'SECONAL SODIUM'

Trade Mark

Brand

Sodium Propyl-Methyl-Carbonyl Allyl Barbiturate
(Formerly known as 'SECONAL')

A RAPIDLY EFFECTIVE AND SHORT
ACTING BARBITURATE, INDICATED
AS A HYPNOTIC IN OBSTETRICS,
SURGERY AND MEDICINE.

The effects of therapeutic doses of
'Seconal Sodium' appear quickly and
are relatively profound. Hypnosis is
easily controlled and management of
the patient is simplified. Recovery is
prompt and unaccompanied by dis-
turbance after effects.

'SECONAL SODIUM' brand Sodium
Propyl-methyl-carbonyl Allyl Bar-
biturate is supplied as 'Pulvules'
brand Filled Capsules containing $\frac{3}{4}$ grain
and $1\frac{1}{2}$ grains. In bottles of 40 and 500.

THE THERAPY OF ASTHMA

The treatment of
asthma resolves itself
into a consideration
of underlying factors
and causes. Often
in ASTHMA the under-
lying cause is not

discoverable or changes from time to time—now
Irritant dusts, now bacterial infection, etc. The
underlying factor is fortunately always the same—
bronchospasm.

Thus sometimes causative agents can be removed
or mitigated but always the underlying factor—
bronchospasm—can be treated, successfully, with
FELSOL.

Most cases of Asthma are chronic and demand
patience in treatment—persistence with FELSOL will
yield the highest possible percentage of successes.

NO MORPHIA NO NARCOTICS

Phenazone 0.47 Iodopyrine 0.03
