beneficial action."

Analgesic — Antipyretic — Anodyne.
