## TO CORRESPONDENTS.

\* \* All letters and communications for the JOURNAL, to be addressed to the Editor, 37, Great Queen St., Lincoln's Inn Fields, W.C.

**COMMUNICATIONS.**—To prevent a not uncommon misconception, we beg to inform our correspondents that, as a rule, all communications which are not returned to their authors, are retained for publication.

**CORRESPONDENTS**, who wish notices to be taken of their communications, should authenticate them with their names—of course, not necessarily for publication.

**A MEDICAL GUARDS APPOINTMENT.**—(T. P.)—The appointment would be an act of gross injustice, another act of what is in vulgar parlance called jobbery. The management of our Army Medical Service is in a deplorable condition. The Duke at the Head has his own anti-opinion of medical matters, and is utterly ignorant of professional sentiments; and there is, unfortunately, no medical authority which has independent power or sufficient moral courage to stand between the Duke and his ignorance, and compel him to matters medical to listen to and obey the voice of professional science and professional sentiment.

**RETIRED MEDICAL OFFICERS.**—(F. O.)—Surely it would be very hard if retired army or navy medical officers were not to be considered equally as eligible candidates for all civil appointments, for which they were qualified, as other medical men. In the case of Mr. Nicoll, we may say that we heard, at least a year ago, that it was his intention at an early moment to leave the service, having completed his twenty-five years. There cannot, therefore, be any fair exception taken to his appointment to the Charter-house on this score.

**COMMUNICATIONS** have been received from:—Dr. THOMAS SHAFER; Dr. SIEVERING; Dr. SAMELSON; THE SECRETARY OF THE ODONTOLOGICAL SOCIETY; Mr. R. H. M'KEAND; Dr. JOHN BAROLAY (Banff); Mr. R. W. DUNN; Mr. STEELE; Mr. T. WATKIN WILLIAMS; Mr. E. CHESHIRE; Dr. GIBSON; Dr. MUSHET; Dr. GOODMAN; Dr. BROADBENT; Dr. FREDERICK J. BROWN; Mr. JABEZ COOKE; Dr. F. LLOYD; Dr. J. ARMSTRONG; Dr. BURNS; and Dr. E. MORGAN.

**Weiss's Illustrated Catalogue,**  
containing nearly 800 engravings of Surgical Instruments and Apparatus, classified for their various purposes. Price, 5s. 6d. Strand, London.

"This catalogue has many and great merits. It is modest, truthful, carefully arranged, and extremely well illustrated. In the great majority of cases the name of the surgeon is appended to the modification which he has introduced, and frequently other makers' names are honourably attached to instruments which they first originated. These are large principles of honour which we are glad to see strictly observed in this catalogue."—*Lancet* [September 13th, 1863.]
