

Cox = Cavendish ^{IN} Announcements Radiology and Electrotherapy

X-RAY CATALOGUE

A new publication of 170 pages fully describing the Company's specialities will be sent post-free on request.

PRICES

Have in many instances been drastically reduced.

SALES ORGANISATION

Now located at 105, Great Portland Street, under the personal direction of Mr. E. H. Willis. All letters and telephone enquiries to this address in future, please.

PASTILLES

All our pastilles are now approved by the National Physical Laboratory before issue, and if used with our Chromo-Radiometer, form the most reliable testing combination available.

DEEP THERAPY

The results of our preliminary work of the last two years will be available shortly in the form of a pamphlet dealing with our up-to-date Deep Therapy Equipment. WE WILL INSTALL THESE EQUIPMENTS ON APPROVAL, as we are certain of the result.

PROTECTION

Don't run risks—we are willing and anxious that the N.P.L. shall examine and test any apparatus we install.

MESOTHORIUM

We have a large quantity (200 mgs.) of this radio-active substance for sale or hire. N.P.L. Certificates if required. Full particulars on receipt of enquiry.
