

"THE HIDDEN HAND."

Mechanic: The wheels aren't running parallel, Sir! They're half-an-inch out of truth.

Dunlop: Misalignment, you know, is, so to speak, "The Hidden Hand." Nothing causes so much mischief with tyres, and the average motorist can't locate the trouble till the mischief's done.

Users of Dunlop—or any other—tyres can have the alignment of their wheels tested free of charge at any of the Company's Depots.
