

## CHRONIC AND NERVOUS-DYSPEPSIA, Gastritis, Gastric Ulcer, &c.

**B**Y its easy retention and highly nutritive properties BOVININE forms a valuable dietary aid to medication. In the above conditions its ready assimilation permits the stomach almost complete rest while full nourishment is maintained without interruption, without irritation, and without injurious functional effects.

Its utility in all gastric disturbances is gaining ever increasing medical recognition, while as a general restorative it assures the Physician an incomparable aid to treatment.

Agents.*

# BOVININE

Established 1878.

The Original Meat Preparation (by cold process).

W. EDWARDS & SON, 157, Queen Victoria Street, London, E.C.

### EMOL-KELEET

**In arresting the epidermic irritation accompanying Scarlet Fever, Measles, or following the injection of Vaccines, Emol-Keleet may be used with distinct advantage**

Its fine, impalpable texture and its marked sedative properties make Emol-Keleet a most useful application in the treatment of all dermatoses, especially those accompanied by itching. Purulent Eczema and Inflammatory Papulæ are also greatly ameliorated by its absorbent and sedative action.
