INTERNATIONAL CLINICS.

A Quarterly of Illustrated Clinical Lectures and Especially Prepared Articles on Topics of Interest to Students and Practitioners.

By LEADING MEMBERS of the MEDICAL PROFESSION throughout THE WORLD.

Edited by A. O. J. KELLY, M.D.,

WITH THE COLLABORATION OF REGULAR CORRESPONDENTS IN EUROPE AND AMERICA.

Published in Quarterly Volumes of about 300 pages each, with Numerous Illustrations.

Price per Volume, bound in cloth, **10s. 6d. net**; or Annual Subscription for 4 Volumes **£1 15s. net.**

This periodical contains the cream of PRACTICAL MEDICINE, as illustrated by the bedside teachings of the best clinicians of both continents; and practical articles, short and crisp, upon subjects with which the physician has to deal in his every-day work.

SOME PRESS OPINIONS:—

"The range of the subjects is as wide as medicine itself."—*The Lancet*.

"A perusal of some of the articles has favourably impressed us with their clarity and practical usefulness."—*Quar. Med. Jour.*

"Has now established for itself a firm position in medical literature."—*Clinical Journal*.

PUBLISHED BY

J. B. LIPPINCOTT COMPANY, 5, Henrietta Street, Covent Garden, London.

NOW COMPLETE.

ENCYCLOPÆDIA MEDICA:

THE MOST EXHAUSTIVE AND AUTHORITATIVE MEDICAL AND SURGICAL WORK OF THE DAY.

BY 272 WRITERS.

Price 20s. net per Volume.

A FEW PRESS NOTICES:

"A colossal work."—BRITISH MEDICAL JOURNAL.

"An achievement of which the healing art in Britain may well be proud."—GLASGOW MEDICAL JOURNAL.

"This gigantic *Encyclopædia* forms as it were the medical corollary to that other well-renowned work the *Encyclopædia Britannica*."—TREATMENT.

"The *Encyclopædia Medica* brings together in a complete form all that which is most useful and modern in medical literature. The whole work will be one well deserving of the support of, and a source of satisfaction and pride to, the medical profession."—QUARTERLY MEDICAL JOURNAL.

"The *Encyclopædia Medica* is destined to form a great and valuable contribution to medical literature. Almost universal excellence prevails."—JOURNAL OF BALNEOLOGY AND CLIMATOLOGY.

"The articles are well written and safe guides."—CANADIAN JOURNAL OF MEDICINE AND SURGERY.

"The *Encyclopædia Medica* will not be consulted in vain by those who desire the most modern views in the various departments of medicine and surgery. It is expected that this *Encyclopædia* will become the generally accepted work of general reference by the profession."—BRISTOL MEDICO-CHIRURGICAL JOURNAL.

"We have carefully examined these volumes, and have been most favourably impressed with them. The *Encyclopædia* will indeed be the best résumé of medical science that has ever been issued."—THE PRACTITIONER.

"We can speak in high praise of the *Encyclopædia Medica*, and the editor is to be congratulated on the contributors he has been able to secure."—LANCET.

"The *Encyclopædia Medica* is fully redeeming its initial promises, and should therefore be a great success."—BRITISH MEDICAL JOURNAL.

"One of the most valuable publications of its nature that has been attempted in many years, completely covering, as it does, the whole range of medicine and surgery. The subjects are all treated in such a manner that a complete review of the knowledge of them is given, but in such a condensed way that space is economised without sacrificing the value of the article."—JOURNAL A.M.A. CHICAGO.

"It can be heartily recommended to the busy practitioner who wishes to keep abreast of the latest advances in medical science."—PHYSICIAN AND SURGEON.

"No medical library will be complete without the *Encyclopædia Medica*, and medical men engaged in literary work will find it a most useful work of reference."—TREATMENT.

PUBLISHERS—

NEW EDITION OF THE OPERATIVE SURGERY OF MALIGNANT DISEASE.

By HENRY T. BUTLIN, F.R.C.S., D.C.L.,

Surgeon to St. Bartholomew's Hospital, &c., with the co-operation of JAMES BERRY (the thyroid), W. BRUCE CLARKE (the kidney), ALBAN DORAN (the ovary and uterus), PERCY FURNIVALL (the stomach, intestine and rectum), WALTER JESSOP (the eye), and H. J. WARING (the liver and gall-bladder).

With 12 Engravings, 8vo, 14s.

J. & A. CHURCHILL.

"There are few recent books more important, there are none more interesting to the surgeon and the general practitioner than Mr. Butlin's new edition of his work on the *Operative Treatment of Malignant Disease*. Every practitioner in the country should consider it his duty (one can answer for it that it will certainly be his pleasure) to read, to study, to remember, to act upon, the teaching conveyed in this work."—*BRITISH MEDICAL JOURNAL*.

"Comparatively few treatises dealing with this very important subject (tumours) exist, and the two which lie before us are merely re-editions of works which had previously gained an enviable reputation. Mr. Butlin's book on the *Operative Surgery of Malignant Disease* re-appears after an interval of twelve years, and the changes which have occurred in that period are so great that he has been forced to ask the collaboration of several other surgeons to undertake the representation of special organs."—*PRACTITIONER*.

"The work, taken as a whole, is good, and the advice given is derived from actual experience and observation, the book differing materially in this respect from a number of contemporary works in which conclusions are drawn from a collation derived from numerous works. The book will be found most useful and instructive and well worth adding to one's library."—*NEW YORK MEDICAL JOURNAL*.

Second Edition, crown 8vo, cloth, pp. xvi-283, price 4s.

ASEPTIC SURGERY.

By CHARLES BARRETT LOCKWOOD, F.R.C.S., Assistant Surgeon and Lecturer on Descriptive and Surgical Anatomy, St. Bartholomew's Hospital; late Hunterian Professor, Royal College of Surgeons of England; late Surgeon, Great Northern Central Hospital, &c., &c.

NERVES IN DISORDER.

A Plea for Rational Treatment.

BY

A. T. SCHOFIELD, M.D., &c.,

Hon. Physician, Friedenheim Hospital;
Author of "The Unconscious Mind," &c.

"Based on wide experience and sound judgment,
and full of sensible advice."—St. James's Gazette.

"Seldom has a medical work been published which
it would be more beneficial for the public to read, or
which is more sure to rivet attention if once begun."
—British Weekly.

"An interesting and valuable book. It is at once
so skilful and so sensible that it must prove helpful
both to nervous sufferers themselves, and to those
doctors and specialists who wish to encourage the
general adoption of an enlightened treatment of
maladies of the brain."—Scoteman.

HODDER & STOUGHTON,

27, Paternoster Row, London, E.C.

SAUNDERS' MEDICAL HAND-ATLASES.

Eighty
Thousand
Copies.

Four years ago, Mr. Saunders
contracted with the original pub-
lisher for 100,000 copies of the
twenty-six volumes that are to
compose this series of books. Of
these twenty-six volumes only
twenty have appeared, and yet 82,000 copies
have already been imported.

The volumes in this series are selling with remark-
able rapidity, and there is every indication that over
100,000 copies will be sold of these twenty volumes
alone. Basing the sales of future numbers on those
already issued, the prospects are that the ultimate
sale of the complete series will double the figures
originally set.

W. B. SAUNDERS & CO.,
9, Henrietta St., Covent Garden, London.

Price 5s. Illustrated.

STONE, PROSTATE, & OTHER URINARY DISORDERS.

By REGINALD HARRISON, F.R.C.S.,

Remittances with all orders.—420, Strand, W.

BY

KENNETH CAMPBELL, M.B., F.R.C.S. REFRACTION OF THE EYE.

pp. vi. + 214, with 107 Illustrations.

Price 5/- nett.

"A trustworthy guide for the student or the prac-
titioner, and will enable him thoroughly to under-
stand the principles on which errors of refraction
and defects of the ocular muscles should be treated."
—Lancet.

"Deals with the subject in a systematic, clear, and
lucid manner. The subjects of asthenopia and
anomalies of the extrinsic ocular muscles are very
well described and are made far simpler than is the
case in some other works."—British Medical
Journal.

London: BAILLIÈRE, TINDALL & COX, 8, Henrietta

THE

"RAJ," A MASTERPIECE WATCH

The H. WHITE MANUFACTURING COMPANY'S latest triumph. The outcome of immense labour combined with the highest expert experience, it is peculiarly suitable for the pocket of a Consultant. The extraordinary low price at which it is supplied affords unmistakable proof of the unapproachable value the H. White Manufacturing Company extend to their clients.

Lieut.-Col. FESTING, D.S.O., Northern Nigeria, West Africa, writes:—"I bought a watch from you some years ago and it is still going well although it has been a year in S. Africa, and since then in this even worse climate for watches and clocks."

