## For Ulcus molle

"Sozojodol"=Sodium in coarse powder.

The non-irritating preparation should be thoroughly worked into the margins, and the cavity of the ulcer filled copiously with the powder. "Sozojodol"-Sodium immediately arrests any further spread of the ulcer, cleans it up in 2-3 days, and heals it in a short time, e.g., 5 days.

Many writers describe "Sozojodol"-Sodium as a "specific of surprising efficacy" which is able very rapidly to convert the characteristic Ulcus molle into a rapidly healing ordinary ulcer.

Vademecum of "Sozojodol"-Treatment and trial samples gratis from H. Trommsdorff, chem. works, Aachen 28 H.

## "Sauermilch"

THE PREMIER Lactic Acid or Soured Milk Preparation.

Prepared in our own Milk Laboratories under the direct control of a skilled bacteriological staff.

WELFORD & SONS (Dairy Company), Ltd.

## PURDUE'S FLUID SULPHUR.

SULSOL Mark.

This preparation contains sulphur in permanent solution of definite and uniform strength.

It is invaluable as an external application, either for cosmetic purposes or in those conditions in which natural sulphur waters are used as baths at the natural mineral springs.

Its concentration and uniformity render it especially useful to the prescribing dermatologist.

The ease with which it can be employed in an ordinary bath will make a special appeal to the physician.

Its powerful germicidal properties make it a boon to surgeons and nurses.

## Wolfe's Aromatic Schiedam

Has received the commendation of the medical faculty. Thousands of Testimonials have been received from Doctors in all parts of the World.

Before it was invented ordinary Holland's Gin was frequently prescribed for troubles connected with the Kidneys, Bladder, and Urinary Organs, as well as for Gravel, Gout, Rheumatism, &c., but it often failed to effect the required restoration. The action of Wolfe's Schnapps on the secretive organs and upon the blood, and. the system generally, is at once stimulative and curative.

#### LOSS OF HAIR.

(UNG. CANTHARIDIN c. HYDR. CO)

possesses a marked action on the hairproducing structures. Its principal effects are:-

- (a) Benefits local circulation and nerve action.
- (b) Determines absorption of obstructive exudates.
- c) Exercises penetrative parasiticidal action.

These partly explain the arrest of hairfall and re-growth, which almost invariably follow its proper use. It contrasts with other formula in definite reliability and striking rapidity of effect.

POMADE MAX is indispensable in ALOPECIA PREMATURA. ALOPECIA SEBORRHOICA. ALOPECIA AREATA, DANDRUFF,

is an efficient, non-toxic antiseptic of known and definite power, prepared in a form convenient for immediate use.

It is a saturated solution of boric acid, reinforced by the antiseptic properties of ozoniferous oils.

It is unirritating, even when applied to the most delicate tissue.

It does not coagulate serous albumen.

It is quite generally accepted as the standard antiseptic preparation for use where a poisonous or corrosive disinfectant can not be safely used.

It is particularly useful in the treatment of abnormal conditions of the mucosa, and admirably suited for a wash, gargle or douche in catarrhal conditions of the nose and throat.

In proper dilution, it may be freely and continuously used without prejudicial effect, either by injection or spray, in all the natural cavities of the body.

There is no possibility of poisonous effect through the absorption of Listerine.

A pamphlet descriptive of the antiseptic, and indicating its utility, in medical, surgical and dental practice, may be had upon application to Lambert Pharmacal Company, Locust and 21st Sts., St. Louis, Mo., U.S.A., or their British Agents, Messrs. S. Maw, Son & Sons, 7, Aldersgate Street, London, but the best advertisement of Listerine is . . . .

#### **ACID GLYGERO-PHOSPHATES**

A delicious syrup or glycerole containing lime, soda, potash, iron, and manganese, 4 grains in the drachm with strychnine glycero-phosphate  $\frac{1}{260}$  grain.

#### WITH GLYCERO-PHOSPHATES

A bright ruby syrup flavoured with Seville orange peel. The formates have general tonic and stimulant effects, especially noticeable when used in conjunction with the glycero-phosphates in neurasthenoid or neurasthenic states, or in abnormal fatigue from over-exertion mental or physical.

Prepared with and without strychnine.

Contains assimilable milk albuminoids, with organic phosphorus-bearing compounds, such as lecithin, glycero-phosphates, together with soluble carbohydrates, fats, and active lactic ferments.

