

Andrews is a pleasant-tasting, effervescent aperient. Its brisk effervescence is immediately refreshing and stimulating. It sweetens the mouth and helps to clean the tongue. Andrews is beneficial in most digestive disorders, allays gastric discomfort, heartburn and nausea. Acting by osmosis, Andrews clears the bowels gently and effectively. Safe in pregnancy and lactation.

Approx. active constituents:

Tartaric Acid	26.33%
Citric Acid	2.40%
Sodium Bicarbonate	30.86%
Magnesium Sulphate	19.00%
Other constituents	21.40%

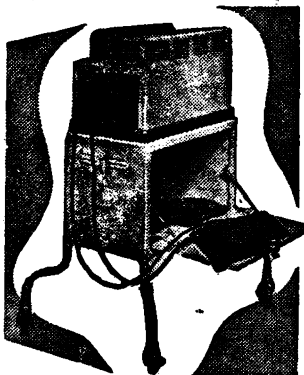

A Medical Sample is again available free on request.

ANDREWS Liver Salt

SCOTT & TURNER LTD., Andrews House, Newcastle-upon-Tyne 2 (M4)

SIZE RIGHT!

For the convenience of the physiotherapist in private practice, the new Theracoupler fits comfortably into the average-sized room—yet electrical efficiency has actually been increased. The Theracoupler is also so easy to

operate and manoeuvre that deep-tissue heating can be applied by either cable or condenser technique as effectively as in hospital or clinic.

To ensure treatment success, therefore, give your patient the benefit of the penetrating heat generated by this Marconi short-wave apparatus. Full particulars of the Theracoupler available on request.

The Theracoupler, Type O A 204

The Natural Aid to
NUTRITION

WHEN the general nutrition of the body is below normal as a result of dietary errors or of debilitating diseases, the use of 'Ovaltine' is of greater and more lasting value than that of chemical stimulants. It adequately reinforces and renders safe the ordinary dietary; is a powerful source of energy and assists tissue regeneration.

A considerable measure of the value of 'Ovaltine' as a highly satisfactory accessory food and aid to nutrition is due to its constituents—milk, eggs and malt extract.

'Ovaltine' is not only highly nutritious, but really delightful to the taste and particularly easy of digestion.
