

# Valentine's Meat-Juice

In **Typhoid Fever, Diarrhoea and Cholera Infantum**, when it is **Essential** to **Sustain** the patient **without irritating** the **Digestive Organs**, the **Ease of Assimilation** and **Power of Valentine's Meat-Juice** to **Restore** and **Strengthen** has been demonstrated in Hospital and Private Practice.

**T**HE quickness and power with which **VALENTINE'S MEAT-JUICE** acts, the manner in which it adapts itself to and quiets the irritable stomach, its agreeable taste, ease of administration and entire assimilation recommend it to physician and patient.

Physicians are invited to send for brochures containing clinical reports.

For sale by European and American Chemists and Druggists.

**VALENTINE'S MEAT-JUICE COMPANY,**

## RELIABLE LIGATURES.

BREAKABLE TUBES.

In ligature and suture material, there can be nothing better conceived for the sterile and aseptic preparation and conveyance of the same, than a hermetically sealed glass tube. Catgut or silk, as it is prepared in our laboratories must reach the surgeon's hands in absolutely sterile condition.  
This is our positive guarantee.

These Tubes possess advantages known to no other tubes. The perfection of Johnson & Johnson's Laboratory preparation of Ligature and suture material cannot be obtained elsewhere.

Specify

**JOHNSON & JOHNSON,**

or write for

"HANDBOOK OF LIGATURES"

and sample of STERILE CATGUT.

Price 12/- per dozen Tubes.

**SURGICAL MANUFACTURING COMPANY, 83-85, Mortimer Street, London, W.**

## "HYDRION" A Powerful Antiseptic Tablet quickly soluble in water, for Dressing Skin Wounds, Lacerations, Compound Fractures, Burns, &c.

The formula of an eminent surgeon, obtained after years of scientific and clinical application. "Sepsis," where directions are faithfully carried out, is unknown. See LANCET, December 19th, 1914, pp. 1438, et seq. Write for Pamphlet and Free Sample.

## The "New Century" Urethral Syringe.

English Patent No. 9308, 1906. Patented at Home and Abroad.

Price 3s. 6d.

### CHIEF POINTS OF VANTAGE.

- |  |   |
|--|---|
| (1) Simplicity and comparative comfort in use. | (4) Remarkable absence of distress in use.  |
| (2) Ease of complete sterilisation.            | (5) Quickness in controlling discharge.     |
| (3) Absence of hard material in construction.  | (6) Unlimited quantity of irrigating fluid. |

TABLETS, PILLS, CONCENTRATED MIXTURES, and MEDICAL PREPARATIONS of all description.

Manufactured by **HOUGH, HOSEASON & CO., Ltd.**, Wholesale Manufacturing Chemists, **MANCHESTER.**

## The fuel of a thousand uses

THE uses of gas are manifold—but its most important general function is to save coal.

Coal is the life-blood of an industrial nation, and unscientific methods are recklessly draining our reserves. By consuming gas wherever possible in its place we should extract the fullest value from every ton of coal and recover for use valuable substances otherwise lost.

THE BRITISH COMMERCIAL GAS ASSOCIATION

X 19 g

47 Victoria Street, Westminster, S.W. 1

Barley Water, either alone or with milk, is a most valuable drink for the nursing or expectant mother. It stimulates the production of milk, and by its action on the organic functions it keeps the system in sound health.

Fawcett's Natural Process Barley should always be used for making Barley Water. It is prepared with the most scrupulous care and is absolutely pure.

Take two small dessertspoonfuls of Fawcett's Natural Process Barley and mix with a little cold water to a cream. Add, stirring all the time, one pint of boiling water and a pinch of salt. Simmer until clear for fifteen minutes and strain if necessary. When the food is required, mix the cooled barley water with the hot—but not boiling—milk.

FREE SAMPLE GLADLY SENT TO PROFESSIONAL APPLICANTS.

Of all High-class Retailers, in 1-lb. and ½-lb. tins.

**FAWCETT'S Barley Food Specialists.**  
100, CASTLEFORD, LANCASHIRE.

# SANTAL MIDY

FOR INTERNAL TREATMENT OF URETHRITIS AND  
OTHER AFFECTIONS OF THE GENITO-URINARY TRACT.