It is particularly suitable as a food in exhausted conditions following long illnesses, and for those requiring a maximum of concentrated nutrition.

We have read favourable accounts showing the value of this preparation, particularly in itching eruptions, such as eczema, rerythema, psoriasis, pruritus, and intertrigo.

The Ecsolent Powder is reduced to a fine state of division and is well adapted for application as a dusting powder in various affections of the skin.

## BISHOP'S CAFF

The Original Granular Effervescent Caffeine.

INTRODUCED AND PREPARED ONLY BY

ALFRED BISHOP, Ltd., Manufacturing Chemists. (Est. 1857).

Each drachm contains One grain Caffeine Alkaloid.

BISHOP'S CAFFEINE is absolutely free from all analgesics or antipyretics, such as Acetanilide, Antipyrine, and Phenacetine, which usually enter into the composition of headache remedies, and which cause so much mischief by their depressant action upon the heart. BISHOP'S CAFFEINE has no depresent effects upon the circulatory or nervous systems, and is therefore not contra-indicated in cases of heart weakness.

BISHOP'S CAFFEINE is a prompt, effective, and reliable cerebral and cardiac stimulant, which does not produce any injurious by- or after-effects or establish a habit. BISHOP'S CAFFEINE is of unequalled efficacy in relieving all forms of Headache, including the uramic headache associated with long-established kidney complaints, Mental and Nervous Fatigue and Exhaustion, and Heart Failure.

BISHOP'S CAFFEINE exhibits the drug in a form which ensures its immediate absorption and assimilation, and consequently its prompt and complete activity. This obviates the danger which arises from the administration of tablets, pills, and powders, which are often so slowly soluble as to retard greatly the action of the drug, and to entail the risk of over-dose by repetition.

The superiority of BISHOP'S CAFFEINE over imitations and substitutes consists in its freedom from injurious ingredients, its purity, accuracy of dose, its brisk effervescence and complete solubility, and its refreshing palatability, which render it highly acceptable to patients.

SAMPLES of BISHOP'S CAFFEINE and other Preparations, together with Physician's Price List and Literature, will be sent post free to any Medical Man in the United Kingdom by

ALFRED BISHOP, Ltd., 48, Spelman Street, London, N.E.

To prevent substitution, please specify BISHOP'S on prescriptions.

## VISEM (Seed of Strength)

#### A POWERFUL NERVE AND BRAIN FOOD.

"VISEM" consists of milk casein and whey powder, with 3 per cent. of pure lecithin-ovo, and 3 per cent. of glycerophosphate of soda.

The casein used is made from milk produced on some of the finest pastures in the Kingdom by a special process, which yields a pleasant flavour, and retains the proteins in a soluble state. It is also rich in soluble organic phosphorus.

The food value of whey is well known, but hitherto it has been impossible to reduce it to a powder without coagulating the lactalbumen.

Both the lactose and lactalbumen, as well as the enzymes, are retained unchanged in the whey powder used in "VISEM."

When "VISEM" is prescribed we submit that whatever may be the idiosyncrasy of the individual, an assimilation of a considerable quantity of phosphorus is assured owing to the presence of the two forms, where one alone might fail to have the desired effect.

"VISEM" is supplied in tablet form slightly flavoured with chocolate, the tablets being the most convenient form in which to take it. If desired the tablets can be broken up finely and dissolved in water. Each tablet contains one grain of pure lecithin and one grain of glycerophosphate of soda.

Benger's Food is a cereal food, free from rough indigestible particles. It contains the natural digestive principles, trypsin and amylopsin.

BENGER'S FOOD is expressly devised to be used in conjunction with fresh milk or milk and water, in such proportion as may be considered desirable by the prescriber for the particular case. The composition of the prepared food ready for consumption varies with the formula used and the length of pre-digestion ordered. The fat may be increased by the addition of cream or the use of upper milk if desired.

The Lancet describes it as "Mr. Benger's admirable preparation."

The British Medical Journal says "Benger's Food has, by its excellence, established a reputation of its own."

A sample with analysis and report will be sent post free to Members of the Medical Profession.

## A Partially Predigested Milk and Wheaten Food

By the use of the "Allenburys" DIET all trouble of peptonising milk and farinaceous foods is overcome. In the Sick Room it is invaluable, as the food is easily digested and assimilated, and only the exact quantity required need be prepared at a time.