AN IRONMASTER, JOSEPH R. WATSON, Esq., writes:—"11, Bryn Rd., Swansea, Jan. 24, 1903. I may state that I have been immensely pleased with the watch (£25) which I purchased nearly 10 years ago from you. It has kept really magnificent time ever since."

£21 10s. The "RAJ," a Superb Calendar, Independent Centre Seconds.

Shows automatically day of week, date, month, and position of moon; and, in addition, this princely watch repeats the hours and quarters upon beautifully Toned Gongs, at pleasure, whilst it is invaluable

to the doctor, as it is an independent Centre seconds, rendering it possible to register minute observations without interfering with the timekeeping.

Beyond these marvellous features it is an admirable timekeeper, with a splendid keyless Lever Movement, jewelled in all actions, fine Chronometer Balance—specially adjusted for temperatures. Breguet Spring (preventing variation in riding, &c.). Massive 18-ct. Gold Hunting Cases. A watch of similar quality would cost £30 or £35 purchased from the ordinary "dealers."

Striking the Hours, Quarters, and Minutes, £27 10s.

☞ Sent for inspection (U.K.) upon receipt of reference—Bankers or Medical.

FREE. An interesting Booklet, affording much information concerning Watches, Chains, Brevet Rings, &c., sent post paid to any part of the world.

Colonial Orders are despatched promptly after being subjected (watches) to special tests. Postage, British possessions, 2/6 extra; elsewhere 5/-. Address letters—Colonial Dept. Sent at the Company's own risk. They are the object of the Managing Director's careful personal attention, thereby Colonial Medical Men secure an article of the Highest Class at an almost incredible saving as compared with Colonial prices.

MANUFACTURED BY

G. VAN ABBOTT & SONS, ORIGINAL MANUFACTURERS of all GLUTEN and SOYA FOODS FOR DIABETICS.

BADEN PLACE, CROSSBY ROW, BOROUGH, LONDON, S.E.

Telegraphic Address: "GLUTENS, LONDON."

Established 1858.

THE PEARSON'S ANTISEPTIC COMPANY, LIMITE ,

254a, High Holborn, London, W.C., has been formed for the purpose of dealing in Disinfectants which **Mr. William Pearson** has manufactured and dealt in for a number of years.

With the object of carrying out the consent order entered into with the sanction of the High Court of Justice, the above Trade-Mark has been created for and adopted by this Company. Hereafter this Company will sell their products as

Pearson's Antiseptic

under the above Trade Mark in this country and all British Colonies.

This Disinfectant, which is being manufactured at the Digit Works in Meltham is identical with that which has been hitherto sold by **Mr. William Pearson** in Hamburg, Brussels, Milan, and every part of the world, and which hereafter will be sold everywhere except in British and French Possessions under the title of

Creolin-Pearson

Pearson's Antiseptic is made from the same materials with the same care and in the same manner as heretofore. The **universal success** with which it has been and is being used in its various forms and the **testimonials** and **reports** (which will be sent post free on application) satisfy the proprietors that under its present description

Pearson's Antiseptic

will secure a still greater popularity.

The **Company** hereby gives notice that against **any person infringing this Trade Mark** or trying to identify **any products or compounds** in any shape or form with those of the Company or to **pass them off as those of the Company** legal proceedings will at once be taken.

SCHERING'S UROTROPINE.

Reg. Trade Mark. Manufactured under the control of Prof. Dr. A. Nicolai of Berlin.

A Valuable Urinary Antiseptic and Uric Acid Solvent,

Very efficient in all suppurative diseases of genito-urinary tract, pyelitis, cystitis with ammoniacal decomposition of the urine, phosphaturia, and also in gouty and rheumatic affections where active elimination of uric acid and the urates is required.

Highly recommended in TYPHOID BACTERIURIA.

The Lancet, April 14th, 1900, January 19th, 1901; *British Medical Journal*, November 24th, 1902.

A. & M. ZIMMERMANN, 3, Lloyds Avenue, LONDON, E.C.

BULLOCK'S PEPSINA PORCI.

DOSE—2 to 4 GRAINS.

ACID GLYCERINE OF PEPSINE.

DOSE—1 to 2 DRMS.

(BULLOCK).

In this preparation advantage has been taken of the solubility of Pepsine in Glycerine to produce a convenient and desirable *liquid form* of this valuable medicine; whilst the preservative qualities of the menstruum confer upon the Acid Glycerine of Pepsine the property of keeping for any length of time.

May be prescribed with most substances compatible with Acids.

In 4-oz. 8-oz., and 16oz. Bottles, and in Bulk.

The published experiments of G. F. DOWDESWELL, Esq., M.A. Cantab., F.C.S., F.L.S., &c., Dr. PAVY, Professor TUSON, the late Professor GARRO Dr. ARNOLD LEES, and others, conclusively demonstrate the excellence, high digestive power, and medicinal value of the above preparations.

J. L. BULLOCK & CO., 3, Hanover Street, Hanover Square, London, W.

SOMATOSE (MADE FROM BEEF).

The most Powerful Food known to Science. A true Meat Nutrient, and is especially valuable for all cases of

FEVER, DYSENTRY, AND INFLUENZA.

Vide *LANCET* of September 30th, 1899.

Is acknowledged by eminent Medical Authorities at home and abroad to be *The IDEAL FOOD for INVALIDS and CONVALESCENTS.*

It is an almost TASTELESS and
ODOURLESS POWDER.

It contains nearly 80 per cent.

MEAT ALBUMEN.

It acts directly as a TONIC, and
creates an APPETITE.

It is NOT a drug, but a THERAPEUTIC FOOD.

It is easily SOLUBLE in Water, Milk, Soup, Coffee, Cocoa, &c.

SOMATOSE IS ALSO SOLD AS A LIQUID. BEING A MORE CONVENIENT FORM OF ADMINISTRATION.

IRON SOMATOSE

Contains the tonic Qualities of Iron combined with the albuminous substance of MEAT.

Causes no GASTIC DISTURBANCE or CONSTIPATION.

Does not AFFECT THE TEETH.

Is a freely SOLUBLE preparation of IRON.

MILK SOMATOSE

Contains the ALBUMINOUS MATTER of MILK, combined with 5 per cent. of TANNIC ACID.

Is slightly ASTRINGENT and NON-IRRITANT.

Is most suitable for STRENGTHENING WEAK DIGESTIVE ORGANS.

Is especially valuable for INFANTS and CHILDREN.

NOW USED IN ALL THE PRINCIPAL CIVIL and MILITARY HOSPITALS. Sold by all Chemists.

Full Particulars from— **THE BRITISH SOMATOSE CO., LTD., 165, Queen Victoria Street, LONDON, E.C.**

PAPAIN-FINKLER.

This ideal, purely vegetable digestive ferment has for a great number of years been established as a most efficacious remedy in all forms of Dyspepsia and consequent impaired nutrition further in the curative treatment of Gastric Ulcer and as an aid in the nutrition of patients suffering from Phthisis. Papain-Finkler promptly removes the false membranes in Diphtheria, and this treatment is in no wise diminished by the constitutional effects of the antitoxin treatment.

To obtain the Original Preparation please prescribe "Papain-Finkler."

SAMPLES FREE TO PHYSICIANS AND HOSPITALS.

Extract from LANCET, of January 24th, 1903:—

"The clear cold water solution of Karnoid turns into a sort of jelly on heating owing to the coagulation of the myosin albumin. Karnoid meat preparations are excellent foods and admirably adapted for the requirements of the invalid. They afford a ready means of preparing a really nutritious meat tea. This method of concentrating and comminuting fleshy foods is a great advance on other methods, since in the product are retained the vitalising principles of the original meats intact."

KARNOID Ltd., 6 & 7, Stonecutter St., Ludgate Circus, London, E.C.

'MALTOVA'

(REGISTERED)

EGGS & MALT.

Proved by the experience of Medical Men to be invaluable AS A FOOD in the treatment of **Infantile Diarrhoea**, being easily retained without aggravating the condition of the patient.

As milk and beef tea are unsuitable in such treatment, 'MALTOVA'—owing to its highly nutritive composition—may be given alone.

'MALTOVA' has been used with success in Typhoid and all febrile conditions.

"THE LANCET" says: A preparation calculated to contain all classes of material suited for the repair of body waste. It is of undoubted merit.

ANTIPHLOGISTINE

Includes the important field of curative medicine. Its therapeutic action is capable of clinical demonstration, and does not suggest speculative theory. It is the most practical, non-irritating, antiseptic absorbent ever employed by the medical profession for the treatment of every type of inflammation.