**Santal Midy Capsules** have been prescribed with uniform success for over 30 years. Distilled from carefully selected Mysore Santal Wood, the oil is bland and remarkably

**FREE FROM THE IRRITANT AND NAUSEATING EFFECTS**

which are provoked by many preparations. There is marked absence of Gastric and other disturbances, diarrhoea and skin eruptions. Its mild chemotactic properties permit its administration in relatively large doses without fear of too violent reaction or intolerance.

## SANTAL MIDY CAPSULES

may be prescribed and **relied upon** in all stages of affections of the Genito-Urinary tract.

The capsules contain 5 drops, and usually 10 to 12 are given daily in divided doses.

Prepared in the **Laboratoire de Pharmacologie Generale, 8, Rue Vivienne, Paris,**  
and sold by most Chemists and Wholesale Druggists throughout the world.

Owing to prevailing conditions our  
prices are subject to fluctuation.

# The COOLIDGE X-Ray Tube

USED BY SIR J. J. THOMSON AND THE LEADING WORKERS.

The Coolidge Tube simplifies X-Ray work and renders unnecessary the adjustment and personal manipulation which are unavoidable with the ordinary type of X-Ray tube. It is an instrument of precision far in advance of any previously produced.

We have completed a new scheme for repairing Coolidge Tubes which may be damaged or broken. Details can be had on application to your dealer or to us.

Send for free descriptive list No. 10780.

## COLLOSOL CUPRUM IN MALIGNANT DISEASE

Recent research work (in particular that of Champy) showed that embryo tissue, when transplanted in plasma outside the organism, took on new growth. Embryonic connective tissue could be subcultured very many times since it grew so rapidly. Adult tissue when transplanted *in vitro* produced mitotic figures, and embryonic cells were split off. What prevents these embryonic cells in adult tissue from growing in the normal body is at present unknown, but there is evidently a restraining influence, and this influence is said to be a sufficiency of oxygen. In malignant disease this is absent—hence the abnormal growth.

Many authorities hold that colloidal metals (and in particular colloid copper) by virtue of the ions absolved to the surface of the particles, will, under favourable circumstances, supply the necessary active oxygen. Good and promising results have been obtained by several members of the Medical Profession and published from time to time in the leading Medical Journals.

**Treatment.**—Injections (intramuscular or subcutaneous) of 3 to 5 c.c. should be given as near as possible to the seat of the infection. Best results have always been obtained when particles of copper have been actually demonstrated in the growth, and when possible injections should be given directly into the growth. In those conditions in which the vagina or rectum is affected supplementary treatment is advised by the use of Collosol Cuprum Pessaries or Suppositories—these should be used nightly.

**COLLOSOL CUPRUM is supplied in Ampoules (3 c.c.) 6 at 4/-,  
Pessaries 6 at 3/6, Suppositories 12 at 4/-,**

and is prepared for the Proprietors, Crookes' Collosols Ltd., at

Exhibition, London, '81.

# BATTLE'S LIQUORS

First Class Award at  
World's Industrial  
Exposition.  
New Orleans, 1885.  
Bronze Medal,  
St. Louis, 1904.

The following preparations have for many years been used and prescribed by medical men; they are therefore thoroughly recommended both on account of their high therapeutical properties and their great purity as galenical preparations.

## Liquor Opii Sedativus (Battley)

Dose: 5 to 15 minims.  
The Oldest and still the Best Hypnotic and Sedative.  
Twice the strength of Tinctura Opii B.P.  
Safe in use. No disagreeable after-effects.  
Composition always reliable.

## Liquor Cinchonæ Cord. (Battley)

Dose: 2 to 15 minims.  
The most reliable preparation of Cinchona Bark.  
Contains all the active principles of Yellow Bark.  
Will remain unaltered for a great length of time, being free from starch, etc.

## Liquor Cinch. Pallidæ (Battley)

Dose: 2 to 15 minims.  
A well-known and useful preparation in Malarial Diseases and in Convalescence after Illness.  
Does not disturb the stomach.

## Liquor Secalis Cornuti (Battley)

Dose: 20 to 60 minims.  
Pre-eminent among Ergotic Preparations for Purity and Strength, and has proved to be unrivalled in the following therapeutical actions:  
As an Emmenagogue and Ecboic, in Post Partum Hæmorrhage, as a Hæmostatic, etc.

