35-43, CHARLOTTE RD., LONDON, E.C.2

DOCTORS MAKE SURE OF YOUR POST-WAR CAR

Irksome delays will occur in acquiring post-war cars unless requirements are specified well in advance. To assist the Medical Profession in this matter and to obtain the necessary priority a register of the needs of Medical Practitioners in England and Wales is now being compiled, and we invite you to consult us at the earliest opportunity. In doing this you will not in any way commit yourself to purchase, and we do not accept deposits. But you will be safeguarding your interests.

Special Hire Purchase Terms as 1939.

Service { better than
pre-war

SULFEX

(A suspension of micro-crystalline ('Mickraform') sulphathiazole, 5%, in an isotonic solution of 'Paredrinex,' 1%)

'Sulfex' has proved strikingly effective, both with adults and children, in the treatment of nasal and sinus infections. The suspension has the following advantages :—

(1) **Prolonged Bacteriostasis.** The 'Mickraform' crystals of sulphathiazole are not quickly washed away, but form an even frosting over the nasal mucosa, thus providing bacteriostasis where most needed.

(2) **Non-Stimulating Vasoconstriction.** While 'Paredrinex' exerts a rapid and complete shrinking action, it does not produce nervous side-effects.

(3) **Therapeutically Ideal pH (5.5 to 6.5).** 'Sulfex' does not cause stinging or irritation. Its slightly acid pH range is identical with that of normal nasal secretions.