**PNEUMONIA.
PLEURISY.
BRONCHITIS.**

**ADENITIS.
ERYSIPELAS.
PERIOSTITIS.**

**SYNOVITIS.
CELLULITIS.
CONTUSIONS.**

**FELONS.
SPRAINS.
ULCERS.**

Apply Antiphlogistine, warm and thick, when an effective medium is desired for the transmission of energy to the inflamed area. It stimulates oxidation of localized district by acceleration of capillary flow.

The congestion of the deep internal organs is reduced by stimulation of reflex centres and the associated capillary drainage. Free superficial circulation empties the turgid lymph spaces, and effects rapid return to normal conditions of all hyperæmic parts.

Doctor, kindly note on your prescription, "ORIGINAL PACKAGE."

THE MEDICAL PRESS AND CIRCULAR, September 3rd, 1902:—"ANTIPHLOGISTINE.—This preparation appears to be admirably suited for the purpose for which it is intended, namely, as a soothing antiseptic or poultice dressing, applicable to a great variety of cases. This preparation has met with success in America as a local application of great value in a large number of different classes of cases, and we would urge our medical friends to give it a careful trial, as we have satisfied ourselves by analysis that the composition corresponds with the ingredients stated in the excellent pamphlet that is issued by those who are responsible for its production."

TREATMENT Laboratory Report:—"ANTIPHLOGISTINE.—This preparation indicates a great advance on the old-fashioned cataplasms or poultices. Antiphlogistine consists of a yellowish uniform paste with an agreeable smell, in which we can readily recognise some of the well-known antiseptics. The basis is a pure dehydrated silicate, non-irritating and very supple. When warmed (keep from water) and spread to the thickness of about an eighth of an inch on the skin over the affected part, and covered over with cotton-wool or some impermeable material, it acts as an excellent poultice without irritation or inconvenience. Moreover, it is decidedly soothing, and keeps the tissues agreeably moist. If properly applied it will cling to the skin, and after twelve to thirty-six hours peel off in large pieces like the peel from a banana. Antiphlogistine will well repay a trial."

THE HOSPITAL, September 27th, 1902:—"ANTIPHLOGISTINE.—It is composed of glycerine, boric acid, salicylic acid, iron carbonate, menthol, eucalyptus, and iodine, combined with dehydrated silicate of alumina and magnesia. The therapeutic properties of these chemical substances, individual and combined, are such as are indicated in cases of local inflammation for the restoration of an impeded circulation, for the removal of pain, and the promotion of the normal processes of nutrition. In practice this basis is proved to be very comfortable to the patient, and highly efficacious in the treatment of indolent ulcers and acute inflammatory conditions. Antiphlogistine is a very elegant preparation and skilfully combined; it is spread on the skin like gelatine and zinc pastes, and can be readily peeled off after it has completed its work."

THE MEDICAL ANNUAL, 1903:—"ANTIPHLOGISTINE.—Under this name a substance has been introduced which differs in character and physical properties from any of the external applications at present employed. It has very much the consistence and appearance of very soft putty. It possesses decidedly hygroscopic properties. We found that 60 grains exposed to the air gained 8 grains in weight in 24 hours. The theory of its inventors is that by its affinity for fluid it abstracts water from the tissue, and in doing so relieves congestion and removes infiltration. We found that when applied to a swollen knee-joint or to an œdematous limb it formed a firm but flexible support, and that its qualities in this respect were excellent. On removing the dressing after 24 hours we found, in the case of œdema of the limb (gouty), decided diminution of swelling and the bandages round the dressing were very moist. We found practically no increase in weight in the material itself, showing that it again exudes the fluid it takes up. This is distinctly an advantage, as the dressing peels off perfectly clean instead of being a deliquescent mass, which would otherwise be the case. We consider that such a material has distinct uses in medical and surgical practice and deserves an extended trial."

THE LANCET, June 6th, 1903:—"This basis is a pure silicate. Spread over the tissues 'ANTIPHLOGISTINE' keeps them agreeably moist, and has a decidedly sedative effect."

THE LANCET, page 62, June, 1902:—"The vehicle is a very pure clay or silicate, according to our analysis. The preparation may be used with advantage as an external application in inflammatory conditions. 'ANTIPHLOGISTINE' maintains a moist condition of the tissues, and exerts a soothing effect, while on account of its marked antiseptic properties it may be used in the treatment of open wounds and ulcers."

THE BRITISH JOURNAL OF NURSING, June 6th, 1903:—"ANTIPHLOGISTINE which has been favourably commented on in many medical papers, is the most practical non-irritating, antiseptic absorbent ever employed in the treatment of every kind of inflammation."

THE GENERAL PRACTITIONER, April 11th, 1903:—"Medical men who have tested the substance testify that it possesses decidedly hygroscopic properties. The theory of its action is that by its affinity for fluids it abstracts these from the tissues, and thus relieves congestion and removes infiltration."

GUY'S HOSPITAL GAZETTE, May 23rd, 1903:—"It certainly fulfils the claims of its makers—'harmless, soft, and pliable, non-irritating, non-toxic, soothing and antiseptic poultice and surgical dressing, always ready for immediate use, possessing hygroscopic, nutrient, exosmotic, and osmotic, and indirectly anodyne and hypnotic properties.' Many use this preparation in America and are enthusiastic about its merits."

There are Four Sizes of Packages in which "ANTIPHLOGISTINE" is sold, viz.:—Smalls of 10½ ozs., with Revenue Stamp, at 2/3; Mediums, 17½ ozs., at 3/6; Large, 34½ ozs., at 6/-; and Hospital, 5 lbs., at 10/-. Doctors who forward to the European and Colonial Manager, Mr. J. Burnham Pegg, their card, and 1/- for carriage, will be supplied with a Medium Sample and Literature gratis.

EMOL (TRADE MARK.) KELEET

A Remarkable Discovery for Skin Treatment.

on-Tyne, when an exceedingly interesting paper was read during the session of the Dermatological section by the President. The interest aroused by the therapeutic notes given in his paper by this distinguished authority on skin diseases brought Emol-Keleet prominently into view, and a brief recapitulation of the points of the paper referred to may be useful.

It was shown that as dusting powder Emol-Keleet is therapeutic

EMOL-KELEET is a purified, natural emollient, absorbent dusting powder, of impalpable texture, as soft as down to the touch. It in no way resembles the ordinary and unstable compound astringent or starchy absorbent powders.

Emol-Keleet was brought specially to the attention of the profession at the meeting of the British Medical Association, at Newcastle-

tically superior to any previously known. When placed upon the tongue—one of the simplest and yet most severe tests as to utter impalpability—there was an entire absence of any sensation of grittiness.

It was noticed also, that when a teaspoonful or so, was added to a basinful of hard water it effected an immediate softening influence. Used in this manner with warm water, Emol-Keleet acts as a natural soap, cleansing the skin and leaving it soft and smooth. *This suggested the idea of incorporating it with a pure neutral soap.* EMOL-KELEET soap is prepared under the highest medical and chemical supervision. It is especially good for children and those with sensitive skins.

Used as a dusting powder, Emol-Keleet was found to possess anti-pruritic properties, and relieved very markedly any itching of the skin. The absorbent qualities of Emol-Keleet, with its mild astringent tendency, stamp it as a perfectly harmless and absolutely unequalled dusting powder.

It is also incorporated with Soap as a Shaving Stick.

FASSETT & JOHNSON, 31 and 32, Snow Hill, London, E.C.

SUPERIOR TO COD LIVER OIL, TINCTURE OF IRON OR PEPTONE.

Hommel's

Purified and concentrated Hæmoglobin, flavoured with chemically pure glycerine and wine, in the proportion of four ounces of glycerine and two ounces of wine in each pint.

Haematogen.

AN ENERGETIC BLOOD FORMER, rich in organically combined iron, it has no equal as a nourishing and strengthening food for children and adults suffering from debility of any kind.

HOMMEL'S HÆMATOGEN contains:

1. Perfectly pure Hæmoglobin, which has been sterilized and freed from the bacteria circulating in the blood.
2. The whole of the salts found in fresh blood.
3. The valuable compounds of phosphorus, namely, phosphate of sodium and phosphate of potassium in their natural organic condition.
4. The albuminous constituents of the serum in concentrated and purified form, neither decomposed nor predigested.

INDICATED IN THE FOLLOWING DISEASES:

**GENERAL DEBILITY, ANÆMIA, CHLOROSIS, NEURASTHENIA,
RICKETS, SCROFULA, WEAK HEART,
WASTING DISEASES OF CHILDREN,
CHRONIC CATARRH OF THE STOMACH AND BOWELS,
LOSS OF APPETITE, SLOW CONVALESCENCE AFTER FEVERS,
OVER-RAPID GROWTH IN YOUNG PERSONS.**

CAUTION.—Hommel's Hæmatogen is neither supplied in the form of Pills or Capsules nor mixed with chocolate, &c., but only in one form, i.e., the **FLUID FORM**.