Battley's Liquors are issued in 2 oz., 4 oz., 8 oz. and 1 lb. bottles.

They are prepared according to the original process of the late Richard Battley.

Telegraphic Address: "Sedative, London."

Sole Manufacturers:

Telephone: Central 2183.

# Neave's Foods

Gold Medals Awarded  
London, 1900, 1906, 1914;  
also Paris.

SOLD  
EVERYWHERE.

## NEAVE'S MILK FOOD

(Starchless) for Babies from Birth.

Dr. —, D.Sc. Ed., B.Sc., M.D., M.B., O.M., D.P.H. (Park Lane, W.), writes: "My baby girl is thriving admirably on your Milk Food. . . . The mother was unable to feed her and previously tried other Infants' Foods without success." February 25, 1914. " . . . I take every opportunity of recommending both your Milk Food and Cereal food as the best scientific food where breast feeding is contra indicated." June 11, 1914.

Dr. —, D.Sc., M.D., D.P.H., Public Health Laboratories, London, reports: "When diluted with 7 or 8 parts of water the mixture would closely resemble human milk in composition. The fat would then be about 3 per cent. This is very satisfactory."

Dr. —, M.D., M.R.C.P., etc., writes: "Have prescribed your Milk Food frequently . . . easily digested . . . without any after acidity, which is common with Foods containing alkaline elements, and I shall recommend it further."

Instantly prepared by adding hot water only. SOLD IN 1/3 PACKETS.

## NEAVE'S FOOD (Cereal)

FOR INFANTS AND INVALIDS.

When prepared with cow's milk according to the directions given, forms a complete diet for Infants, Invalids, and the Aged.

Dr. —, L.R.C.P., L.R.C.S. Ed., L.F.P.S. Glas., etc., (Leeds), writes: "Your Neave's Food is suiting our youngster admirably, for which we are very thankful . . . she was not doing well on cow's milk and water alone." September 10, 1913.

Dr. — "As regards the proportion of flesh-forming Albuminoids and the bone-forming salts, there exists a perfect uniformity between Neave's Food and Mother's Milk."

"The Medical Magazine."—The starch is so split up that, after cooking, no evidence of its presence can be detected by the microscope, thus doing away, in this particular instance, with the objection that foods containing starch are not digested by very young children."

SOLD IN 2/6 PACKETS.

## NEAVE'S HEALTH DIET

(MILK and CEREAL) For Nursing Mothers, Dyspeptics, and the Aged.

Provides full and exact nourishment at the expense of small exertion on the part of the digestive organs. Its flavour is delicious, and therefore acceptable to those who dislike the usual form of "gruel," besides being more easily made and not needing the addition of milk. Being unsweetened it can be taken in those cases where sugar in any form is prohibited. As a change from porridge it will be found very beneficial at breakfast for growing and delicate children, who eagerly take it up. Elderly people and others will find it excellent as a "light" supper, inducing natural sleep.

A lady writes (name given on application): "I have found your Health Diet most invigorating, yet restful, and as regards the nervous system it is a splendid tonic." Feb. 22, 1915.

A District Nurse, Leeds, writes: "Have just recovered from an attack of gastric trouble . . . have principally to live on milk food, and find Neave's Health Diet not so constipating as milk usually is when taken alone."

SOLD IN 1/3 AND 3/6 PACKETS.

TRADE MARK  
A.D. 1715.

Treatment

## CONSTIPATION.

## "Byno Chrismol"

IDENTIFICATION TRADE MARKS

marks a new departure in the treatment of Chronic Constipation, etc. It presents 50 per cent. by volume of "Chrismol," a specially selected and purified Russian mineral oil in intimate combination with the "Allenburys" Malt Extract.

*"Byno Chrismol" possesses the following advantages:*

It is prepared with mineral oil of the proper viscosity and chemical constitution to ensure efficient lubrication with a complete absence of bye-effects.

The intimate combination of the mineral oil and the "Allenburys" Malt Extract without an emulsifying agent, ensures the maximum activity of the oil as a lubricating agent, and removes the inconvenience that sometimes follows insufficient admixture of the lubricant with the intestinal contents.

