

"IT'S MY NERVES, DOCTOR"

A woman patient needs reassurance and prompt relief when symptoms of sleeplessness, loss of appetite and depression are recognised.

In such cases Veganin is indicated. Its three components — acetylsalicylic acid, phenacetin and codeine — have exceptional synergistic value. Dysmenorrhoea, which frequently accompanies the unaccustomed duties that many women are now taking up, responds to the sedative action of Veganin; and there are no after-effects.

RESTRICTED SUPPLIES

Owing to the shortage of certain ingredients and the consequent limitation of output, chemists have been asked to give priority to doctors' prescriptions. Veganin is not advertised to the public.

Each tablet, 11.8 grs., contains w/w. Acid Acetylsal. 32.68%; Phenacet. 32.68%; Codeine 0.99%; excipient ad 100.00%.

(Temporary wartime address)

THE WAR-WORKER

Environmental and occupational changes, in many cases, result in menstrual difficulty. The milder forms of primary dysmenorrhoea respond well to treatment with sedatives and analgesics of a salicylate nature.

Of these, 'Anadin,' a finely-balanced compound of aspirin, phenacetin and caffeine, is especially well suited to the alleviation of both uterine pain and cephalalgia.

The knowledge that this product is not habit-forming ensures absolute confidence during prolonged administration, should this be necessary

Sleep, too, is rationed..

There is often a shortage of sleep-hours for those working under the stress of war conditions... Up at all hours... Extra late shifts...

Here is a way to make the limited sleep ration go further. Drink a cup of Bourn-vita before putting out the light.

It contains malt, milk, eggs and chocolate and its Vitamin B, phosphorus and calcium are valuable for the nerves.

Bourn-vita brings healthy, natural sleep. It is light and easily digestible—as good for you as it is for your convalescent patients.