Infants take Half a Teaspoonful, or One Teaspoonful, twice a day in milk.
Children „ One Tablespoonful, either pure or mixed with any convenient liquid.
Adults „ One Tablespoonful twice a day before food.

We shall be happy to forward **SAMPLES AND LITERATURE** of Hommel's Hæmatogen gratis and carriage paid, to Medical Practitioners who may wish to give it a trial.

1878.

BOVININE

owes its present high position in the medical world to the facts of its undoubted merit, and that its introduction has been confined strictly to the profession.

Thousands of Medical Men who have given it a careful trial during the past twenty-five years, in all parts of the world, freely testify to its unrivalled worth.

As personal experience alone convinces, we invite all who are not acquainted with its exceptional nutrient value, to put **BOVININE** to the severest tests, and watch the results obtained from its use.

In the most critical cases of Gastric Ulceration, if given in small and frequent doses, it will remain upon the stomach when all else refuses to do so. It only needs a fair trial to convince even the most sceptical.

Test its extraordinary food-value in cases of Inanition, Infantile Diarrhoea, Marasmus, or any wasting disease, when all hope seems past and all other means have been resorted to and failed, and watch the marvellous results from its use, no matter what age the child (from the infant of ten days old), or how critical the condition.

DOSE FOR INFANTS.—5 to 10 drops in a teaspoonful of cold milk or water.

DOSE FOR ADULTS.—Commence with half-a-teaspoonful in a tablespoonful of cold milk or water, and gradually increase the dose as the irritability diminishes and the stomach will bear it.

1903.

THE BOVININE COMPANY, 66, Hatton Garden, London, E.C.

"APENTA"

Natural Hungarian Aperient Water.

"This water is to be classed with the best aperient waters, and may be pronounced one of the strongest. Owing to the constancy of the 'Apenta' water, that confidence in aperient waters which had been lost will be revived in favour of this important therapeutic agent."

PROFESSOR OSCAR LIEBREICH,
Regius Professor of Chemistry, University of Berlin (Therapeutische Monatshefte).

For Gall-stones, Biliary Colic, and other Disorders of the Liver.

"Apenta" Water taken in the morning fasting has been found a most valuable remedy in cases of Gall-stones.

About 10 ounces warmed may be taken daily in two equal portions at half-an-hour's interval.

It also acts well mixed with Apollinaris Water, as a preventative of Gall-stones. Four ounces of "Apenta" Water, made hot, mixed with six ounces of Apollinaris Water, should be drunk slowly in the morning, fasting. If an attack seems imminent this dose may be repeated once or twice in the day, avoiding thus the expense of visiting a foreign Spa.

In all functional disorders of the Liver "Apenta" is one of the best remedies both for prevention and cure.

Valentine's Meat-Juice

In cases of Extreme Exhaustion, At Critical Times, in Wasting Diseases, Low Forms of Fever, Cholera Infantum, Diarrhoea, Dysentery, Influenza, Phthisis, and Pneumonia, When all Other Forms of Food Fail, Valentine's Meat-Juice is relied upon to sustain and nourish.

It has won the approval of the highest Medical Authorities, and Physicians are invited to send for Brochures containing Clinical Reports from Hospitals and General Practitioners in all parts of the world.

For sale by European and American Chemists and Druggists.

Address all communications to

Valentine's Meat-Juice Company,

"An Easily Digested,
Life-giving Remedy."

Doctors should be aware that

INVALID BOVRIL

is a special preparation, quite distinct from ordinary Bovril and more highly concentrated. It is

Unseasoned

and consequently acceptable to the most fastidious palate. For patients who object to Bovril on account of its salt flavour Doctors might order **INVALID BOVRIL**, which can be obtained from any Chemist.

THE LANCET, writing of two special analyses, the first an analysis of Special Invalid Bovril and the second one of a good home-made beef-tea, remarks that "in considering the question of relative nutriment, regard must, of course, be paid to the amount of water employed in preparing beef-tea," and says very forcibly, that "all things being equal, the Invalid Bovril yielded, according to the analysis from THE LANCET Laboratory, a much higher proportion of nutrient substance than the ordinary beef-tea."

A Great Authority condemns Beef-Tea.

DR. MILNER FOTHERGILL says —

"To give beef-tea to a sick person is to give him a stone when he asks for bread."

Benger's Food

GOLD MEDAL AWARDED Health Exhibition, London.

NOTICE TO THE MEDICAL PROFESSION.

BENGER'S FOOD is *not* a Malted Food, and it does not contain dried milk, which is a very poor substitute for fresh. It consists of a specially finely ground, nitrogenous, wheaten meal, cooked and impregnated with a suitable proportion of the fresh, natural digestive principles of the pancreas. When mixed with warm new milk or milk and water, as directed on each tin, these digestive principles not only render the farinaceous elements of the Food soluble (as in malted foods), but further, reduce the casein of the milk to a condition similar to that in which it exists in human milk, so that hard indigestible masses of curd cannot be formed in the stomach. **BENGER'S FOOD** forms a delicate and delicious cream, rich in all the elements necessary to maintain vigorous health. It is enjoyed by Infants, Invalids, Convalescents, and the Aged.

The *Lancet* describes it as "Mr. Benger's admirable preparation."

The *London Medical Record* says:—"It is retained when all other foods are rejected. It is invaluable."

The *British Medical Journal* says:—"Benger's Food has by its excellence established a reputation of its own."

The *Illustrated Medical News* says:—"Infants do remarkably well on it. There is certainly a great future before it."

A Government Medical Officer writes:—"I began using your food when my son was only a fortnight old, and now (five months) he is as fine a boy as you could wish to see."

From an eminent Surgeon:—"After a lengthened experience of Foods, both at home and in India, I consider Benger's Food incomparably superior to any I have ever prescribed."

BENGER'S FOOD may be obtained in various sized Tins of leading Chemists & Co., everywhere wholesale of all Wholesale Houses, or of

F. B. BENGER & Co., Ltd., Otter Works, Manchester.

CONTRACTORS TO HIS MAJESTY'S GOVERNMENT.

TELEGRAPHIC ADDRESS:—"Benger's Manchester."

NO OTHER PEPSINE

Has given so great satisfaction to both Prescriber and Patient for twenty years past.

*Schacht's
Fluid
Pepsine*

PEPSINA LIQUIDA
(SCHACHT).

One Teaspoonful will Peptonise 1,000 grains of Albumen.

The LANCET reports: "The preparation is decidedly elegant, and possesses great therapeutic powers."

The BRITISH MEDICAL JOURNAL says: "We find by experiment that it has the peptonizing power claimed for it by the makers."

