

## Why ANDREWS is the Ideal Form of Laxative

Andrews is a pleasant tasting, effervescent aperient with tonic properties, and is a valuable aid to Inner Cleanliness.

Andrews is beneficial in most digestive disorders, feverish conditions, the ailments of children, and in pregnancy and lactation.

Andrews justifies the description of "The Ideal Form of Laxative" because:—

**FIRST** . . Patients like taking Andrews. It is pleasant-tasting. Its brisk effervescence is immediately refreshing and stimulating. It sweetens the mouth and helps to clean the tongue.

**NEXT** . . Andrews allays gastric discomfort, heartburn and nausea by diminishing the stomach's acidity and relieving flatulence.

**THEN** . . Andrews increases bile flow, relieves hepatic congestion and improves digestion. It is partly absorbed from the intestine as alkali, and therefore helps to correct acidity in the blood and to stimulate kidney function.

**FINALLY** . . Acting by osmosis, Andrews clears the bowels gently yet entirely without irritation.

Approx. active constituents:

Acid. Tart	...	32%	to	36%
Acid. Cit.	...	3%	to	6%

## Send for this special Doctor's Cabinet containing 200 FIRST-AID DRESSINGS

Many doctors have already acquired this handsome and hygienic Dalmas Cabinet for their surgeries. Made specially for the profession, it contains 200 Dalmas Adhesive Dressings in the nine sizes that clinics and many hospitals have found most useful. Refills can be obtained easily by quoting a handy reference number.

The cabinet is all-metal, smartly enamelled in pale-blue and white, and priced as low as 17/6, refill 15/6. Send cheque to A. de St. Dalmas & Co. Ltd., Junior Street, Leicester, or through your usual wholesaler.

## 7 ADVANTAGES of this New Dressing

1. Antiseptic
2. Washable, so always keeps clean
3. Doesn't fray at the edges
4. Waterproof, greaseproof, acid-proof
5. Stretches all ways (not just one way)
6. Smooth surface like skin
7. Skin colour, therefore very inconspicuous

## SINTERED GLASSWARE

Clarifies - Purifies - Refines

PYREX Brand Scientific Glassware is supplied only through Laboratory Furnishers, but illustrated catalogue and two free copies of our Chemist's Notebook will be sent direct on application to us.

THE filtering of various liquids under test in the laboratory and under production in the chemical plant is one of the most important functions of any chemical process.

PYREX Brand Sintered Glass filters are composed entirely of PYREX Brand Glass, ground to varying degrees of fineness, and fused into PYREX Brand filtering vessels, the whole unit being resistant to the effects of sudden heat and cold.

The actual filter discs are produced in varying standards of porosity, and at present are available in four grades . . . from average pore diameter 120 microns to 5 microns.

PYREX Brand apparatus is therefore available for work ranging from the separation of coarse precipitates to analytical work with the finest precipitates. Full details will be found in the PYREX Brand Laboratory Glassware catalogue.

Ask for PYREX Brand and see that you get it!
