

# THE MARVELLOUS X-RAY PLATE

## "IMPEX"

(Patents applied for in all countries.)

Invented by Dr. LEONARD LEVY, M.A., F.I.C., Chief Chemist of the Cox-Cavendish Electrical Co., Ltd.,

MANUFACTURED UNDER LICENCE BY THE IMPERIAL DRY PLATE CO., LTD.

The introduction of this remarkable X-ray Plate has been heralded by the leading radiologists as the greatest advance in Radiology since its advent. Its outstanding feature is that it reduces exposures to

**ONE TWENTIETH OF THE NORMAL.**

*This and other remarkable features are briefly summed up hereunder:—*

- |   |  |
|---|--|
| <ol style="list-style-type: none"> <li>1. Normal exposure of 40 seconds is now 2 seconds.</li> <li>2. Instantaneous Radiography becomes routine practice.</li> <li>3. No intensifying screen required, thus no cassette to load.</li> <li>4. Minimum exposure of operator and patient.</li> <li>5. Great saving of wear and tear on tubes.</li> </ol> | <ol style="list-style-type: none"> <li>6. Great contrast in density, even with rays of high penetration, thus securing excellent detail through thick parts.</li> <li>7. "Soft" or "hard" rays may be used without changing ratio of exposure.</li> <li>8. Complete absence of granularity.</li> </ol> |
|---|--|