The PRESS & CIRCULAR, October 10th, 1900: "On applying the test to PEPSINA LIQUIDA the albumen was completely converted, thus fulfilling the manufacturers' claim. The flavour of the preparation is particularly agreeable."

~~~~~  
THE ADULT DOSE IS A TEASPOONFUL, WITH FOOD. REACTION, ACID.

*In 4 oz., 8 oz., and 16 oz. bottles, of every Wholesale House,*

OR DIRECT FROM

**GILES, SCHACHT & Co., CLIFTON, BRISTOL.**

## THERAPEUTIC QUALITIES

**T**HE absolute absence of all OPIATES, NARCOTICS, and ANALGESICS, thus offering, instead of false roundabout and mere transitory relief, a true and scientific treatment for AMENORRHEA, DYSMENORRHEA, and other IRREGULAR MENSTRUATION.

In these conditions and the most obstinate cases of SUPPRESSED and RETARDED MENSTRUATION, Ergoapiol (Smith) (though devoid of the above unpleasant features, which are so often followed by a sad sequela) possesses a remarkable power to obviate pain and to bring about a healthy activity of the menstrual functions through its direct tonic and stimulating effect upon the Uterus and its appendages.

## CAUTION.

To obviate Substitution or other possible error in compounding, it is advisable always, besides specifying ("Smith") when prescribing Ergoapiol (Smith), to order in Original Packages only, as in facsimile prescription appended.

These packages contain twenty capsules each, and are so constructed that all printed matter pertaining thereto can be readily removed.

**R**  
*Ergoapiol. (Smith)--- Caps. XX.*

# The New Drink FELIXIR

which BOOTH'S DISTILLERY, LIMITED, have just introduced on the market is a spirit which they have been many years in perfecting. It is Distilled and Bottled at their Distillery, which is under the supervision of

*His Majesty's  
Officers of Excise.*

It is doubly rectified and consequently entirely free from fusel oil. Has been thoroughly matured in Sherry Casks. Contains no added sugar. Has no diuretic effects as Gin and Grain Whiskies, and also avoids the indigestible and bilious properties of the best Malt Whiskies.

The recent controversy in the daily papers concerning the impurities in the large number of Spirits placed before the Public proves only too plainly how much a new Spirit is needed which is

**Doubly Distilled,  
Free from Fusel Oil,  
Absolutely Pure,  
and is Soft, Old and Very Dry.**

PRICE 48/- PER DOZEN.

To be used in the same form as Whisky, with either Water or Minerals.

Distilled and Bottled at the Distillery.

Can be obtained of all Wine & Spirit Merchants. Sample will be sent free on Application.

**BOOTH'S DISTILLERY, LIMITED**

55, COW CROSS STREET, E.C.

# An Infant's Food.

AS a basis for preparing a substitute for human milk, it is agreed by the authorities that Fresh Cow's Milk must be used

Fresh Milk contains the antiscorbutic principles.

Sterilized, condensed, dried, or desiccated milk does not contain them.

The addition of

## Mellin's Food

to fresh milk is simply for modification.

Fresh milk so modified still contains the antiscorbutic essentials and is easily and readily assimilated by an infant.

The subject of the

### Home Modification of Fresh Cow's Milk

is concisely and interestingly treated in our book, which we should be pleased to send you free.

Mellin's Food does not contain starch.

DUNCAN, FLOCKHART, & CO.'S

## BAUMOL SOAP IN MEDICAL PRACTICE.

*Extract from a Paper read before the Medico-Chirurgical Society of Edinburgh:—*

"Messrs. Duncan, Flockhart & Co. have prepared a soap which is certainly superior to any superfatted soap which I have tried. This, registered as '**Baumol Superfatted Skin Soap**,' is made of the purest fat, contains no cocoa-nut oil, nor any objectionable ingredient, and is not only perfectly neutral, but is superfatted to the extent of 3 per cent. It will be found to keep well, to be most pleasant in use, reasonable in price, and for all toilet purposes perfect; but 'it won't wash clothes.'"

*From the "Edinburgh Medical Journal," December, 1891:—*

"We have submitted Duncan, Flockhart & Co.'s **Baumol Soap** to the most powerful tests, and have no hesitation in expressing the opinion that it is incomparably the best soap we have ever used. It can be confidently recommended as unsurpassed for the nursery, for shaving, and general toilet use."

Telegrams { "Dunhart, Edinburgh." } London Branch : 143, Farringdon Rd., E.C. [Telephone { No. 874, Edinburgh. } Holborn 282 London.]

The Vikings had a civilisation peculiar to themselves. Their lives were devoted to hunting, fishing, agriculture and warlike pursuits. With them, fish and barley formed the mainstays of life, which doubtless contributed to the great hardihood, physical strength and endurance for which they were renowned. They were never conquered. The beauty of their workmanship also was unique, as the artistic work on their battle-horns, weapons and bronze implements amply testifies.

# 'Kepler' Malt Extract.

'KEPLER' Malt Extract is made by methods and with materials which experience has taught to be best. In flavour and appearance it is the best malt extract, but its superiority is most marked in the results it gives. That is why 'KEPLER' is the best Malt Extract for the physician's purpose.

AVOID IMITATIONS.

'KEPLER' MALT EXTRACT is supplied to the medical profession, in two sizes, at 1/8 and 3/4 per bottle.

A CHIRURGIEN OF THE XVII CENTURY  
TREATING A PATIENT FOR CATARACT.

A method of treatment for cataract without operation was in vogue during the XVII century. It is described by a writer of the period, as follows:—"A veine must first be opened in the forehead, and bleeding at the nose must be caused. A clyster of the roots of fennell must then be administered, and sope or blood-suckers laid behind the patient's ears. Cupping glasses with scarification must be applied to the hinder part of the head, sneezing medicines given, and a seton fastened to the neck will doe much good.

BURROUGHS WELLCOME & CO., LONDON, SYDNEY AND CAPE TOWN.

THE ASTROLOGICAL SIGNS OF THE TIGER OR JAGUAR, AND WATER, AS REPRESENTED BY THE ANTIENT MEXICANS.

The Tiger or Jaguar was the constellation known to the Nahuas as the Ocelot or the Great Bear, and symbolised the nocturnal heavens dotted with stars as the jaguar skin with spots. It signified learning and wisdom, and was supposed to govern the left foot in health and disease. The sign of Water was allotted to the right eye, and was regarded as the creator of fertility. On the other hand it brought gloom, chilliness, coughs, pain and disease, and so represented sickness and desolation.

# Liquor Sedans

A UTERO-OVARIAN SEDATIVE AND ANODYNE.

FULL PARTICULARS  
ON REQUEST. ... ..

**L**IQUOR SEDANS has been found a most convenient and serviceable preparation for a very large class of cases of Dysmenorrhœa, Ovarian Irritability and Irregularity of the Utero-Ovarian Functions, and threatened Abortion. \* \* \* \* \*

Each fluid-ounce represents :

Black Haw (*Viburnum prunifolium*) ..... 60 grains.  
Hydrastis (*Hydrastis canadensis*) represented  
by Hydrastine ..... 60 grains.  
Jamaica Dogwood (*Piscidia piscipula*)..... 30 grains.  
Combined with Aromatics.

## PROPERTIES:

**Black Haw.**—Uterine tonic and sedative, especially valuable in threatened Abortion.

**Hydrastine.**—Exerts a stimulating and alterative action upon mucous membranes.

**Jamaica Dogwood.**—Anodyne, sedative, analgesic, hypnotic. In Ovarian pain it is often almost magical in the relief it affords.

# HAY FEVER

## AND ITS TREATMENT.

**S**OLUTION ADRENALIN CHLORIDE (TAKAMINE) is a remedy of considerable importance in relieving nasal discomfort attending hay fever, and eminent authorities are of opinion that it may prove of value as a preventative.

SOLUTION ADRENALIN CHLORIDE (TAKAMINE), 1:1000, may be applied locally on pledgets of cotton wool, or sprayed into the nose; and, also, taken internally, in doses of from five to thirty minims.

By this treatment the prominent symptoms frequently abate in the course of twenty-four hours, the nasal mucous membrane remaining contracted and blanched, and the patient steadily progressing to complete recovery.

## IS ESTEEMED BY PHYSICIANS

because of the uniformly good results obtained from its use in Practice.

These results bear out the claims made for "MALTINE" on the ground of the Purity of the materials used, and the care devoted to its preparation, whereby are assured

### DIASTASIC ACTIVITY,

and a high percentage  
of the valuable food  
constituents of Malt.

{ ALBUMINOIDS,  
PHOSPHATES,  
CARBO-HYDRATES.

## "MALTINE" is liked by Patients,

Its Convenient Semi-Liquid Consistency and agreeable Flavour commending it in preference to the thick viscid extracts.

### "MALTINE" WITH PEPSIN AND PANCREATIN

Affords a combination of STARCH, FAT, and PROTEID-digesting ferments, and is capable of converting into assimilable condition the various food-stuffs required by the organism.

Each fluid ounce contains Pepsin equivalent to 40 grains Sacch. Pepsin; Pancreatin, 15 grains.

### "MALTINE" WITH PHOSPHATE IRON, QUINIA AND STRYCHNIA.

"MALTINE" forms a Palatable and Efficient medium for the administration of Phosphate of Iron, Quinine and Strychnine. "MALTINE" with Phosph. Iron, Quin. et Strych., does not, like certain forms of iron, induce irritation, and not being liable to produce a cumulative effect, is superior to pills as a menstruum for strychnine.

