## LIGATURES

### WORTHY OF THE SURGEON'S TRUST

ETHICON Non-boilable Ligatures are manufactured from beginning to end in our own factory from raw material produced entirely in the United Kingdom. Particular care is given to attain the maximum tensile strength with uniformity of calibre. Sterility is assured by the tests laid down under the Therapeutic Substances Act.

*Standard Tubes 12/- per dozen, subject to discount to hospitals*

*Johnson & Johnson*  
(GT BRITAIN) LIMITED

SLOUGH, BUCKS, ENGLAND

★ MANUFACTURED UNDER MINISTRY OF HEALTH LICENCE No. 38

## FROM A LABORATORY WINDOW

AS you look south from the windows, you look towards the wide agricultural plain of Cheshire. Plovers wheel and bank over the fields.

"A pleasantly rural place," you might think, "but perhaps rather backward." On the contrary, you would be looking out from the British Schering Research Institute, the newest chemo-therapy laboratories in the country.

The research workers themselves do not look out of the windows very much. Inside, the prospects are as wide and limitless as the view. To them has been granted the responsibility of carrying on research under standards at least as high as those of the pre-war German firm of Schering.

As for equipment, they have the best. And they know that the new organisation with which they are associated is as British as the landscape.

*The finance, control, and personnel of British Schering are entirely British.*

**BRITISH SCHERING PREPARATIONS:** Albucid, Arcanol, Atophanyl, Cortiron, Cylotropin, Fortamin, Medinal, Neotrepin, Neutralon, Progynon, Proluton, Proviron, Solganal, Synthalin, Testoviron, Uroselectan B, Valisan, Vasano, Veramon.

**BRITISH SCHERING**

BRITISH SCHERING LIMITED, 185-190, HIGH HOLBORN, LONDON, W.C.1  
ASSOCIATED COMPANIES: British Schering Research Laboratories Ltd., Alderley Edge, Cheshire.  
British Schering Manufacturing Laboratories Ltd., Pendleton, Lancs.

## THE NYLON KNOT

The nylon knot is a slightly modified form of the Surgeon's Knot, which is recommended for nylon sutures. It consists of two hitches, each with a compound knot, thus preventing any possibility of slipping, due to the exceptional smoothness of the material. Nylon non-absorbable sutures are obtainable from the usual medical supply houses.