It possesses no oily taste. The "Allenburys" Malt Extract present aids digestion and assimilation.

"Byno Chrismol" is specially indicated in Chronic Constipation with symptoms of auto-intoxication, Intestinal Stasis, Mucous Colitis and in the convalescent stage of Typhoid Fever; also after Child-birth, during the nursing period and whenever a simple laxative is required by child or adult.

## UNSOLICITED MEDICAL TESTIMONY.

"I am a new man after it ('Byno Chrismol'). It has done me more good than anything I have ever taken. I was greatly troubled with atonic dyspepsia for the past few years, and now I feel quite well again."

... L.R.C.P.

"I tried your 'Byno Chrismol' in a case of habitual constipation with very good results. It acted as a mild laxative."

... L.A.H.

"I have not been taking it ('Byno Chrismol') very long, but I find that life is again a pleasure instead of being in reality a misery for the past five years."

... L.R.C.P.

"The 'Byno Chrismol' tends to permeate and soften the whole motion, and no particle of oil reappears in the stool. This I consider a great advantage."

... M.B., F.R.C.S.

DOSE: A dessert-spoonful or more, two or three times a day.

In bottles at 2/6 and 4/6 each.

Sample free on request.

ALLEN & HANBURYS LTD., LONDON.

City House: 37, Lombard Street, E.C.3. West End House: 7, Vere Street, W.1.

Prescribed by the Medical Profession for 35 years.

*The BRITISH MEDICAL JOURNAL* says: "Time and use have justified the claims put forward for Benger's preparations."

## *Milk is indigestible by many people.*——

This is well-known by physicians to be a deprivation, and frequent cause of pain and discomfort to weakly or debilitated persons.

Wherever there is inability to digest milk, and whenever milk diet is advisable, Benger's Food may be prescribed with confidence. It changes (or softens) the casein of the milk so that it separates in presence of the acid gastric juice into minute flocculæ, instead of heavy curd.

The ease with which these smaller particles are digested and assimilated enables the patient to obtain more readily the whole of the Food-value in the milk.

## *BENGER'S FOOD*

*itself is also rich in food elements necessary to sustain life, and in a most easily digested form.*

*It agrees with the most sensitive stomachs, from infancy to extreme old age.*

*Full particulars will be sent post free on application, to any member of the medical profession.*

*for* INFANTS, INVALIDS,  
AND AGED PERSONS,

is quite distinct from every other food obtainable, and is sold throughout the World by Chemists, &c., in sealed tins.

BENGER'S FOOD Ltd.,———Otter Works, MANCHESTER, Eng.

FIGURES OF WARRIORS CARVED UPON A CROMLECH IN SOUTH INDIA.—This cromlech marked the spot where fell some local hero of the aboriginal tribes. In the upper register on the left is the hero with his wife, who committed suttee at her husband's funeral. He carries a spear, and the lobes of his ears are artificially lengthened—a mark of distinction. Beneath is a bowman whose quiver is fastened behind his left shoulder by a strap across his breast. Each warrior on the right-hand stone is armed with either a sword or a spear; one is on horseback. These primitive fighters, with their few and rude weapons, form the strongest contrast to the magnificently equipped mailed warriors of the Mahommedan and Hindu armies of Northern India with whom they were contemporary. Date: A.D. 1500-1600.

**GALYL**GIVES THE  
DESIRED  
RESULTS IN**SYPHILIS***Tested and Approved in Accordance with L.G.B. regulations.***INTRAVENOUS.****INTRAMUSCULAR.**  
(IN GLUCOSE).**Identical in Dose and Efficacy.**

**GALYL is as effective as SALVARSAN or NEOSALVARSAN on Spirochaetes and Trypanosomes, more rapid in action, and free from the neurotropic and congestive action of these preparations.**

**60,000** Injections administered in Naval, Military and General Hospitals have demonstrated that Galyl is efficient, rapid and well-tolerated.

**Intravenous GALYL.****Royal Commission on Venereal Diseases.**

"Favourable reports have also been obtained regarding the preparation **GALYL**. At the Male Lock Hospital 1,000 injections of this substance have been administered, and it is reported that they have been attended with **as good results as in the cases treated by Salvarsan and Neosalvarsan**; in no instance were the injections followed by reactions indicative of arsenic poisoning.