Each fluid ounce contains Iron Pyrophosphate, 4 grains; Quinia, 1 grain; Strychnine,  $\frac{1}{2}$  grain.

In prescribing kindly specify "MALTINE COMPANY."

## A Great Improvement on the ordinary Pill or Compressed Tablet.

**"Kapsols"**  
TRADE MARK.

A 'Kapsol' consists of a particularly soft, homogeneous, and hence easily absorbed pill mass, enclosed in a thin jujube coating which is soft and readily soluble. Although the jujube envelope is quickly soluble, yet it is of such a nature as to indefinitely preserve the contents, and 'Kapsols' that have been made over two years are as moist, active, and soluble as on the first day they were made.

'Kapsols' are particularly recommended where prompt action of the drug is required, or where the action is desired to take place in the stomach as with Pepsin, Bismuth, &c. This cannot be guaranteed when hard pearl-coated pills are employed, for these mostly pass through into the intestines before disintegration takes place.

Any pill formula may be had in 'Kapsol' form. A price list of 'Kapsols' will be sent to Medical Men on request.

An Analogue of Easton's Syrup.

# Bynin Amara.

*"The preparation is very palatable, and there is no doubt it will be much appreciated as a pleasant means of obtaining the tonic effects of Easton's Syrup combined with the DIASTASIC and NUTRITIVE value of Extract of Malt."*

The British Medical Journal.

**BYNIN AMARA** is a combination of the Phosphates of Iron, Quinine, and Strychnine with Bynin, Liquid Malt. It is, therefore, with the exception of the vehicle used, similar to Easton's Syrup (Syr. Ferri Quin. et Strych. Phosph.), the strength being one-fourth of the latter.

*Bynin Amara* is, however, superior to Easton's Syrup, in that the inert Syrup is replaced by the active diastasic ferment contained in Malt Extract. This improvement makes it at once far more valuable as a digestive tonic; and experience has shown that it can be used with more safety and to greater advantage than Easton's Syrup, especially in cases of Nervous Debility and Dyspepsia.

The Lancet writes:

"This excellent preparation is a distinct advance on Easton's Syrup. Not only does it contain the Phosphates of Iron, Quinine, and Strychnine unimpaired, but the vehicle for their palatable administration is, as our own experiments have shown, a powerful digestive of farinaceous food. This vehicle is BYNIN, or Liquid Malt, which exhibits a powerful, liquefying, and converting action upon starch. . . . The formula is such as is admirably adapted for the administration of one of the best tonic combinations known."

SAMPLES will be sent FREE to Medical Men on request.

LONDON, E.C.

# A useful combination.

A clinical thermometer and fountain pen.

One of our staff has conceived the idea of an ordinary fountain pen to contain a clinical thermometer. This novelty we have had prepared for us by the Jewel Pen Company. It is made up of a solid gold nib—the usual cost of this alone is 8/-—and a standardised clinical thermometer by J. Hicks, London, fitted into a vulcanite holder and reservoir which can be carried in the waistcoat pocket.

The whole complete is well worth one guinea.

As an advertisement we are prepared to supply bonâ fide practising medical men with it for 5/-, and upon receipt of an application written on professional note-heading, stating whether a fine, medium or broad nib is used, we will forward one of these combined fountain pen thermometers for approval. If you consider the invention worth, as we state, one guinea, then send us 5/-, otherwise return the pen, and we will refund the postage.

The above pen can be seen at our stands Nos. 42 and 43 in the museum at the British Medical Congress to be held at Swansea from July 28th to 31st next inclusive.

Rheumatism.*

## A valuable new Medicament.

A SCIENTIFIC, *not a* SENTIMENTAL FOOD

# ARMOUR'S Soluble Beef

A food representing all the nutriment of meat scientifically prepared in the form best suited to the enfeebled powers of digestion and assimilation.

The *Food Value* of Soluble Beef may best be described by comparing it with raw meat juice, which contains from 2% to 5% proteids and has long been used as a food for the sick. The analysis of Soluble Beef made and published in the *London Lancet* shows it contains 54% proteids. On this basis it will require from 10 to 20 teaspoonfuls of raw meat juice to equal in nutritive value one teaspoonful of Soluble Beef.

Soluble Beef is soothing to the mucous membrane of the stomach and bowels and, being free from irritating properties, commends itself when other foods cannot be tolerated.

*Samples, with descriptive printed matter and recipes, sent postpaid to physicians.*

*Made only by*  
**Armour & Company,**

CHICAGO & LONDON.

## NOURRY'S IODINATED WINE.

Free from Alkaline Iodides. Palatable. Easily assimilated. A perfect substitute for Cod Liver Oil and Iodides.  
**LYMPHÆMIA. ANÆMIA. DYSMENORRHEA. PULMONARY AFFECTIONS.**

•77 grain (0.06 gm.) of Iodine and 1.54 grain (0.10 gm.) of Tannin per tablespoonful.

*Children*—One to two teaspoonfuls. *Adults*—One tablespoonful. To be taken at meals twice a day.

**THE LANCET** of January 6th, 1894, in its Analytical Report, states:—"The above preparation, therefore, which contains no free iodine, but which yields it in full quantity on the slightest provocation, is calculated to lead to more extended application. It certainly deserves trial."

**THE BRITISH MEDICAL JOURNAL** of August 29th, 1894, in its Analytical Report, states:—"The wine contains no free iodine. It is very pleasant to the taste, and no doubt would be very effective in cases where iodine and iodides are indicated."

NOURRY'S IODINATED WINE is not advertised to the public. It owes its success entirely to the Medical Profession.

## CACODYLATE OF SODIUM (CLIN)

(ORGANIC ARSENIC).

Emphatically recommended by Professors GAUTIER, RENAULT, LETULLE, &c., in the treatment of

**TUBERCULOSIS** (either incipient or declared), **IMPALUDISM, DIABETES, DERMATOSES, and CANCER.**

**DROPS**—5 drops contain  $\frac{1}{2}$  grain of Pure Cacodylate of Sodium.

**GLOBULES**—This special form consists of little Globules, easy to swallow, with a shell of gluten. Each Globule contains  $\frac{1}{2}$  grain of Pure Cacodylate of Sodium.

**TUBES** (Sterilised for Hypodermic Injection).—Each Tube contains a sterilised solution dosed at 1 grain of Pure Cacodylate of Sodium per injection of 16 minims.

When prescribing, kindly specify "**CLIN**." These preparations are employed in the Paris Hospitals.

## LECITHINE (CLIN).

NATURAL ORGANISED COMBINATION OF PHOSPHORUS.

**LECITHINE (CLIN)** is prescribed in all cases requiring reconstituent medication and should replace phosphated preparations.

The three Pharmaceutical Preparations are:—

**LECITHINE PILLS (CLIN).** Each Pill contains 5 centigrammes (or about 0.77 gr.) of pure Lecithine.

**GRANULATED LECITHINE (CLIN).** Of easy administration, especially for children. One teaspoonful equals 5 cent. (or about 0.77 gr.) of Pure Lecithine.

**LECITHINE SOLUTION (CLIN).** For Hypodermic Injection. Each Tube of 1 centimetre cube contains 5 centigrammes of Pure Lecithine.

SAMPLES AND LITERATURE SENT FREE TO MEDICAL MEN ON APPLICATION TO:—

**F. COMAR & SON, 64, Holborn Viaduct, London, E.C.**

# SALUTARIS

**SALUTARIS** is a distilled water aerated, manufactured under the most elaborate methods and with the most minute precautions, to secure perfect hygienic purity.

**SALUTARIS** will be found very useful—

- (1) As a Table Water for daily use;
- (2) As a Preventive of diseases caused by contaminated water;
- (3) As an ideal solvent for absorbing and mechanically washing out the accumulations of waste products in the body without lowering the system;
- (4) In the treatment of all Kidney Affections and many Liver Disorders, also Gout, Dyspepsia, &c.

"**STILL**" (i.e., non-aerated) **SALUTARIS**, specially useful in cases of Dyspepsia, is supplied in One-Gallon Jars with Taps (as illustrated).

**SAMPLES FREE to the MED. PROFESSION.**  
**Inspection of Manufacture Earnestly Invited.**

**SALUTARIS WATER CO.**

236, Fulham Road, LONDON.

## MESOTAN.

A new Salicylic Acid derivative for outward application in the treatment of rheumatic and gouty affections, muscular rheumatism (lumbago), neuralgic pains (not sciatica), also for relieving the pains in chronic gout (rheumatoid arthritis). Practically odourless. Easily absorbed by the skin.

## HELMITOL.

(Anhydromethylene citrate of Hexamethylene-tetramine).

New antiseptic of high quality for the bladder. Exceedingly favourable results were obtained in cases of Cystitis, Pyelitis, Phosphaturia, Urethritis gonorrhoea posterior and abscesses of the urethra. Helmitol is administered in doses of 16 grains, 3-4 times daily.

## THEOCIN.

First alkaloid of the Xanthine group produced synthetically.

Most efficient diuretic.

Dose: 3 to 6 grains, 3 to 4 times daily. Indic.: Affections of the heart accompanied by congestions, Ascites and Nephritides with general dropsy so far as the epithelium of the kidneys is still capable of performing its work.

## ARISTOCHIN.

The neutral Carbonic Ester of Quinine.

Free from the bad after-effects generally associated with the administration of Quinine.

