

LOCAL THERAPY IN CORYZA

"the most
devastating
of all
sickness"

... for safe, soothing symptomatic relief
... and to help prevent complications

PINEOLEUM Brand INHALANT PLAIN—widely recommended for the stimulating and mildly antiseptic value of its camphor (.50%), menthol (.50%), and oils of eucalyptus (.56%), pine needles (1.00%), and cassia (.07%)—incorporated in a protective base of bland, highly refined liquid petrolatum—for use as spray or drops.

PINEOLEUM Brand INHALANT WITH EPHEDRINE—contains (in addition to the standard formula) .50% ephedrine, thus furnishing a safe degree of vaso-constrictive action where desired—in same form as above.

PINEOLEUM Brand EPHE-DRINE JELLY—in handy nasal applicator tubes, for greater convenience plus ease of application.

**ULTRA VIOLET
+ INFRARED
+ RADIANT HEAT**

PERIHEL TRIO-THERAPY UNIT

ALL three ray sources in this efficient all-purpose unit are of highest efficacy: Ultra-Violet Rays from the Mercury Vapour Generator produce erythema after 3 to 5 minutes' exposure. The Infra-Red Element has the powerful loading of 600 watts. A Redlight Radiant Heat Lamp is contained in the third reflector. The benefits of combined Ultra-Violet and Infra-Red treatment can be fully exploited.

Please send for "Trio-Therapy booklet" containing Treatment Schedule (1d. post free).

As specialists in Ray Treatment we also supply "PIRA" INFRARED and RADIANT HEAT lamps for professional use.

WARTIME GASTRIC DISORDERS

'BiSoDoL' is the result of painstaking research and extensive clinical trial.

A finely-divided powder, easily miscible with milk or water, it is especially well suited to the treatment of gastric disorders frequently resulting from a change of occupation.

Symptoms of nausea, flatulence and dyspepsia respond well to its sedative properties. Incorporation of the enzymes, papain and diastase, ensures completion of the digestive processes.

Mag. Carb. Levis., in addition to exerting an antacid action, is effective in counteracting any tendency to constipation.

—BiSoDoL—

Magnesi carbonatis levis, 39.27. Sodii bicarbonatis, 56.09. Bismuthi subnitratii, papaini, diastasi, aa 1.40. Olei menthae piperitac, 0.44.

Dosage: One teaspoonful in half a glass of milk or water three times a day after meals: or as indicated.

BISODOL LIMITED, 12 CHENIES ST., LONDON, W.C.1

*For Your
Personal Use
with our
compliments*

R

Each Karsodrine Inhaler contains: Amphetaminum 0.330 grm; Cineole 0.693 grm; Ol. Citro-nell. 0.026 grm; Methyl Salicyl 0.023 grm; Ol. Cedri 0.005 grm; Menthol 0.049 grm; Ol. Eucalypt. 0.089 grm.

After personal use of the Karsodrine Inhaler by one medical man there came the statement: "It is a modern 'talisman' against nasal infection." We invite you to investigate this enthusiastic statement by accepting, with our compliments, a Karsodrine Inhaler for your personal use. Reports have reached us of dramatic results achieved by Karsodrine in relieving congestive conditions of the nasal mucosa and sinuses. But your own experience of this modern volatile vasoconstrictor will be the best basis on which to form your opinion.