After 5,000 Injections administered in one of our Service Hospitals,

**Staff Surgeon reports:**

"No case has given the slightest cause for anxiety, and the clinical results are very satisfactory."

**MALARIA.**

DOSES:—0'10, 0'15, 0'20, 0'25, 0'30, 0'35, 0'40.

**Intramuscular GALYL**

May 29th, 1918.

DEAR SIRS,—I have now given over 700 injections (Intramuscular Galyl), with not one ill result. The Clinical results are very good—better, I consider, than any other Salvarsan substitute, and with the Glucose suspension the technique is quite simple.

Yours truly,

Dr. —.

23.3.18.

DEAR SIRS,—I have been using Galyl (Intramuscular) on a patient with splendid results. She was for six months formerly on the usual anti-syph. treatment. She received more benefit with one injection of Galyl than all other previous treatment.

Yours faithfully,

—, L.R.C.P.

**FRAMBOESIA.****DIABETIFUGE****IN THE TREATMENT OF DIABETES.**

This treatment is constituted on sound practical scientific lines and yields most satisfactory results in the gradual diminution of the sugar percentage, which is in most cases of a permanent character.

It has been well proven that **Peroxide of Manganese** is one of the best producers of Glycolysis, being a true oxygen-carrier that readily yields some of its oxygen after absorption into the organism and has the power of replenishing itself immediately after.

**Bicarbonate of Sodium** is also a good oxygen-carrier, which has a high reputation in the treatment of Diabetes.

**Chlor-Hydro-Methol Arsenate of Lithia**, in small doses favours Glycolysis both as an oxygen-carrier and as an aid to assimilation.

**Antipyrine, Uranium Nitrate, and Santonin** also enter in the composition of **DIABETIFUGE**. These three substances are the most powerful restrainers and regulators of the glycogenic functions known, and each is looked upon as a well-tried drug for the special purpose of preventing the formation of sugar.

By the combination of these substances in **DIABETIFUGE** a preparation is placed at the disposal of the medical profession which invariably effects a marked improvement in the condition of the diabetic patient and a good percentage of permanent cures.

*Further Literature sent to the Medical Profession on application.***The ANGLO-FRENCH DRUG Co., Ltd., Gamage Building, Holborn, London, E.C. 1.**

**URASEPTINE****The Most Powerful and Effective Urinary Antiseptic.**

**URASEPTINE** is a granulated product entirely soluble in water, its bases being **Piperazine, Urotropine, Helmitol, Benzoates of Sodium and Lithium**. It contains 60 centigrams (10 grs.) of active matter to each teaspoonful.

DOSE.—2 to 6 teaspoonfuls daily.

It purifies the Urine, and this action is due to its three principal properties:

1. It is a URINARY ANTISEPTIC.
2. A SOLVENT of URIC ACID.
3. A MILD NON-TOXIC DIURETIC.

**INDICATIONS.**—Arthritism, Gout, Gravel, Hepatic and Renal Colic, Rheumatism, Calculus, &c., Phosphaturia, Urinary Antisepsis, Pyelitis, Bacteriuria, Cystitis, Prostatitis, Urethritis, Pyuria, Urinary Abscess, Vesical Catarrh, &c.

# RIODINE

(C<sub>18</sub>H<sub>33</sub>O<sub>3</sub>I)<sub>2</sub> C<sub>3</sub>H<sub>5</sub>

An organic derivative of iodine, a well-defined and stable chemical compound.

Efficacious and prolonged action even in small doses. Never gives rise to iodism.

**Therapeutical Indications.**—Cardio-vascular and Chronic Respiratory Diseases, Scrofula, Lymphatism, Obesity, and in all cases requiring the use of either Iodine or Iodides, especially when these disagree with the patient.

**Average Dose:** 2-6 pearls a day, to be taken after meals.

# KEROL

KEROL combines all the properties which go to the making of an ideal preparation. It has been shown to be practically non-toxic, non-irritant and non-corrosive—a combination of properties which make it the one preparation which can be used with perfect confidence wherever the use of either a disinfectant or antiseptic is indicated. It is of high and definite germicidal value and is perfectly homogeneous.

KEROL is highly recommended by Bacteriologists and by prominent members of the Medical Profession.