The "Allenburys" DIET is made from pure full cream milk and whole wheat, both ingredients being partially predigested during manufacture. It can be taken by those who cannot digest cow's milk, and provides a light and very nourishing diet for Invalids, Dyspeptics and the Aged.

Taken by Nursing Mothers, whose supply of milk is deficient in quality or quantity, the "Allenburys" DIET has proved of great assistance. It helps particularly to maintain the strength, to increase the flow of milk, to promote restful sleep, and is of value both to mother and child.

For Travellers by sea or land this complete food will be found exceedingly valuable.

Made in a minute—add boiling water only.

### A POWERFUL SEDATIVE AND HARMLESS HYPNOTIC

## BROMURAL

Sleep produced by Bromural differs in no respect from natural sleep. The patient feels active and refreshed, and free from uneasiness and depression. The drug is quite without action (in doses of 10 grains) upon the normal circulation; on the other hand, however, the excitable, unco-ordinate action of the circulation in circulatory forms of neurasthenia is diminished by reduction of the dilated vessels to normal dimensions without narcosis of the vaso-motor centres. Lowering of general blood-pressure does not occur.

"THE UNIVERSAL MEDICAL RECORD" has been widely welcomed as a comprehensive, discriminating and readable review of current medical literature—British and Foreign.

The following are typical of a large number of spontaneous messages received from subscribers:—

- "The manner and matter of your Review are alike excellent."
  - "A most praiseworthy production."
- "I must congratulate you on the wide interest of the subjects chosen as well as on the discriminating criticism meted out."
- "It proves that medical articles can be both scientific and strictly professional without at the same time being stodgy."
- "May I say how greatly I appreciate 'The Universal Medical Record.' What has impressed me most is the extraordinary 'readableness' of all the articles".
- "The 'Universal Medical Record' is unique. It is such an excellent digest."
- "I am charmed with 'The Universal Medical Record': style, contents, type and paper are most satisfying."
- "Permit me personally to compliment you on the splendid appearance of this new Journal, and particularly on the excellence of the abstracts. These show not only a great deal of painstaking work, but much discernment in making the selection, and knowledge of the needs of the practitioner."

# Motorists' Opinions

In deciding on the oils and greases to use for your motor car it will be wise to benefit by the experience of others. Users of "Sternol" Oils and Greases write:

- "I find I do not need to lubricate so often as when using other oils......" "There is less smoke from the exhaust......"
- "'Sternol' does not carbonise, and allows of a very easy start from cold." Try 'Sternol' and you will get equal satisfaction.

Write to-day for details and name of nearest Agent.

# 'WOOD-MILNES' should be fitted to the Medical Man's car

—because they offer an extremely efficient and reliable service, ensuring freedom from tyre troubles and delay.

'Wood-Milnes' represent a definite advance in motor tyre construction. Wood-Milne casings are built up on machinery that saves the enormous stretch and strain on the canvas usually necessary, and also practically eliminates risk of 'nipping.' These casings, with their extra allowance of canvas, are therefore practically proof against bursts. The Steelrubber tread material is an invention of proved and acknowledged success. Almost unpuncturable, Steelrubber stands an immense amount of wear and tear. It is perfectly resilient and has a remarkably effectual grip on the road in all weathers and under all conditions.

# Wood-Milne

The Wood-Milne GRIPRIB pattern is recommended as the most efficient non-skid and the best hill-climber in the market. Wood-Milnes are also made in grooved pattern and with steel studs.

The Valveless is no ordinary car. This fact is being more widely recognized every day. Valveless users multiply, but each can say the car is unspoiled by success. The Valveless yields the service that satisfies not in one thing but in all things.

> CAPE COLONY, SOUTH AFRICA, May 22pd, 1912.

DEAR SIRS,—My car is now entirely dismantled for overhaul. It has been in continuous use for 2 years and 10 months, and has run over 19,000 miles. It has always carried me from poin to point with the utmost regularity, and I have never once been stranded. All the damage I can find up to the present is as follows:—

2 hew piston rings are required.

1 big end is a little slack.

The latt is slightly worn

I big end is a little stack.

The jet is slightly worn.

In other respects everything appears as when new.

I think this speaks well for the good qualities of the car and workmanship, as our roads, even in the more civilized regions, are workmanship, as our roads by no means kind to a car. (Signed)-

N.B.—The cost of new parts to make good the damage done after over 19,600 miles will be 8/-.

