# STRENGTH AND DIET:

**A Practical Treatise with Special Regard to the Life of Nations.**

BY THE

**Hon. R. RUSSELL.**

"This remarkable book is made up mainly of thousands, if not tens of thousands, of quotations from a huge variety of sources, admirably selected and pieced together on the whole, so as to make very interesting and impressive reading. A notable feature is the collection of minute facts as to the diet of all nations and all sorts of classes in all ages of the world, placed side by side with evidence as to their respective powers. Whether we agree with Mr. Russell's views or not, we must admit that his tremendous industry has produced a fine encyclopædia in their support."—*Rapid Review*.

SECOND EDITION OF

## THE OPERATIVE SURGERY OF MALIGNANT DISEASE.

By HENRY T. BUTLIN, F.R.C.S., D.C.L.

Surgeon to St. Bartholomew's Hospital, &c., with the co-operation of JAMES BERRY (the thyroid), W. BRUCE CLARKE (the kidney), ALBAN DORRIS (the ovary and uterus), PERCY FURNIVALL (the stomach, intestine and rectum), WALTER JESSOP (the eye), and H. J. WARING (the liver and gall-bladder).

With 19 Engravings, 8vo., 14s.

J. & A. CHURCHILL.

"There are few recent books more important, there are none more interesting to the surgeon and the general practitioner than Mr. Butlin's new edition of his work on the *Operative Treatment of Malignant Disease*. . . . Every practitioner in the country should consider it his duty (one can answer for it that it will certainly be his pleasure) to read, to study, to remember, to act upon, the teaching conveyed in this work."—*BRITISH MEDICAL JOURNAL*.

"Comparatively few treatises dealing with this very important subject (tumours) exist, and the two which lie before us are merely re-editions of works which had previously gained an enviable reputation. Mr. Butlin's book on the *Operative Surgery of Malignant Disease* reappears after an interval of twelve years, and the changes which have occurred in that period are so great that he has been forced to ask the collaboration of several other surgeons to undertake the representation of special organs."—*PRACTITIONER*.

"The work, taken as a whole, is good, and the advice given is derived from actual experience and observation, the book differing materially in this respect from a number of contemporary works in which conclusions are drawn from a collation derived from numerous works. The book will be found most useful and instructive and well worth adding to one's library."—*NEW YORK MEDICAL JOURNAL*.

Price 12s. 6d.

**Isoform** liberates active oxygen in the presence of animal tissues, pus, secretions, etc., and develops a powerful antiseptic action. Employed as: **Isoform-Powder** and **Isoform-Gauze** in all kinds of infected, purulent and ichorous wounds, ulcers, etc.

## ISOFORM-HOECHST

A new, non-poisonous, powerfully bactericidal  
Continuous Antiseptic and Deodorant  
tried at the Royal Surgical Clinic of Privy  
Councillor v. MIKULICZ-RADECKI in Breslau.

**Isoform-Paste** for the reliable sterilization of the hands.

**Isoform-Capsules** (soft and hardened) containing 8 grains Isoform-Powder for the production of antiseptic action in the stomach and intestines.

**Argonin**, the soluble compound of casein with silver, is not precipitated from its solutions by albumen, sodium chloride or other reagents, and on account of its **absolutely non-irritant** and **strongly antiseptic** action, is particularly suitable for the early treatment of gonorrhoea in the male urethra anterior and posterior and the female urethra and uterus.

## Argonin

Argentum-casein.—Antigonorrhoeum.

Specially indicated in cases which are accompanied by severe symptoms of inflammation.

Argonin rapidly cures the blennorrhoea catarrh of the bladder.

Employed in 1 or 2 per cent. solutions.  
3 per cent. solutions recommended in ophthalmic practice for diseases of the cornea and conjunctiva.

It is obtainable as a 1 per mille solution of **Suprareninum hydrochloricum** or **boricum chem. pur.** in bottles containing 25, 10 or 5 cc. Further it may be obtained as **Suprareninum boricum cryst.**, which will keep for any length of time and is easily soluble in water, in tubes containing 0.065 gramme corresponding to 0.05 gramme of the active principle of the adrenals.

## SUPRARENIN

(The active principle of the Adrenals)  
is the most powerful  
ASTRINGENT AND HÆMOSTATIC  
of the present time.

Employed in surgery for securing bloodless operations; furthermore in Ophthalmology, Otorhino-Laryngology, Urology and Gynæcology.

The Solutions of Suprareninum hydrochloricum or boricum may be dispensed with Cocaine, Atropine, Eserine or Zinc Sulphate without decomposition.

**Excellent Antipyretic and Antineuralgic**; employed against **fevers of all kinds**. Specific against **headaches, neuralgia**, especially **trigeminus neuralgia**, and the shooting pains of tabes dorsalis. Pyramidon is non-injurious to the functions of the heart.