Tasteless, quick in action.

Indications: Typhus and all Fevers, Influenza, &c.

## Duotal

## Creosotal

Duotal (Guaiacol-Carbonate) "Heyden" and Creosotal (Creosote-Carbonate) "Heyden" are the most reliable agents for Tuberculosis of the lungs, Bronchitis, and Scrofula. Most alleviating effect, without any of the caustic or poisonous by-effects and the nauseating taste and smell of the Guaiacol and Creosote. No irritation of the stomach and the digestive channel. Greatly stimulating the appetite. Rapid gain of weight and convalescence. Phthisis in its earlier stages successfully treated within a few months. Duotal "Heyden" is totally odourless and tasteless, and consequently is readily taken even by very sensitive patients, who stand large doses without inconvenience.

Free Samples and Literature will be sent on application to BURGOYNE, BURBIDGES & CO., 12 & 16, Coleman Street, London, E.C. Sole Agents of VON HEYDEN'S CHEMICAL CO., RADEBEUL, nr. DRESDEN.

**JOSEPH TURNER & CO., Ltd., QUEENSFERRY FLINTSHIRE, N.W.****CONTREXEVILLE SOURCE DU PAVILLON****DIURETIC, TONIC, DIGESTIBLE — BEFORE AND AT MEALS  
GOUT, GRAVEL, ARTHRITISM**

The Contrexéville Mineral Water (Pavillon SPRING) is a diuretic and laxative, a tonic, a stimulant, and aid to digestion. — It acts upon the secret mechanism of nutrition, as is proved by its influence in checking the production of uric acid and glucose: it favourably modifies those morbid processus of biological chemistry which result in the accumulation of uric acid in the blood, inducing the phenomena of gout. — It facilitates the elimination of urinary deposits, by contracting the ducts containing them and increasing the quantity of liquid by which these vessels are flushed. — It assists the cicatrization of the inflamed mucus of the urinary organs, and helps to restore the normal acidity of the urine; facilitates the flow of the bile, by causing contraction of the biliary ducts and the expulsion of calculi; and is invaluable in the treatment of congestion of the liver.

# WARD, INVALIDS' COMFORTS.

*Invalid Chair Manufacturer,*  
**246 & 247, TOTTENHAM COURT RD., LONDON.**

Telegraphic Address: "INVALIDS, LONDON."

(late of Leicester Square).

Telephone: 5387 GERRARD.

TO HIS MAJESTY THE KING, QUEEN ALEXANDRA, THE LATE QUEEN AND ROYAL FAMILY.

ESTABLISHED OVER 150 YEARS.

PRICE CATALOGUE POST FREE.

No. 14 is the simplest and best constructed Chair for carrying Invalids up or down stairs.

No. 1. Ward's Self-propelling Chair may be used with ease by a child of eight.

No. 61A. Our New Patent Combination Imperceptible Graduating Elastic Ventilating Mechanical Couch. The graduating mechanical actions of this couch are sufficient to meet all cases, no matter whether it is spinal affection, hip disease, fracture, paralysis, heart disease or dropsy. A patient however weighty can be imperceptibly graduated to any position by a small windlass, without being touched by a nurse; at the same time, all pressure is avoided by the patent elastic ventilating mattress, which is a complete preventative of bed sores. The large patent lubricating castors are a great boon, as they enable this couch, with a patient of any weight, to be wheeled about the room with perfect ease. These couches vary in size from 2 feet to 3 feet wide.

No. 11. Ward's Improved Recumbent Chair, the most luxurious Invalid Chair made.

No. 19. Ward's Three-wheel Victoria Bath Chair, with hood and glass shutter.

No. 21c. The back of this Chair is made to recline to any angle, and, with leg-rest fitted, an Invalid may lie at full length.

THE LARGEST STOCK IN THE WORLD FOR SALE OR HIRE.

# A Gentleman's Carriage.

One of our Ten Types. 10-h.p. Prices, £270 to £430.

When you spend several hundred pounds on the purchase of a car, just ask yourself if—just because others do—you have any frantic desire to ride about in something that looks like a circus wagon, which attracts notice by the vulgarity of its glitter and polish, or if for your money you would prefer to get a gentleman's carriage in every respect. We believe if you calmly and honestly consider you will come to the latter conclusion. If so,

## DURYEA Are THE Carriages you require. Power Carriages

### READ WHAT A USER SAYS.

Writing from Rugby on April 15th, 1903, a Customer says: "I think your car very satisfactory. It goes along smoothly and quietly, and has the appearance of a gentleman's carriage, instead of being a cross between a fire engine and a steam roller. It goes up hills beautifully."

Is that the sort of Car you want? THEN BUY A DURYEA

If you want to know more about our unique system, we will send you FREE our 48-page illustrated work, "THE HOOK OF THE DURYEA," and for 7 stamps will include our pamphlet, "WHAT TO DO AND HOW TO DO IT."

The DURYEA POWER CARRIAGE Co.  
St. Nicholas, Coventry.

BY ROAD OR RAIL  
**READING'S COT CARRIAGES,**  
the greatest ease and comfort ever introduced for the Removal of Invalids, being fitted with the PATENT NOISELESS WHEELS, and let on moderate terms, for any journey.

## MAYTHORN & SON, COACH BUILDERS, BIGGLESWADE. ESTABLISHED 1842.

MAYTHORN'S RIPON BUGGY (Built in Two Sizes).

### MAYTHORN'S RIPON BUGGY.

This handsome and fashionable Buggy is designed to obviate disadvantages present in almost all others. Being hung low its hood offers very little resistance to the wind, and egress is most easy. The hood comes well over the seat and gives thorough protection. Perfect balance is secured by a sliding seat. The price is most moderate, viz.,

Cob size, 50 Guineas cash, or three annual payments of £18 7s. 6d. each.

Horse size, 52 Guineas cash, or three annual payments of £19 2s. 4d. each.

Maythorn & Sons BROUGHAMS, VICTORIAS DOG-CART-PHAEONS and PANEL CARTS, are unequalled for STYLE, lightness and comfort, and their stock comprises the finest selection in England. An illustrated Catalogue will be sent free on application, and no medical gentleman should place his order for a carriage before communicating with Maythorn & Son, as they have for many years made the requirements of the profession their special study, and are in the best position to supply them.

### VICTORIA GIG.

Adapted for medical men.  
25 gs.  
Leather hood and India rubber tyres extra.

### BEDDOES MOORE, STOURBRIDGE.

FOR PROMPT SALE, LIGHT OPENING BROUGHAMS (2), carry 2 or 4 inside; like new. Also selection new ones.

ACCIDENTS caused by collision, the falling bolting or kicking of horses, or by being run into by other vehicles. Policies issued for the year or season only. Prospectuses post free.—IMPERIAL ACCIDENT, LIFE SMOKE and GENERAL INSURANCE COMPANY, Ltd., 17, Pall Mall East, London, S.W. Agents wanted.

## FOR VARICOSE VEINS AND WEAKNESS.

Very superior SURGICAL ELASTIC STOCKINGS and KNEE-CAPS on a new principle, pervious, light in texture, and inexpensive, yielding an efficient and unvarying support under any temperature, without the trouble of lacing or bandaging. Likewise a strong low-priced article for hospitals and the working classes.

Abdominal Supporting Belts for ladies' use before and after accouchement, are admirably adapted for giving adequate support with extreme lightness—a point hitherto little attended to.

Instructions for measurement, and prices on application, and the articles sent postage free from the manufacturers.

**POPE & PLANTE,**

## Duke Benz Motor Car for

SALE, in good running condition, 6 horsepower, three speeds forward and reverse, crypto gear, good brakes, artillery wheels, solid tyres in good condition, hood and apron, affording good protection in wet weather. This is an ideal Car for a medical gentleman, is easy to drive, and can be seen to by any lad, it is so simple and uncomplicated in its mechanism. It can seat four, seat for two removable. Tools, hooter, lamps, &c. Owner going in for fast Car. Price £150, cost over £300.—Apply, GUNER, LTD., Motor Garage, London Road, Derby.

## Excelsior Motor Cycles. THE NATIONAL FAVORITES.

### IMPORTANT NOTICE.

Entirely new models of the EXCELSIOR MOTOR BICYCLES have been designed for 1903 Season, embodying all the latest improvements in scientific Cycle and Motor construction, including triple crown duplex front forks, special Motor bottom bracket and Motor hubs, strong steering lock, new powerful brakes, specially strong and reliable 2 in. A.1 Clincher Motor tyres, and many other minor, but important, improvements have been effected.

The EXCELSIOR MOTOR BICYCLE will be made in three different powers, viz.: 2, 2½, 2½ h.p., which will be sufficient to meet all reasonable requirements for business and professional purposes, for bowling, with a trailing Car, for hill climbing, or for speed, which can be regulated in a simple manner from 5 to 35 miles per hour.

The reliability of the 2½ h.p. EXCELSIOR MOTOR BICYCLE, after nearly two years use, is irrefutable. We can give Medical and Professional references.

Full particulars and Pictorial Catalogues free on application.

N.B.—STANDARDIZED PIPETTES made to contain or deliver quantities as from 1 m. to 1000 m.

