

MEAD'S

Mead's Infant Feeding Service.

MEAD'S DEXTRI-MALTOSE FOR INFANTS, ON PRESCRIPTION

MEAD'S DEXTRI-MALTOSE is prepared to aid the physicians in the scientific regulation of the infants' dietary.

So that each problem may be worked out individually as it should be, the Mead Johnson selling policy is such that directions must come from the physicians. **MEAD'S DEXTRI-MALTOSE** therefore is sold as a prescription product. It is advertised only to physicians and trade packages carry no directions for feeding. It is the physicians' prescription that tells the mother how to use **MEAD'S DEXTRI-MALTOSE** (Dextrins and Maltose). She is encouraged to report back to the doctor's office from time to time for further directions.

The advantage of using **MEAD'S DEXTRI-MALTOSE**, cow's milk and water, plus the doctor's intelligent regulation of the formula, will be explained in literature, which we will be very glad to send you.

Please write for Samples and Literature before you forget it.

THE
"D.M." IS
IN THE
PACKAGE.

THE MEAD JOHNSON POLICY

Mead's Infant Diet Materials are advertised only to physicians. No feeding directions accompany trade packages. Information in regard to feeding is supplied to the mother by written instructions from her doctor, who changes the feedings from time to time to meet the nutritional requirements of the growing infant. Literature furnished only to physicians.

THE
DIRECTIONS
ARE SENT
TO THE
DOCTOR.

On PRESCRIPTION at all Chemists.

THE MEDICAL CALENDAR FOR 1923

THIS Calendar contains 27 reproductions of photographs of pictures, drawings, or prints on
medical subjects, and is published under the auspices of the Netherlands Medical Association.

THE BRITISH MEDICAL JOURNAL.—"The Netherlands Medical Association may be congratulated on the way in
which their suggestion has been carried out by the Publisher. Anyone wanting a present a little out of common
might do well to get a copy of this Calendar."

THE PRESCRIBER.—"A work of art this Calendar is unsurpassed."

THE PRACTITIONER.—"It is a fine art publication, and beautifully carried out in every detail."

The reproductions are accompanied by an **English descriptive notice**, to meet the
demand of several English friends.

As our impression is limited, we beg you to
send your subscription to the 1923 issue at once,
so as to be sure that you will get your copy.
Price 6s. post paid. Please send coupon with

The NEW Way to Hearing

A VALUABLE AID FOR DEAF DOCTORS

SO high is the opinion of the medical profession and so many the requests that we should make an "ACOUSTIQUE" specially for Deaf Doctors that we have designed an "ACOUSTIQUE" STETHOSCOPE, embracing all the virtues of the other types of "ACOUSTIQUE" and enabling the deaf members of the Faculty to carry on their good work.

A well-known Heart Specialist writing from Malta says: "The 'ACOUSTIQUE' (Stethoscope) has been a god-send to me."

"GUY'S HOSPITAL GAZETTE" says:—

"The merits of the 'ACOUSTIQUE' have already been widely recognised by medical men of the highest standing in the profession, which is sufficient testimony to its value."

AND FOR DEAF PATIENTS

there are twenty-five distinct types of the "ACOUSTIQUE," the efficiency of which is so well known to medical men that it hardly needs further comment here.

The exclusive "ACOUSTIQUE" Non-Head-Attachment is so small as to be almost invisible, and renders the "ACOUSTIQUE" as inconspicuous for men as for women.

A special invitation is extended to all interested in Deaf cases and no fee is charged for an interview, for which Mr. R. H. Dent, the originator, will be pleased to make an appointment.

Your prescriptions for individual cases carefully made up and patients fitted in your presence,

MAYFAIR 1380.

MR. R. H. DENT'S
ACOUSTIQUE

Mellin's Food

was introduced to the Medical Profession in 1866. It was the first malto-dextrin product presented to physicians in a practical form suitable for use in infant dietetics.

This means over 50 years' experience in the selection of the materials that enter into the manufacture of Mellin's Food.

This means over 50 years' experience in the manipulation of those materials in order to secure and maintain efficiency and certain definite results.

This means over 50 years' experience in the perfection of every detail that would have a bearing upon the production of a product pre-eminently adapted for the nutrition of infants.

A liberal supply of samples will be forwarded with analytical reports, and "The Home Modification of Cow's Milk," upon application to:

HALITOSIS

(AS DEFINED IN THE CENTURY DICTIONARY)

(Hal-i-to-sis) N. N. L.

(L. Halitus—Breath ... Osis—Offensive)

Offensive breath, whether arising from diseased or neglected conditions of the teeth, mouth or nose or caused by disorders of digestion, respiration, the excessive use of tobacco, etc., may be readily overcome by the deodorizing properties of—

LISTERINE

Listerine is strictly antizymotic, it inhibits alike the acid fermentation of carbohydrates and the alkaline putrefactive processes of mixtures of meat and saliva, retained as debris about the teeth; hence, Listerine is antagonistic to the activating enzymes of fermentation so often the cause of Halitosis.