## PYRAMIDON

Salicylate and Camphorate of Pyramidon.

Employed with success for relieving **asthmatical attacks** and **menstrual troubles**. Dose of Pyramidon 5 to 8 grains.

**Pyramidon salicylate**, an excellent antineuralgic given in **acute and chronic articular rheumatism, gout** etc. Dose 8 to 12 grains.

The camphorates of Pyramidon possess both **anti-hydrotic** and **anti-pyretic** action. Successfully employed for the troublesome **sweats of consumptives**. The antipyretic action predominates in the neutral camphorate of Pyramidon and the antihydrotic action in the acid camphorate. The dosage is: 8 to 12 grains **Neutral Camphorate of Pyramidon**; 12 to 15 grains **Acid Camphorate of Pyramidon**.

# FARBWERKE vorm. MEISTER LUCIUS & BRÜNING, HOECHST o.M.

For samples and literature apply to Meister Lucius & Brüning Limited, 51, St. Mary Axe, London, E.C.

Administered internally in **hyperæsthesia** of the stomach, **ulcus ventriculi**, **nervous dyspepsia** and **vomitus gravidarum**, 3 to 8 grains thrice daily before meals.

In the treatment of the **ear, nose and throat** for all kinds of **catarrh, tuberculous ulcers of the throat, whooping cough** etc.

In **irritable bladder, urethritis** and **hæmorrhoids**.

## Dr. E. Ritsert's Anæsthesin

Local anæsthetic of reliable and lasting action, absolutely non-irritating and non-poisonous.

Indicated externally in all kinds of **painful wounds**, as **burns, ulcers** of the leg, **gangrene** of the skin, **intertrigo, pruritus, eczema**, etc., either as the powdered substance or as dusting powder combined with Dermacol or in ointment form with lanolin (5 to 20 %).

The analgesic and sedative action of **Trigemin** is **absolutely reliable** and a specific for all **painful affections of the encephalic nerves**.

A proved remedy in different kinds of **headaches** and **toothache**, and **typical neuralgia of the trigeminus, occipital neuralgia** and **painful affections of the ear**.

## Trigemin

(Pyramidon-butyl-chloralhydrate.)  
Analgesic and Sedative.

Trigemin is well borne by the stomach, and has **neither a hypnotic effect nor does it affect the action of the heart**.

Given in average doses of 12 grains one to three times daily in a little water.

**Alumnol** (Aluminium naphtholdisulphonate) is indicated for **purulent wounds, abscesses, cavities, endometritis gonorrhoea, leucorrhoea**, and chronic infiltrated inflammation of the skin; also for **otitis media**, etc. Employed with success in rhinology and laryngology for all catarrhs of the respiratory passages.

## ALUMNOL

Easily soluble and non-poisonous  
Antiseptic Astringent.

Employment:  
In 1 to 5 per cent. ointments or pencils.  
10 to 20 per cent. pastes are particularly useful for treatment of **condyloma**.  
1 to 2 per cent. aqueous solution for **irrigations** in gynaecology, urology and general surgery.  
 $\frac{1}{2}$  to 1 per cent. aqueous solution for **gargling**, nasal douches, &c.  
**Alumnol Dusting Powder** 10 to 20 percent. prepared with equal parts French chalk and starch.

**Benzosol** contains 54 per cent. gualacol which is only liberated in the intestines, and therefore has **no corrosive action** on the mucous membrane of the stomach.

Strongly recommended in incipient **phthisis**, **chronic catarrh of the stomach** with fermentation of the food and as an **intestinal disinfectant in typhus**.

## BENZOSOL

Benzoylgualacol.  
Non-Irritant Substitute for Creosote and Gualacol.

Employed in doses of 4 grains thrice daily: preferably given with peppermint syrup, or in powder after meals. After five days the single dose is increased by  $\frac{1}{2}$  grain. By increasing the dose thus gradually 12 grains thrice daily, equivalent to 25 grains creosote may be given, without any unpleasant bye-effects.

*Alopecia areata.*—Not alone in the treatment of *Alopecia areata* is Pomade Max essential. It is useful for baldness from any cause and of all degrees, from mere thinning to complete loss of hair. As a rule RAPIDITY characterises its action, or if we compare with any other reputed remedy a better word to describe its rapidity is "PHENOMENAL."

*Dandruff.*—Its effect in seborrhoea and the loss of hair due thereto is remarkable. Here to cure the baldness it is not sufficient to merely remove the scurf; special stimulating "restoratives" are also called for to re-establish circulation and to reawaken papillary function. Pomade Max does this; its action is immediate and unmistakable. It is impossible to sterilize the scalp so as to prevent recurrence of germ-excited dandruff, but so certain and lasting is the action of Pomade Max that it is quite unrivalled as a convenient stimulating antiseborrhoeic. First free a scalp from dandruff by repeated shampoos of soap liniment, and thenceforward the toilet use of Pomade Max once a week suffices to keep it clean. What is equally important is it will keep covered with hair the seborrhoeal scalp, which otherwise would have become bald.

