## SHORT-WAVE THERAPY IN GENERAL PRACTICE

Of many painful afflictions, fibrositis, sciatica, rheumatism, neuritis, sinusitis and chronic inflammation are, perhaps, the most common. Every General Practitioner is called upon to treat the sufferers and in many cases will prescribe Short-Wave Therapy. If this treatment is applied by means of the Marconi Theracoupler, the patient will derive maximum benefit since, by this instrument, deep tissue heating is most effectively administered.

Many doctors are already using the Theracoupler which is extremely simple to operate. Further particulars will gladly be supplied on request.

Toward a better understanding

## ABNORMAL BEHAVIOUR

by R. G. GORDON, M.D., D.Sc., F.R.C.P. Ed.

The author, a prominent physician, Neurologist at Stoke Park Colony for Mental Defectives and Medical Director of the Child Welfare Council, has written a valuable, unemotional book of great value. 5/-

Joint work of a doctor and a teacher

## The PRACTICE of SEX EDUCATION

by Dr. EUSTACE CRESSER  
and ZOË DAWE

This is essentially a practical book and marks a definite step forward in the campaign now given official endorsement to further sex education in home, school and youth groups. Illustrated 10/6.

## PLASTIC SURGERY

by GEORGE BANKOFF M.D., D.Ch., F.R.F.P.S., F.R.S.C.E.

Mr. Bankoff's timely book will help both the civilian and military surgeon to acquire a much better understanding of the plastic approach, and it should prove an invaluable guide in the treatment of injuries as well as deformities. Fully illustrated 30/-.
