

W. H. BAILEY & SON.

New Patent Support "THE DUFLEX"

(Designed by Dr. GRIMMER.)

Telegrams:
"Bayleat, London."

Telephone:
Gerrard 3185

Front view.

Back view.

For Intestinal Stasis, Enteroptosis, Visceroptosis, etc.

Will give the correct support and lifting pressure to the lower abdomen and comfort to the wearer. The springs do not press against the body of the patient although closely fitting to it.

The back plate is centrally placed and is padded to avoid pressure on the spine, and cannot press upon or bruise the muscles or sensory nerves.

Full particulars and prices on application.
