

THE ability of a tyre to yield consistent economical service is the test of its worthiness to form part of the medical man's equipment.

The number of Dunlop tyred cars in use by the profession is an outward indication of the incontrovertible fact that Dunlop tyres are consistently reliable and economical.

X-RAY SCREENS

There has been **ONLY A SLIGHT INCREASE OF PRICE** in the case of the "London" White Salt Screen. This Screen has a brilliancy equal to that of a B.P.C. (which at the present price of platinum costs more than twice as much), and it is absolutely permanent, being uninjured by the most intense radiations from the Coolidge Tube. For those who prefer the B.P.C. Screen, our Standard type is still the leading make for brilliance, definition, and durability.

INTENSIFYING SCREENS

After much experiment we have been able to produce a **VERY FLEXIBLE** Screen, without any sacrifice of speed or increase of grain, which has always been the case hitherto. Our Screens are now

THE FASTEST, MOST FREE FROM GRAIN, AND MOST FLEXIBLE of any on the market, and, moreover, they are being sold at exceptionally reasonable prices, without sacrifice of efficiency.