*Modern Treatment of Eczema.*—Successful treatment of eczema includes its prophylaxis proceeding simultaneously with treatment of the dermatitis in order to prevent autoreinfective recurrence. The German school having shown the causal relation of a little (perhaps) innocent-looking scalp dandruff to many (most) cases of eczema, it may be far removed in location, has thereby indicated the need of keeping clean the scalp in this disease. In every case of eczema Pomade Max is quite indispensable (of course applied to the scalp, not to the eczema).

## Unguentum Heyden

An ointment prepared from Calomelol (colloidal Calomel). Substitute for mercury ointment. Does not soil linen, get rancid, or produce folliculitis. Best antiparasitic and excellent anti-syphilitic. According to *Neisser*, it greatly simplifies the treatment with the ointment cure and its methodic repetition. Normal dose for each application, 6 gms. Supplied in graduated tubes containing 30 or 60 gms. Single doses should be dispensed as little as possible, to avoid the danger of the ointment becoming decomposed.

## Calomelol

(Colloidal Calomel). Substitute for Calomel as internal antisyphilitic in tablets containing 0.01 gm, and as a dusting powder for syphilitic sores. Less toxic than Calomel.

## Salit

Salit is a fluid containing Salicylic Acid. Mixed with olive oil and rubbed on the painful part, it is an inexpensive and promptly acting remedy in Rheumatic Diseases of every kind. Has no unpleasant odour. Free from formaldehyde and therefore less irritating to the skin than any other preparation containing Salicylic Acid. Produces no ill-effects on the Stomach, Heart, or Kidneys.

Free Samples and Literature will be sent on application to BURGÖYNE, BURBIDGES & CO., 12 & 16, Coleman Street, London, E.C.

Sole Agents of the *Chemische Fabrik von Heyden, Radebeul, near Dresden.*

## Duotal

Duotal "Heyden" (Guaiacol Carbonate "Heyden") is an inodorous and tasteless preparation of Guaiacol, containing more than 90 per cent. of combined Guaiacol, which becomes free within the body. This proportion of Guaiacol is about as much again as that which is contained by any of the other preparations manufactured in imitation of Duotal. It has no corrosive or poisonous properties, is willingly taken by the most sensitive patient, and does not cause any stomach trouble. An excellent remedy in Pulmonary Tuberculosis and Chronic Catarrh of the Respiratory Organs. An intestinal antiseptic in Enteric Fever and Enteritis.

## Novargan

Among silver preparations, this is the least irritating antigonorrhoeic. Very strong bactericide, and works well into a great depth. For ordinary injections 0.5 to 1 per cent. solution; for instillation in abortive cures, 15 per cent. solution.

## Salocreol

Salocreol is a fluid possessing the combined properties of Salicylic Acid and Creosote. To be painted on the surface in Erysipelas of the face, Lymphadenitis, and Granular Swellings of a scrofulous nature.

GOLD MEDAL, Cape Town International Exhibition. 1904-5.

# "MIST. PEPSINÆ CO. c. BISMUTHO" (HEWLETT'S).

Useful in all forms of Dyspepsia, Pyrosis, Gastric Pain, and Vomiting, and for alleviating the pain in cases of Ulcer and Cancer of the Stomach.

### TESTIMONIALS.

**LONDON MEDICAL RECORD.**—"This combination of Messrs. C. J. HEWLETT & SON is one which has been extensively tested, and with good results. It is justly popular in the Profession as a very valuable and effective combination. It serves not only to improve apepsia, but to lessen the gastric pain and to facilitate difficult and painful digestion, without setting up any evils of its own. It is a very good crutch for persons of weak stomachs to lean on."

**LANCET.**—"Undoubtedly a valuable and convenient preparation."

**BRITISH MEDICAL JOURNAL.**—"Obviously likely to be of much advantage in the frequent cases of irritative dyspepsia, with atony of gastric or intestinal muscular layers."

Supported by Hundreds of Medical Opinions.

## Emol-Keleet.

A Natural Emollient Dusting Powder.

Authoritatively recommended for Skin Treatment.

Regd.  
Trade  
Mark.

"It forms a kind of natural soap, and is free from the 'balling' tendency of many insoluble powders."

Quarterly  
Med. Journ.

EMOL-KELEET is the most perfect of Dusting Powders; absorbent, emollient, just sufficiently astringent, and impalpably soft. Speedily dries and soothes in cases of moist or inflamed surfaces. In the eruptions of Scarlet Fever and Measles, as in Eczema and Acne, it is invaluable.

