Important Notice to the Profes-

SSION.—PATENT (COOKED) FOOD, for INFANTS and INVALIDS.—DR. RIDGE'S PATENT.—The best wheaten flour is put into the apparatus, where every particle is brought under the uniform temperature of 212° for eight hours, which thoroughly cooks it; and as all moisture is driven off, the nutritive quality of the flour is largely increased, while it is so light and digestible that the powers of the feeblest stomach are not taxed, but can easily appropriate it. A sample for examination will be forwarded free to any medical man who may desire it.—Manufactory—Horslydown, London, S.E.
