3i vel 3ii ter die
sumend ex aq post
cibos.

The Crookes Laboratories,

(BRITISH COLLOIDS LIMITED),

22, CHENIES STREET,

TOTTENHAM COURT ROAD, W.C.

Telephones: Museum 3663-3697.

Telegrams: Colossally, Westcent. London.

THIS preparation combines the hæmatinic properties of iron, and the nutritive value of pure malt extract with the tonic effect of the glycerophosphates on the nervous tissues.

In debilitated conditions the stimulating action of the glycerophosphates upon bone marrow and general metabolism will also be found of advantage in promoting recovery under a course of colloidal iron and malt extract.