The volatile antiseptic constituents of Listerine—thyme, eucalyptus, gaultheria and mentha, combined with bap-tisia, boric acid, rectified spirits and water have a stimulating effect upon the stomach and in proportion to the dose, an action inhibitive to fermentation of its contents; hence, Listerine is often corrective of those disorders associated with the endo-development of gases and acid eructations. A large tablespoon of Listerine in a wine-glass of hot water will afford immediate relief.

BRAND'S

ESSENCE OF BEEF.

Recognised by Medical Men for nearly a Century as a marvellous stomachic without an equal in the treatment of cases of Gastric Trouble, Fevers, Impaired Digestion, Nervous Prostration, and similar diseases.

BRITISH MADE and prepared at the Dietetic Laboratories of

MEAT JUICE.

Described by "THE LANCET" as "a powerful, nourishing and stimulating fluid." Rich in uncoagulated proteid, extractives and salts derived from the fresh muscle juices of the finest British Beef.

BRAND & CO. Ltd., Mayfair Works, Vauxhall, LONDON, S.W. 8.

"The most nearly perfect"

In the opinion of many doctors it is expedient to prescribe

ROBOLEINE

for the reason that this attains most nearly to perfection in tonic foods; there is none other available to the medical profession which is so effective.

ROBOLEINE IS UNIQUE in that it contains nothing but the Red Marrow from the long bones and jelly from the rib bones of oxen, together with "Cream of Malt" described by the LANCET to be "La creme de la creme of malt extracts," egg-yolk and neutralized lemon juice.

OPPENHEIMER, SON & Co., Ltd., 179, Queen Victoria Street, London, E.C. 4.

A Complete Food for Infants

"COW AND GATE" represents all that is safe and sure in infant feeding.

It has enjoyed 20 years' success, earned by consistent excellence of quality and manufacture.

Cow & Gate Milk Food

Our process preserves the natural Vitamines, and builds Bone and Muscle in proportion to Fat.

Special quotations for Clinics, Welfares, &c.

Sample willingly sent on receipt of your name and address.

DEPT. 74, COW AND GATE HOUSE, GUILDFORD, SURREY.

Your recommendation will be fully justified.

OPOIDINE

REGD

The total alkaloids of Opium in soluble form: 1 part of Opoidine being equivalent to 5 parts of Opium.

HYPNOTIC, SEDATIVE, ANALGESIC, HAEMOSTATIC and ANTISPASMODIC.

Its instant solubility in water ensures immediate action, whether administered per os, per rectum or hypodermically.

Opoidine produces the full effects of Opium, with the advantage that it contains the mixed active principles in uniform ratio, whilst in Opium the proportion varies greatly.

The British Pharmacopœia standardises Opium for its Morphine content only.

Sec. 14-8M

A Basis of Feeding in Sickness and Convalescence

Secwa is a concentrated nutrient which presents the solids of fresh milk, except the casein and fat, in an unaltered and readily assimilable form. As a method of feeding in disturbed gastric and intestinal conditions—enteritis, typhoid, dysentery, etc.—it is invaluable, being retained when all other nourishment is rejected. Secwa is rich in soluble lactalbumen, the essential protein of milk, and the presence of active enzymes can be readily demonstrated. Its use obviates the disadvantages arising from excessive bulk of liquid, ordinarily associated with whey treatment, when preparation of the whey itself takes place in the home.

MINOR SURGICAL OPERATIONS IN
GENERAL PRACTICE.

Small operations which the General Practitioner is daily called upon to perform, including **Suture, Incision, excision, painful manipulation of wounds and fractures, amputations, etc.**, can be harmlessly and painlessly accomplished in the Surgery or Consulting-room by the injection of $\frac{1}{2}$ to $\frac{1}{4}$ per cent. Novocain Solution, made by dissolving one "A" tablet in Physiological Saline Solution.

Six to seven times less toxic than Cocaine

Right Answers

to questions you are asked

Perhaps you are asked every day about Pepsodent, for millions of homes now employ it. Please don't express, on any point, a mere supposition.

For seven years Pepsodent has been subjected to laboratory tests. We believe that every possible question has been answered by evidence you'll accept. Ask us for facts on any point in doubt.

Dentists and dental authorities, nearly all the world over, give Pepsodent their approval. It is

based on the principles they accept.

It rejects soap and chalk, as they do. It is mildly acid, as modern authorities require.

Thus it stimulates the salivary flow. It increases the ptyalin in saliva, to better digest starch deposits. It increases the alkalinity of saliva, to better combat mouth acids. It combats mucin plaque in two effective ways.

Ask for any information that you lack. Send the coupon for a tube for personal use and to test.

Indicated in adhesions

Adhesions are most likely to occur in the lower part of the colon. They are found present in cases of extremely obstinate constipation. A foremost roöntgenologist and alimentary specialist states that in these conditions the lubricating action of paraffinum liquidum is certainly indicated.