## KEROL CAPSULES

**INTESTINAL** There are of great value where intestinal antiseptics is indicated. In a comparatively short space of time the coli content of the intestine is reduced by over 99 per cent. They are non-irritant and perfectly safe.

**STOMACHIC** For use in cases of stomach fermentation and other gastric troubles, and are of great value in reducing the number of malign organisms prior to administration of treatment with lactic ferments, i.e. sour milk, etc.

Samples and literature sent free to any Medical Practitioner.

## KOND'S EUONYMISED COCOA.

What is it?

A delicious Beverage, taking the  
place of Tea, Cocoa, or Coffee.

Why take it?

Its use is attended with a marked increase of appetite and rapidity of digestion: all feelings of heaviness after meals disappear; and an increase of the natural flow of bile takes place. It is not a aperient, except in repeated doses, but the increased activity of the liver is valuable in removing constipation. It is used in stomach or liver disorders, alcoholism, slow digestion, overwork, depression, loss of appetite, in cases where tea and coffee are not desirable, sedentary habit of life, gout, rheumatism, and biliousness.

Euonymised Cocoa can be freely taken by those unable to take ordinary Cocos.

The Euonymin is taken in the form of a hot infusion in a delicious beverage. Its action in this form is incomparably more direct and powerful than when taken in any other forms.

Highly recommended by the Medical Profession, from whom we have received  
hundreds of testimonials.

SOLD IN TINS 1s. 6d. and 2s. 6d.  
from Grocers or Chemists;  
or from the Wholesale Depôts;

## THE BURBERRY

The Super-Weatherproof

REPRESENTS the most economical and distinguished form of protection in out-door Dress for war-time.

THE BURBERRY, by its efficient resistance to rain and winds, ensures comfort and security under conditions entailing prolonged exposure to chill and damp.

THE BURBERRY, by faultless natural ventilation, entirely avoids the vitiated heat of macintosh or rubber-lined coats.

THE BURBERRY is airy and gives a splendid sense of freedom, whilst the strong, yet supple, texture of its material imparts exceptional hard-wearing properties.

Patterns, Prices and Catalogue sent on application.

### BURBERRYS' CLEANING WORKS.

Men's and Women's Dress Cleaned by the most up-to-date process. Weatherproof garments cleaned and reproofed. Price list sent on request.

Burberrys' Basingstoke House treats direct commissions from Doctors as approval orders, i.e., replaces with its own cheque returned non-approved garment.

**INDIA OFFICE, LONDON, S.W. 1.** June, 1918.

No Competitive Examinations for the Indian Medical Service are being held during the continuance of the war.

Such appointments as may be required to meet the absolutely indispensable needs of the Service are being made by nomination by the Secretary of State for India.

To assist him in making these appointments he has appointed a Selection Committee who summon and interview such candidates as may appear to be *prima facie* suitable and make recommendations for appointment.

Applications for appointment should be addressed to the Secretary of the Military Department, India Office, Whitehall, S.W. 1, and should contain concise particulars of the applicant's medical degrees and career.

Applicants must be over 21 and under 32 years of age at the time of application.

Particulars regarding pay, promotion, etc., in the Service can be obtained from the Secretary, Military Department.

## POST-GRADUATE STUDY OF SURGICAL TUBERCULOSIS.

**Lord Mayor Treloar Cripples' HOSPITAL & COLLEGE**, Alton, Hants. (The largest Hospital in the Kingdom devoted to the Treatment of Non-pulmonary Tuberculosis.) 250 Beds for Acute, 50 for Chronic Cases.

THE TRUSTEES and HONORARY MEDICAL BOARD of the Hospital have arranged for short, informal, and practical Courses of Instruction in the Diagnosis and Treatment of Surgical Tuberculosis, to be conducted by the Medical Superintendent. The practice of the Hospital will be open to Medical Practitioners and Senior Students.

The Courses will be held at regular intervals and designed to meet the requirements of Tuberculosis Officers and School Medical Officers. The Classes will be strictly limited in numbers.