EMOL-KELEET is a purified natural product, somewhat allied to the superior kinds of Fuller's Earth. It is absolutely harmless, and acts as a natural soap, softening hard water. Contains a considerable percentage of Steatite, Silica, Alumina, and traces of Calcium Salt and Ferrous Oxide.

## NOURRY'S IODINATED WINE.

Free from Alkaline Iodides. Palatable. Easily assimilated. A perfect substitute for Cod Liver Oil and Iodides  
 LYPHEMIA. ANÆMIA. DYSMENORRHEA. PULMONARY AFFECTIONS.

77 grain (0.06 gm.) of Iodine and 1.54 grain (0.10 g.m.) of Tannin per tablespoonful.

Children—One to two teaspoonfuls.

Adults—One tablespoonful.

To be taken at meals twice a day.

THE LANCET of January 6th, 1894, in its Analytical Report, states:—"The above preparation, therefore, which contains no free iodine, but which yields it in full quantity on the slightest provocation, is calculated to lead to more extended application. It certainly deserves trial."

THE BRITISH MEDICAL JOURNAL of August 26th, 1896, in its Analytical Report, states:—"The wine contains no free iodine. It is very pleasant to the taste, and no doubt would be very effective in cases where iodine and iodides are indicated."

The use of any kind of wine being sometimes contra-indicated, we have accordingly prepared

### NOURRY'S IODINATED SYRUP,

which is exactly the same as Nourry's Iodinated Wine, presents the same chemical reactions, and is employed in the same cases and in the same doses.

NOURRY'S IODINATED WINE and SYRUP are not advertised to the public. They owe their success entirely to the Medical Profession.

## CACODYLATE OF SODIUM

(CLIN). (Organic Arsenic.)

Emphatically recommended by Professors GAUTIER, REKAUT, LEFOLL, &c., in the treatment of

TUBERCULOSIS (either incipient or declared), IMPALUDISM, DIABETES, DERMATOSES, and CANCER.

DROPS.—5 drops contain  $\frac{1}{2}$  grain of Pure Cacodylate of Sodium.

## HALL'S WINE.

*A Standardized Restorative.*

Alcohol, in its ordinary forms, is not always desirable as a stimulant. HALL'S WINE increases the action of the heart, promoting a regular and healthy pulsation without subsequent reaction. This formula has been used by the Medical Profession for upwards of fifteen years with great success, as increasing sales testify.

HALL'S WINE will be found of service wherever a dependable stimulant is desired; it proves its value during convalescence in aiding recuperative effort; it is of definite value in the treatment of neuralgia and various nervous disorders; it relieves insomnia and certain affections of the respiratory tract.

If you have never employed HALL'S WINE in your practice, we shall be glad to send you a bottle free upon receipt of your professional card.

## Tonsillitis Scarlet Fever Diphtheria

Infection in these diseases enters through an inflamed throat. The neighboring lymph glands guard against the passage of toxins into the circulation. But just at this critical time they become engorged and need assistance.

# ANTIPHLOGISTINE

permits of the continuous application of moist heat, the physical principle of osmosis and the continuous stimulation of cutaneous reflexes, all of which tend to maintain the blood and lymph circulation in the affected part and to hasten the elimination of toxins.

The enlarged glands are depleted and the liability to Mastoiditis, Middle-ear and Laryngeal complications is lessened. Pain and sense of oppression are overcome, the patient experiences decided comfort, and convalescence is materially hastened.

Directions: Always heat Antiphlogistine in the can (never on cloth) by placing it in hot water. Do not allow water to get into the preparation. When as hot as can be borne, take a suitable knife and spread the Antiphlogistine as quickly as possible on the skin *from ear to ear*, at least an eighth of an inch thick. Cover with a liberal supply of absorbent cotton and hold in place with a suitable compress. Change the dressing every 12 hours.

The seamless, air-tight original containers of Antiphlogistine not only insure its delivery in perfect condition, but are economical for the patient; therefore always order an original package and specify the size required—Small, Medium, Large or Hospital Size.

is a special preparation, quite distinct from ordinary Bovril, and more highly concentrated. It is **Unseasoned**, and consequently acceptable to the most fastidious palate. For patients who object to Bovril on account of its salt flavour, Doctors might order **INVALID BOVRIL**, which can be obtained from any Chemist.

*THE LANCET*, writing of two special analyses, the first an analysis of Invalid Bovril and the second one of a good home-made beef-tea, remarks that "in considering the question of relative nutriment, regard must, of course, be paid to the amount of water employed in preparing beef-tea," and says very forcibly that, "**all things being equal, the Invalid Bovril yielded, according to the analysis from THE LANCET Laboratory, a much higher proportion of nutrient substance than the ordinary beef-tea.**"

Movement takes place within 8 to 10 hours without violence or pains, which are so frequent with other purgatives.

