MAGSORBENT

POWDER and TABLETS

Magsorbent, the original and standard brand of *synthetic hydrated MAGNESIUM TRISILICATE, is the safe and effective ANTACID for the treatment of Chronic Peptic Ulcer, Hyperchlorhydric Dyspepsia and Acid Fermentation. Magsorbent exerts a sustained neutralising action, it cannot produce toxic alkalosis, and it is also a powerful adsorbent.

FORMULA:—Magnesium Trisilicate 100%

Palatable Refreshing & EFFECTIVE

Vigorous purgation by harsh agents is not needed for normal occasions. All that is required is a pure, palatable, refreshing and healthy aperient beverage such as ENO'S 'Fruit Salt.' Its laxative action depends only on reinforcing the natural process of osmotic diffusion. ENO'S does not irritate the intestinal nerve-endings; nor does it cause any disintegration of the delicate mucus. The regular, complete evacuation encouraged by ENO'S is due simply to the retention of sufficient bulk within the alimentary canal to stimulate peristaltic action.

ENO'S 'Fruit Salt' is prepared by a special process and contains approximately: Sod. Bicarb. 53.25%, Acid. Tart. 43.50%, Sod. Bitart. 1.50%, Sod. Tart. 1.75%.
