

JOHN WRIGHT & SONS LTD. OF BRISTOL

regret that as a result of enemy action a large part of the stocks of their medical publications has been destroyed.

The MEDICAL ANNUAL, it is hoped, will be issued to subscribers in about two weeks' time.

Immediate steps are being taken to reprint the April issue of the BRITISH JOURNAL OF SURGERY, which it is hoped to issue shortly.

The most important of their other medical publications will also be reprinted as soon as possible, and in the meantime limited stocks are available from which orders can be supplied.

Temporary offices have been secured at

GAUNT HOUSE, 28 ORCHARD ST., BRISTOL 1

to which all communications should be addressed.

Relief of Fatigue

Psychological Stimulation

Amelioration of Mood

The three most consistent effects of 'Benedrine' Brand Tablets are: psychological stimulation, amelioration of mood, and the alleviation of fatigue. The compound, therefore, has important possibilities as an emergency measure for those whose activities require an unusual expenditure of mental and physical energy.

Moreover, it has proved extremely beneficial in certain types of 'war neurosis,' characterised by mental apathy, depression and exhaustion.

Other indications include: Post-encephalitic Parkinsonism, narcolepsy, alcoholism, drug addiction and dysmenorrhœa.