## SUBLAMIN

(NON-IRRITANT Sulphate of Mercury).  
Free from any irritation even in concentrated solution of 1:50.

Most highly and generally recommended for thorough **HAND-DISINFECTION**, as well as in all cases where Sublamin is employed, over which **SUBLAMIN** shows great and striking advantages, such as:—

Greater penetrating power.  
No coagulation of albuminous substances.  
No irritation to skin.  
At least equal antiseptic power.

## GLUTOL

A vulnerary of continuous antiseptic action.  
Free from any toxic or irritating effects.  
Perfectly **INODOROUS**.

This chemical combination of gelatin and formalin is not affected by acids or alkalies, but when coming in contact with the living cells of the body formalin is set free, acting during the whole time of the healing process as a constant, fresh antiseptic, thus supporting the action of nature and accelerating the formation of new skin.

Highly recommended in all **FLESH WOUNDS**:—  
**CUTS, RENTS**, as well as **SUPPURATIVE WOUNDS**, and all stages of **BURNS**, &c.

When mixed with warm new milk, or milk and water, the digestive principles contained in the Food not only render the farinaceous elements soluble, but further, reduce the casein of the milk to a condition similar to that existing in human milk, so that hard indigestible masses cannot be formed in the stomach.

The degree of digestion can be regulated.

Well-known Preparations of

# BISMUTH AND PEPSINE

Are always efficient and reliable, and give, with certainty,  
satisfactory results in treatment.

## LIQUOR BISMUTHI (Schacht).

Absolutely pure. The original preparation invented and introduced to medicine by Mr. SCHACHT in 1855. Uniformly free from Arsenic, Antimony, Silver, Tellurium, and other contaminations existing in commercial Bismuth. The calamity known as "Bismuth-Breath" will not befall the patient treated with **SCHACHT'S LIQUOR BISMUTHI**.

*Dose.*—One drachm diluted: equal to a full dose of the Trisnitrate or Carbonate.

## "BISEDIA,"

A combination of **SCHACHT'S LIQUOR BISMUTHI** and **PEPSINA LIQUIDA** (the most powerful Fluid Pepsine known) with sedatives.

**FORMULA.**—Each drachm contains, in addition to the Pepsine and Bismuth, gr. 1-24 Morphine Mur., min.  $\frac{1}{2}$  Acid. Hydrocyan. B.P. and min. v. Tinct. Nucis Vom.

*Dose.*— $\frac{1}{2}$  to 1 drachm diluted.

The remarkable efficacy of this formula has been conclusively shown in very many cases of dyspepsia, especially those attended by gastric pain after eating. It arrests vomiting, banishes or alleviates the pain, and renders excellent service as a digestive nerve-tonic when such a remedy is indicated.

## PEPSINA LIQUIDA (Schacht).

A tasteless and odourless liquid of extraordinary activity, aseptic, permanent, attractive to patients, and reasonable in price. Tested by the official process of the British Pharmacopoeia every teaspoonful of Schacht's Pepsina Liquida is guaranteed to peptonise more than 1,000 grains of albumen, and the contents of every bottle are standardised to this result. Pepsine in this effective and attractive form is a great boon, and has proved invaluable in the treatment of dyspeptic troubles, infantile diarrhoea, and all affections arising from imperfect nutrition.

*Dose.*—One drachm, diluted.

## PEPSINA LIQUIDA c. BISMUTHO (Schacht).

Each drachm contains in a concentrated form, besides the fluid pepsine, a full dose of Schacht's Liquor Bismuthi. An elegant and successful combination.

*Dose.*—One drachm, diluted.

N.B.—Peps. Liq. c. Bismuthi Co. contains, in addition, 1 gr. of soluble Euonymin in each drachm.

## PEPSINA LIQUIDA c. EUONYMIN (Schacht).

A palatable solution of the hepatic stimulant Euonymin in Schacht's Fluid Pepsine.

*Dose.*—One drachm.

THE FORMULÆ ARE GIVEN ON EVERY LABEL.

# REASON

Just cause for action. Webster.

The high esteem in which ERGOAPIOL (Smith) is held by all calculating clinicians needs no speculative explanation. It is due to no other cause than that of REASON.

REASON guides the selection of each agent embraced in the remedy ; REASON dictates the methods by which their absolute purity is attained ; REASON prescribes the proportions in which they are presented, and REASON appoints the cases in which the remedy may be employed with absolute certainty of satisfying results.

AMENORRHEA yields, with almost incredible promptness, to the curative properties of ERGOAPIOL (Smith) for the REASON that the collaborative effects of its components at once institute functional activity.