NUJOL is scientifically adapted by both viscosity and specific gravity to the physiology of the human intestines. In determining a viscosity best adapted to general requirements, the makers of Nujol tried consistencies ranging from a water-like fluid to a jelly. The viscosity of Nujol was fixed upon after exhaustive clinical test and research and is in

accord with the highest medical opinion. The unmatched resources of the manufacturers, the perfection of their technical equipment and an expert personnel place Nujol upon a basis of unique superiority. Sample and authoritative literature dealing with the general and special uses of Nujol will be sent gratis upon request, see coupon below.

The Diet of School Children in Winter

IT is generally recognised that the diet of children calls for more than ordinary care during the colder months. The balance of the diet given to School Children is often unsatisfactory, and much of the fat is deficient in Vitamins, unpalatable and indigestible, thus tending to create fat dyspepsia.

Virol restores the balance and supplies the Vitamins

VIROL not only assists the development of the body generally but also directly nourishes the brain and nervous system by supplying the essentials required for their development.

Owing to its pleasant flavour and digestibility, children can take VIROL for prolonged periods when other fats, such as cod liver oil, so often disagree.

VIROL

In Jars 1/3, 2/- and 3/9

WHY YOU SHOULD WRITE

TRADE **'INFUNDIN'** MARK

— NOT "PITUITARY" —

'Hypoloid' 'Infundin,' in hermetically-sealed containers of 0.5 c.c. and 1 c.c., in boxes of six, at 4/6 and 7/6 per box, respectively.

'INFUNDIN' is PITUITARY (Infundibular) EXTRACT made by BURROUGHS WELLCOME & Co.

If you write "Pituitary Extract," or any contraction, you risk getting products of variable origin and varying strength.

If you write 'INFUNDIN' you will get the B. W. & Co. product, which, because of its high and uniform potency, and its proved keeping qualities, has established the value of pituitary extract.

'INFUNDIN' is physiologically standardised, and is free from preservatives.

A MASTERPIECE OF ANCIENT EGYPTIAN LITERATURE: AKENATEN'S HYMN TO THE SUN.—The beautiful hymn composed by Akenaten, and here reproduced from a bas-relief in a tomb of the "City-of-the-Brightness-of-Aten," is remarkable as literature, as embodying a great advance in thought and for its resemblance to the 104th Psalm, which it preceded by about a thousand years. It begins: "Thy dawning is beautiful in the horizon of the sky, O living Aten, Beginning of life! When thou risest in the eastern horizon, Thou fillest every land with thy beauty——." In the following lines breathes the large, universal benevolence that characterised the new thought: "How manifold are thy works! They are hidden from before us, O sole god, whose powers no other possesseth. Thou didst create the earth according to thy heart while thou wast alone. How excellent are thy designs, O lord of eternity!" The Egyptians were the first pioneers of writing that can be called literature, and among them was none greater than Akenaten.

A GREAT BOON TO DOCTORS.

*Always Clean
Unfrayed Cuffs*

3 Pairs of Detachable
Cuffs with the Lyndals
Shirt (Soft or Stiff).

You can change your soiled cuffs as
easily as you change your collar.
With the

**LYNDALS
SHIRT**

(Patent No. 197025).

and its 3 pairs of Detachable Cuffs you never have soiled or frayed cuffs. Every wearer is delighted with the comfort of clean cuffs every day.

The Lyndals Shirt is saved unnecessary washing, it is not excessively laundryworn only because of soiled cuffs, and therefore outlasts any two ordinary shirts of equal quality.

Smart and tasteful patterns in durable Cambrics, Unions, Zephyrs, and Ceylons.

PRICES, 8/6, 10/6, 12/6, and upwards Post FREE. Stiff Cuffs 2/- extra.

Call or write for Patterns and Illustrated Price List. Please state if Cotton or Woollen Patterns. Enclose 4d. stamps for Postage. We have no shop. 1/- gift to Showrooms.

Sal Hepatica

THE STANDARD SALINE LAXATIVE.

Infectious diseases, such as pneumonia, influenza, tuberculosis, meningitis, diphtheria, infantile paralysis, or in fact any of those diseases due to pathogenic bacteria, could many times be warded off if the body were protected by a healthy blood stream that is swarming with phagocytes.

The accumulation of waste in the intestinal tract permits of the absorption of poisonous material or toxins into the blood, which are then distributed to other parts of the body through the entire circulatory system, thereby producing in a mild way a general toxemia. This contaminated blood is not only a carrier of poison but also in its impaired state is unable to properly perform one of its greatest functions; that of protecting the body from disease by destroying any invading micro-organisms.

Wherever a disturbance of function or structure of any part of the body occurs, there is produced by these functional changes toxins which must be eliminated as waste products in order to prevent their absorption into the circulation. This is necessary, or else the body cannot regain its normal condition.

To produce proper elimination, *Sal Hepatica* is the ideal preparation for the Practitioner to recommend, owing to its efficiency, palatability, and low cost to the patient. If frequently administered, it will aid to a considerable degree in warding off disease.

A trial bottle of *Sal Hepatica* will be sent to members of the medical profession upon request to:—
