

SANTONIN. B.P.14.

THE ONLY SAFE RADICAL CURE FOR INTESTINAL WORMS.

RECOGNIZED BY THE MEDICAL AND VETERINARY PROFESSIONS
THROUGHOUT THE WORLD FOR NEARLY A CENTURY.

**THE CHEAPEST ANTHELMINTIC IN PRACTICE, ABSOLUTELY
HARMLESS, 100% EFFECTIVE.**

Intestinal parasites play an important role in causing many diseases which hitherto have been attributed to other causes.

The medical profession can frequently prevent the development of grave diseases by an early diagnosis and removal of intestinal parasites.

When prescribing worm medicine it is important to consider only such drugs as will destroy the worms and yet not injure the host.

SANTONIN is the ideal anthelmintic, because it is maximally toxic to the parasite and minimally toxic to the host.
