

## PROGRESS and the B<sub>2</sub> VITAMINS

Views on the singleness of vitamin B have had to undergo considerable revision since the early days of the discovery of vitamins. The original recognition of a single water soluble B vitamin, and further division into vitamins B<sub>1</sub> and B<sub>2</sub>, has been followed by the identification of many other constituents which are now known to form part of the vitamin B<sub>2</sub> complex.

As further progress is still to be expected it is often considered preferable to administer a natural source of the B<sub>2</sub> vitamins, such as Marmite, where all factors appear to be present in balanced proportions—those already isolated as well as those which still remain to be differentiated.

## MARMITE yeast extract

contains

Riboflavin (vitamin B<sub>2</sub>) 1.5 mg. per oz.

Niacin (nicotinic acid) 16.5 mg. per oz.

Jars: 1-oz. 8d., 2-oz. 1/-, 4-oz. 2/-, 8-oz. 3/-, 16-oz. 5/-

— it is its *absorbability* which makes Catgut the most suitable material for internal suturing.

? STERILITY Catgut bought as STERILE is manufactured under Govt. control and is absolutely SAFE.

? STRENGTH B. P. C. standards ensure ample tensile strength.

? GAUGE — Thick gauges are seldom necessary and are not recommended. Use THIN sizes (No. 2/0 B.P.C. and finer).

? MERSONS They SPECIALISE in suture production. There may be another brand as good . . . BUT THERE IS CERTAINLY NONE BETTER.

MERSONS (SUTURES) LTD.  
EDINBURGH, SCOTLAND

It is flexibility and *not* arch support which gives the foot muscles the exercise necessary for them to become strong. Always first with any new development in the field of research into children's shoes, the makers of Start-rite have proved, first with the perfection of the New Last, and now with the introduction of greater flexibility, that Start-rite shoes are in the front rank. The Medical Profession can confidently specify Start-rite both for their own children and for those of their patients.
