

THE THERAPY OF ASTHMA

The treatment of asthma resolves itself into a consideration of underlying factors and causes. Often in ASTHMA the underlying cause is not discoverable or changes from time to time—now irritant dusts, now bacterial infection, etc. The underlying factor is fortunately always the same—bronchospasm.

Thus sometimes causative agents can be removed or mitigated but always the underlying factor—bronchospasm—can be treated, successfully, with FELSOL.

Most cases of Asthma are chronic and demand patience in treatment—persistence with FELSOL will yield the highest possible percentage of successes.

NO MORPHIA—NO NARCOTICS

For Haemorrhoids

The success of an operation depends largely on ability to choose the time, the place and the conditions, particularly nowadays. Can an operation for haemorrhoids be deferred safely? In many cases it can, by the use of Anusol Suppositories.

Anusol Suppositories contain astringent medicaments in an emollient base. They relieve rectal congestion, control haemorrhage, allay irritation and soothe inflamed tissues. The patient's condition is improved and a healthy area prepared for operation.

Anusol Suppositories contain no anaesthetic, analgesic or narcotic drugs. Therefore, while the operation is pending, symptoms cannot be overlooked, although pain is relieved by the reduction of local pressure.

ANUSOL Haemorrhoidal Suppositories

Bism. Subgall. 2%, Bism. Resorcinate 1.75%, Bism. Subiod. 0.07%, Zinc. Oxid. 10.5%, Acid. Boric. 18%, Bals. Peruv. 2.8%

Why ANDREWS is the Ideal Tonic Laxative

Andrews is a pleasant tasting, effervescent aperient with tonic properties, and is a valuable aid to Inner Cleanliness. Andrews is beneficial in most digestive disorders, feverish conditions, the ailments of children, and in pregnancy and lactation. Its use may be discontinued without reaction when the need for it ceases.

Andrews justifies the description of "Ideal Tonic Laxative" because:—

FIRST . . Patients like taking Andrews, because its brisk effervescence is immediately refreshing and stimulating, it sweetens the mouth and helps to clean the tongue.

NEXT . . Andrews allays gastric discomfort, heartburn and nausea by diminishing the stomach's acidity and relieving flatulence.

THEN . . Andrews increases bile flow, relieves hepatic congestion, and improves digestion. It is partly absorbed from the intestine as alkali, and therefore helps to correct acidity in the blood and to stimulate kidney function.

FINALLY . . Acting by osmosis, Andrews clears the bowels gently and entirely without irritation.

Approx. active constituents:

Acid. Tart.	32% to 36%
Acid. Cit.	3% to 6%
Sod. Bicarb.	40% to 44%
Mag. Sulph.	17% to 21%
Other constituents	up to 1%
