

A Physiological Evacuant

It is easy to relieve constipation by the use of a purgative but this does not remove the cause, so the trouble inevitably recurs.

Veracolate is a physiological evacuant, for it contains the bile salts—sodium taurocholate and sodium glycocholate—which are the natural laxatives of the intestinal canal. A mild vegetable laxative and a carminative are added to initiate peristaltic action and increase gastric tone.

Veracolate Tablets, therefore, relieve constipation and at the same time overcome the dyspepsia, biliousness, and sallow complexion associated with biliary stasis.

Veracolate encourages all the digestive activities to return to healthy normality.

Formula: Sodium Taurocholate and Sodium Glycocholate with Cascara, Phenolphthalein and Capsicum.

VERACOLATE TABLETS

WILLIAM R. WARNER & CO., LTD.
150-158, KENSINGTON HIGH STREET
LONDON, W.8

Wartime Address

THE NERVOUS HEADACHE

Present-day conditions stress the need for an analgesic which may be taken with the minimum of habit induction or other after effects.

'Anadin' may be administered with safety over an indefinite period where the depressing action of the barbiturates and other potent sedatives would result in lowered efficiency and ultimately in impairment of the excretory mechanism.

Dose:

Two tablets at four hourly intervals.

Formula: Acetphenetidin 2 gr.;
Ac. Acetylsalicylic 4 gr.; Caffeine
Alkaloid. $\frac{1}{4}$ gr.