DYSMENORRHEA is relieved by the administration of ERGOAPIOL (Smith) for the REASON that the remedy possesses marvelous tranquilizing properties despite the fact that it contains no narcotic drugs.

MENORRHAGIA invites the employment of ERGOAPIOL (Smith) for the REASON that the remedy restricts the flow to normal limits.

Physicians prefer ERGOAPIOL (Smith) to all other agents of a similar character for the REASON that it is unquestionably the most dependable preparation ever designed for the relief of

CONSTELLATION SERIES—111

THE CONSTELLATION OF PERSEUS, AS  
REPRESENTED IN AN MS. OF THE  
XI CENTURY.

According to the mythology of the antient Greeks this constellation represents Perseus, the son of Jupiter, who, after being equipped by Pluto with a helmet to render him invisible, and a buckler by Minerva, together with a sword and wings by Mercury, vanquished the dreaded Medusa and cut off her head. A physician of the Middle Ages writing on the influence of the planets on the body of man, states:—"From ye ruling of ye planets ye physician may judge of ye suitable and proper remedies to applie, that shall best consist with and be ye most prevalent against ye distemper."

# Bynin Amara

**B**YNIN-AMARA is an analogue of Easton's Syrup, in which the sugar is replaced by an active Malt Extract. This affords a far better vehicle than syrup, as it is actively digestive and nutritious, and there is not the likelihood of the sugar crystallizing out, and carrying down in the crystal the alkaloidal principle.

As a digestive tonic therefore BYNIN-AMARA is not only safer to take than Easton's Syrup, but is of greater value both in aiding and strengthening the powers of assimilation.

It has been found very effective in neuralgia and similar nerve troubles.

## Adrenalin in Hay Fever

### THE IDEAL REMEDY IS ADRENALIN INHALANT

**COMPOSITION:** Adrenalin Inhalant is composed of Adrenalin Chloride (Takamine) 1 part, dissolved in 1000 parts of an aromatised oil base with 3 per cent. Chloretone.

#### THERAPY:

Indicated in inflammatory affections of the nose and throat, *e.g.*, chronic nasal catarrh, hay fever, pharyngitis, laryngitis, &c. It is undoubtedly the most available remedy for hay fever ever known. Its use is not attended with disagreeable sequelae or risk of a "habit," while the relief it affords is complete and gratifying alike to physician and patient.

Owing to its oily base Adrenalin Inhalant does not act as energetically as Adrenalin Chloride Solution would do, although of the same strength. The action of the Inhalant is comparatively gentle and prolonged, while that of the solution is almost instantaneous owing to quick absorption; therefore it is not necessary to dilute the Inhalant.

"GLASEPTIC"  
NEBULISER  
(P., D. & Co.)

REGISTERED NO. 444090.

#### APPLICATION.

Adrenalin Inhalant is best applied by means of the "Glaseptic" Nebuliser (P., D. & Co.) an apparatus constructed entirely of glass, and which can therefore be used with every description of liquid. It is effective with solutions of practically any density or viscosity, whether ethereal, spirituous, oily or aqueous, and specially suitable for those preparations of which it is desirable to use only small quantities, whether on account of their oxidisable nature or their costliness. The "Glaseptic" Nebuliser is exceedingly compact, and may, if required, be carried in the pocket.

## SPIRAL ELASTIC STOCKINGS.

There are few members of the Medical Profession who have not experienced the disappointment so often resulting from the use of elastic stockings by their patients. They are usually ill-adapted to the particular case; being taken out of stock they fit only in the event of the patient's leg corresponding with one of the graduated sizes kept, and as very common materials are mostly used in their manufacture they are at first unyielding, causing pain if a little tight in any part, but quickly give way and afford no pressure, and the stockings remaining apparently good are worn when quite useless. With us every order is *expressly made to measure* and with due regard to the case in the selection of the material used, thereby securing those necessary factors to a properly efficient stocking—correctness of fit with uniform and suitable pressure.

Circumference at a, b, c, d, e. Length a to d.  
Extension upward as required.

State sex and age of patient, and particulars of case.

## The IDEAL Doctor's Watch

## The "Specialist"

### "Time" is the Medical Man's Greatest Asset.

His time is too valuable to himself and to those who need his aid to be jeopardised by dependence upon an inaccurate watch. A watch is also an indispensable feature of his clinical equipment, and beyond this the possession of a fine watch is an indication of prosperity, the importance of which should not be disregarded in a profession in which appearances contribute not a little to success.