The next Course will commence on Monday, 29th July, and will conclude on Saturday, 3rd August. There is no fee; lunch and tea will be provided. For full particulars apply to—

H. J. GAUVAIN, M.D., M.Ch. (Cantab.),  
Medical Superintendent.

### City of Manchester.

The Sanitary Committee of the Corporation of Manchester require the services of a fully qualified whole-time LADY MEDICAL OFFICER, with experience in the treatment of Children's Diseases, to hold (under the direction of the Medical Officer of Health) Consultations and Infant Clinics at the Maternity and Child Welfare Centres of the Manchester Corporation, and (under the like direction) to perform such other duties as appertain to the office. The salary will be £400 per annum.

A statement of the duties and conditions of the office may be had on application, in writing, to the Medical Officer of Health, Civic Buildings, 1, Mount Street, Manchester.

Applications, stating age and experience, and endorsed on the envelope "Medical Officer, Child Welfare," must be addressed to the Town Clerk only, and not to members of the Committee or Council, not later than Friday, July 12th, 1918, and be accompanied by not more than three recent testimonials.

The successful candidate will be required to contribute to the Corporation Officers' Thrift Fund and to execute their Deed of Service.

Canvassing in any form, oral or written, direct or indirect, is prohibited.

THOMAS HUDSON, Town Clerk.  
Town Hall, Manchester. 18th June, 1918.

### City of Manchester.

SECOND ASSISTANT MEDICAL OFFICER  
TO THE  
BAGULEY SANATORIUM FOR TUBERCULOSIS.

The Sanitary Committee require the services of a fully qualified Medical Officer, with experience in the treatment of Tuberculosis, to act as LOCUM TENENS.

Applicants must be unmarried, ineligible for Military Service, and conversant with bacteriological methods. The salary will be £100 per annum, with board and residence.

Applications, stating age, qualifications, and experience, and endorsed on the envelope "Second Assistant Medical Officer, Baguley Sanatorium," must be addressed to the Town Clerk only, and not to members of the Committee or Council, not later than July 10th, 1918, and be accompanied by not more than three recent testimonials.

Canvassing in any form, oral or written, direct or indirect, is prohibited.

THOMAS HUDSON, Town Clerk.  
Town Hall, Manchester, June 24th, 1918.

PLATE NO. 1.

Severe burn of the right forearm at the commencement of the treatment with BURNOL.

Note the severity of the burn.

*Write for the  
Burnol  
Booklet*

PLATE NO. 2.

Same severe burn of the right forearm, showing the condition of the arm after three weeks' treatment with BURNOL; practically healed.

Note the absence of scars and contraction.

The above plates show the results of No. 7 Paraffin (Burnol brand) treatment applied according to the instructions, and under the direction of an eminent military surgeon.

No. 7 Paraffin is a new and valuable treatment for burns, the reports of which are unanimously laudatory. In an article concerning it the *British Medical Journal* of January 13th, 1917, says:—

"The relief from pain and rapidity of healing is due to the fact that the burn is held at rest in a plaster-like cast of paraffin, and a suitable nidus in which the epithelium will proliferate is provided. Severe burns of the third degree, accompanied by sloughing, and in a very septic condition, have cleaned and taken on healthy repair under this treatment. . . . Severe burns of both palmar and dorsal surfaces of the hands, extending to the tendon sheaths, have healed in three weeks without contracting cicatrices. Extensive burns of the flexor surfaces of the limbs, the regions most likely to be altered by contracting cicatrices, have healed without apparent scarring. Burns of the face heal

with a new healthy skin without scarring. Severe burns due to caustic, petrol, and liquid fire, have been healed with this preparation; there have been no untoward results. The treatment is practically painless. . . . The rapidity of healing, the absence of sepsis or pain, the healthy new skin resulting without contracting cicatrices or deformity, have been really remarkable. Sloughs of deep tissues in some cases down to bone, readily separate, and the burns become clean."

The British Fire Prevention Committee, after enquiry as to the most suitable way of popularizing this new treatment for burns, and of assuring the standardization of quality have approved of the "Burnol" brand, manufactured by Boots Pure Drug Co. Limited, under analytical control, which will be found never to vary, and to meet absolutely the requirements of the medical profession.

# BURNOL

THE NEW TREATMENT FOR BURNS.

THE BEST BRAND OF NO. 7 PARAFFIN.

As used in Military Hospitals and Munition Works for the treatment of burns.