DORKING, October 4th, 1911.

DORKING.
October 4th, 1911.
Gentlemen.—I have much pleasure in stating that I have both ridden one of your older Models and also one of this year's 2½ h.p. Models.
The former reluctantly I gave it up as I wanted one of this year's machines with more horse power. Hence I got one of the 2½ h.p. Models. This machine has now been running almost daily since the 19th May this year, and I have pleasure in stating it has not cost me one farthing for repairs or anything clse save petrol.

I find it entirely satisfactory in every way, and a very great help to me in a busy country, practice. If any medical man would care to refer to me about the Motosacoche, I will only be too pleased to give him candidly my opinions about it.
This testimonial has been unsought by the Company.

Yours fatthfully. —— M.D.

FOOT-BRAKE

£38 complete. Lady's £42.

FREE ENGINE

SILLOTH, CUMBERLAND.
August 23rd, 1911.
Dear Sir — I am glad to tell you that the Morosacoule has been absolutely satisfactory. I have been able to do hundreds of miles without any trouble, and I am surprised that a Motor Bicycle can be so reliable. With its light weight, case of starting and control, and its surprising speed and hill-climbing powers, I think it is an ideal cycle for a country doctor.

THE MOTOSACOCHE GAINED THE HIGHEST AWARDS IN THE GREAT TRIALS SINCE 1906.

The MOTOSACOCHE CHANGE SPEED

is perfection and costs only £6 more. It is simple, weighs only 3-lbs., and is as reliable as the engine. Its changes are infinite, and there are no teeth, chains, &c., to cause trouble. It is made with the same point in view, viz., no oily dirt, no noise, no worry.

OUR "M" CATALOGUE WILL INTEREST YOU. WRITE A P.C. FOR IT. It is sent free of charge.

# NORWOOD (REMOVED TO BECKENHAM) SANATORIUM.

UNDER A COMMITTEE OF WELL-KNOWN MEDICAL MEN whose names will be supplied to any member of the profession on application to the Resident Medical Superintendent.

The object is to apply to the treatment of Alcoholic and Drug Inebriety all available knowledge, and by accurate observation and record of cases to extend that knowledge, and place the therapeutics of Inebriety upon a definite scientific basis. The treatment is of such a nature that the restrictions common to Retreats need not be enforced. In many cases a residence of six weeks is sufficient.

The Sanatorium consists of a large family mansion, recently redecorated, and brought up to date in all respects. It is situated in a large and beautifully wooded private park, in near proximity to London.

All information to be obtained from the Resident Medical Superintendent, Norwood Sanatorium, Ltd., The Mansion, Beckenham Park. Consultations at 14, Stratford Place, W. (opposite Bond Street Tube Station), on Mondays and Thursdays by appointment.

Telegrams: "Norotorium, Beckenham."

Resident Medical Superintendent: FRANCIS HARE, M.D.

Telephone: 618, Bromley.

THE ALCOHOL AND DRUG HABITS.

(Licensed under the Inebriates Acts)

For Gentlemen only.

(There is also a Private Address for Patients correspondence.)

Patients are treated individually, and on a sound scientific basis with the object of building up the health generally, strengthening the will power, and educating the mind to an adverse attitude towards the above habits.

The situation of the house in the heart of the Lake District, nine miles from the nearest town and railway station, is unique in its suitability for the work, and its isolation from temptation makes close confinement quite unnecessary in the vast majority of cases.

Outdoor and indoor sports and occupation of all kinds are provided. Trout-fishing (own private lake and streams). Rough shooting over 2,000 acres, Golf (private 9-hole course), Tennis, &c. Poultry-keeping, Fish-culture, and Gardening may be indulged in, while a workshop and dark room are provided for joinery, woodcarving and photography. The house also containing a fullar table. Terms from £3 3s. weekly, according to accommodation.

A NEW ORGANIC COMPOUND OF IRON

Fer Ascoli ensures assimilation of a maximum amount of Iron without causing digestive disturbance or astringent effect.

The combination of Iron with nuclein enables the practitioner to obtain the full hæmatinic value of iron, together with the

stimulating tonic effect of the organic radicle, enriching the blood and increasing the resisting powers.

'FER ASCOLI' has been successfully administered in anæmic cases where gastric irritation was marked, and where other iron preparations were not tolerated.

In bottles of 30, 90 and 180 Tablets, at 1/-, 2/6 and 4/6 each respectively.