### The "SPECIALIST" is the IDEAL "DOCTOR'S-WATCH."

It is elegant, it is substantial, and above all entirely dependable. It has a splendid Keyless Lever Movement of exceptional quality and finish. Real Chronometer Balance adjusted for variations in temperatures. Breguet sprung—ensuring regularity of time-keeping if worn in the Hunting Field, etc. Superbly finished massive all 18-ct. Gold Cases throughout. Such is in brief the "SPECIALIST." Specially manufactured for medical men, and embodying all that the vast experience and resources of a great firm can suggest. It is the finest and cheapest "Doctor's Watch" obtainable.

In superb 18-ct. Gold Hunting or Half Hunting Cases, £12 10s. Crystal Front, £10 10s.

It May Mean Much to You!—No doctor contemplating the purchase of a watch should decide before seeing the "SPECIALIST." It will be sent for inspection, without any obligation to purchase, for purposes of estimation and comparison, upon receipt of customary professional or Banker's reference.

Deferred payments upon the "Times" plan can be arranged to suit the convenience of the Company's clients.

### AFTER NINE YEARS!

Dr. — writes:—  
"Banbury, Oxon, May 11, 1905.  
(Extract)

"I am sending diamond ring, etc., etc. A watch I bought from you nine years ago, when I lived in London, is going now as well as the day I first received it."

# WARD, INVALIDS' COMFORTS. Invalid Chair Manufacturer, 246 & 247, TOTTENHAM COURT RD., LONDON.

(late of Leicester Square).

TO HIS MAJESTY THE KING, QUEEN ALEXANDRA, THE LATE QUEEN AND ROYAL FAMILY.

ESTABLISHED OVER 150 YEARS.

PRICE CATALOGUE POST FREE.

No. 14 is the simplest and best constructed Chair for carrying Invalids up or down stairs.

No. 1. Ward's Self-propelling Chair may be used with ease by a child of eight.

No. 11. Ward's Improved Recumbent Chair, one most luxurious Invalid Chair made.

No. 61A. Our New Patent Combination Imperceptible Graduating Elastic Ventilating Mechanical Couch. The graduating mechanical actions of this couch are sufficient to meet all cases, no matter whether it is spinal affection, hip disease, fracture, paralysis, heart disease or dropsy. A patient however weighty can be imperceptibly graduated to any position by a small windlass, without being touched by a nurse; at the same time, all pressure is avoided by the patent elastic ventilating mattress, which is a complete preventative of bed sores. The large patent lubricating castors are a great boon, as they enable this couch, with a patient of any weight, to be wheeled about the room with perfect ease. These couches vary in size from 2 feet to 3 feet wide.

No. 19. Ward's Three-wheel Victoria Bath Chair, with head and glass shutter.

No. 21C. The back of this Chair is made to recline to any angle, and, with leg-rest fitted an Invalid may lie at full length.

## The Reliable Cars are made.

### Part I.—The Works and the Output.

In the up-to-date factory at Puteaux over 3,000 hands are engaged in supplying the world's requirements in motors and cars. It is only when you see this army of workers surging in and out of the factory at morning, noon, and night that you begin to understand the enormous productive force represented by this figure. For a quarter of an hour they block the road, an advancing wall of humanity. As the last straggler passes through the gate there is no longer a man to be seen, the whole of them having disappeared inside the interminable lines of buildings which have become a humming hive of industry.

Inside the works the spectator realizes that the construction of a motor necessitates an enormous amount of skill and labour.

It is not enough to have a good design; everything must be done with mathematical precision, although the most perfect accuracy in manufacture will not make a good motor out of a bad system, that is to say, a system in which compression, piston speed, valve dimensions and weight, and other factors have not been properly calculated. This precision must be carried out in the smallest detail of a vast organisation by which the firm are able to produce 6,000 motors a year. It is difficult to grasp the meaning of this figure. Take about 120 motors, the production of one week, arrange them in a line, and multiply this line by fifty-two. You will then have some idea of the output of motors alone of the biggest automobile works in the world.

Particulars of Latest Models sent on request. A copy of the De Dion Souvenir, from which the above is extracted, sent post-free on application.

## NORDRACH IN WALES

(PENDYFFRYN HALL SANATORIUM)

### FOR THE TREATMENT OF PULMONARY CONSUMPTION AND OTHER FORMS OF TUBERCULOSIS

This Sanatorium, which has been opened for over three years, is situated in its own grounds, (over 100 acres) of park land, pine woods, and mountains. Graded walks rise through pines, gorse, and heather to a height of over 1000 feet above the sea level. It is well sheltered on the E and N.E. by mountains. The climate is mild but very bracing, and the rainfall is small. The situation combines the peculiar advantage of pure mountain and sea air. As only about twenty patients are received, that special individual attention, which is so necessary to a successful result, is assured. The Sanatorium and outdoor shelter are lit throughout by electricity. The physician has himself been a patient at Nordrach under Dr. Walther, whose principles of treatment are strictly carried out.

