

DUNLOP: Consequent upon the unique behaviour of Dunlop tyres in the German South West African campaign, the Union Government decided to use only Dunlops in the campaign in German East Africa, and in a letter recently to hand from our South African house, I hear that a further 350 sets of Dunlop rubber-studded non-skid motor-cycle tyres have been ordered by the Government.

This only shows that it needs exceptional circumstances to bring out fully the innate superiority of Dunlop tyres.