**ORAYON ANTI-BUÈE** a means of obviating the condensation of vapour upon Laryngoscope mirrors, spectacle and eye-glasses, reflectors, &c., &c. Cut the pencil to expose its core, make 3 or 4 streaks with it across the glass, rub and polish off with a handkerchief.—Price 1/6 each, for stamps with order.—Vide *LANCET*.

**THE NEURAMCEBOMETER** Exner's for measuring the interval between the application of a stimulus to a sense-organ, and the instant that the stimulus is responded to by the individual. (Reaction time.) In its simplest form the instrument is arranged for auditory perception, but it may be arranged for vision and for the responses to nerve stimulation of various parts of the body. The instrument is not delicate in construction, will clamp to a table or bench, and the time is shown in one hundredths of a second. Price £3 3 0.

Sole Agent for Great Britain and the U.S.A.

### KNEE TRUSSES.

For Dislocated Semi-lunar Cartilages.—Made in 3 sizes for right and left knees. The same principle specially adapted for chronic dislocations of the patella. The truss does not interfere with the free use of the joint in kneeling, cycling, football or tennis. £2 2 0

### FRACTURED PATELLA.

A walking splint for use after union of the upper and lower fragments. The steel joints at the sides are so made that the degree of bending at the knee-joint can be gradually increased. In case of a slip the knee cannot bend more than is allowed by this adjustable stop, and thus prevents over-stretching of the newly-formed ligament. To assist extension of the limbs a strong elastic band joins the upper and lower part of the splint. This also is adjustable, and greatly assists the weakened quadriceps muscles in walking; as used at Guy's, the Middlesex, & St. Bartholomew's Hospitals.

In the usual form, for twelve months' use, the splint is about 12 inches long, but for permanent displacement it is better to carry a light support to the heel of the foot. £3 2s. to £5 2s.

Directions for measurement forwarded on application.

**APPLIANCES** for Varus or Valgus, with Inversion or Eversion Straps, also with Toe-Lifting and Depressing Springs.—For Genu Varum or Valgum, for Day or Night Use, with and without Screw Extension. From £2 2s.

## DIABETES and OBESITY. "ENNORE," BOSCOMBE, BOURNEMOUTH.

An institution of the highest class for the treatment of these diseases under the conditions most favourable for securing permanent improvement or cure. Very special attention given to the dietary, which, whilst thoroughly attractive and nutritious, is regulated to a nicety in accordance with the varying needs of each individual case. Most comfortable home, in a selected climate, with every facility for a healthy and pleasantly-varied life. Massage, baths, etc., when necessary.

Average duration of course of treatment (diabetes), 30-40 days; obesity somewhat longer.

The Physician Superintendent devotes his entire time to the strictly-limited number of patients.

On request, a full report will be furnished to the medical attendant by whom the patient was sent, at the conclusion of the case.

Prospectus containing full particulars, on application, address The Secretary, as above.

NOTE.—It is particularly requested that cases of diabetes be sent for treatment at as early a stage of the disease as possible.

A. R. GRANT, M.B., C.M., Physician-Suptd.

## INEBRIETY & NARCOMANIA. INVERNITH LODGE RETREAT

COLINSBURGH, FIFE, SCOTLAND.

(Licensed under the Inebriates' Acts.)

For the treatment of Gentlemen suffering from the Alcoholic and Morphinic Habits, and Narcomania from such drugs as Cocaine and Chloral.

The Retreat possesses many unique advantages. It is in an isolated part of the country where there is freedom from temptation. It is most beautifully situated in the Garden of Fife, with lovely views of the German Ocean. The Grounds are very extensive, there being 130 acres for recreation and 800 acres of low ground shooting. A stream flows through, and a lake is situated in the grounds, in which there is trout fishing. The air is very bracing, and is specially suitable for those whose nervous system requires bracing up. Sports—Shooting, Fishing, Golf-course, Tennis, Badminton, Cricket, Photographic dark room, Billiards, Skating, &c. The number of patients is limited (voluntarily or under the Acts). The best scientific methods for the attainment of a permanent cure in those suffering from Drug Habits, are adopted.—References can be had from some of the leading men in England, Scotland, and Ireland.

Terms and particulars on application to JOHN Q. DONALD, L.R.C.P., L.R.C.S.(Edin.), Proprietor and Resident Physician.

Telegrams: "Salubrious, Colinsburgh."

## ALCOHOLISM and . . . . . DRUG HABITS. NORWOOD SANATORIUM

## City of London Asylum, near Dartford, Kent.

PRIVATE PATIENTS are received at a uniform charge of a guinea a week, to include all things necessary (clothing and repairs to same alone excepted). Separate wards are allotted for suitable cases of this class. Curative treatment is the primary object, and careful classification is observed.

The Institution, recently remodelled, renovated, and lighted by electricity, is situated on an elevated site between Dartford and Greenhithe, and is 16 miles from London. The estate comprises 200 acres, and commands extensive views of the River Thames and the Essex shore.

Cricket, croquet, tennis, billiards, theatricals, dances, picnics, and other amusements are amply provided.

For particulars, apply to Medical Superintendent. Stone House, near Dartford.

## DORCHESTER ASYLUM. PRIVATE PATIENTS.

The Special and Separate Departments for Private Patients contain large Dining and Drawing Rooms of Fireproof construction, and lighted by Electricity. Situation elevated and healthy, with extensive Recreation Gardens. Every kind of amusement, including Golf Course. Charge from £1. 1s. to £2 2s. per week.

Letters: HERRISON, DORCHESTER.  
Telegraphic Address: HERRISON, CHAMBERSTON (about 3 hours from London).  
Full particulars on application to Dr. MACDONALD.

## PLYMPTON HOUSE, PLYMPTON S. DEVON.

Proprietors—Drs. ALDRIDGE & TURNER.

This old-established Private Asylum offers every advantage that experience can suggest for the care and treatment of mental cases.

For terms, etc., apply to the Resident Physician, Dr. ALFRED TURNER. Telephone, No. 2 Plympton.

## CITY & BOROUGH OF CANTERBURY. STONE HOUSE ASYLUM

Private Patients.

The Stone House Asylum is now open for the reception of Male and Female Private Patients. The Private Departments are distinct from the main Asylum, with their own entrances, gardens and recreation grounds. The site of the Asylum is elevated and healthy, with an extensive view of the surrounding country, and its extent is 53 acres.

For forms of admission and further particulars, apply to Dr. NORMAN LAYERS, Medical Superintendent, Stone House Asylum, Canterbury.

## Grove House, All Stretton, Church Stretton, Shropshire.

A Private HOME for the care and Treatment of a limited number of ladies mentally afflicted. Climate healthy and bracing.

Apply to Mrs. MCINTOCK (widow of the late Dr. McIntock), the Proprietress, or to the Resident Medical Superintendent, Dr. McIntock.

## St. Luke's Hospital, London, E.C.

ESTABLISHED 1751.

This Hospital was established for the treatment of mental diseases of the middle classes. Preference is given to acute cases, and these are admitted either gratuitously or on payment of a weekly sum varying from 14s. to 30s., according to the circumstances of each. Patients are eligible for admission from any part of the United Kingdom. Forms of application may be had from, and enquiries addressed to, the Secretary, at the Hospital.

The Convalescent Establishment in connection with the Hospital is at St. Lawrence, near Ramsgate.

W. H. BAIRD,  
Old Street, London, E.C. Secretary.

## DUBLIN.

HAMPSTEAD, GLASNEVIN, for GENTLEMEN, HIGHFIELD, DRUMCONDRA for LADIES. Telephone No. 1032. (Licensed under the Government Inspector's Supervision), as Hospitals for the Medical Care and Treatment of Patients of the upper and middle classes suffering from MENTAL AND NERVOUS DISEASES, ALCOHOLISM, etc. Voluntary patients admitted without medical certificates. Relatives of Patients who desire to reside with Patients can do so. There are cottages for special cases on the demesne (154 acres). Further information can be obtained from the Resident Medical Superintendent, HENRY M. EUSTACE, M.D., any time at the above addresses, or at his office, 41, Grafton Street, Dublin, on Mondays, Wednesdays and Fridays at 2-3 p.m.

## St. Andrew's Hospital for MENTAL DISEASES, Northampton.

FOR THE UPPER AND MIDDLE CLASSES ONLY.

President, The Right Hon. the EARL SPENCER, K.G.

The Institution is pleasantly situated in a healthy locality, one mile from the Northampton stations of the London and North Western and Midland Railways, and 1½ hours only from London; and is surrounded by more than 100 acres of pleasure grounds.

The terms vary from 31s. 6d. to £4 4s. a week according to the requirements of the case. These terms may be reduced by the Committee of Management under special circumstances.

Patients paying higher rates can have special attendants, horses and carriages, and private rooms in the hospital or in detached villas in the grounds of the hospital, or at Moulton Park, a branch establishment, two miles from the hospital.

There is also a seaside house, Bryn-y-Nuadd Hall, Llanfairfechan, N. Wales, beautifully situated in a park of 180 acres, to which patients may be sent.

For further information apply to the Medical Superintendent.
