

IN THE SERVICE OF PAIN—RELIEF

War demands have led thousands of women to undertake many of the tasks normally expected only of men. Such work often entails long hours and unaccustomed manual work with ensuing muscular pains, backache and headache.

Veganin gives most satisfactory results in such conditions since it is a synergistic association of codeine, acetylsalicylic acid and phenacetin, producing rapid and prolonged relief without ill effects.

RESTRICTED SUPPLIES

Owing to the shortage of certain ingredients and the consequent limitation of output, chemists have been asked to give priority to doctors' prescriptions. Veganin is not advertised to the public.

The Need for Calcium

A great amount of ill-health and poor physique can be attributed to insufficient intake of calcium and phosphorus. Much of this could be prevented by the administration of 'Calfos,' which presents these essential minerals in a palatable form and in correct physiological ratio, thereby ensuring their retention in the body in adequate amounts to replace natural losses. 'Calfos' thus marks an outstanding advance in nutritional therapy.

Each tablet contains 5 gr. of the natural mineral constituents of bone, equivalent to 1.7 gr. calcium and 0.77 gr. phosphorus.

Professional samples on request.