Telegraph Address: "Pendyffryn, Penmaenmawr." For particulars apply to G. MORTON WILSON, M.B., Nordrach in Wales, Capelul, nr. Penmaenmawr.

## MEDICAL PARTNERSHIP AND CONVEYANCING AGENCY.

1, ADAM STREET, ADELPHI, W.C.

The Sale of Practices and Partnerships negotiated. Trustworthy Locum Tenens and Assistants can be had at a few hours' notice.

N.B.—No charge made to Purchasers.

### Notice.—Mr. J. C. Needes

with an experience of over a quarter of a century, is in an exceptional position to give intending purchasers independent information concerning most Practices and Partnerships. Those investments in the following List marked with an Asterisk are well known to him, having been purchased through his office by the present Incumbents years ago, and in many other cases, introductions can be given to gentlemen who have taken charge of the practices during the absence of the Incumbents.

### Partnership.—A young active

gentleman not over 33 years of age, and fond of his work, is required as junior partner in an extensive Practice in a large town in the North of England. No public appointments, family clubs, or collieries held. Fees (either for consultations at home or visits) 2s. 6d. to 7s. 6d. Midwifery 1 to 5 guineas. A fair amount of operative work done. The net profits of the Practice (after paying all working expenses) amount to over £2,800 per annum. The fifth share will be disposed of to commence with. Premium £1,000.

### Yorkshire Coast.—A Seaside

unopposed PRACTICE averaging £738 per annum, including appointments over £300. The work is easy and the expenses are very light, a horse not being required. All the work can be done either walking or cycling. Drug bill £40 per annum. Fees for visit and medicine 3s. 6d., 4s. 6d., and 5s. Exceptionally good house and grounds with croquet and tennis lawns, stabling, paddock, &c., attached (3½ acres in all). Rent £50 a year. Good hunting, sea fishing, &c.

### Partnership.—Kent.—A young

Practitioner, fond of Surgery, is required as Partner in an old-established Practice in a town of nearly 20,000 inhabitants. Cash receipts last year over £1,200, including several appointments. Well-situated convenient residence available for partner. Rent £45. Premium for third share £600, or for two-fifths share £730.

### \*New Zealand.—A well-established

PRACTICE doing at the rate of over £900 per annum. Situated in a small town. Consultations 7s. 6d. Visits in the town, 7s. 6d., outside the town 4s. and 5s. per mile. Midwifery 3 to 10 guineas. One horse and cycle sufficient. Charming Bungalow Residence (modern conveniences), with garden, stabling and paddock attached. Rent £40. Premium £450. Trout fishing, shooting, golf, &c. A resident in the town, who is now in London, can be interviewed by intending purchasers.

### West.—In a fashionable seaside

suburb of a large town, a well-established PRACTICE, producing about £850 per annum, with ample scope for increase. There are no clubs, and the Practice is very easily worked, a horse not being required. Average visiting fee 2s. 6d. Six months' partnership introduction given. Educational advantages, good society, golf, &c.

### \*Partnership.—London, S.W.

Owing to the retirement of one of the partners, the half-share of a first-class non-dispensing general practice, in one of the most select and fashionable parts of London, can be acquired by a suitable gentleman, who must be well qualified, married, and not under 30 years of age. The cash receipts for the past three years average £2,736 per annum. (1904 close upon £3,000).—Further particulars on application, personal if possible.

APPLY TO J. C. NEEDES, 1, Adam Street, Adelphi, W.C.

# THE SCHOLASTIC, CLERICAL, AND MEDICAL ASSOCIATION, LIMITED.

## MEDICAL DEPARTMENT.

This Association was established in 1870 as a Limited Liability Company under the direction of Professional men, its object being the creation of a RESPONSIBLE and THOROUGHLY TRUSTWORTHY Agency. The Medical Department has met with so great success that it has been found necessary for one of the Managing Directors (Mr. G. B. Stocker) to devote his whole attention thereto, and he has the assistance of an experienced Medical Accountant, and large staff of clerks. Further, a Board composed entirely of gentlemen of high standing in the Medical Profession has been appointed, and to them matters of dispute and complaint are referred.

The Association undertakes the SALE of PRACTICES and PARTNERSHIPS; the Introduction of LOCUM TENENS and ASSISTANTS; MEDICAL ACCOUNTANCY (by a duly qualified Medical Accountant); INVESTIGATION and VALUATION of Practices, &c.; FEEING ROOMS and sending out Bills. INSURANCE OF ALL KINDS, &c., &c.

A Pamphlet relating to the Medical Department with the names of the "Directors" and the "Medical Advising Board," and terms will be sent on application to Mr. G. B. STOCKER, MANAGING DIRECTOR, 22, CRAVEN STREET, STRAND, W.C.
