

THE PRACTITIONER FOR 1940

Edited by

SIR HUMPHRY ROLLESTON, Bt., G.C.V.O., K.C.B., M.D., F.R.C.P., and ALAN MONCRIEFF, M.D., F.R.C.P.

THE PRACTITIONER is of particular value in these troublesome times. Perhaps you are facing new problems, possibly you have more leisure time for reading or, if you are busy, you feel the need for relaxation. The standard monthly contents of *THE PRACTITIONER* and its special features will help you over these difficult times. Each month there are collections of practical contributions on everyday aspects of medicine, surgery and the specialities, together with the well-known features: 'Notes and Queries'—answers by experts to practitioner's problems; 'Practical Notes'—culled from the world medical literature; 'Book Reviews' and 'Notes and Preparations.' In addition, the series on *Modern Therapeutics* will be continued, and a new series of articles dealing with special problems created by the war has been begun and will be continued during 1940.

The symposia for the first three months of 1940 are:—

JANUARY

USE AND ABUSE OF SULPHONAMIDES

This number included the following articles:—Chemotherapeutic agents of the Sulphonamide group—Nomenclature of Modern Chemotherapeutic Drugs—Modern Chemotherapy in Streptococcal Diseases, Meningococcal, Pneumococcal and Gonococcal Infections, and acute Specific Fevers. This number also included articles on Swellings and Sinuses in the Neck in Childhood—Technique of Whole-Blood Injections—Affections of the Heart in Time of War and Modern Therapeutics—Metallic Compounds. Price 4s. post free.

FEBRUARY

DIAGNOSIS AND TREATMENT OF ENDOCRINE DISORDERS

This number includes the following articles:—Treatment of Simple Goitre—Surgical Treatment of Toxic Goitre—Thyrotoxicosis—Tumours of the Adrenal Gland—The Pituitary Gland—Male Sex Hormones—Female Sex Glands. Also Treatment of War-Time Neuroses in Combatants—War-Time Diseases of the Skin—Sedatives and Analgesics. Price 4s. post free.

MARCH

DISORDERS OF DIGESTION

The articles in this symposium will include:—Psychological Aspects of Indigestion—Gastric and Duodenal Ulcer—Colitis—Enteritis—Difficulty in Swallowing. Other articles will include The Use and Abuse of Aperients—Diet in War-Time—Evacuation Problems. Price 4s. post free.

**In April a Special Number will be published entitled
DISORDERS OF THE NERVOUS SYSTEM,
which should be of interest to every general practitioner.**

Price 7/6 post free.
