

ANDREWS

is a proved aid in general practice

FIRST.... Andrews cleans and refreshes the mouth and tongue.

NEXT.... The effervescent saline soothes the stomach, relieves nausea, heartburn and flatulence.

THEN.... Andrews stimulates the flow of bile. This tones up the liver, aids digestion and helps to check biliousness.

FINALLY... The osmotic action of Andrews gently clears the bowels without griping or tenesmus, and a feeling of well-being and tone is produced.

Thus Andrews justifies the description "Ideal Tonic Laxative." As it is also pleasant tasting, cooling and refreshing, men, women and children like this laxative health drink when the system needs a little help. It is non-purging, may be taken in debility or pregnancy, and is good in digestive troubles. Andrews can be discontinued without harmful reaction when the need for a laxative eases.

A clinical trial sample will be sent free, on request, to any member of the Medical Profession.
